With the May issue of Table Talk, that valuable magazine devoted to the culinary art and household interests, adds much to its former reputation, both in looks and text. Dr. H. H. Hawkhurst, the well known authority on diet, gives the first of several articles on that subject, and Mrs. Burton Kingsland has the leading article on 'A Little Dinner.' The regular departments, 'Housekeeper's Inquiries,' 'The New Book of Fare,' and 'Fashionable Luncheon and Tea Toilets,' are full of all the home-maker most enjoys, and during the remainder of the year many interesting additions will be made, as articles will appear by others of the leading American writers,—among them Octave Thanet, Mrs. Burton Kingsland, Mrs. John Sherwood, Miss Marion Talbot, Dean of the Chicago University, Miss Lucy Elliot Keeler, and so on, which will add much to the brightness of the magazine, while a series of articles by Miss Nora Smith, of kindergarten fame; those on 'Artistic Decorations,' by Miss Elizabeth B. Sheldon, whose work at the World's Fair is remembered with so much pleasure, will be valuable and entertaining. A sample copy will be sent any of our readers who address Table Talk Publishing Co., Philadelphia.

The 5000 Best Books.

When a woman sends her subscription to the Ladies' Home Journal special privileges seem to go with it. Besides getting her full money's worth in the magazine. She can take the full-needs advantage of a perfect educational plan by which she can educate her daughters or sons at the best colleges in the country free of charge, and now the Journal has arranged it so that she can buy her books—even a single book at a time—at prices heretofore obtained only by large buyers. There comes to us from this magazine a very artistic and gotten up illustrated booklet of over 200 pages, called '5000 Books,' which serves as an easy guide to the best books in any department of reading. This guide is very well done. The best literary experts of New York, Boston and Philadelphia were engaged by the Journal to select the five thousand books which it presents as the most desirable for a home library, and their work has been admirably carried out. Very clean, explanatory comments are given by these men of books, and besides there are given not less than 160 portraits of leading authors. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten up, so beautifully printed and so generously offered, free of charge, by the publishers of The Ladies' Home Journal. '5000 Books' is unquestionably the best and easiest guide to a wise selection of books that has been issued for a long time.

BALFOUR ON BIMETALLISM.

The Conservative Leader Makes an Able Plea for the Double Standard.

Right Hon. A. J. Balfour, conservative leader in the house of commons, made a strong speech in favor of a double standard at a late meeting of the Bimetallic league at the Mansion house in London.

He said that the belief in bimetallism was growing, not only in London, but throughout the civilized world. One great change was noticeable. It was seldom now asserted that bimetallism was intrinsically impossible.

Formerly a bimetallist was regarded as a dangerous faddist. Economists who placed value on the lessons of experience had before them the irrefutable fact that while the Latin nations maintained the bimetallic system, the par of exchange of gold and silver was preserved for the whole world, despite wars, industrial revolutions and discovery of the precious metals. Some persons admitted that monometallism in a large portion of the world had depreciated prices and put a burden on imports. Thus, for instance, [illegible] India and other countries wheat at a price below its legitimate value, and these persons figured that this was an advantage to the consumers, and therefore benefited the mass of the community.

Mr. Balfour declared, however, that he was convinced that nobody in the city was so foolish as to suppose that the interests of Great Britain benefited generally by an unlimited fall in prices, not that any large body of city men was so unscrupulous as to desire that the debts owned to foreign nations should be artificially augmented by a change in the value of the currency in which they were paid.

Another argument was that the banking supremacy of London would be threatened by a currency change, but no monometallist was ever able to explain how. He contended that London, as the financial center of the world, would gain rather than lose by anything placing the currency of the world on a sounder basis.

The third argument was very absurd. This was that a change would depreciate gold and, therefore, persons having deposits in banks payable in gold would withdraw them instantly. The change threatened thus to cause such a commercial crisis as the world had never seen. This argument was supported by Mr. Gladstone and Sir William Vernon Harcourt. Though a panic was probably unreasonable, there appeared to him no grounds to suppose that the people would do anything so inordinately silly as to withdraw their deposits because the world's currency was going to be put on a stable basis, which, except in particular international transactions, they would never discover, and, except for its slow effect on the great movements of commerce, would have no effect on private individual convenience.

The fourth and strongest argument was "let well enough alone." But bimetallists asked was it well enough? People talked of the excellence of the British system that they [illegible] although the gold standard obtained in Great Britain, that silver is the currency of Hong Kong, and the Straits Settlements, while in India debts are paid in something which is neither silver nor gold, but the strangest product of monometallic ingenuity the world has ever seen, and as arbitrary as any forced paper currency and as expensive as any metallic currency the world has ever heard of—a standard varying according to the arbitrary will of the finance minister of India. This triple system was manifestly ridiculous. Some alteration of this system was imperatively required. If Britons would turn to the world at large they would find the case much stronger. To consider home interests alone in framing a currency while Great Britain was connected with foreign countries by every commercial tie was a violation of the common sense of every practical business man. When the country depended for its very bread on foreign nations, and if it were cut off could not live a day and would have ruin staring it in the face, it was the height of folly to attempt isolation respecting the currency medium. He did not believe that the common sense of the nation would long tolerate such a state of things. In view of what was proceeding in America, Germany and France, and even in Great Britain, he was convinced that men of all classes would soon combine to end the reproach to our civilization.

The Work of Albert Lynch.

Albert Lynch, whose work is becoming so much more generally known to Americans through his drawings in Scribner's Magazine and his cover designs for the Ladies' Home Journal, is a Peruvian by birth, but of English parentage. He is only thirty-three years of age, and of extremely retiring disposition. He is unmarried and lives in Paris. The young artist commands the highest prices for his work, his smallest water-color paintings readily selling for $600 to $900 each. In 1895 he received the Salon's first prize for his beautiful panel of Spring, showing a [illegible] figure. This picture won the admiration of the French art critics and the public to such an [illegible] degree that the painting was sold for a fabulous sum to a private Paris buyer. Recently the Ladies' Home Journal acquired all publication rights to this painting, and it will serve as one of the cover designs for that magazine. The next issue of the Journal will also have a design by Lynch, portraying his conception of a woman's ideal costume. A succession of other cover designs by Lynch will follow these two.

The North American for May

The North American Review for May opens with an attractive paper on 'The Preacher and his Province,' by his Eminence, Cardinal Gibbons, who maintains that the closer the intimacy of a minister of religion with the special needs of his parishioners, whatever their class may be, the more effective will be his ministrations to them. Charles Dickens, the younger, in the first part of an article entitled 'Glimpses of Charles Dickens,' gives a graphic and amusing description of the great novelist's fondness for private theatricals, and Hon. Wilson T. Harris, United States Commissioner of Education writes interestingly upon 'Elementary Education.' A highly suggestive contribution by Prof. Goldwin Smith, entitled 'Our Situation, as Viewed from Without,' will ensure wide attention; while, in 'Russia and England,' Prof. Arminius Vambery discusses the rivalry existing between the two countries and the chance of a permanent cessation of their hostilities in Asia. E. L. Golkin, editor of the Evening Post, New York, deals with the topic of 'Diplomacy and the Newspaper,' deploring the spirit of jingoism exhibited by certain American papers. 'The Progress of Meteorology' is described in an instructive article by Prof. Frank Waldo, of Princetown University. Two most timely contributions on 'The Income Tax' are also given, the Hon. George S. Boutwell, ex-Secretary of the Treasury, treating of 'The Decision of the Supreme Court,' and 'The Spirit of the Tax' being commented upon by a well-known economic writer who prefers, in this instance, to be known as 'Plain Speaker.'

If the president approves the remarkable utterances in which the secretary of Agriculture boldly antagonizes the opinions of the most eminent financiers of the century he should say so plainly.

A VISIT AT MILAN.

A Few Pointers About This Hustling Town Over the Border.

During the past fifteen years Milan has grown into a lively business center. It was a small village, one side of all the main thoroughfares, until the railroads reached that quarter. But its geographical location was a good one. The Toledo & Ann Arbor road passed through Milan on an air line, and when the Detroit branch of the Wabash was constructed, another air-line cut Mil- and thus it found itself at the intersection of two good railway lines. Fortunately a few wide awake business men resided there who made the most of their opportunity. They grasped the situation at once and the town has been booming right along ever since.

Last week we spent a portion of three days there, giving our snap shot lectures, and formed several new acquaintances. The entertainment was under the auspices of the Ladies' Aid Society of the Baptist church and for their benefit. The weather proved to be about as outrageous as the weather clerk could manufacture, but nevertheless the attendance was fair and it was a good time to hang round the fire in doors. A portion of the time we spent hanging around the Leader office.

Bro. Smith is nicely fixed now. He occupies a two story brick store, having the entire ground floor for his own use. The front part is used as a bookstore, and the rear part as a printing office. The Leader is an excellent county newspaper and a credit to the village.

Rev. J. Ward Stone is now pastor of the Baptist church at Milan and he is doing a good work there. He went from Clinton to his present charge. He did an excellent work for the Clinton church and is repeating the operation in his present location. He is popular among all the churches as well as his own.

While at Milan we took a run over to Ann Arbor one day and passed a few hours very pleasantly in the University City. We found S. W. Clarkson at his desk in the first National Bank and he seems to be the same good natured, contented soul as of yore. He has a good business position and is evidently enjoying life. A call at the Argus office found both S. W. Beakes and D. A. Hammond on deck. Mr. Beakes gives a portion of his time to the postoffice, while Prof. Hammond devotes his whole attention to the newspaper. They have lately put in a Thorne type setting machine, which is giving good satisfaction. They find it a practical machine in their office and a saving of expense in composition. They are now getting out the first number of a new monthly, issued by the Cleary Business College, called "Education Extension," which is a big job, as several thousand copies are being issued. The old Argus is thriving under its present management.

A call at Judge Cheever's office found him at home and we had a very pleasant chat with him. His interest in University matters does not flag, notwithstanding his time is engrossed with his legal practice, and he finds some time to devote to literature. He has recently published a pamphlet entitled "College Stories," which recalls to mind many of the old anecdotes we used to hear in our college days, besides many new ones.

We intended to call on Claude Van Tyne, but as he rooms east of the Campus, pretty well down towards Ypsi, we found the time too short in which to make the trip. But we give our readers a letter from him this week which will answer the purpose.

MEMORIAL DAY.

The Spirit in Which the Day Should Be Observed.

The members of Beers Post and the W. R. C. lately appointed a committee to report an address on the subject of Decoration Day. Last Monday the committee submitted a report, which is here given. It is a beautiful tribute to the soldier dead:

May 30, 1895, will be the twenty-seventh anniversary of [illegible] day with all its hallowed associations. The one day in the whole year which has been declared a National Day, that we, as a Nation, might adorn the graves of those noble patriots who bravely fought for their land, and gave their lives that we might live in "the land of the Free."

The day was designed to be a sacred one, and has been termed "The Sabbath of the Grand Army of the Republic," and as such should not be desecrated by games of chance, ball games, or other amusements, but rather let all the people come together to do reverence to the memory of the noble defenders of our country in the days of her fearful danger. Of late years there seems to be a growing tendency to make the decorating of soldier's graves a secondary object, the organizations, societies, and families, taking its place. This is not as it should be, nor as it was originally intended, and while we may desire to show our love for our friends, we should remember our soldier friends as well, and at least share with them our floral gifts.

Every loyal citizen should feel it their duty to assist in this work of commemoration: bring your offering of flowers for the purpose, not those deemed unworthy a place on the grave of a friend, but some of your choicest and best.

The ranks of the veterans are fast diminishing, and the soldier's graves are yearly increasing in number, and therefore, there is greater need for every one to help in this work, and by thus remembering their fallen comrades, we may cheer the living on their journey to the Land Beyond.

Roses and lillies will we bring,
The evergreen and bay,
And all the jewels of the spring
Shall crown Memorial Day.

This is not a day of triumph;
And 'tis not a day of joys,
It is more a day of sorrow
With the gallant soldier boys.

Soon their ranks of blue will vanish
From the land for which they bled,
Soon the army of the living
Will be marching with the dead.

Therefore, humbly and in silence,
Let the honest tear be shed,
While the army of the living
Greet the army of the dead.

BURT LYON BREAKS A LEG.

Accident to a Former Hudson Boy in a St. Louis Restaurant.

There was a small-sized sensation at an Olive street restaurant the other day during a heated debate, in which a well-know St. Louisan and one of the waiters took part, says the St. Louis Dispatch. In the melee a leg was broken. The gentleman in the case was Burt W. Lyon. He ordered "eggs very soft" but they came very hard. Naturally he kicked and to emphasize his remarks he pounded the table viciously.

It came down with a bang. So did one of the table legs. Being unbalanced the table tottered over. Lyon succeeded in getting out without further damage, but some practical joker telephoned several newspaper offices of a "horrible disaster," and how "Mr. Lyon broke a leg." No one dreamed of it being a table leg and it was only after a lengthy explanation that the sensation was kept out of the papers.—Hudson Gazette.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Pass in your orders.

Politicians who have a pull never use it for pulling themselves and their party together. They use it to pull for an office.

ANN ARBOR LETTER.

A Spicy Missive About Ancient Classics and Modern Bloomers.

May 17, '95.

EDITOR HERALD:—College is an extremely unexciting thing to write about, but a most thrilling thing to live in. It is hard to chill your blood, and send tremors all the length of your spine, with accounts of a "flunk," or how we evaded an unpleasant "quiz." Besides the blase nerves of a sophomore have long since ceased to have impressions strong enough to record. What boots it if "Pat" or "Dupy" or "Tommy" or "Piggie B" or even "Huddy" has floored you. That no longer penetrates to the heart's core, as in those naive freshmen days when even the sun looked melancholy after a "flunk." Of course we do have "Classical Conferences" which make the blood go surging in its channels, with intense interest in subjects which appeal to every human heart, as "The use of 'prin' in the Greek comedy" and "The difference between the Colic and Dorian dialect in conditional sentences" and that mournful theme "The fate of the Greek 'van'."

We classical students have heard faint murmurings about a certain "Silver question" which is agitating the modern world, but we in the twilight of deep antiquity are more interested in the value of the three obols which an Athenian dicast or juryman got for his day's work. None but the initiated can understand the charm and the titillations of spirit, which attend the reading in Cato's graceful Latin, about how to build Latin pig pens, and the duties of a swineherd. How plausibly too does Pliny prove that the earth can not be round, since if it were, large bodies of water would surely fall off. To be sure the grace of these literary gems suffers at times in translations as the following taken word for word from a student's translation. "The thirsty camel with pepper in the stomach breathes forth Venetian red, harmful with smoky magpie, because of a dwarf decanter." Isn't it outrageous how the ancients treated dumb brutes? Here is another production, "And the eleven twentieths destroy those who are eager to sweat, but you may climb in the opposite direction to a double fish hook." These, of course, are resultants from the chemical combinations of a fool and a dictionary.

There is a matter of strictly modern interest which agitates us now. Shall the co-eds wear bloomers? We have a large and flourishing bloomer society, and their threats are dire. Hundreds of girls wear them in the Gym. Many wear them on the streets, but keep a bicycle close at hand, for defense, I suppose. All claim that they are so comfortable and so attractive. The gilded youth smiles beningly on the new fad, but the prim and decorus boarding house lady frowns. One fair bloomerite was actually driven out of her boarding house because of her devotion to the noble cause. I understand that she is to be sainted by the bloomer sect, and to take first place in their calender.

One short month and all will be over. Until then farewell.

BALLOONIST BURK HURT.

The Ascension Made at Blissfield Last Thursday With a Swift Drop.

Prof. Geo. J. Burk, who opened the season at Blissfield by a balloon ascension and parachute drop Thursday afternoon, sustained injuries in his descent which may prove fatal. His parachute caught in the top of a tree and he was thrown to the ground from a height of fifty or sixty feet, breaking his right arm and seriously injuring himself in the back and internally.

The Advance has the following concerning the accident:

The balloon ascension and parachute drop by Prof. Burk, advertised to come off last Saturday afternoon, was postponed until Thursday afternoon on account of rain and heavy wind. Thursday the weather was favorable and the professor made the ascension in the presence of a large crowd of people. The professor made some thrilling performances on the bar and made the drop with his parachute in good shape. The umbrella shaped thing came down very rapidly and the professor was unable to manage it, as he had done in times before, so that he alighted in a tree on the Wheeler flats. He lost his hold on the bar and endeavored to grasp the limbs of the tree. In this he was unsuccessful and he dropped to the ground, some sixty feet, remaining senseless on the ground. Friends immediately went to his succor and doctors were sent to his relief. Drs. Scriber, Eccles and Barnes were soon on the ground and found that his back had been severely injured and the right arm broken at the wrist. As soon as his immediate wants were attended to, he was removed to the Miller hotel where he is at this writing lying comfortable. Just how bad his back is injured cannot be told at present.

It may be that after all the freedom of the press is less a menace to the serenity of public officials than the occasional recklessness of the pulpit.

GUMBO'S GRAB BAG.

DAILY FOOD.

I always know what day it is
By gazing on the board
Where Mrs. Jenks sets out for us
The best she can afford.
On Monday there is chicken stew
Made out of Sunday's roast;
And Tuesday, prunes, and mutton, too;
And groaning tables boast.
On Wednesday, cabbage and corned beef;
The hash appears next day.
And Friday's tripe augments my grief
That Boston beans allay;
Which every Saturday we eat.
And so I always know
How Father Time's big Trilby feet
Keep ever on the go.

HOW TO GET RID OF THE BLUES.

The blues make the person suffering from their presence extremely uncomfortable, and her discomfort in a subtle way acts upon others, so that nobody is quite cheerful in her neighborhood. People who are "blue" are quite often cross as well, and are unable to accept pleasantly the ups and downs of every day. Now, when you think of it, you must admit that it is a very humiliating experience to be cross, for cross people are disagreeable, and none of us wishes to be that.

The best way to get rid of the blues is not to own that they have you. Put on your hat and go for a walk. Call on a friend and take her the piece of music you are to try together, or the book you have just finished, which you would like to lend her. Do something kind for somebody, and stop thinking about yourself. The greatest waste of time in this world, dears, is to think too much about one's self. Mrs. Browning gives the right idea in her poem, "My Kate," where she says,

"'Twas her thinking of others made you think of her."

THE TYPICAL AMERICAN.

The typical Americans have all been western men, with the exception, let us say, of Washington. Washington had not had much of European culture. The qualities that made him a great commander and a great president, were qualities which would have made him an equally great frontiersman. You cannot imagine Hamilton, or Madison, or Livingston, or John Adams, or the Pinckneys, living tolerably on the frontier. They are not Americans in the sense in which Clay and Jackson and Lincoln are Americans. We may wish that the typical Americans of the past had had more knowledge, a more cultivated appreciation of the value of what was old and established, a juster view of foreign nations and foreign politics; that they had been more like Webster and less like Jackson; and we may hope that the typical American of the future will be wiser and better poised. But in the meantime the past is to be understood and estimated as the facts stand, and only a thoroughly sympathetic comprehension of these men who have actually been the typical Americans, will enable us to effect that purpose. The fact that Clay rather than Webster, Jackson and not John Quincy Adams represented the forces which were really predominant and distinctively American in our development, is commentary enough on any theory that makes either of the peculiar sections of the Atlantic seaboard the principal or only theater of American history.—The Forum.

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœr and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

ONE MAN'S SUFFERING.

The Trials and Tribulations of a Battle Creek Citizen—How He Comes to Tell This Story.

(From the Battle Creek Moon.)

Among the moulders at the works of the Michigan foundry company can be found Mr. Amos Maynard; he has lived in Battle Creek for over ten years, is honored and respected by all who know him; such is the man who makes this statement, he says: "I have had kidney trouble for years, and it has made my life miserable. The heavy lifting, necessary in my business, made me worse. I have been compelled to lie in bed in a helpless condition for as long as nine days at a time; the greatest pain was from my back, which sometimes felt as though a bayonet was being run through me in the region of my kidneys; many citizens of Battle Creek knew how bad I was. I could not move without the greatest caution, for as soon as I attempted to stoop over, bend to one side, or even turn in bed, the pain was simply unbearable. I wore porous plasters constantly for the little temporary relief they brought me. Whenever I caught the slightest cold it went straight to my kidneys and made me worse. I was advised to try Doan's Kidney Pills, and got some. I have taken in all four boxes of them, and I now feel as active as ever. A few months ago I would have ridiculed the idea of being cured so quickly, and being able to work as I can now. All the long-standing pains are gone, and the former traces of kidney disorders found in my urine have disappeared. I have recommended Doan's Kidney Pills to many friends who were troubled as I was, and in every case I have learned they proved as beneficial as with me. Doan's Kidney Pills would be cheap to me at almost any price."

Inaugurating the Fight.

The state democratic central committee of Illinois by almost a unanimous vote at a late meeting called a state convention to meet at Springfield June 5 to map out a course to be pursued by the party in the state. The address accompanying the call declares that the "next national campaign must be fought out with the currency as the issue between the parties, and it behooves the democratic party as a party to assume a decided position on this question and to draw its party lines according to the wishes of a majority of its members." Interviews with leading members of the party lead to the conclusion that the silver question is to be the leading issue and that the party will place itself squarely on a platform for bimetallism and free coinage of silver. The next national campaign will clearly be fought upon this issue and the friends of the white metal are preparing for the struggle. Illinois proposes to take the lead.

China, Japan and Silver.

Senator Teller, of Colorado, sees a prospect for an ultimate benefit to silver in case Japan requires China to pay the war indemnity in gold. "I have no fear," said he, "that in that event Japan will go to a gold basis. The people there have too long been accustomed to the use of silver, and the country is too prosperous and progressing too rapidly with matters as they are for them to desire a change."

They Won't Mix.

The same party cannot hold the gold-bugs and the free coinage men. They won't mix.—Atlanta Constitution.

A Stench.

Hon. Richard P. Bland, when interviewed on Mr. Cleveland's letter to the Chicago committee, said: "Gold monometallism is a stench in the eyes of the common people. Gold standard money for the bondholders, and the bankers, but the sufferings of the industrial masses from silver demonetization will not be endured longer without a struggle, the like of which this country has not seen since the late civil war. Mr. Cleveland must remember that this crystallization and combination of the gold standard sentiment and methods has brought disaster to the people of all gold standard countries, and this policy is now ruining this country."

John P. Bruer, traveling salesman for Gem City Stove Co., Dayton, Ohio, says: I will continue to recommend Adironda Wheeler's Heart and Nerve Cure, for I know it will do all that it is claimed for it. Sold by Orr & Temple. May

Plenty, Yet Starving.

The thin, emaciated persons we see every day are actually starving for nourishment. You may eat until you are stuffed, but unless your food is assimilated it does you no good. The kind of food that makes tissue and enriches the blood is found in Cod-liver Oil, and the easiest, most palatable form of Cod-liver Oil is

Scott's Emulsion

But Scott's Emulsion is more than this. It contains Hypophosphites of Lime and Soda, a nerve tonic and constructive agent. The nutrients in Scott's Emulsion therefore, are just what is needed to build up the system and overcome wasting tendencies. Full oft with starch and gloss serene,
The linen collar starts the morn;
Full oft at noontime it is seen
All wilted, wrinkled and forlorn.

That's what you must expect of such a collar; it's the *linen* of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and *waterproof*, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

TRADE CELLULOID MARK.

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size and whether a stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

People with pleasure that the weather is growing a little hotter.

Mrs. Wells is suffering from the effects of a severe nervous chill.

Miss Lizzie McCarbery visited friends here Sabbath the first of the week.

Mr. Hiscock, of Toledo, is calling on Monroe and Britton friends this week.

Miss Sylvia Sowles returned from a pleasant stay in N. Farmington, Monday.

Farmer Osgood, of Morenci, spent a few days this week with his brother William.

Mrs. Underwood and wife also had a boy for Tuesday night. It's an 8 pound boy.

The Britton Giants go to Deerfield next Tuesday. Go with them and see a game.

Miss May Exelby, who has visited nearly three weeks, returned to Deerfield Wednesday.

Mr. Clark got some fine snap shots of the grain elevator while it was being transferred to Britton.

The Wabash pay car made some of the citizens more easy on the money question last Wednesday.

Pitching quoits is a very popular pastime on the Midway in these days of sport and pastime.

Hendershot Tent No. 467 will celebrate the 14th anniversary with the Knights of the Maccabees of Monroe county on June 11 and 12 inclusive.

A goodly delegation from Adrian got on the Wabash Wednesday, on their way to the Woman's Home Missionary meeting at Ridgeway.

The L. O. T. M. wish to announce that their entertainment, which was postponed from last Saturday, will take place this week Saturday at Exelby Hall.

The A. C. Miller family, whose musical feast is well known by many of the residents of this place, will give a concert at Exelby Hall, Thursday, May 25. The proceeds will be used by the Knights of the Maccabees to make a payment on their organ. Let every body come out and give them a full house.

Messrs. Pulver and Geo. Clark were practicing the unique feat of riding two different bicycles over the same ground at one and the same time. The almost impossible performance was successfully accomplished with only the loss of a few spokes from their wheels and one of their trousers. This is a very small per cent of loss when we consider the number of wheels and trousers involved.

Last Sunday the elevator of D. D. Van Horn was finally moved from Ridgeway according to advertisement. The building of 30 large and high a building and that car was quite a trick in the moving business and drew quite a crowd from Britton and surrounding towns to witness the performance. The building was 30 feet high and about 56x22. This being in the top, thus making it rather top heavy. Engineer Joe Wells drew the car down with No. 25. The building was steadied on the car by several guy ropes from each side, by discreet and trusted Brittonites, and steady nerve brought it safely through without a mishap.

—NOTICE TO FARMERS.—I can show already excellent colts the product of my well bred stallions without fear of contradiction, we invite the public of Ridgeway and Lenawee and surroundings, to the fact that we have as good strains of Clydesdale blood as Scotland can produce. Terms $10, when six days old and all mares 1 1-3 miles east and 1 mile south of Britton. JAMES WRIGHT.

Table Talk.

With the May issue of Table Talk, that valuable magazine devoted to the culinary art and household interests, adds much to its former reputation, both in looks and text. Dr. H. H. Hawxhurst, the well known authority on diet, gives the first of several articles on that subject, and Mrs. Burton Kingsland, the leading article on 'A Little Dinner.' The regular departments, 'Housekeeper's Inquiries,' 'The New Bill of Fare,' and 'Fashionable Luncheon and Tea Toilets,' are full of all the home-maker most enjoys, and during the remainder of the year many interesting additions will be made, as articles will appear by others of the leading American writers,—among them Octave Thanet, Mrs. Burton Kingsland, Mrs. John Sherwood, Miss Marion Talbot, Dean of the Chicago University, Miss Lucy Elliot Keeler, and so on, which will add much to the brightness of the magazine, while a series of articles by Miss Nora Smith, of kindergarten fame; those on 'Artistic Decorations,' by Miss Elizabeth B. Sheldon, whose work at the World's Fair is remembered with so much pleasure, will be valuable and entertaining. A sample copy will be sent any of our readers who address Table Talk Publishing Co., Philadelphia.

A Household Necessity.

No family should be without Foleys Diarrhoea and Colic Cure. Perfectly safe and will give instant relief. Price 25 and 50c. May.

It may be that after all the freedom of the press is less a menace to the serenity of public officials than the occasional recklessness of the pulpit.

IMPORTANT ANNOUNCEMENT.

"M. Quad." the Famous Humorist, Takes his Old Place on The Free Press.

We find great pleasure in announcing to our readers that Chas. B. Lewis, the famous "M. Quad." has resumed his former place upon The Detroit Free Press. Since his retirement from The Free Press four years ago Mr. Lewis has been writing for one of the leading syndicates. His preference for direct newspaper work, however, led him to abandon that connection, and hereafter his popular writings will appear only in The Free Press. Mr. and Mrs. Bowser, Brother Gardner, Arizona Kicker, Zeb White, Abe Crofoot, Mrs. Gallup, and many new characters will appear regularly.

The publishers are making a special four months' trial offer of the Semi-Weekly Free Press for 25 cents to introduce their paper to new readers, and we would advise those looking for a great bargain to send in their subscription at once. The offer is good only until August 1.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Pass in your orders.

It May Do as Much for You.

Mr. Fred Miller, of Irving, Ill, writes that he had a severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Eletric Bitters is especially adapted to the cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statemnt. Price only 50c. for large bottle. FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa

TRASK'S
Magnetic Ointment.

The worst Sores, Bruises, Cuts, Burns, Sprains, Skin Disorders, Sore Throat, Croup, Rheumatism, Lameness, Piles, and all external and internal affections characterized by INFLAMMATION, yield to its influence as if by magic. It is a purely vegetable preparation by a regular physician of eminence, and its success has been marvellous in the most obstinate cases. Sold by Druggists and Dealers at 25 and 50 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural functions of the skin and equalize the circulation of the blood. By this means a controlling power is gained over the most malignant forms of disease. It penetrates to every portion of the human frame; every bone, muscle, vein, nerve and ligament is searched out and made sensible to its soothing and healing influence. Hence it copes readily with internal as well as external diseases.

Over 40 Years.

This Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have no space here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this notice who have ever used this Ointment, to frankly state their experience with it to inquiring friends. If but one in a hundred would do this we should be perfectly satisfied with the result. Full directions for use will be found on pamphlet around each bottle.

Price 25 and 50 cents per bottle. Sold by all dealers in medicine.

DECORATION DAY.

The following information, in addition to what was given to the public last week, in reference to the observance of Memorial Day, will complete the program of exercises, as arranged by the committees.

The exercises on Military Square will begin promptly at two o'clock p. m., when this program will be presented:

Instrumental music—Tecumseh Cornet Band.
Vocal music—"Our native land of Columbia."
Prayer—Rev. J. P. Varner.
Vocal music—"A nation's heroes."
Oration—Rev. W. R. Blatchford.
Vocal music—"Garlands we twine."
Benediction—Chaplain L. Barnes.

At the completion of the program, the procession will form on Ottawa street. The line of march will be south on Ottawa to Chicago street; thence west to Union, and thence north to the cemetery, led by Marshal R. J. Garlinghouse and aides.

The procession will be made up in the following order.

First section—Tecumseh Cornet Band and Co. C, M. N. G.

Second—Boy's Brigade, clergy and President of the day in carriages.

Third—Floral Car, Beer's Post, G. A. R; veterans of the late war on foot and in carriages: the W. R. C. in carriages: citizens in general.

Upon arriving at the cemetery the procession will break ranks. A detail of the old soldiers will then decorate the graves of their fallen comrades. A detail from the W. R. C. will perform the same service for their own departed members. A detail from Co. C will scatter wreathes and flowers over the graves of their deceased members. Beers Post will then decorate the graves on their burial lot and pay a tribute to the unknown dead, with exercises from the G. A. R. ritual.

Vocal music will follow, entitled, "Hail, Heroes of Liberty," and the exercises will close with music by the band.

WHO WILL BE THE NEXT?

May 17 was a gala day in Dist. No. 5, Macon. The patriotic teacher, Miss Collins, invited Beers Post and Corps to participate in raising the stars and stripes over the schoolhouse where she teaches. As the flag was being slowly raised the school gave the salute, repeating the words "We give our heads and our hearts to God and our country; one country, one language, one flag." As she is implanting general knowledge to the young, she has included patriotism by this act. Very appropriate exercises were rendered by the school, after which an excellent patriotic oration was delivered by Rev. James Hageman, clearly showing why Christians and fellow citizens should uphold patriotic principles. Comrades were called on for remarks, and also Mr. Camburn, who teaches in another district, whose words were rendered with much feeling; being the son of a veteran, he knew whereof he spoke. An explanation of the salute was read, a short history of who and when the first flag was made and a selection, "The Flag of Liberty," was rendered by Mrs. Hanley. A beautiful song, "Be True to Thy Trust," by Isaiah Hendershot, closed the exercises, which were enjoyed by all.

Tecumseh Weather.

Below is a record of the weather taken twice each day for just one week, ending last Wednesday. The observations were taken at five a. m. and two p. m.

" 20,	Monday	"	36	"	60
" 21,	Tuesday	"	34	"	58
" 22,	Wednesday	"	38	"	73

Sunday it rained after 4 p. m. Heavy rain nearly all night till after four the next morning and from three-quarters to one inch of water fell.

We think this a remarkable season, but seven years ago (1888) a cold wave came the 6th day of June and lasted for seven days, and frost again the 27th of June lasting 2 or 3 days, and again the 13th of July. I remember it well for Hiram Saxton and myself were in Deerfield in June planning to get rich raising tomatoes by the acre on the prairie and in consequence of the weather had to give it up. B. L. The charge made against Lilliuokalani of being too much addicted to rum still stands. Perhaps this is in a measure due to the fact that Brother Lansing, of Boston, did not make it.

If Doctor Parkhurst Only Would!

Doctor Parkhurst, may we have a word with you?

There are thousands and tens of thousands of God-fearing citizens waiting and longing to hear from your lips a certain speech.

It need not be a [illegible] and yet, coming from you at this time, it would go ringing down the grooves of change long after your brave voice had been silenced forever.

You have told the people of New York city and the entire country truths that have blistered and cauterized. There is one more truth that we pray God you will tell them soon in the same unmistakable way. Will you do it? Will you tell just where the real seat of trouble is to day with our festering politics, and just why the efforts of reform have so far proved abortive?

What we ask you to do, Doctor Parkhurst, is to carry into the hearts and souls of the audience you alone command the same message that Wendell Phillips, standing before a cultured and scholarly audience at the anniversary of the Phi Beta Kappa of Harvard College, delivered 14 years ago. Here is what he said concerning efforts then recent to reform the politics of New York, and efforts as futile as those of the Lexow committee. Said Wendell Phillips:

"Evarts and his committee, appointed to inquire why the New York city government is a failure, were not wise enough, or did not dare, to point out the real cause, the tyranny of that tool of the demagog, the cornergrog shop; but they advised taking away the ballot from the poor citizen."

You know, Dr. Parkhurst—no one knows better—that Wendell Phillips told the truth when he said that. You know—no one knows better—that the saloon is still to day the potent factor in politics that is debauching citizenship and blocking the way of reform. You know as well as Phillips ever knew that the open gin-mills of New York must be extirpated and fumigated before social and political health can ever take up an abiding-place in this metropolis. But you have never yet told the public that. You will never fulfil your uttermost duty until you have told them that.

Tell them! Tell them before you go to Europe to scale those mountain peaks again. Tell them now, when those who were shouting peans of praise over the election of mayor Strong are amazed, downhearted, discouraged, and are asking themselves whether political reform is possible, and whether there is any use in further exertions. The Lexow committee, like the Evarts committee, has not dared to tell what the trouble is. The one said restrict the suffrage and all will go well. The other says bipartizanship is the only remedy. You know better, and we believe you will yet dare to tell the committee of seventy, the Good Government Clubs, and all the rest of the city that it is the saloon—not the saloon keeper, but the saloon—that is the citadel of corruption, crime, and political dovilitry, and that all efforts at reform with the gin mills inside will prove futile and fatuous.—The Voice.

Keeley Cure as an Educator.

Editor of The Voice.—The Court of Appeals has recently sustained the act of the last legislature of Maryland requiring Baltimore city and county authorities to send indigent inebriates to the Keeley Institute at the public expense. Mr. Hanes, who is the opposing attorney, has had the case appealed to the supreme court of the United States, because he thinks "there is no limit to the county and city governments if this decision stands. Why, the result would be disastrous, and would raise the taxes in every county, for the practical effects of the decision will be to have every man who is a habitual drunkard or liable to become one maintained to a certain extent at the public expense, no matter how well off his relatives may be.

Thank Heaven that a whiskey lawyer has become alarmed about the expensiveness of drunkards to the state, if the state is required to support its own progeny. If it is too expensive for the county and city governments (which are part of the state) to make sober citizens out of the inebriates which the state has made by license, why not have the state quit manufacturing inebriates?

Mr. Hanes' argument refutes itself with a vengeance, and he begs the question entirely when he insinuates that the drunkard ought to be maintained by his relatives who may be "well off." What right have the county and city governments to make inebriates by law, then turn them upon their relatives for support? What if the drunkard has no relatives, or suppose they too are drunkards? The statesmanship emanating from the saloon would say: "Let the saloon take the drunkard's money, bread, and home, then send the drunkard to the poorhouse." Has the county any relatives there who are "well-off?" Surely the drunkard has not.

I am impressed with the fact that the Keeley Institute is indirectly awakening sober and serious reflection on the liquor question which could not be awakened otherwise. I sincerely hope that the supreme court of the United States will confirm the act of the Maryland legislature; and when every state has a similar law, all sensible men will cease the infamy of supporting political parties that maintain the license system. Geo. Gilbert and Miss Nellie Goodrich were united in marriage Wednesday at the bride's home near Rea. Mr. and Mrs. Gilbert have commenced housekeeping in town and their friends wish them prosperity and joy.

Yesterday was Frank Davidson's 56th birthday anniversary. He was born in Macon and has always resided in that town or Tecumseh. A singular coincidence in the family is the fact that the birthdays of Minor, Jehiel and Frank all come in May, on the 8th, 19th and 23d respectively. We think they are entitled to be enrolled among the pioneers.

Knapp & Osborn come to the front this week with a message about the Deering Pony Binder. Every farmer should read it.

Mrs. W. P. Root, of Cleveland, wife of the only remaining member of Jerry Root's family, came yesterday to attend the funeral. Mr. Root's health would not permit of the journey.

J. R. Haley has just turned out a handsome surry for Fred Wood. The vehicle is made with 6 inch wider track than the ordinary to fit the roads of old Virginia, is trimmed and finished in elegant style and is a beauty.

Union Memorial services will be held at the Presbyterian church next Sunday evening at the regular hour. Beers Post, the W. R. C. and Co. C. will attend in a body. The pastors and members of all the different churches are invited to participate.

A goodly contingent of members of the Clinton blue lodge attended lodge in Tecumseh last Friday night. The [illegible] by the visiting officers and brothers, spoke very flatteringly of their proficiency in the work.

A committee appointed at a late meeting of the G. A. R. and W. R. C. to prepare an address on the observance of Decoration Day, reported the same at last Monday's meeting. It appears on the first page and is a beautiful tribute to the soldier dead.

Dr. C. M. Woodward left Monday morning to attend the meeting of the association of Military Surgeons of the United States. The Doctor has taken an active interest in the association since its organization and is now chairman of various committees.

Wm. Anderson, who was well known in Tecumseh, met a rather sudden death in Palmyra Wednesday morning. It appears that while driving stakes the day before, he was taken with a severe pain in the region of the heart. He quit work, consulted a doctor, and was feeling better till Wednesday morning when he suddenly expired. Death is supposed to have been caused by the rupture of an aneurism of some large blood vessel of the chest.

Tuesday morning the Michigan supreme court handed down opinions in 38 cases. In 19 cases the decision of the lower court was affirmed and in an equal number of cases the decision was reversed. Among those that were affirmed and one in which the people of Lenawee county are interested was the case of Turner vs. Township of Ridgeway. This was a case that was brought into the circuit court a little over a year ago by a young woman against the township of Ridgeway, claiming damages for certain injuries received by a defective bridge.

Tuesday evening the residents of Tecumseh were shocked by the news that Jeremiah Root had suddenly expired at his home that evening. Mr. Root had been enjoying his usual health and had been on the streets during the day. Some time after supper he laid down and when next noticed had lost consciousness forever and the end soon came. Apoplexy was the cause of death. The deceased was 62 years of age and had been a resident of Tecumseh upwards of 30 years. During most of that time he was book-keeper and assistant of Wm. Hayden in the Globe mills, and was closely identified with the founding and growth of the large business which that mill has transacted as well as other interests of the concern. Some three years ago Mr. Root withdrew from the mill and has since given his attention to his vessel interests on the lakes. The funeral is held this afternoon from the house. It will be attended by the Masons of Tecumseh lodge, of which he was a member.

High School Happenings.

Monthly examinations today.

Prof. Z. C. Spencer was a caller at the office Tuesday.

Another intensely interesting game was played Tuesday afternoon between the High School Giants and the Clinton Swipers. Both teams played "awful" ball in the field and at the bases. The game was very close up to the second inning when the Giants found the ball and ran in nine scores. Six innings were played with the final score of 35 to 4 in favor of the High School. They apologized for "running up against" such an experienced team and wished the Giants a "blooming" career in the future.

The state military encampment will be held at Island Lake this year and will commence on Wednesday, Aug. 7.

Under the new time schedule C., J. & M. trains Nos. 22 and 23 will be discontinued on Sundays until Sunday, June 30.

Leon Rosecrans and Fay Anderson attended the May festival on their wheels—that is they road them over and back.

Dr. F. O. Teff has made a very convenient change in his office whereby he has much enlarged and improved his consultation room.

A B. Y. P. U. social will be held at the residence of Mr. John Fisher, on Friday evening, May 31. Arrangements will be made to provide conveyances for those wishing to attend.

Sam Baird, who has worked most of the time for the last four years for Jno. Haslett, left Wednesday morning for Colorado Springs, where he will remain for the purpose of building up his health if possible.

The rear end of the store of Kennedy & Rogers is being extended by building a one story addition of brick. This will give the new grocery firm the necessary room for their rapidly increasing business.

A. W. Slayton, Jehiel Davidson and Geo. Van Fine went to Toledo Tuesday and from thence over the Ohio Central to Louisville, Ky., to secure quarters for Beers Post at the coming national encampment.

J. W. Patterson, of Kalamazoo, stopped off here on his way to Elkhart Monday. Jim has purchased an old established drug business in Kalamazoo, where he has already built a comfortable and handsome residence.

An excursion train will run over the Jackson Branch next Sunday to Monroe for the benefit of the German Lutheran celebration in that city. The train will leave Tecumseh station at 8:05 a. m., returning in the evening.

Three thousand music lovers stormed university hall, at Ann Arbor, Saturday night, to hear "The damnation of Faust." The hall wouldn't hold the crowds, and the culmination of the May festival was a huge success. Nordica was a disappointment, but Heinrich and Reiger made hits.

H. A. Garlinghouse was an Adrian visitor Saturday.

Have you seen those fine new show cases at the City Bakery?

Miss Maggie Haire, of this village, is visiting friends in Adrian.

Henry Wing and Chas Sickles, of Adrian, were over Sunday on their wheels.

A farmer, who has investigated, asserts that the late frosts did not kill a single potato bug.

D. C. Le Baron of Toledo was in town Monday, but he hustled out again on the first train west.

Frank Snedicor and Vern Smith also have Waverley wheels. The Waverley seems to be a seller.

C. K. Smeed, editor of the Britton JOURNAL, made the HERALD sanctum a friendly call on Monday.

J. D. Shull will deliver the Decoration Day address at Monroe. The vets have made a wise selection.

Mrs. James Wilson, with her children, arrived in from Saturday from Detroit and will remain a few days with her mother Mrs. N. M. Sutton.

An Omaha man was fined by a police justice for peeping over a fence at a ball game. The justice may have considered it evidence of an unsound mind.

The new Lake Shore time table will be found in the appropriate corner. The trains run substantially as before, except the noon train north, which goes an hour later.

Cyrus Mead, of Ypsilanti, popped into the HERALD office Monday for a brief call. He brought Mrs. Levi Hayden home, who went to Ann Arbor last week to attend the May festival and then spent Sunday with her uncle in Ypsilanti.

The Tecumseh Coal & Lumber Co. are constantly making improvements in their corner grocery. Their latest being a Hoyt computing scale of the '93 pattern. They have also put in an improved refrigerator of their own manufacture which will be of great convenience to themselves and customers.

"The Death of Stonewall Jackson" is the subject of a brilliant paper by Theodore Roosevelt in Harper's Round Table for May 21st. The same issue of the Round Table contains the first of a series of articles by Henrietta Christian Wright on famous American authors—this initial article being devoted to Washington Irving.

The Petoskey Democrat issued last week a twentieth anniversary edition, which was a stunner. It was a fourteen page paper, nearly the entire space being filled with half tone cuts and extended editorial notices of the leading mercantile houses and manufacturing establishments. It is a credit to Bro. Hampton's office and to the city of Petoskey.

Harper's Round Table, as Harper's Young People is henceforth to be called, announces for publication during the summer the following special features: "Heroes of America," a series of six articles by Hon. Theodore Roosevelt; serial stories by Ellen Douglas Deland and Capt. Charles King; "Sports of English Schools," by Casper W. Whitney; and "Great Men's Sons" (articles on the sons of Alexander the Great, Charlemagne, Luther, Shakespeare, Cromwell, and Napoleon), by Elbridge S. Brooks.

The gas well on the Bolton farm in Ogden continues to flow uninterruptedly, and, if anything, the pressure is said to be increasing. We understand Mr. Bolton has leased a part of the farm for oil and gas purposes to a party from Ohio, and it may be that in the near future that vicinity will become as active in this direction as the Ohio field. The Riga people are also still of the opinion that they want to develope the territory in that township, and a paying test well would create a grand rush for further development.—Blissfield Advance.

The Colonial Committee of the Board of Woman Managers for the Cotton States and International Exposition is gathering many rare and interesting relics of Colonial and Revolutionary days. These exhibits will be, in most cases, loaned by private individuals throughout the Union. From their nature, these relics are not for sale, and in many instances have never been on exhibition before. Among others will be a desk owned by George Washington, and now in the possession of a private citizen. This collection of colonial relics will be one of the most interesting ever seen in America.

The Kalamazoo Telegraph has the following concerning the game with the Kazoos Wednesday: Nine chocolate colored ball players, traveling under the name of the Page Fence Giants, in a private car, have been making a tour of the central states, demonstrating to the Western, National and minor league ball players that the latter know nothing of how the game should be played. St. Paul, Cincinnati, Grand Rapids, Dubuque and others had succumbed to African muscle and brains, and yesterday Kalamazoo's scalp was added to the already big stock of cappilaceous relics. In fact these dusky-hued sons of Adrian rubbed the rich colory earth of the league grounds deep into the hides of the local players. When the home team changed pitchers the visitors followed suit and the man they put in, one Miller, threatened to raise havoc with the construction of the grand stand; in fact he was so swift that Burns could hardly hold him.

Dr. L. Barnes spent most of last week at Saginaw.

Rev. Jas. Vincent was an Adrian visitor Monday.

L. W. Kimball and wife were down from Clinton Monday.

Miss Laura Clark, of Adrian, was the guest of Mrs. E. G. Cook, last Friday.

Mrs. A. W. James and daughter Helen arrived from Detroit Monday, for an extended stay at Tecumseh.

Farmers near Deerfield, who planted potatoes during the warm spell, will have to do it all over again. The tubers were baked by the heat and decayed.

Chas. Heck shipped in a car load of Pillsbury's flour the first of the week. This is the first and only lot of Pillsbury's flour ever brought to this market.

Mrs. F. Y. Montgomery, who has been visiting Mrs. Elsie Rowland for some weeks, has returned to Sommerton, a suberb of Chicago, where she will reside this summer.

Frank Hoxie has made permanent arrangements with the Kalamazoo league team, having signed with them while there last week. He returned this week to commence active duties in the box.

The new arrangement on the Mackinaw road is a great improvement. The extra passenger train each way will be appreciated by the traveling public, and the trains run very conveniently for both eastward and westward travel.

Pastor Smith will deliver his last sermon as pastor of the Baptist church in this place, on next Sunday morning. Owing to the memorial service to be held in the evening there will be no service at that hour at the Babtist church.

Our streets were enlivened Monday by some very good music from an Italian band from Chicago. As our dancers are prone to trip the toe to music of this kind, an impromptu party was at once gotten up and a very pretty dance enjoyed till twelve.

We are indebted to R. L. Baxter for a copy of the "Journal of the Michigan State Agricultural Society." It is volume one, number one, published in March, 1853, forty-two years ago last March. The Society seemed to be in a flourishing condition at that time.

The W. C. T. U. will meet in the Methodist church parlor on Friday, May 31, at 3 p. m. Mrs. Fowler, Supt. of Franchise, will conduct the meeting. A good program has been prepared consisting of music, readings and other selections. All are cordially invited.

Rev. Wm. F. Harding was in town two or three days this week, called here by the sickness of his mother. He is now pastor of the second Congregational church, at Terra Haute, Ind. It is the most important charge he has yet had, as the church is a large and influential one. May success attend him.

The State Press Associations of Louisiana, Indiana and Minnesota have recently accepted the invitation to visit the Cotton States and International Exposition during October. The Indiana association gave up a July excursion, and the Minnesota association denied itself a trip to Yellowstone Park in order to come to the Exposition.

A convention of the Sunday schools of Adrian township will be held at Center school house, district No. 4, on Friday, May 31. An excellent program has been arranged and all are invited to attend. A picnic dinner will be held at twelve o'clock in Mr. Palmer's yard. Bring your baskets with lunch. Convention called to order at 10 a. m.

On convening the supreme court last Monday, Chief Justice Fuller read the decision of the court declaring the income tax law to be unconstitutional in toto. The vote stood 5 against to 4 for the constitutionality of the law. Those against the measure were Chief Justice Fuller and Associate Justices Field, Gray, Brewer and Shiras. This decision is in line with what has been expected with a full bench.

A hot box on a sleeper of the new paper train needed attention when the train pulled in here this morning. It was thought it could be adjusted from outside, but it was necessary to arouse two ladies asleep in the berth overhead and by the time they got out and the repairs were completed, 25 minutes had gone—yet it was mighty quick time considering two women had to dress.—Telegram of Tuesday.

The decision of the United States circuit court of appeals, in the case of the American Bell Telephone company et al., appellant, versus the United States, appellee, was filed with the clerk of the court Saturday. It reverses the decree of Judge Carpenter, declaring the Berliner telephone patent invalid and is a victory for the American Bell company. The decree practically concedes to the Bell company the monopoly of the microphone until 1908. Another victory for monopoly.

The Electricity building of the Cotton States and International Exposition was completed last week and the contractor has the Fine Arts building nearly ready to turn over. The work proceeds very rapidly this fine weather and great progress has been made during the past ten days. The work of parking the grounds is also well advanced and the contrast between the blue limestone of the avenues, the green of the sod and the darker green of the shrubbery, produces a charming effect. The terraces will be covered with running honeysuckle.

—When the Waterbury watch Company stopped manufacturing their old style watch, the flood gates of cheap Swiss factories were opened, and poorly made, very unreliable watches were forced on the market in place of the very accurate Waterbury, which had but the one fault—its long wind. The clock factories, with their cheap clock watches, added to the stock of poor stuff, and the Waterbury Company were appealed to for something good and cheap in the quick wind series. The result is the new 'Trump' watch, which sells at $2.50. Call on ADAMSON BROS. and see this new watch.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

MICHIGAN LEGISLATURE.

Senate.

LANSING, Mich., May 17.—The senate on Thursday passed a bill providing for the recovery of premiums paid to so-called "graveyard" insurance companies and a bill prohibiting political fusion upon all nominations for offices down to constable, and in committee of the whole agreed to the Barnard bill providing for a reduction of the membership of the house from 100 to 64, and to the bill appropriating $25,000 for the removal of the homeopathic department of the university to Detroit.

LANSING, Mich., May 18.—The senate Friday passed the house bill appropriating $28,068 for each of the years 1895-96 for the support of the industrial home for girls and the bill for the incorporation of labor societies, empowering them to sue and be sued. A university appropriation bill similar to that defeated in the house Thursday was taken from the table and referred to the university committee and a hard fight will be made to force it through in the last days.

LANSING, Mich., May 22.—The Smalley bill, providing death by hanging for murder in the first degree when recommended by the jury and affirmed by the trial judge, passed the senate Tuesday by a vote of 19 to 13 after a debate lasting over seven hours. The senate defeated the Shaw newspaper libel bill on its final passage by a vote of 16 to 10. A bill passed providing for slaughter of English sparrows during the entire year and providing a [illegible] head, also the bill making an annual appropriation of $1,000 for support of the state weather service. The Donovan bill requiring railroads to sell interchangeable mileage books good for any members of the purchaser's family was tabled by the senate pending investigation as to its constitutionality. The bill was given a substantial majority in the house.

House.

LANSING, Mich., May 17.—The bill of Donovan, the lone democrat, making it obligatory on all railroad companies doing business in Michigan to sell mileage tickets good over any road in the state was passed by the house Thursday, after being amended so as to permit the use of the mileage by any member of the family of the person purchasing it. The fight of the session in the house came up over the bill appropriating $60,000 for special improvements at the Michigan university. The amount in the original budget had been reduced from $192,000. When the vote was finally reached it was defeated, 43 to 44, but the vote was reconsidered and the bill tabled and the fight will be renewed.

LANSING, Mich., May 18.—The house passed a bill on Friday compelling the employment of at least one brakeman for every two passenger cars. The bill fixing the compensation of members of the legislature at $750 is not likely to pass. It was recalled from the senate and tabled in the house. Final adjournment is set for May 21, and sessions will be held every weekday and evening hereafter. There is still much important legislation to be considered, including the legislative, senatorial and congressional apportionment bills.

LANSING, Mich., May 21.—The house on Monday passed bills providing a ¼ cent per capita tax for support of the Michigan naval brigade; providing that surety companies may be sureties upon the bonds of state officers, and providing for warehousemen's liens. The house passed the senate bill providing for the pensioning of teachers in the Detroit schools after twenty-five years' service. At night the legislature met in joint session and memorial exercises were held in honor of United States Senator Stockbridge.

LANSING, Mich., May 22.—The house on Tuesday, by a vote of 53 to 9, passed the Robinson bill reducing railroad passenger fares in the upper peninsula from 4 to 3 cents a mile, and the bill permitting certain beneficiary societies to continue their business of providing death and sick benefits without employment of the lodge system. The Waite bill, known in legislative parlance as the anti-treating bill, was agreed to in committee of the whole. It provides a penalty for inviting and treating persons to liquor in saloons. The house also agreed to bills appropriating $1,000 annually for the support of a state weather service, amending and strengthening law for punishment of persons soliciting [illegible] unauthorized companies, and providing for a closed season during the month of November for fish in the great lakes. The Kelly representative apportionment bill was defeated on third reading.

ART SUPREME AT DETROIT.

Annual Exhibition Opens Under Auspicious Circumstances.

DETROIT, May 19.—In spite of the inclement weather, the light infantry armory was crowded to the doors Saturday night, when the Detroit Art club formally opened its first annual exhibition. In the collection there are over 700 paintings of the best American and European artists, besides a fine collection of ceramic art work, oriental rugs and architectural designs. One of the most observed pictures in the collection is Percy Ives' recently completed portrait of Grover Cleveland. Among other paintings shown are three Bougereaus, Blashfield's "Angel of the Flaming Sword," Decamp's "The Mirror," Moseler's "Wedding Feast," Beckwith's "Sleep," Neuville's "Ambush," and Margaret Wendell Huntington's impressionist, "Near Bracey's Cove," which narrowly escaped being hung upside down. The exhibition will run two weeks and will be open Sundays.

Heavy Judgment for Mr. Harrison.

KALMAZOO, May 21.—Judge Buck handed down a judgment in the famous Harrison land case, which involves a larger sum of money than any other case in this circuit court in years. The judgment gives Mr. Harrison, the complainant, $74,164.70, and releases him from the payment of notes amounting to $38,250, and the interest, which, if added in, would make the latter amount in the vicinity of $49,000, which brings the judgment to approximate $124,000. The judgment is against Smith Brothers, of Three Rivers.

Death of Charles S. Dayton.

KALAMAZOO, May 18.—Charles S. Dayton died Friday morning from a complication of diseases. He was 65 years of age, prominent in business and political circles, president of the City national bank since its beginning in 1874, and also connected with the late Senator Stockbridge in important business deals. Mr. Dayton was president of Kalamazoo village and later a member of the city council.

Big Reward Offered.

DOWAGIAC, May 19.—Fred Lee, manager of the Beckwith estate, offers a cash reward of $2,500 for the arrest and conviction of the person or persons who set fire to the storehouse of the Round Oak stove works a few weeks ago.

Business Is Better.

KALAMAZOO, May 22.—The Telegraph publishes an article on the state of business among local and neighboring manufactories. The reports from business men are very favorable, and indicate a general revival of trade in nearly all lines of productive industry.

WAS BORN IN 1785.

Richmondville Is the Home of a Woman 110 Years of Age.

RICHMONDVILLE, May 18.—Mrs. Adam Carl, of this place, was born in 1785, and has kept close track of all the events that have happened during her long life. Her dark brown hair is as glossy and smooth as it was a half century ago, and her faculties are unimpaired. She lives in a neat cottage with her husband and does all the household work for the pair. Not only this, but every Sunday she walks 1½ miles to church, and is in remarkably good health. Her present husband is her third matrimonial venture, and she rejoices in the fact that she is a great-great-grandmother. There is no doubt of her age, as she has documentary evidence to prove it.

INDICTS MANY OFFICIALS.

Grand Jury at Bay City Returns Fifty-Eight Bills for Malfeasance.

BAY CITY, May 22.—The grand jury reported Tuesday to the circuit court after six weeks' work. Fifty-eight indictments were returned against various officials for malfeasance and misfeasance in office. Several hundred dollars belonging to the people have already been returned to the county treasury. The persons indicted will be arrested and tried later. The jury reports crookedness on the part of supervisors, justices and others.

Failure in Grand Rapids.

GRAND RAPIDS, May 22.—Acting under direction of the mortgage bondholders, the Michigan Trust company, as trustee, took possession of the Widdicomb Mantel company's plant, closed the plant, and will keep it closed until the bondholders decide upon a plan for the future. Bonds to the amount of $92,000 are outstanding, issued three years ago to secure creditors, and there is about $40,000 due unsecured creditors. Owing to the hard times the business has been unprofitable.

Republican Editors Meet.

HASTINGS, May 20.—The convention of Michigan republican editors was held here last week. Many topics of interest to the craft were discussed, as well as questions of a political nature. F. R. Gilson, of the Palladium, Benton Harbor, was elected president; W. R. Cook, of the Banner, Hastings, secretary, and C. H. Chase, of the Republican, St. Louis, treasurer. A banquet was given at the Hastings house Friday night. Addresses were made by Gov. Rich and a number of others.

Awarded $15,000.

MUSKEGON, May 19.—A jury in the circuit court awarded a judgment of $15,000 to George Wood against the E. G. Miller Hernia company of Chicago and Detroit this evening. The jury was out 1 hour and 5 minutes. Some time ago this company operated upon Mr. Wood for rupture and receiving ill results he brought suit with the above result.

A Fisherman's Luck.

HUDSONVILLE, May 22.—Henry Creswell while fishing at the Ottawa Beach resorts pulled up on his hook a solid silver purse containing a diamond ring, a pair of diamond eardrops, and some Spanish gold doubloons. The purse had evidently been in the water a long time. No clew to the owner was found about it.

First Michigan Strawberries.

BENTON HARBOR, May 19.—The first strawberries to be shipped from the Michigan fruit belt this season were sent from the Union pier to Chicago Friday. The consignment of only one case was shipped by A. Willard. The fruit was fine and the prospects were never better for a large crop.

Milnes Resigns.

LANSING, May 16.—Lieut. Gov. Alfred Milnes sent his resignation to Gov. Rich to take effect May 31, the date fixed for adjournment of the legislature. Mr. Milnes was elected to congress as Julius C. Burrow's successor.

Blaze in Detroit.

DETROIT, May 21.—Fire at midnight gutted the four-story building occupied by the Imperial Tea company and practically ruined its stock. Loss, $20,000; insurance, $12,000.

Found Drowned.

HOUGHTON, May 18.—Jerry Murphy, an old resident, was found drowned in Portage lake. Death is supposed to have been accidental.

WORK OF JACK FROST.

Grapes Suffer Seriously and Corn and Other Grain Damaged.

DETROIT, Mich., May 22.—From returns received from all parts of the state it is evident that the frost of the last cold snap has done over $1,000,000 worth of damage in Allegan, Ottawa, Van Buren, Barry, Muskegon and neighboring counties, to say nothing of the damage along the southern tier of Michigan counties. Advices from Allegan indicate that Monday night's frost, the most severe of the season, killed the fruit which had not suffered previously, the raspberry, cherry and peach product being entirely cut off. Monday night's frost in Wayne county, which includes Detroit, cut down all the garden truck and flowers, besides ruining the budding fruit trees. Returns from Holland, St. Joseph, Port Hope, Sturgis, Benton Harbor, Hastings, Kalamazoo, Monroe, Adrian and various other towns and cities show that the damage has been very great. Nothing escaped that was not protected. The weather now is reported as much warmer, but there is nothing left to kill except in isolated instances. Fruit and vegetable raisers are in despair.

FATAL FIGHT WITH A BOAR.

Farmer Frightfully Lacerated by a Hog That He Met on the Highway.

UTICA, May 22.—Fred Goff, a farmer living near this village, and a mad boar had a desperate fight Monday on the road near Goff's home. The boar was in the road when Goff drove up. He dismounted from his wagon seat when the pig refused to get out of the road and struck at the animal with his horsewhip. At the first blow the boar charged on him, and Goff, not expecting anything of the kind, was ill-prepared for the assault. In the first rush the boar knocked Goff down and attacked him with his teeth, nearly tearing the calf from his left leg. Goff struck at the boar with the butt of his whip, but was unable to drive the brute away until some laborers in a near-by field heard his cries and rushed to his assistance. Before they arrived the hog had bitten Goff severely on his left leg and body and the men were forced to kill the boar before it gave up the battle. Goff was taken to his home, but the doctors say he cannot possibly recover.

CHAIRMAN WON'T RETIRE.

The Prohibition State Central Committee in a Wrangle.

GRAND RAPIDS, May 18.—The prohibition state central committee Friday night adopted resolutions asking Chairman Fanning, Treasurer A. M. Todd and C. E. Wisner to resign. Todd and Wisner promptly complied, but Fanning refused. Resolutions were adopted exonerating Todd of the charges preferred by Fanning in reference to the liquor vote in his recent congressional campaign in the Third district. The resolution asking for Fanning's resignation alleged among other things that he had secured his election by improper methods. The committee cannot force him out, as he was elected by the state convention, but the payment of his $1,800 salary can be stopped. E. A. Richards, of Saranac, was elected treasurer to succeed Todd, resigned.

MAY FESTIVAL A SUCCESS.

Ann Arbor Crowded with Visitors to Hear Nordica and Other Artists.

ANN ARBOR, May 18.—The May festival of music which came to a close Saturday night has proven a grand success. Ann Arbor was overcrowded with visitors, some being forced to go to Ypsilanti for accommodations. University hall has been jammed at all the concerts. Clarence Eddy's recital on the Columbian organ was given Saturday morning. Concert three in the afternoon was an orchestra matinee. Saturday night was the crowning glory of the festival and was by far the finest musical effort ever made in Ann Arbor. Mme. Nordica William Rieger and the Choral union calling forth especial applause.

One Man Killed.

HOUGHTON, May 17.—At 1:10 o'clock Thursday afternoon there was another big explosion at the Hancock chemical works at Dollar Bay, 3 miles from here. Fred Shoper is known to have been killed and several others were injured. The office and several other buildings were blown to pieces. The property loss amounts to several thousand dollars. The debris was scattered over a half mile of ground.

Dead at Her Child's Grave.

ROCHESTER, May 21.—Mrs. J. G. Ross has been in the habit of visiting the cemetery several times a week to place flowers on her daughter's grave. Sunday afternoon she left home as usual for the journey and failed to return on time. An hour later her dead body was found lying at the cemetery gate. She had succumbed to heart disease.

A TOO MODEST WOMAN!

Is such a thing possible?

It is.

Many a woman suffers month after month, whole years, because she shrinks from talking about her complaints.

Foolish do you say?

No, it is simply due to a natural, commendable modesty. Still she owes it to herself either to consult a good Physician or else to get the Zoa-Phora Medical Book on Diseases of Women and Children, and, after satisfying herself that Zoa-Phora is what she needs, obtain a bottle or a box of it and use it faithfully. Both the book and medicine may be obtained either direct from the Zoa-Phora Medicine Co., at Kalamazoo, Mich. or through your druggist. All correspondence is kept strictly confidential.

Zoa-Phora sold and books given away by C. A. WRIGHT and BAKER & HALL, Druggists.

Three Crops a Year

Can be grown on the same land eastern Mississippi and southern Alabama along the line of the Mobile & Ohio railroad. The summers are cooler, the winters are milder, the death rate is lower than in the north. Improved farms $10 to $15 per acre, unimproved land $3 to $5 an acre near railway stations. It is the best portion for raising fruits and early vegetables, stock raising and general farm crops. Lands are advancing, now is the time to buy. Very low rate excursions monthly. The Mobile & Ohio has put on two through fast trains each way daily between St. Louis and Mobile. It is the shortest and quickest route to the south. An illustrated pamphlet telling all about our country will be sent free to all who wish it. Apply to F. W. Greene, General Agent, No. 108 North Broadway, St. Louis, Mo., or to E. E. Posey, General Passenger Agent, Mobile & Ohio railroad, Mobile, Ala. tf

98%

of all cases of consumption can, if taken in the earlier stages of the disease, be cured. This may seem like a bold assertion to those familiar only with the means generally in use for its treatment; as, nasty cod-liver oil and its filthy emulsions; extract of malt, whiskey, different preparations of hypophosphites and such like *palliatives*.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but *a large percentage of cases*, and we believe, *fully 98 per cent.* are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.

On or off the line, in the majority — on Pearline!" And you're right—you will observe that their heads are level. Millions of women sing the same song as the clothes. They may express it differently, but they mean the same thing. They mean that their work is easy and sooner done—and better done. No clothes worn out with the end-rub, rub, rub on the washboard. No backs tired out with it, either. These millions of women mean that they're using Pearline, saving labor, time, and money with it, and have proved it to be perfectly harmless. Now, what do you mean? Do you mean to try to do without it?

EPWORTH LEAGUE.

Lesson For the Week Beginning May 26. Comment by Rev. Walter J. Yates. Topic, Soliloquy on Integrity.

SCRIPTURE READING.—Job xxvii, 1-6.

The discussion between Job on one side and his friends on the other concerning the true explanation of human sufferings and the Divine government draws toward a close. It began with Job's complaint. Eliphaz, Bildad and Zophar each spoke in turn and were replied to separately by Job. They held that Job's calamities were proof of his wickedness. He stoutly asserted his integrity. A second series of speeches and replies followed, yet neither side was convinced by the other. A third round of the argument is in progress. Eliphaz has spoken and Job replied. Bildad has for the third time reiterated the accusation of wickedness and exhausted all his resources of persuasion. Job is now in the midst of his answer and shows his opponents that he can discourse as eloquently as they on the advantages of integrity and uprightness of character.

Revivals Needed.

Dangers confront the church of God on every side. In the city and in the rural districts it is the same. The great world lieth in wickedness. Worldliness and apathy threaten to paralyze the church. Vice is rampant and seated in the place of power in government and social circles. Business life is largely immoral, if not positively immoral. Education will not make bad men better, but only give them more ability for the prosecution of schemes of wickedness. Social culture can only paint the cancer of sin, but never remove the virus from the system. Only the power of God by the Holy Spirit can save men from the power and love of sin. Revivals of pentecostal power are the need of the hour. Such an overwhelming sense of the Divine presence and power will fit the church for the mighty struggle which lies before her in the twentieth century.

Two Great Meetings.

In June Boston is to see the largest gathering of the Christian Endeavor societies ever held. During the same month Chattanooga will welcome the hosts of young Methodism from all parts of the continent and the regions beyond. Neither of these meetings will deal in the merely spectacular. Both are to gather for earnest discussion of the great problems arising in Christian life, for laying broader plans of co-operation obtaining deeper consecration for service and higher inspiration in the divine life.

Lifting Up.

No Methodist should fail to attend the Chattanooga convention of the Epworth League June 27-30 if able to get there. It will not only give a great uplift to the cause of the League, foster and develop fraternity among the related Methodisms represented there, but will prove a time of wondrous spiritual uplift to multitudes of souls. As devout men from all nations were blessed at the first Christian Pentecost so may many be blessed at the coming gathering.

The Battlecry.

[A million conversions this year.]

A million souls to Christ be given,
Redeemed from sin, made heirs of heaven,
Our battlecry shall be,
Christ's kingdom throned these souls within.
They shall His year new lives begin,
From satan's power set free.

Eternal Spirit, Light divine,
Descend and in our souls now shine;
Dispel the gloom of night,
Inspire thy church, awake her zeal,
The apostolic power reveal,
Endow with thy great might.

Upon the sons of Levi shower
The sevenfold gift, the gift of power,
As in the ancient days.
A million souls by Christ forgiven,
All ransomed when his side was riven,
Shall celebrate his praise.

—A. J. Merchant.

[General Secretary Epworth League of Canada.]

Last Year's Harvest.

The total increase in membership of the Methodist Episcopal church for 1894 was 157,568, an average of 3,030 per week. This is in addition to filling all the losses by death, withdrawal and expulsion. The present membership of the church is 2,359,972 in full connection and 321,621 on probation.

Christian Training.

The League is proving to be a grand training school for the young life of the church in all lines of practical Christian life and effort. Personal piety is fostered by the devotional services and emphasis placed on private prayer and Scripture searching. Benevolence is developed by the missionary intelligence given and the collections taken. The department of mercy and help by visitation of the poor and sick, distribution of flowers, fruit, clothing and provision is teaching the best methods of reaching the needy as well as enlarging the affections and ability of the workers. Social and literary interests are receiving fresh impulse. The young life of the nation is receiving an uplift of great significance which shall be far-reaching in results.

16 Years in Detroit. 200,000 Cured.

Young or Middle Aged Man. You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. *Self abuse or later excesses* have broken down your system. *Mentally, physically and sexually* you are not the man you need to be or should be. Lustful practices reap rich harvest. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy strength and ambition. Our New Method Treatment will positively cure you. It will make a man of you and life will open anew. *We guarantee to cure you or refund all money paid.* No names used without written consent. $1,000 paid for any case we take and cannot cure.

SNATCHED FROM THE GRAVE—A Warning From the Living.

Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit; I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children."
C. W. LEWIS, Saginaw, Mich.

Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, dreams and losses at night, no ambition. The 'Golden Monitor' opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks."
I. L. PETERSON, Ionia, Mich.

Syphilis Cured. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of *Gleet* and *Stricture* by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years."
W. P. M., Jackson, Mich.

A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have sent many victims of this hateful habit to Drs. Kennedy & Kergan for treatment. I can heartily endorse their *New Method Treatment* which cured them when all else failed."

A Doctor Recommends "I know nothing in medical science so efficient for the cure of *Syphilis* and *Sexual Disorders* as the *New Method Treatment* of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact."
T. E. ALLISON, M. D.

Reader Have you been guilty? Has your *Blood* been diseased? Are you weak? Do you desire to be a man? Are you contemplating marriage? Our *New Method Treatment* will positively cure you. Cures Guaranteed or No Pay. Consultation Free.

A Sign of Peace

is the downcome of war time prices.

The during-the-war price of baking powder was 45 to 50 cents a pound. Cream of tartar was then 49 cents a pound, soda, 6 cents. Cream of tarter is now 18 cents, soda, less than 2½ cents.

Still the would-be monopolists want the same "war" prices (45 to 50c. a pound) for their products.

CALUMET Baking Powder

is sold at a "peace price"—brings peace to homes where the high priced baking powders have been breeding dyspepsia and disagreement.

$1,000 to you if you find Calumet isn't perfectly pure. A pinch of it has power enough to do a pound of leavening.

W. Conkling, labor $18.95, A. Parks, $10.65, John Hasting, $8.00. Finance committee reporting favorably on all of above bills clerk was instructed to draw his orders for the same.

The President presented the name of L. B. Thompson as Deputy Marshal; on motion supported, same was confirmed by the council.

The President presented the name of Albert Hyde, as member of Board of Water Commissioners, for the term of three years, to succeed H. W. Conkling; moved and supported that the same be confirmed, carried.

Chairman of Health Committee reported that they would make an unfavorable report on the application of the Lake Shore and Michigan Southern Railway and recommended that they be not allowed to run sewerage into Evans Creek, for the reason of inadequate body of water and that same would be injurious to public health. Report accepted and adopted.

The following ordinance, relating to fire limits, was introduced; moved and supported that the same be adopted and passed as read.

An ordinance establishing fire limits within the village of Tecumseh and to regulate the construction, repair and removal of buildings therein.

SEC. 1. The common council of the village of Tecumseh ordains, That all that portion of the village of Tecumseh included within the following boundries shall constitute the fire limits of the village of Tecumseh, to wit: Bounded on the north by Logan street, east by Ontida street, south by Pottawatamie street, and west by Pearl street.

SEC. 2 No person shall erect, construct or cause to be erected or constructed within the fire limits, any wooden or frame building or any addition thereto, unless the outer walls thereof be constructed of stone, brick or cement and the roof thereof covered with slate, tile, metal, asbestos or grave; and composition; provided, the council may, within their discretion, grant the privilege of constructing within the fire limits wooden or frame buildings when the side walls of the same shall be entirely covered with metal and the roof constructed as above provided. Any person desiring to erect wooden or frame buildings shall make application in writing to the council stating therein the size and dimensions thereof and the purpose for which said building is to be used.

SEC 3. No person shall remove or cause to be removed, any wooden or frame building from any place without the fire limits to any lot or place within the fire limits, or move or cause to be moved any wooden or frame building already erected within the fire limits, without a written permit from the council.

SEC. 4. No building shall be erected within the fire limits which shall be wholly constructed of wood, which shall be more than eight feet in height or more than eight feet square, except as herein provided.

SEC. 5. No person shall alter or enlarge any wooden or frame building now erected within the fire limits, without the written permission of the council.

SEC. 6. Every building or structure which may hereafter be erected, placed, enlarged, altered or repaired or kept within the fire limits in violation of this ordinance is hereby declared a public nuisance and may be abated as such or removed, by order of the council.

SEC 7. No person shall erect, operate or maintain any steam boiler or steam engine within the fire limits without the written permission of the council.

SEC. 8. Every each and every week which a building, steam engine or boiler, erected placed, removed, repaired, operated or maintain d within the fire limits, contrary to the provisions of this ordinance, shall so remain, the owner or occupant of such building, or the owner or user of such steam engine or boiler, may be complained of and prosecuted as for a distinct and separate offence and punished therefor as herein provided.

SEC. 9. Any violations of the provisions of this ordinance, or failure to comply with its provisions shall be punished by a fine of not less than ten dollars nor more than one hundred dollars or by imprisonment in the county jail not less than ten nor more than sixty days, within the discretion of the court, or by both such fine and imprisonment, within the discretion of the court, together with costs of prosecution.

SEC. 10. Sections one, two and three of Chapter VII of the Compiled Ordinances of the village of Tecumseh, and any ordinance conflicting herewith, are hereby repealed.

SEC. 11. This ordinance shall take effect June 20, 1895. Passed May 20, 1895.

Speech Restored.

For five years I suffered with pain and discharge of the throat, hacking cough, frontal headache, weak eyes, etc., at times could not talk above a whisper; lost weight continually, and not able to be at work. I was treated by the best physicians in the country, but received no relief. After giving up all hope I was recommended to use a bottle of Mayers' Magnetic Catarrh Cure. After using it for four weeks my speech returned. All symptons of catarrh have disappeared and I feel like a different person.

BIMETALLISM IN ENGLAND.

A Great Revolution in Sentiment Since the Closing of the India Mints Against Silver.

Robert P. Porter, correspondent of a syndicate of American newspapers, recently interviewed the widely known English bimetallist, W. H. Grenfell, on the outlook in England for the introduction of bimetallism. Mr. Grenfell is a wealthy man and has served in parliament, and is now chairman of the bimetallic parliamentary committee.

Mr. Grenfell is reported as saying that a great change of opinion has taken place in the house of commons on the money question. "In 1893 bimetallism was considered not merely a fad," he says, "but an unclean thing, too low for serious discussion; in 1895 the closing of the Indian mints, the great fall in the price of silver, which was the inevitable consequence of that policy, the depressed state of agriculture and serious position of the great productive industries of the country, owing to the ruinous fall in prices, have forced the currency question upon the most ignorant and most bigoted—and the two form one class." Thus the same house of commons which had rejected a resolution in favor of a monetary conference in 1893 has now adopted such a resolution.

Of the aims of the bimetalists, he says: "The great aim of bimetallists is to mitigate and remove the evils arising from the constant fluctuations and growing divergence in the relative value of gold and silver, and the fact that the house of commons has unanimously passed a resolution embodying the above statement of opinion is one the significance of which it is impossible to exaggerate. It is an actual, visible and tangible result of the change of opinion in the house of commons. Bimetallism is in the air, it is everywhere discussed, the feeling that there is something very wrong somewhere, which can be redressed, is growing. The textile districts of Lancashire, Cheshire, Yorkshire and Derbyshire are getting sore and impatient. The Textile Operatives association of these districts has subscribed £300 to the funds of the Bimetalic league. There used to be an old saying in political circles that what Lancashire thinks first the rest of the country thinks soon after—and Lancashire has already begun to ask the reason why."

"Seven directors of the Bank of England," he says, "are favorable to the bimetallic cause. One of the best known of them—Mr. Lidderdale—has of late taken an active part in the work of the league and has supported it on public platforms. The league, too, numbers well-known bankers among its vice presidents. Bimetallism, in fact, in England, is merely a question of time; but unfortunately in this case every moment of delay is of the most serious importance."

Of the proposed conference, he says: "The next conference that is called should be called to settle the details of an international monetary agreement, the main principles of which should have been agreed upon before. The chancellor of the exchequer says that he will be no party to altering the currency of this country, but England can do much toward an international bimetallic agreement, and her people can still maintain the barbaric custom of carrying golden sovereigns in their trousers pockets. If England would open the mints of India to the free coinage of silver, if England would consent to put into use the powers which she already posses by act of keeping one-fifth of her reserve in silver, she would do perhaps as much as any other nation toward rehabilitating silver, and could do it at once, and without infringing upon any of the conditions laid down by the chancellor of the exchequer. India absorbs silver as the sand absorbs water; the open mints of India did as much for silver as the bimetallic ratio of the Latin union. If France, Germany and the United States could agree upon some basis upon which to reopen their mints to silver, and upon which England would agree to open the mints of India and keep one-fifth of her reserves in silver, bimetallism would be established all the world over on an absolutely secure basis, and an arrangement could be speedily arrived at without in any way affecting the prejudices and ignorances of the British people.

"It is a most remarkable fact, and one to which sufficient attention has not been called, that Mr. Gladstone's government in 1881 made a very similar proposal, and offered, if the mints of the Latin union were reopened to silver, to keep one-fifth of the bank reserves of the Bank of England in silver, which can be done by law at the present moment. Surely we have here the basis of an equitable arrangement. Personally I would much rather see England become frankly and openly bimetallic, with absolute free coinage of gold and silver at the international ratio; but recognizing the obstinacy of the English character and the fact that England has been on a gold standard since 1816, and the frightful consequences which will follow from delay, I believe that if England were to make the important concession which I have mentioned, the bimetallic system would be established and obtain all over the world, England included."

The Proposed Conference.

The Atlanta Constitution thinks that whatever the final result of the bimetallic movement in Europe may be, the agitation of the matter should have the effect of stimulating the efforts of the free coinage men of the United States. It is the agitation over here that has caused renewed hope in France and Germany, and if the response of the people of those nations to the hopeful enthusiasm displayed here should cause bimetallists in the United States to relax their energies, a distinct setback will be given to the movement.

Its True Friends.

Men like Bland favor silver by indorsing it, talking of it and voting for it, and that is the only way we will ever get it.—Exchange.

The 5000 Best Books.

When a woman sends her subscription to the Ladies' Home Journal, special privileges seem to go with it, besides getting her full money's worth in the magazine. She can take the fullest advantage of a perfect educational plan by which she can educate her daughters or sons at the best colleges in the country free of charge, and now can buy her books—even a single book at a time—at prices heretofore obtained only by large buyers. There comes to us from this magazine a very artistically gotten-up illustrated booklet of over 250 pages, called '5000 Books,' which serves as an easy guide to the best books in any department of reading. This guide is very well done. The best literary experts of New York, Boston and Philadelphia were engaged by the Journal to select the five thousand books which it presents as the most desirable for a home library, and their work has been admirably carried out. Very clean, explanatory comments are given by these men of books, and besides there are given not less than 160 portraits of leading authors. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten up, so beautifully printed, and so generously offered, free of charge, by the publishers of The Ladies' Home Journal. '5000 Books' is unquestionably the best guide to the best selection of books that has been issued for a long time.

W. H. M. SOCIETY.

The Ninth Annual Meeting Held at Ridgeway Last Week.

The ninth annual meeting of the Woman's Home Missionary Society of the M. E. church, Adrian district, was held in Ridgeway last week Wednesday and Thursday, May 22 and 23. The meeting opened on Wednesday at 2 p. m., with devotional exercises conducted by Mrs. W. R. Wilson, of Ridgeway. After the usual preliminary business, an excellent paper, "Redeeming the Time," by Miss Ida Reynolds, of Rollin, was read, followed by one on "Mission[illegible]" by Mrs. H. J. Williams, of Adrian, and one entitled "The Christian's Debt," by Miss Stella Dewey, of Cambridge.

Wednesday evening's session opened with an organ voluntary followed by devotionals conducted by Rev. H. Cansfield, of Ridgeway. Words were spoken by Mrs. Ella Temple, of Ridgeway, assuring the members of the convention of the warm welcome extended to them, and these words were responded to by Mrs. Alice A. Page, of Adrian. Miss Fannie Miller gave a pleasing recitation after which the address of the evening was given by Rev. J. Frazer, of Monroe, on "Frontier Work in Michigan." The address was both entertaining and instructive, and the speaker delighted his entire audience.

On Thursday morning a missionary prayer meeting was led by Mrs. L. R. Davis, of Detroit. The first hour's work was devoted to election of officers, reports of auxiliaries and receiving fraternal greetings. Three papers were presented during the forenoon session. One on "Bohemian Work in Chicago" by Mrs. H. D. Niblack, of Clinton, one, "Mother's Jewels Home," written by Mrs. P. A. Seeley, of West Bay City, and read by Miss Hattie Johnson, of Adrian, and one entitled "Reasons why we should help the W. H. M. S.," by Mrs. C. B. Case, of Clayton. Memorial services were led by Mrs. F. Gamble, of Tecumseh. Two members of the district society have died during the year; Mrs. E. Rogers, of Hudson, and Mrs. Cora McKinney, of Tecumseh. A question box was then placed in charge of Mrs. Lillian Hollister, of Detroit, and her ready and intelligent answers to the questions asked gave much clear information regarding the different branches of work of the society.

Thursday afternoon's meeting opened with devotional exercises led by Mrs. J. O. Shepard, of Ridgeway. A most excellent paper entitled "The Reflex Influence of Giving," was read by Mrs. G. E. Sloan, of Blissfield, after which Mrs. Lillian Hollister conducted a Parliamentary drill. "The Indian as we found him and what we have done for him," was the subject of a paper by Mrs. U. U. Fowler, of Tecumseh, and "The true work of the W. H. M. S." was presented by Mrs. J. W. Crippen, of Ann Arbor.

Rev. L. P. Davis opened the last session of the convention with devotional exercises. A recitation by Miss May Culbertson was followed by the address of the evening given by Mrs. Lillian Hollister, of Detroit. Mrs. Hollister is corresponding secretary of the Woman's Home Missionary Society of Detroit Conference, is thoroughly acquainted with the work, and her audience were deeply interested and highly pleased with her address. Mrs. Hollister cannot fail to please all those who have the pleasure of listening to her. After the passing of resolutions and the taking of the collection, the convention closed with the benediction by Rev. H. Cansfield.

The young people of Ridgeway church furnished excellent music all through the convention. Several pastors from different charges on the district brought encouragement and cheer as did also Presiding Elder Davis. There was a large attendance at all the sessions and the meetings were not only pleasant but profitable throughout. The Ridgeway people are royal entertainers.

The officers for the ensuing year are as follows: Pres., Miss Hattie Johnson, Adrian; Vice Pres., Mrs. M. A. Martin, Rollin; Sec., Miss Hattie Montgomery, Tecumseh; Cor. Sec. and Treas., Miss Liana Brown, Hudson.

ALBION COLLEGE NOTES.

The "Horn" Oratorical Contest and Class Rivalry.

The Spring term of the year 1895 will long be remembered in the history of Albion College as the term which ushered in a striking innovation. The institution of the annual "Horn" oratorical contest is the first step toward placing healthful class rivalry upon its proper basis. Too long this rivalry existing between classes has resulted in disgraceful class conflicts. This rivalry seems to have become a fact, a part of the very life of nearly every educational institution of note—and this rivalry is proper and healthful, but it should be a contest of brain rather than brawn. The first step has been taken toward placing this class rivalry upon its proper plain—the intellectual plain. Never in the history of the college has more enthusiasm and more genuine class spirit been shown than was manifested in this the first of the annual "Horn" contests. Well might there be enthusiasm and suspense, for upon the arena of oratory, representatives from four classes were to meet and strive for the most valued relic in the possession of the college—an old tin horn. And thereby hangs a tale.

About eighteen years ago there was born to one of the college classes a large tin horn, reputed to be about six feet long—reputed, for during the space of these eighteen years but few, very few, have had the good fortune of really seeing this much talked of horn. The horn was in sections. About twice a year ever since the class to whose care this myth-enshrouded horn has been entrusted—it being bequeathed from one class to another as class after class left the institution—has called to its aid the spirits and has unearthed from various sections of the country these different sections. Then some cold winter's night when all were wrapped in slumber, the brave boys of this class, armed with canes and base ball bats, would mount a sleigh drawn by swift horses, and with the precious horn in their midst, they would gallop through the streets in the vicinity of the college. Although very few have ever seen this horn, nearly all have heard it, as its shrill voice startled us from sleep. Then all was activity; all were awakened, clothing was hastily donned, cliques secured, and in the class conflicts which followed, learned men with four years worth of mental discipline and brain development were seen to lay aside their dignity and their common sense and to exhibit propensities common to the Feejee Islander and the African gorilla.

Thus around this horn there have grown associations, bits of college lore, and an atmosphere of mystery which are attached to no other feature of college life.

By the institution of the "Horn" contest this unhealthy and unhealthful class strife is destroyed and in its place is substituted the stimulating contest of mind. This first contest was provocative of more loyal zeal for class and Alma Mater than any event which has happened here in years. In the afternoon the college turned out en masse for a parade. Classes vied with each other in making the oddest display and in developing the most unique class yells. In the evening the class enthusiasm came to a climax. The classes were seated in sections and cheers and class yells were intermixed with songs and orations.

The decision of the judges awarded the contest to Mr. A. A. Maywood, who was borne from the platform upon the shoulders of his exultant classmates. Thus the Juniors retained the horn, and to them belongs the credit of having instituted the annual "Horn" contest, an event which will do much toward abolishing the greatest evil of colleges of today: an event, the good influence of which can only be measured in future time. LONG LOST BROTHERS MEET.

Separated for Over 44 Years They Finally Locate Each Other.

Does advertising pay? If you argued a life time you couldn't convince O. P. Brierly, of Wright, but what it does. Forty-four years ago he and his brother, E. C. Brierly "drifted apart" and in all these years they have lived in total ignorance as to whether each other was in the land of the living or not. Finally O. P., conscious of the fact that he was not much longer for this world, being 75 years old, and that possibly his long-lost brother might be alive, conceived the idea of placing an advertisement in the New York World. It had the desired result, and a few days ago there alighted from the Mackinaw train at Waldron a gray-haired man, who inquired for O. P. Brierly. 'Twas the long-lost brother, who had read the ad. and come all the way from Lacompt, La. to hold a reunion.—Hudson Gazette.

FOUND A WATERY GRAVE.

Three Persons Drowned in Maharr's Lake Near Springville Last Saturday.

A most shocking accident occurred on Maharr's lake in Cambridge last Saturday afternoon by which three persons lost their lives. We condense the following particulars from the Adrian Times:

Bert Salsbury, aged 22, of Wolf Creek; Will Doolittle, aged 32, of Wolf Creek; and Mina Patterson, aged 17, whose home was about [illegible] lake crossing, in Adrian township, were drowned in a mysterious manner at Maharr's lake, situated about a mile northwest of Springville, in Cambridge township, Saturday afternoon.

The ill-fated trio started on a fishing excursion to the lake mentioned just after dinner, and were observed to go out upon the water in on old skiff about 3 o'clock. The only person who is known to have seen the boat and its passengers is a young son of Annorah Maharr, the owner of much of the adjacent land, and from whom the little lake takes its name. The party proceeded some 20 feet from shore, where they came to anchor in about fifteen feet of water, and commenced the pastime for which they had come.

A little later they called to young Maharr to get them more bait, and the boy went away to dig some worms. Returning half an hour later, he was startled to see the boat half full of water lying at its old anchorage. Except for a hat which had washed ashore, there was no sign of its former occupants.

Young Maharr, convinced that some terrible calamity had occurred in his absence, hastened to alarm the neighbors, and in a short time a company of excited residents, with some of the friends and kindred of the three men whose fate was then too easily surmised, were making preparations to learn the worst by dragging the lake.

Doolittle's body was recovered in about an hour, but it was 5 o'clock before the bodies of Salsbury and Patterson were taken out.

The bodies of Doolittle and Salsbury lay close together almost directly under where the boat had been lying, while Patterson's body was found a little way off.

None of the bodies displayed any evidences of a struggle, and only surmise can account for the manner by which they came to their death.

The parents of Patterson and Salsbury witnessed the recovery of their boys' remains, their grief at the terrible sight being extremely pitiable. Doolittle's father and mother, who live near Clayton, were mercifully spared the agonizing ordeal.

The father of Patterson is Theodore Patterson, and the mother of Salsbury is now Mrs. David Smith. Both families live about a mile west of Wolf Creek. Doolittle's parents reside on a farm near Clayton. He made his home with them the greater share of the time, but had lately been working near Wolf Creek. He was married, but had separated from his wife, who with a 6-year-old daughter, makes her home with her parents in New York state.

Doolittle was somewhat addicted to drinking, and this circumstance gives a certain amount of credence to the surmise that he, as well as his companions, may have indulged, perhaps too freely in liquor on Saturday, and that, in changing seats or fooling in the boat, they caused it to capsize. None of the victims were good swimmers and it is thought they may have struggled about the boat until thoroughly exhausted, and then sank to the bottom.

There is no reason for believing that a quarrel occurred, for the three men were the best of friends and were unquestionably in the happiest of moods when last seen. The boat, which is a small, leaky old concern, probably righted after the drowning unfortunates released their hold upon it.

The 5000 Best Books.

When a woman sends her subscription to the Ladies' Home Journal special privileges seem to go with it, besides getting her full money's worth in the magazine. She can take the fullest advantage of a perfect educational plan by which she can educate her daughters or sons at the best colleges in the country free of charge, and now the Journal has arranged it so that she can buy her books—even a single book at a time—at prices heretofore obtained only by large buyers. There comes to us from this magazine a very artistically gotten-up illustrated booklet of over 250 pages, called '5000 Books,' which serves as an easy guide to the best books in any department of reading. This guide is very well done. The best literary experts of New York, Boston and Philadelphia were engaged by the Journal to select the five thousand books which it presents as the most desirable for a home library, and their work has been admirably carried out. Very clean, explanatory comments are given by these men of books, and besides there are given not less than 160 portraits of leading authors. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten up, so beautifully printed, and so generously offered, free of charge, by the publishers of The Ladies' Home Journal. '5000 Books' is unquestionably the best and easiest guide to a wise selection of books that has been issued for a long time.

SEASONABLE THOUGHTS.

The lovers now upon the gate
At eve are gently swinging,
And overhead, in lofty state,
The twilight bird is singing.
To go upon his northward trip
The tramp is now preparing,
And everyone who had the grip
Has given up despairing.
The merchant has a brighter eye,
For spring trade up is looking,
The buyers now begin to buy,
And orders he is booking.
The only man who's glum at all—
Is he who ever since last fall
Has done no advertising.

Ever since some wag put afloat the story that the president had given a present of a sum of money to the parents of twins and triplets, the White House has been filled with letters of application on that score and it is estimated that at least $10.000 a day might be disbursed at the rate of $500 to each applicant.

A sample of the kind of letters that come in the mail to the president is the following, which was sent by a man in Texas:

Mr. President Cleveland: Dear Sir—I see you are giving $500 for twins. Please send me $100 right away, for I am going to get married this week to a girl who is a twin. I come from a twin-getting stock, so you will see that there is no risk to run, and when my wife has twins I will draw on you for the balance. I need the money to start housekeeping with. I am in good health and so is the girl I am going to marry. I have always been a democrat. I voted for you the first time, and will vote for you again and name the twins after you. Don't disappoint me for I may have to get married sooner.

A SAD CASE.

"I'll tell you how it is," said the wild eyed patient to the asylum physician. "I met a young widow with a grown up step daughter, and I married that widow. Then my father met our step daughter and married her. That made my wife the mother-in-law of her father-in-law, and made my step daughter my step-mother, and my father became my step son. See?

"Then my step mother, the step daughter of my wife, had a son. That boy was, of course, my brother, because he was my father's son, but he was also the son of my wife's step daughter, and therefore her grandson. That made me grandfather of my step brother. Then my wife had a son.

"My mother in law, the step mother of my son, is also his grandmother, because he is her step son's child. My father is the brother in law of my child, because his step sister is his wife. I am the brother of my own son who is also the child of my grandmother. I am my mother's brother in law, my wife is her own child's aunt, my son is my father's nephew and I'm my own grandfather and I can't stand it."

Speech Restored.

For five years I suffered with pain and discharge of the throat, hacking cough, frontal headache, weak eyes, etc., at times could not talk above a whisper; lost weight continually, and not able to be at work. I was treated by the best physicians in the country, but received no relief. After giving up all hope I was recommended to use a bottle of Mayers' Magnetic Catarrh Cure. After using it for four weeks my speech returned. All symptons of catarrh have disappeared and I feel like a different person.'

CAMBRIDGE CHATTER.

Drowned, in Case's East Lake, on Saturday, May 25th, between the hours of two and four o'clock, Wm. Doolittle, Albert Saulsbury and Myron Patterson. These parties came from Wolf Creek to go fishing, and drove to the residence of Henry Maharr in Cambridge and put out their horse. Going down to the lake they requested a small boy of Mr. Maharr's to go and get them some minnows. When the boy returned, in about an hour, he found the boat anchored, half full of water, about two rods off shore. Thinking they had gone to some other lake, he started for Case's house and on the way found their fishpoles and one cap. He reported to the men at Case's and they came over with another boat and grappling hook to investigate. In draging the hook along near the anchored boat they soon brought to the surface one of the bodies, and in an hour the three dead men were on the shore. They were conveyed to the Case place, the friends notified and an inquest held. The decision was "accidental drowning." It is a complete mystery how it happened, as no one was near or saw them go into the water. The funerals occurred on Monday, at their place of residence near Wolf Creek.

IMPORTANT ANNOUNCEMENT.

"M. Quad." the Famous Humorist, Takes his Old Place on The Free Press.

We find great pleasure in announcing to our readers that Chas. B. Lewis, the famous "M. Quad." has resumed his former place upon The Detroit Free Press. Since his retirement from The Free Press four years ago Mr. Lewis has been writing for one of the leading syndicates. His preference for direct newspaper work, however, led him to abandon that connection, and hereafter his popular writings will appear only in The Free Press. Mr. and Mrs. Bowser, Brother Gardner, Arizona Kicker, Zeb White, Abe Crofoot, Mrs. Gallup and many new characters will appear regularly.

The publishers are making a special four months' trial offer of the Semi-Weekly Free Press for 25 cents to introduce their paper to new readers, and we would advise those looking for a great bargain to send in their subscription at once. The offer is good only until August 1.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quickly in its work and highly satisfactory in results." Trial bottles free at Orr & Temple's Drug Store. Regular size 50c. and $1.00.

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhoea and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact, are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief. 1w

STOP IT NOW!

Stop It Quickly, Just the Same as Did Mr. Charles H. Hoffman, of 132 Ten Eyck Street, Jackson.

If you have a pain in your back, stop it! A lame back, stop it! An aching back, stop it! Do you want to know how? Let us tell you! In the first place, never try to rid yourself of pain without knowing the cause. If pain or ache exist there is reason for it. Find out this reason and get after it. Strike cause a stiff blow with the right weapon, and its allies, pain and ache, will flee like chaff before the wind. To get right down to it, backache is indicative of kidney disorders, a spy placed there by nature; listen to his warnings and take up the weapon, strike before disease is reinforced with allies that can not be routed by hand of man, such as Bright's disease. Let us introduce to you this weapon! Let us prove its superiority to all others! Here is a blow it struck:

Mr. Charles H. Hoffman is a fireman on the M. C. R R., and resides at 132 Ten Eyck Street, Jackson, Mich. He says: "I have suffered for a long time from a kidney and bladder disorder which has at times rendered me incapable of work; have been at the hospital for my complaint and discharged from there as cured, but the old complaint has invariably come back again. Some time ago I heard of Doan's Kidney Pills, and I began taking them, with most gratifying results. Urinary complaints which bothered me greatly are very much improved, and the pain I suffered in my back has entirely left me, my general condition is much improved. I would not like to be without Doan's Kidney Pills, I think others should know what a valuable remedy it is."

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1880 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, Vital Debility and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

What is an Emulsion?

Milk is a true Emulsion, and as milk or cream is easier to digest and assimilate than butter, so is milk or cream of Cod-liver Oil easier to digest and assimilate than raw Oil. This is why Scott's Emulsion is much more useful and effective than the natural Oil; why it accomplishes so much in arresting waste and building up the body.

But it is much more than ordinary fat food. It has other constituents that have wonderful healing and strengthening power, and in addition we add the hypophosphites (or Phosphorus), another most important element in overcoming decreased vitality or loss of flesh. These are the reasons why Scott's Emulsion is benefiting to-day hundreds of thousands of consumptives and anæmic persons, as well as being a food-remedy for sickly, wasting children that is surprising both to physicians and parents.

"Celluloid" Collars and Cuffs are made by covering a linen collar or cuff with "celluloid," thus making them strong, durable and *waterproof*. When soiled they can be cleaned by simply wiping off with a wet cloth. No other waterproof goods are made with this interlining, consequently no other goods can possibly give satisfaction. Do not forget that every piece of the genuine is stamped as follows:

TRADE CELLULOID MARK.

Insist upon goods so marked and refuse anything else if offered. If your dealer does not keep them you can procure a sample from us direct by enclosing amount and stating size and whether stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

BRITTON BUDGET.

Hot, dry and dusty.

Mrs. Bannister is on the sick list.

Lloyd Ward spent Decoration Day in Ida.

Ben F. Beasley was in Detroit Wednesday.

Mrs. Smith, of Blissfield, visited here this week.

The Britton Giants will play Monroe June 11.

Work is progressing rapidly on the new church.

Mrs. Ezra Sink was in Adrian on business Tuesday.

The Kaltin tile works have started for the season.

Several Brittonites saw the elephant in Toledo this week.

Fuller, of the Britton Giants, pitched a game yesterday.

Mr. Wood, of Alverton, is visiting at his son's L. L. Wood's.

John Gibson recently shipped eight loads of baled hay.

Mr. and Mrs. Chester Lynn were in Adrian Tuesday on busfness.

Misses Young and Steidle, of Milan, visited friends here Wednesday.

Eric Brown, of Dundee, spent a few days with his brother Frank this week.

Frank Gibson and his father-in-law saw the elephant in Toledo this week.

L. Gripton, formerly of the White Armacy, is now working in the brick yard.

Mrs. Gorham has moved into the house formerly occupied by Wayne Wilson.

Mr. Beal and Miss Norgot, of Ypsilanti made a call on Ben Pulver last Sunday.

The stocker's elevator is still here and the foundation is being laid under it this week.

Theodore Allison, of Britton, and Ella Southard, of Ridgeway, were married Wednesday.

Many Brittonites obsserved Decoration day in Tecumseh and incidentally took in a ball game.

Three cars of stock were shipped by Gorton this week. This has no reference to Pullman sleepers.

Gorton rode to Dundee Sunday on his wheel. The wheel broke down. Gorton walked on his feet.

Lowe and Bigs assisted the Tecumseh team in their game with the Adrian college nine yesterday.

Mrs. San Underwood with the Masonic dedication ceremonies at Manchester Tuesday night.

Notice and the change in date of Miller's concert from May 30th to Friday night, June 1st. Be sure to remember the date. Their entertainments are highly recommended.

Mr. Strickland, of Hillsdale, who is now in Marshall, was in Britton first of the week. Elder Strickland formerly filled the pulpit of the church here and his many friends were glad to see him once more.

The Britton boys have been scraping, rolling and generally fixing up the baseball grounds and the diamond will be in better shape for business than ever before. The grand stand, however, is the drawing card and will doubtless be filled with ladies at every performance. Arrangements have been made for a good game tomorrow.

Walter Exelby, in diging for water, struck a vein of strong mineral water with a strong taint of sulphur, at a depth of 119 feet. The water is somewhat like the Mt. Clemens mineral water and is no doubt very valuable for medicinal purposes but Mr. Exelby, in his present condition of health, prefers just plain every day common water.

Memorial Day was observed in Britton by exercises in Britton's grove. The Rev. Raderus gave an address befitting the spirit of the occasion. The graves of the departed were then decorated at Ridgeway. Although the exercises, etc., were on a somewhat more modest scale than they have been in the past, they were conducted with none the less fervor by the faithful who will never forget their fallen comrades.

Many of the heads of Britton people were as badly swelled by the prospects of suddenly fame and wealth as those of Ogden, for instance, not a hat could be worn in town not even a bonnet. On George Gorton's farm gas has escaped from a certain piece of ground for over 60 years. Last week Mr. Smith piped out the gas and a steady flame was maintained till extinguished by water. This is not as large a flow as some in the world but it is certainly one of the most reliable kind.

—NOTICE TO FARMERS.—

Britton can show already excellent colts the product of my well bred stallions and for fear of contradiction, we invite the people of Ridgeway and Lenawee county and surroundings, to the fact that we have as good strains of Clydesdale blood as Scotland can produce. Terms $10, when six days old and all within 1 1-2 miles east and 1 mile south of Britton. JAMES WRIGHT.

That are Hard to Get Around.

It is a fact that the tide of emigration is coming East. The western people, from the prairies of Dakota, Nebraska, Kansas and Nebraska, find that they can get from the C. S. Graves Land Company, R. 311, 56 5th Ave., Chicago, (see advertisement in this paper) good farming land in Central Michigan, Clark county, at a normal price. The quality as good, if not better, than their western lands, with no blizzards, cyclones or droughts and with plenty of water, fuel, and best of markets. Experience has led them to appreciate these advantages. 1w

RIDGEWAY RAMBLES.

With this issue we close our eleventh year as correspondent for the HERALD.

Prof. Martin Palmer, wife and son, of Jackson, spent Sunday with Mrs. Palmer's father, D. W. Loree.

T. H. Montgomery has a pair of glasses in his possession that the rightful owner may have by calling at his home.

Do not forget the baccalaureate sermon by Rev. Cansfield next Sunday evening, at the church, before the school.

Elder Cansfield and Mr. and Mrs. T. H. Temple, attended the County Sunday School Convention held at Hudson this week, as delegates.

It is evident that Fred Clark proposes to take advantage of the beef trust as one of his fine cows gave birth to a pair of twin calves last week.

Upwards of forty of the members of the Epworth League attended a reception given them by the League of Dundee, on Friday evening of last week, and report a right royal time.

Remember the Epworth League experience social to be given at the church on Friday night of this week. Ice cream will be served for 10cts a dish, and will be furnished to the league by Mrs. Van-Antwerp of Tecumseh.

The Superintendent of the poor of the W.C.T.U., with her assistant, secured upwards of five dollars, in provision and money, for Bloomfield Sherman and family and gave it to them Monday evening, which was very acceptable as Mrs. Sherman has been unable to do any work for several weeks from at attack of rheumatism.

The attendance and interest at the Home Missionary Society Dist. Convention held here last week was good. It was one of the finest conventions ever held in the village, and the ladies of the society are deserving of a vote of thanks by the citizens for securing such an interesting and instructive organization to be held here. From first to last it was a grand success.

Theodore Allison and Ella Southard went to Saline this afternoon, (Wednesday,) where they will be united in marriage by Rev. Yager, Elmer Linn acting as best man and Miss Edna Swick as bridesmaid. They will visit friends at Azalia before their return. They will begin housekeeping at once as they have everything in readiness. We, in behalf of their friends, extend our congratulations and best wishes for a prosperous and happy journey through life.

HOLLOWAY HASH.

May has been a very cold and disagreeable month.

Tom Hartman and C. T. Ratts were callers in Adrian Saturday.

Miss C. E. Winship returned Saturday, after a pleasant visit at Fairfield with friends.

Ice cream is served to the public at the Hartman parlors every Saturday evening.

The Christian Endeavor society elect new officers Friday evening, for the next six months.

Children's Day will be observed Sunday, June 9, at the Presbyterian church with appropriate exercises.

Mr. Copeland, of London, Canada, returned home after a pleasant visit with his cousin, Merchant Brown.

A fishing party went to the lake Saturday. Have not learned how much luck they had catching fish.

The A. O. Miller family, of Blissfield, gave a musical entertainment to a small audience at Holloway hall Saturday evening.

Mr. Anderson, of Sparta Center, is here at the bedside of his daughter, Mrs. James Ash, who is very ill. Her recovery is doubtful.

Working on the road is the go at present, but the improvement is a detriment to the roads as they were in better condition to drive on than they are now.

Holloway Creamery is booming, as they now receive 8,000 pounds of milk daily. Mr. Ratts has secured the assistance of John Moore. Success to the enterprise.

The Ladies Social was entertained at the spacious residence of Mrs. Horace Holdridge and a very pleasant afternoon was spent by all. The refreshments were very fine.

MACON MUSIC.

Miss Grace Norris is the guest of her aunt, Mrs. Skinner.

Will Harring has bought the Sanford place—but he has rented it.

Miss Sarah L. Harriot is staying at Mr. Warner's, in Mooreville, at present.

Don't forget the musical entertainment to be given for the benefit of the C. E. June 5.

A number of Macon young people went to Tecumseh last Sunday night to hear the Memorial sermon given by Mr. Ramsdell.

The next regular meeting of the Ladies' Aid Society of the M. E. church will be held at the home of Mrs. Libbie Ellis, June 5.

There is one item of news which no one seems glad to hear, that is that the Dorrell-Miller suit commences again June 3 at Adrian.

The adjacent schools, which are to join with our own in the Decoration Day services, met at the school house Saturday to practice.

At the meeting of the Consistory of the Reformed church they finally decided that the new church is to be built after the model of the Friends church in Tecumseh, except that it is to be somewhat larger and a tower is to be added.

The Y. P. S. C. E. will give a musical entertainment at the Macon M. E. church, Wednesday evening, June 5, for the benefit of the new Reformed church.

TRASK'S Magnetic Ointment.

The worst Sores, Bruises, Cuts, Burns, Scalds, Skin Disorders, Sore Throat, Croup, Rheumatism, Lameness, Piles, and all external and internal affections characterized by INFLAMMATION, yield to its influence as if by magic. It is a purely vegetable preparation by a regular physician of eminence, and its success has been marvellous in the most obstinate cases. Sold by Druggists and Dealers at 25 and 40 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural functions of the skin and equalize the circulation of the blood. By this means a controlling power is gained over the most malignant forms of disease. It penetrates to every portion of the human frame; every bone, muscle, vein, nerve and ligament is searched out and made sensible to its soothing and healing influence. Hence it copes readily with internal as well as external disease.

Over 40 Years.

This Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have no space here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this notice who have never used this Ointment, to frankly state their experience with it to inquiring friends. If but one in a hundred would do this we should be perfectly satisfied with the result. Full directions for use will be found on pamphlet around each bottle.

Price 25 and 50 cents per bottle. Sold by all dealers in medicine.

Tecumseh Honors Memorial Day in the Old Way.

PARADE AND THE PROGRAM.

A Full Report of the Celebration, Yesterday, in Honor of the Nation's Heroes.

Notwithstanding the intense heat of yesterday, a large crowd assembled, both of veterans and citizens, to participate in those annual exercises, which, since the war, have become a regular matter of observance throughout our land, and no where in a more earnest and patriotic way than in Tecumseh. It is not alone that Tecumseh has a zealous post of the G. A. R., well supported by the W. R. C., but all her citizens unite on Memorial Day to give their grateful offering to the memory of those who did and died.

The floral offerings were ample, having been collected at the Armory and, as usual, made into wreathes for decorating the graves, a goodly supply being reserved for the floral wagon. The floral car, which might well be termed a float, was perhaps the most complete and beautiful one ever gotten up by our citizens.

Beers Post, the W. R. C. and the floral car were escorted from Chicago street to Monument Square by Co. C and the Tecumseh Cornet Band. One thing is necessary to a proper observance of Decoration Day, and that is a good band. Yesterday we had the band, and the boys are deserving of praise for the hustling they did to make so creditable an appearance. Vocal music was furnished by the Methodist choir. The program was carried out almost exactly as previously arranged and as published in last week's HERALD. After music, and a prayer by Rev. J. P. Varner, Rev. W. R. Blachford delivered the oration, of which we can only give a brief synopsis.

"The inauguration of this custom is largely due to the efforts of the G. A. R. and W. R. C., and all praise be to them for their deserving work in perpetuating a pride of country through times when all public zeal is so apt to be given up to politics. The soldier is greater than the politician. The soldier gives up self for country. The politician expects his country to give up much for him and his personal interests. Today, as in the time of Sparta, the army and navy still remain the wall of our country, and every man is a brick within the great bulwark of our liberties. We all look upon the scene of public life from the standpoint of our various professions. From the standpoint of a clergyman, a man who will not fight for his religion cannot justly be termed a christian, no more than the man who will not fight for his country can be termed a patriot. We all need courage today, and no quality of the human heart receives higher praise than that of bravery. Bravery is always honored, even though unsuccessful in its aims and endeavors. Today we look upon a country of peace and prosperity; but let us not forget that these conditions were purchased by a nation's courage and must be preserved by a united and continuous exercise of that virtue. The speaker also upheld the justice of the soldier's pension and deservedly scored the selfish political tendencies of the present time."

Immediately after the exercises at the square the procession was formed and the march to the cemetery was made as previously announced. Here the organizations decorated the graves of their departed comrades with appropriate floral offerings. The impressive memorial service of the G. A. R. was read by its officers, the salute was fired, and for another time the tributes of grateful hearts were paid to our nation's dead.

Opinion of a Would-Be Saloonkeeper.

A real-estate agent in Buffalo sends some interesting letters. They are three in number. The first is from a resident of Punxsutawney, Pa., who had seen the real-estate agent's advertisement in the Buffalo Express, and wrote to the agent, saying he wanted to buy out a saloon and asking what he could get one for in Buffalo. In reply, the agent wrote a caustic letter, expressing his views of the saloon business as "the cursed enemy of all civilization everywhere," and expressing the wish that his correspondent, if expecting to conduct such a business, would not come within a hundred miles of Buffalo. This brought forth the following reply from the would-be saloon-keeper:

Mr. ——, BUFFALO, N. Y.:

Yours of the 11th is at hand; thank you kindly for answering my letters You will please to read the left-hand corner of my envelope; that explains my business exactly. I have never been in the saloon business in my life. I also admit all you say of the busines, being a curse, and why, let me ask you, is it allowed to go on? Simply because the church members vote for it. Men who say 'I am the follower of Christ' make and control whisky laws. If all men who have their names on the church roll would come out in a body and vote against whisky, there would be no saloon-keepers; drink would not be in existence. And why do they not do that? Simply because nine-tenths of those same members have an interest, directly or indirectly, in a hotel or saloon. They stand back and belong to a church, but use their influence and their vote to give the saloon man a right to sell the most damnable stuff on earth, that they may reap some of the profits. They will sign their names to his license paper—go on his bonds. They will also go around and beg the money he has made in his damnable business to give to the church.

A few years ago in this State they put it to vote: whisky or no whisky? The voice of the people should decide it. The churches rose up in a body and voted for a law to give men a lawful right to sell it, and I think to-day that the man that will belong to a church and vote for whisky is not as honorable as the man that runs a saloon. And just as long as there are church members reaping benefit off of saloon money just so long there will be saloons.

Yours very respectfully, ——.

PUNXSUTAWNEY, PA., March, 1895."

A postscript reiterates the wish that the agent would look up a saloon for him.

Now we don't propose to drivel any over the writer of this letter. His attempt to excuse himself for his desire to go into what he admits is a "cursed" business by pointing to church members who are equally mean or meaner is a sniveling piece of work. A man has no more right to be mean outside the church than he has to be mean inside the church. Nevertheless, however poor an opinion we may form of the motives behind the letter, the truth that the letter tells is worthy of consideration. A diamond in a swill-barrel is still a diamond, and the truth in the mouth of the gin mill-keeper is still the truth.

Is it true that the liquor business goes on because the church members vote for it? There are about four million church members in this country who are voters, and their votes have the power, beyond doubt, to destroy the business. But the business is not destroyed. Conclusion number one: The letter tells the truth on this point.

Is it true that nine-tenths of these church members who are voting that the saloons are not destroyed are themselves interested directly or indirectly in a hotel or saloon? Undoubtedly a large number are interested in a pecuniary way—they rent buildings for saloons, or manufacture articles bought for saloons, or have saloon-keepers or their families for customers, or patients, or clients. But we do think that anything like nine-tenths—perhaps not more than one-tenth—are interested in the business in this way. But politically they are interested in the license fees that come from the traffic, and they are voting so that those fees are not imperiled. Conclusion number two: The letter tells the truth again.

Is it true that in the Amendment campaign in Pennsylvania a few years ago "the churches rose up in a body" and voted for license? No, that is untrue, for the churches have no vote. Nor did they rise up "in a body" in favor of license. The way the churches were worked was indicated by Harry P. Crowell, manager of the liquor-dealers' campaign in Pennsylvania, in the celebrated "confidential" interview with Colonel Cheves, as follows:

How did you manage, Mr. Crowell, to get so many ministers on your side?

Oh, that is the easiest thing out. No, I did not go to the preachers as I did to the politicians, but I always found out a good man in the church who could work the preacher with but very little trouble, for half the preachers are cowards. Then I hired, for so much a name some old broken-down newspaper man or politician to go around with a petition and get the names of ministers and lawyers, which we published with fine effect.

It is evident from this that it was not the church "as a body," but the church members as individuals that were worked. The liquor-dealers seem perfectly satisfied to let us have the churches "as a body" so long as they have the church members as individuals.

Is it true that "the man that will belong to a church and vote for whisky is not as honorable as the man that runs a saloon?" This is rather startling, and just as it stands, would not, we fear, pass microscopic inspection at the hands of an acute professor of moral philosophy. But if it be taken to mean that the action of a church member who knowingly votes for the continuance of the saloon is more dishonorable than that of the man who goes into the saloon business, then the statement is a correct one. The action of the former is not only more dishonorable, inasmuch as it is in violation of the principles he profess to follow, but it is vastly more damaging. This is susceptible of mathematical demonstration. The man who keeps the saloon makes himself responsible for the consequences of one saloon. The man who votes for the continuance of the saloon system makes himself responsible for the consequences of the system. As there are about 45,000 saloons in the State of New York, it follows that the man who in this State casts a vote for the continuation of the system throughout the State shoulders about 45,000 times as much as the man who keeps a saloon but does not vote at all.

It is a "hard saying," but is it not true?

PEACEFUL BE THY SLEEP.

Clara B. Hayden bid farewell to her earthly home at an early hour last Saturday morning. She was born in Tecumseh, in the same house from whence she was summoned to the other shore. She received her education in the Tecumseh schools and entered womanhood with a lofty ambition and bright prospects for future usefulness. But Providence had ordained otherwise and ill health was her earthly lot. In the fall of 1892 she took a European trip, her sister Mabel being then in Germany, hoping that a sea air and change of climate might be beneficial; but her hopes proved delusive. In the spring of 1893, accompanied by Miss Mabel, she came home much the worse for her journey. It was feared that she might not survive the trip across the Atlantic. She bore the journey like a heroine, but since her return, the sands of life have been slowly and surely ebbing away. Last Saturday morning the struggle ended and she sank peacefully to sleep.

The funeral obsequies were held from the family residence Monday afternoon. A large company of friends assembled to pay their tribute of respect to one whom they had loved in life. The members of Co. C attended in a body and escorted the hearse to the grave. The burial service from the Episcopal ritual was read by Right Rev. Bishop Davies, who was assisted by Rev. Channer, of Adrian, and Rector W. R. Blachford, of St. Peter's church. All the children were present except Miss Mabel, who is in Texas and could not return in time for the services.

The family have the sympathy of all in this hour of trial. They have the consolation, however, of realizing that everything which human foresight and skill could accomplish, to prolong Clara's earthly journey, was done. The love of father and mother, the kindest care of brothers, the best of medical attention, the most unremitting watchfulness, prolonged both night and day for many months, have been lavished upon the object of their devotion. During these years of suffering Clara herself displayed all the qualities of a heroine. Never complaining, never fretful, always faithful, always hopeful, she exemplified in her daily life the saying of the Master: "Not my will, but Thine be done." "Hope springs eternal in the human breast." Even to the fatal hour when the summons came, she had never yielded the hope that in some way, in God's own time, she would be restored to health. Loved and loving child! Thy earthly sorrows are over. Thy earthly vexation is ended. Peaceful be thy sleep.

TO THE OTHER SHORE.

After a lingering illness, Joshua Taylor departed this life on the 9th of May, 1895. Although feeble for months, life terminated suddenly, as he had taken his supper with the family that day and walked from one room to another not more than ten minutes before the end came.

He was born in Burlington County, New Jersey, December 14th, 1814, came to Michigan in 1837, and settled in Tecumseh. In 1843 he was married to Mary Comfort, who survives him, and with whom he lived nearly 52 years. In 1847 he moved to his farm in Raisin where he was living at the time of his death. The youngest son, Lewis Taylor, died May 14th, 1881. Five children are still living, all of whom were present at the funeral.

The life of the departed was one of simple goodness, which is a precious legacy for his sons and daughters. He was one of nature's noblemen, faithful to every trust that Providence had imposed upon him, both in the family circle, as a neighbor and a citizen. His life was one of temperance, probity and honor, and he was always prepared to obey the summons to mansions not made with hands, eternal in the heavens.

A WORTHY CITIZEN GONE.

Jeremiah Root, the subject of this humble tribute, was born at Painsville, Ohio, July 9th, 1832. Of his youth and early manhood we have but little knowledge, but his usefulness in later years is an earnest that his early life was well spent. In those years he laid the foundation of a manly character and planted the seed which ripened into an honorable business career.

On the first day of April, 1865, he came to Michigan and entered the employ of Wm. Hayden, and for the ensuing twenty-seven years and more he was closely identified with the growth and business career of the Globe Mills. During all that period he was Mr. Hayden's trusted manager and confidant and the wonderful prosperity that has attended this milling industry was due in a measure to Mr. Root's faithful and judicious services. He severed his connection with the mill July 9th, 1892, and since that date has given his personal attention to his shipping interests on the lakes, in which he was a partner with Mr. Hayden and Capt. Chilson.

Although not possessed of a rugged constitution he had always possessed good health and was apparently destined to enjoy his well earned retirement from business for many years to come. On Monday May 20th, he went to Toledo to look after his business affairs there. On Tuesday he was about town and ate his meals as usual. After supper he dropped upon a couch in the sitting room and a few moments thereafter he was discovered to be dying. Before a physician could be summoned he had left this world for the other shore.

The funeral services were held at the family residence on Friday afternoon, May 24th, and were conducted by Rev. W. R. Blachford, the deceased having been for many years a communicant of St. Peter's church. The Masons attended to the number of nearly one hundred, acted as an escort, and directed the ceremonial at the grave.

To those who knew Jerry Root, as he was familiarly called, no eulogy of his life is needed. In his business relations he was the symbol of probity and honor. In the home circle he was a model husband, a kind and affectionate father. As a citizen he was enterprising, generous and progressive. During his service on the Village Council he left the impress of his character upon many public improvements. But in his social relations no one can overrate his virtues. Always kind and gentle, always cheerful and happy, always faithful to friends and family, none knew him but to love him, none named him but to praise. The bereaved widow and daughter and sons were not the only mourners at his bier. The Masonic brethren, the neighbors, even the little children, were all mourners there, and when the casket was lowered into its narrow bed and the sprigs of evergreen were dropped into his grave, all felt that a noble man and worthy citizen had gone to his eternal rest.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Pass in your orders.

Table Talk.

The chief aim of Table Talk, the American authority upon culinary and household topics is carried out as admirably as usual in its June number. The special departments are full of the newest and most useful hints for the kitchen, dining-room, parlor and library, as well as for the inmates thereof. Besides these, there is another of Dr. H. H. Hauxhurst's valuable articles on "Infant Feeding," also a delightful description of Wells College—past and present, by Miss Lucy Elliott Keeler. Those who do not know this magazine had better send to Table Talk Publishing Co., Philadelphia, for a sample copy, which is offered to any of our readers, free.

LOVLIEST VILLAGE OF THE PLAIN.

Beautiful Tecumseh, the Pioneer Town of the Banner Agricultural County of Michigan.

HER BUSINESS HOUSES AND MANUFACTURING ESTABLISHMENTS AND PROFESSIONAL LEADERS AS THEY ARE TO-DAY.

What Tecumseh is Doing To-day and Her Prospects for the Future—A Budget of Business Gossip That will Interest Both Old and Young—So Far So Good—Now for that Bicycle Factory.

In the month of June, 1824, the pioneer party, consisting of Gen. J. W. Brown and his associates, camped one afternoon on the flat just north of where Henry Smith's paper mill now stands, and from that event dates the foundation of Tecumseh. For twenty-six years thereafter, or until June, 1850, the village passed through the vicissitudes incident to all frontier settlements, and when the HERALD'S flag was unfurled in the business firmament on May 25th, 1850, the town had a population of about one thousand inhabitants. What changes have taken place here during the past forty-five years! The population of Tecumseh has increased three fold and her wealth probably ten fold during this interval. All of our best residences have been erected or modernized since then; most of our manufacturing establishments have been started; all our school houses have been erected, save one, and all of our churches, with one exception; there were but two brick blocks on Chicago street at that time—the Union block, west of the railroad, and the three Anderson stores east, while the entire western part of the village above the present Friend's church was an unbroken common, without a dwelling house thereon. What Tecumseh is to-day can be gathered from a perusal of these pages.

CHAS. A. SLAYTON.

Among our younger business men, no man stands higher in public esteem than Mr. Slayton. He began his business career just thirty years ago this spring, as assistant in his father's office, and he knows every nook and corner of the establishment. In 1885 his father retired from the firm, and since then he has been proprietor and sole manager of the concern. His sterling integrity, temperate habits and tireless industry form a combination that has built up a splendid business. In addition to his former lines of feed, grain, etc., he has added a stock of carriages and wagons, and he now has the most complete carriage repository in Lenawee county. He also carries an immense line of agricultural implements and machinery and sells both hard and soft coal. He has lately rented the John A. Heck building to afford additional storage room for his increasing stock.

CHARLES HECK.

The Steam Mill, which has been conducted by Chas. Heck since his father's death, has grown into quite imposing proportions. The firm of Wm. C. Heck & Son took possession of the property in August, 1891. For the last eighteen months the present proprietor has been sole manager. The mill is fitted with the best rollers and other modern machinery, and also has special burrs for the grinding of feed and buckwheat. Mr. Heck makes a specialty of these. His brands of flour are the Peacemaker, Favorite, and a new brand recently introduced, called the "Old Gold." The latter has proven to be a superior article of pastry flour and is meeting with great favor wherever introduced. This mill has evidently settled down to stay and the owner has a good business prospect before him.

ORR & TEMPLE.

Jno J. Orr is one of our hustlers. In Feb., 1888, he opened a drug store in the Waldo building, and it was a success from the very start. In December 1893 his stock was entirely destroyed by fire. But he was not one of those timid souls, who get discouraged under misfortune. He got his insurance adjusted, found an excellent partner in the person of Frank Temple of Ridgeway, and upon the 24th day of Feb. 1894, the new firm opened an elegant drug store in their present location. The store is a model one in all its appointments, and the stock as complete as one could find in a town double the size of Tecumseh. Some medicines of their own manufacture, they are working up a good wholesale demand for, among them being Orr's Sarsaparilla and Orr's Constipation Pills. They have the nucleus of what may develop into a large wholesale business some day.

THE LILLEY STATE BANK.

Forty years ago next Wednesday, on the 5th day of June, 1855, Mr. Lucius Lilley began business in the same room now occupied by this bank. In 1860 the firm of P. Bills & Co. was organized. In 1865 Mr. Lilley organized the National Bank of Tecumseh, which went into voluntary liquidation in 1874 and was succeeded by the firm of Bills, Lilley & Co. Upon the death of Mr. Bills in 1880 the firm of Lilley, Bidwell & Co. was organized. In the year 1893 the house was again reorganized, under the state banking law, when the present title was adopted, Mr. A. L. Brewer being then admitted as a stockholder. The present officers are: President, Lucius Lilley; Vice President, Albert L. Brewer; Cashier, L. P. Tribou. Every change in the firm has brought enlarged capital and increased influence. Thus, for forty successive years, this house has continued practically under one management and has justly been recognized as one of the strongest financial institutions in Southern Michigan. A faithful record for stability and fair dealing extending through all the panics and dull periods of the past forty years should count for something in public confidence and esteem.

THE GLOBE MILLS.

Among Tecumseh's leading industries, the old Globe Mills stands in the front rank. Both in age and extent of its output, it has stood the test of time. The enterprise originated in 1833, while Michigan was still a territory, and the mill was completed in 1830, at a cost, with water privilege, of $140,000. Its early history was one of bad luck and varied vicissitudes, until Wm. Hayden purchased the property in 1858. With prudent management and business sagacity he at once placed the concern upon a paying basis, and the wheels of the old mill have been in almost constant motion since, with an occasional intermission for repairs. All the improvements in milling machinery have been adopted at once, and a large foreign trade directly with Ireland has resulted. The capacity of the mill is 300 barrels per day, and during the major part of the year it is run to its limit. Capt. Will H. Hayden is now business manager and an able assistant.

ALVA SPAYDE.

Mr. Spayde began selling clothing and gent's furnishings about twenty-five years ago and has been gaining new pointers about the business ever since. On the 22d day of September, 1887, he bought out the Kies Brothers clothing stock and in Oct. '89, he purchased Joe Wilson's shoe stock, since which time he has been doing a heavy trade in both these lines. Last fall he moved into the two new stores in Masonic Temple block, where he is now located. Mr. Spayde possesses a natural aptitude for a mercantile business. A thorough knowledge of his vocation, a genial, friendly manner, strict attention to details, and an unflagging industry that never tires. He is now finely established, with an immense stock and good assistants, ann his continued prosperity is assured.

JAMES LOWRY.

In years of service Mr. Lowry is the oldest grocer in Tecumseh. He served five years as clerk and then began business on his own hook in January, 1877. By faithful devotion to all the details of the business, strict integrity in his dealing with customers, with habits of industry and economy, he gathered a long line of patrons and built up a lucrative trade. In June, 1891, having outgrown the accommodations of one store, he rented a second store in the Lilley House block for the crockery department, and since that date he has managed a double store, which is the largest grocery and crockery concern in Lenawee county. His long experience in the business enables him to buy goods at rock bottom prices and to satisfy the wants of his patrons. The result has been a constant and healthy growth in trade, and he richly deserves the success he has achieved.

ANDERSON & CO.

This firm is known as one of the leading dry goods houses in Southern Michigan. It started on a modest scale in 1855 under the firm name of Anderson, Larned & Co. The firm changed hands frequently during the ensuing twenty years, the Andersons always being the leading stockholders. Seven years ago the senior partner, Webb Anderson, retired and the name became Anderson & Co., with Fred Rosacrans and John Anderson as assistants to S. W. Anderson, their business manager. The business outgrew its old quarters more room was needed, and since 1888 the firm has occupied three stores, adjoining each other, on Chicago street. Their home trade is a healthy one and their outside custom has grown into large proportions; scarcely a day passes on which they do not receive mail orders from distant points. The house is doubtless at present the heaviest mercantile firm in the "Southern Tier."

E. F. KIRCHGESSNER.

Ed. does not belong to the old guard among our business men, as he has lived here less than five years. He opened a store in the DeWolf block, in May, 1891. In June, 1893, he bought out Hosmer & Son. In May, '94, he purchased Mr. Kinney's block, and moved into his present location. Thus, during the brief space of four years, from an humble beginning, he has developed one of our best and strongest business houses. His stock is a large one, consisting of everything usually kept in a book and jewelry store, such as silverware, clocks, watches and fine jewelry of all kinds, school and miscellaneous books, stationery and notions. His optical department has acquired a well deserved reputation. He is a graduate of the Chicago Opthalmic College, and his training in this direction enables him to fit eye glasses and spectacles to the best advantage. If you want a new pair of "specs," call on Ed.

H. BREWER & CO.

The original firm, which started the old foundry and machine shop on the present site, was Anderson & Strong, and the first entry made in their day book was on July 28, 1848. The firm had many changes in membership during the next thirty years. Horace Brewer became a partner in 1851 and from that date until his death in 1881 he was the controlling spirit of the concern. The present house is very efficiently manned: Albert Brewer is general manager; P. S. McKinnon, office and local manager, with H. E. Stout and Hendrick Heesen foremen of the shops. They manufacture the celebrated Sword & Tiffany brick and tile machines and have sold their machines in nearly every state in the Union. Although compelled to work on short time, the shop was not shut down a single week during the past two years of business depression, which speaks most emphatically for the strength and stability of the house. It is justly regarded as Tecumseh's leading manufacturing industry.

A. W. SLAYTON.

Mr. Slayton began business in Tecumseh in 1866, when he established the lumber yard now conducted by Temple, McClure & Co. Many changes have taken place since then, but he has always held his place among our most wide-awake and enterprising business men. He is still on deck and doing more trade than ever before. Gus claims to have seen signs, in his own experience, of returning prosperity. He has sold more lumber, shingles and cedar poles thus far in 1895 than during the twelve months of 1894. The secret of this increase lies in the fact that he buys exclusively for spot cash, not even taking the usual ten days' allowance, and hence he can sell cheap for cash. He has sold 1,000,000 shingles in the last three months and his sales are constantly increasing. His yard here is a branch of his Detroit yard, which contains an unlimited supply.

KENNEDY & ROGERS.

Although a new firm, it is rapidly forging to the front. A. E. Kennedy started a news room in this store in 1880 and conducted that business for nearly thirteen years. The present firm was organized Feb. 26, 1894, and they have since carried one of the best grocery stocks in town. Both partners seem to be admirably fitted for that line of trade and their increasing custom has forced the building of an addition, which is now being constructed.

N. M. SUTTON.

Although one of our largest farmers, Mr. Sutton is also classed among the business men of Tecumseh. For many years the firm of Sutton & Swan did a heavy hardware business here. When the new opera house was built in 1878 he took the largest slice of stock and has been increasing his holdings ever since, until now he is the sole owner and manager of the property. He is justly regarded as one of our leading and solidest business men.

TECUMSEH STATE SAVINGS BANK.

This institution was organized and commenced business, as a commercial and savings bank, April 24th, 1893. Although but two years old, it has already taken rank among the soundest financial institutions of Lenawee county. Its present officers are: President, O. A. Slayton; vice president, B. C. Knapp; cashier, J. H. Smith; directors, John D. Shull, C. A. Slayton, D. C. Larned, B. C. Knapp, Joe Russell, H. W. Conkling, L. D. Dewey, A. D. Gilmore and C. R. Miller. The success of the bank are due in large measure to the efforts of the stockholders, whose business reputation and integrity stand unquestioned. Also to its courteous and liberal treatment of its customers and its willingness to share its profits with depositors. It has a savings department, into which the man with $1,000, or the man with $1.00, can place his money and receive a suitable return for the use of it. Interest at 3 per cent is paid on all savings deposits.

TEMPLE, MCCLURE & CO.

The plant now controlled by this firm was started on a small scale by Slayton & Caldwell. The present firm came into possession in 1882, and although changes have been made in the partners, it has continued under this title ever since, Mr. John S. Temple being the senior partner and active business manager. Many of the finest buildings constructed in Northern Lenawee during the past twenty years have got their lumber from this establishment. On the 6th day of January 1892, the whole plant was destroyed by fire. Nothing daunted however, the firm at once began their preparations to rebuild, and in the following June, work was begun in their new planing mill. The present is the best equipped mill in Lenawee Co. and they carry an immense stock of lumber of all grades. The concern ranks among the best and strongest of our manufacturing industries.

WILL J. INGERSOLL.

Among the attorneys of Lenawee Co. Mr. Ingersoll is rapidly taking a foremost position. He was admitted to the bar in 1893, and has already worked up a good practice, not only in Justice Court litigation, but also in the Circuit. In March, 1894, he was elected Village Recorder and is now serving his second term in that office. His habits of industry and his personal worth will certainly win success in his chosen profession.

I. B. RICHART.

Mr. Richart opened a wagon shop in Tecumseh away back in 1865, in one of G. W. Griffith's buildings. In 1870 he moved to his present location on Logan street, where he has been plying his vocation ever since. He is one of our best mechanics in making and repairing wagons and sleighs, and hence he has always had plenty of work, even in close times. The superior quality of his work speaks for itself and will keep him busy twenty-five years more.

B. F. REYNOLDS.

Ben Reynolds cried at his first auction sale in the month of April, 1870, and he has been singing the same song every spring and fall for twenty-five years. During all this period he has managed a large farm in Franklin, although for the past fifteen years his residence has been in the village. His extended acquaintance and aptitude for that calling make him a very successful auctioneer and his services are in demand for many miles in all directions.

WM. J. ARNOLD.

On the first day of April, 1870, the Arnold Brothers opened a bakery here in Tecumseh. In April, 1890, William bought his brother's interest and since that date has conducted the business under his own name. Thus for nearly twenty years he has furnished this town with a first-class bakery establishment. He keeps none but the best workmen in his employ, and always has on hand a full supply of fresh bakery goods of all kinds.

GEO. W. FRASIER.

Mr. Frasier came to Tecumseh in 1864 and soon after embarked in the bakery business where W. J. Arnold's bakery is now located. He conducted this for over ten years. He has frequently held township and village offices since. Two years ago he was elected Justice and opened an office July 4th, 1893, in Bidwell's block, where he now holds forth every day, holidays and Sundays excepted. He is one of the best Justices Tecumseh ever had.

BRYAN & ADAMS.

Frank Bryan, who is the active manager of the firm, bought Jno. Wilson's milk route July 1, 1889, and the business has been growing ever since. At that time there were 150 regular customers on the books. The number now is more than double. He has arrangements for cooling milk and delivers it in glass bottles—a great improvement over the old process. He is also prepared to fill large orders to private parties for special occasions, and to ice cream dealers.

Dr. B. F. Snyder.

Dr. Snyder has been pulling teeth for ailing humanity for about seventeen years last past, and it goes without saying that he has become pretty well versed in dental science. Nearly the whole of that period he has occupied the office where he now holds forth. He is thoroughly versed in all branches of dentistry, but has made a specialty of partial plates, in which direction he has worked up a fine practice. He is becoming a better dentist and a stronger single taxer every day.

Tecumseh Steam Laundry

Barkwell & Stickle bought out C. H. Hyde on the 20th of last February and they have been rushing business since that date. They have all the latest appliances and machinery for laundry purposes, having lately added to the establishment a large steam washer, which will be a great labor saver. Their superior work is gaining for them an extended reputation and they enjoy a large trade with surrounding towns.

P. M. Coller

Mr. Coller started a music store in Tecumseh nearly five years ago and is well pleased with his experience in that line. He believes that Tecumseh can support a good music establishment and he is just the man to manage it. His sales show a healthy increase. Good goods and low prices must be the cause of it. He keeps the leading pianos and organs in stock and a good supply of small instruments. He also deals in sewing machines, and keeps the best makes on hand.

Jas. M. Jones.

The firm of Jones & Hazlett dissolved partnership in September, 1891, and since that date Mr. Jones has conducted a merchant tailoring establishment of his own. Though young in years he is old in business experience and his fits always fit. He keeps a good assortment of suitings and cloths on hand, and has built up a fine trade. In addition to his Tecumseh custom, he has a nice trade with several of the surrounding towns.

Garlinghouse Brothers.

This firm have conducted a livery business in Tecumsen for eight years, most of the time continuously, and it is no flattery to say that they have the finest stock of horses and carriages to be found in Lenawee County. They own the property on Railroad street which they occupy, where they have a large and commodious stable with washing conveniences and all other accommodations. Their establishment is a credit to Tecumseh and the source of a fine income to the owners.

G. W. Jackson.

What a good thing to know where to get your carriage or wagon repairing done promptly and in workmanlike manner and at hard times prices. Mr. Jackson is just the man who will do all this. He will also gum and file your saws, repair and sharpen your lawn mowers, etc., and guarantees his work to give satisfaction. Mr. Jackson worked at his trade in Ridgeway 25 years ago and opened a shop in Tecumseh in 1885. He is now located at Hyde's old stand on South Railroad street, where he will give all orders prompt attention.

M. L. Gillen

Painting in all of its branches, kalsomining, and paper hanging is the vocation which Mr. Gillen has followed for twenty-two years, and this long experience he has put to good use. He came to Tecumseh in March last, and although a comparative stranger among us, he has already taken a place among our best artisans. His work speaks for itself, and every job of work completed to the satisfaction of his customer adds to his reputation. He has evidently come to stay.

David Macham.

On Saturday, June 25th, 1875, Mr. Macham opened a barber shop in Tecumseh, and his book shows the first day's receipts to have been $6.65. He has been bestowing upon bearded humanity clean shaves ever since. He moved into his present commodious quarters six years ago next October, where he has fine bath rooms in connection. He runs three chairs regularly. Dan Hubbard has held one of them ten years last February. Ed Holdway took one five years ago yesterday. This trio know how to manage a tonsorial room.

City Bakery.

On the 18th day of December, 1893, M. E. Bice opened the City Bakery, and began to supply this town with fresh bread and other bakery goods. The new establishment was a success from the outset. They make prime bread and pastry, which satisfy the palate. They also keep a fine assortment of confectionery, have lately put in a lunch counter, where warm meals are furnished, and their Tuffs's fountain furnishes a fine assortment of soft drinks. Ice cream is kept in its season, of which they make a superior quality.

James M. Ingersoll.

Mr. Ingersoll has worked at the tinner's trade thirty-five years, fifteen of which were spent in one store—Satterthwaite's hardware. In April, 1893, he opened a shop of his own on Railroad street where he has built up a nice business, within a few months. He makes a specialty of putting in furnaces and doing all kinds of special jobs in tin or iron. He is also an expert plumber, and has done much work in this line since the water works were started.

Anderson Bros.

The members of this firm served a long apprenticeship in the grocery trade with their father, Albert Anderson. In 1888 they embarked in business on their own hook, under the above title, and they have established themselves upon a solid foundation. They know how to cater to the wants of their costomers and always keep up with the times. They keep a full line of staple and fancy groceries and make a specialty of sweet goods. Give them a trial.

C. A. Wright.

Gus Wright began his training in the drug business in his father's store away back in 1865. For just thirty years he has been selling drugs and he is one of our young men yet. For business integrity and enterprise, no firm in Tecumseh stands higher. In addition to drugs he carries a line of groceries and a very large stock of wall paper. He has always enjoyed a lucrative trade, through dull times and flush times alike, and his success has been earned by years of faithful service.

E. L. Teeple.

Our popular photograph artist came to Tecumseh in February, 1892, and at once took a position in the front rank and gathered customers from far and near. He not only executes superior photos of adults, but has excellent success with children and infants. He also makes a specialty of outdoor and indoor views and large groups, and he is almost daily adding to his stock of negatives in this direction. He richly deserves the reputation he has won.

Hialey's Carriage Factory.

One of our oldest and soundest industries is the carriage manufactory of J. R. Hialey, who began as a blacksmith in 1848. In 1869 Mr. Hialey began business for himself and his practical knowledge of trade, coupled with natural business ability, soon brought to his shops a substantial and lucrative trade. The goods of these shops have always sustained the highest reputation for durability and honorable workmanship. His line of goods consists of carriages, buggies, road wagons, etc., which are mostly disposed of by wholesale.

Satterthwaite Bros.

The present members of this firm have been brought up from boyhood in the hardware business, having served for many years as clerks for Sutton & Swan. Four years ago they bought out their partner, Jas. A. Boyd, and since then have conducted the business alone. Although young in years, it is one of the strongest firms financially in town. They make a specialty of furnace work, metal roofing and siding, and plumbing for the water works and they have a well stocked sporting goods department.

Knapp & Osborn.

On the first day of March last B. C. Knapp and Walter Osborn entered into a combination, not a trust, but a simple business partnership, for the sale of agricultural implements. They have secured the agency of the Deering harvesters and mowers and also of the plows and other implements of the Gale Co. No better machines are made than by these two big concerns. They have rented Geo. Heesen's old store, which makes an excellent headquarters for them and they intend to push business from the word go.

Cutting Machine Co.

H. D. Cutting first established his machine shop in Clinton 24 years ago. In April 1892 he moved the business to Tecumseh and located in the Tiffany Iron Co's building, where the company did an extensive business in repairing, etc. When the Stimpson Computing Scale company located here the Cutting Co., took the contract of manufacturing the scale. The shops were then moved to the old Cummins carriage factory, where the company also make the Anthony Scale Remover, used for cleaning boilers, and other miscellaneous work.

James Montague.

Mr. Montague has run the Tecumseh Novelty store for the past seven years. His stock is rightly named, for it consists of about everything in the line of notions that a man, woman or child can conceive of. He makes a specialty of picture framing and enjoys a good custom in that line. The "Novelty" is a veritable bee hive in busy seasons of the year and the establishment has become a fixture among our business houses.

Frank Davidson.

Frank's father, "Uncle Sim," was for many years the most noted auctioneer in this section and it is no flattery to say that Frank is a chip of the old block. His services at auctions are in demand far and near. His extended acquaintance with men, his accurate knowledge of the value of farm property, and his ability to talk against wind and weather combine to make a successful crier. He keeps "going, going." May it be many years before he is "gone."

Will H. Bennett.

Mr. Bennett has conducted a livery business in Tecumseh since August, 1891. He has occupied three or four different locations, but is now in most convenient quarters just east of the Table Co.'s lot on Chicago street. He keeps a nice lot of rigs, which are well taken care of, as he gives his personal attention to all the details of the concern. He also runs a feed barn and makes a specialty of caring for farmers' teams. Owing to his convenient location, this is a prominent feature of his business.

C. A. Waldron, V. S.

Dr. Waldron commenced treating the ills of suffering equines in 1881 and by skillful treatment and hard work has built up a practice which extends over five counties. By a combination of professional skill and a high sense of the duty we owe to our domestic animals dependent upon us, Mr. Waldron has done much to elevate his calling to a place in every way equal to other professions. His extensive practice has made it necessary to fit up a barn and office at his place south of town with every apparatus and convenience for operating and treatment.

Dr. B. F. Steinhoff.

It is almost a pleasure to have a tooth drawn, when one is seated in the dental chair in Dr. Steinhoff's office. The Doctor has been pulling teeth for twenty five years, and has been located in the office he now occupies for eighteen years. He is not only a skillful operator, but is also a student in his profession, and hence keeps up with all the improvements in dentistry. He is successful in crown work and other methods of fitting artificial teeth.

Lewis M. Waldron.

Any farmer, who lives within twenty miles of Tecumseh and who owns a windmill, has heard of Lew Waldron. He began the business of putting up and repairing windmills about twelve years ago, and his name and fame have been extending since that time. He now keeps on hand a large supply of extras for all mills in this vicinity and has lately erected a large storehouse on his premises to house the stock constantly on hand.

Baker & Hall.

This house may be called one of our oldest business landmarks. Mr. Baker entered into partnership with Dr. Fisher in October, 1864. Upon Dr. Fisher's death D. T. Hall entered the firm, and they have conducted the business, in the same store, sixteen years next July. Thus Mr. Baker has conducted the business for thirty-one years, next October. The house enjoys a good trade and the confidence and esteem of the community.

John C. Hazlett.

In August, 1887, Jones & Hazlett opened a merchant tailoring establishment in Tecumseh. In 1891 they dissolved partnership and since then Mr. Hazlett has been paddling his own canoe to good acceptance. He is an experienced and very successful cutter and hence he always gives his customers "fits," in the tailor sense of that term. He keeps none but the best workmen and has built up a fine custom trade.

M. A. Zimmerman & Co.

The present handle factory was established in Tecumseh in 1890 by M. A. Zimmerman, who moved the business from Augusta, Mich., for a more favorable site. In February, 1891, S. W. Bordine bought an interest in the concern, at which time the capacity of the mill was increased and other improvements made. The present product is about 20,000 dozen of handles per year, consisting of a general handle stock of axe, pick, mall, hammer, etc., made of Michigan white hickory, and carriage work of forest hickory and ash.

Erskine & Guy.

Vet Erskine began wielding the razor in 1866, and continued the business for fifteen years thereafter here in Tecumseh. After an interval in other places, he returned here three years ago, and his tonsorial parlor on Chicago street now enjoys a fine custom. Mr. Guy, who recently entered the shop, has had twelve years experience in the business and the two make a strong team. They are skilled artists, have an elegant room and enjoy a fine custom, as they deserve.

Tecumseh Coal and Lumber Co.

The Tecumseh Coal and Lumber Co., which was incorporated in May, 1894, and transacts a general coal and lumber business at the plant formerly owned by S. W. Temple, have recently made a new departure. The company have put in a new line of groceries in their commodious office on Shawnee street and though the business has only been established a few months they have built up a substantial trade in the grocery line and have bright prospects for the future.

Wm. DeMott.

Mr. DeMott opened an insurance office in Tecumseh in 1868 and soon gathered a large line of fire companies, and also a district agency of the Northwestern Mutual Life. He possesses a natural aptitude for soliciting and for many years had the largest insurance clientage of any man in Tecumseh. In 1885 he sold out his fire business and has since given his entire attention to the Northwestern Life. He is nicely fixed now in a new office with Alfred James in the Masonic Temple block, where the latch-string always hangs out.

The Bidwell Stock Farm.

The Bidwell Stock Farm, now operated by L. I. and L. C. Bidwell, has long held a state reputation for the high breeding and individual excellence of both cattle and horses. Bidwell Bros. have now reduced their cattle to a fine herd of high grade Jerseys. The farm has become best known through its stables, at the head of which stands the beautiful Wilkes stallion, John L. No. 16,561, with a race record of 2:19 1-4. This horse, son of Bourbon Wilkes, is a noble animal, of fine individuality, combining large size, perfect action, and absolute soundness with great speed.

W. H. Smith.

In the fall of '92 W. H. Smith came to Tecumseh and began the business of wagon repairing and wood working near Tom Elliott's shop. He now has a commodious new shop, fitted up with every convenience for his work. Though Mr. Smith does general carriage repairing of all kinds, his specialty is new work and re-modeling of special orders and designs of wagons. Of this kind he has turned out the most handsome and useful wagons ever seen in Tecumseh, among which are the village hose wagon, Lowry's and Avery's delivery wagons and Bryan's milk wagon.

Tecumseh Rack Co.

This concern was organized in April 1889 and during the interval since has built up a fine business. They manufacture the "Common Sense" wagon rack under the patent issued to Richard Caldwell, Mr. Caldwell himself being the manager and chief owner of the business. Their racks are now sold in ten different states. With prosperous times, their sales will multiply immensely, and the plant may develope into a big establishment.

Central Hotel.

Geo. Teachout, the present proprietor, is a model landlord. He bought the property two years ago this spring and it was then in rather a dilapidated condition. The place was thoroughly overhauled and he went to work to restore its custom. In this effort he has been very successful. He runs a $1.00 house, but it is by no means a second-class hotel as the cuisine will compare with $2.00 houses. He runs a large feed barn in connection, which has a fine patronage.

Geo. Tansley & Son.

This firm, although recently organized, has already taken a leading position among our business houses. They bought out J. D. Kinney & Co. and began business April 5th, last. Both Mr. Tansley and his son, Harry, have been engaged in the furniture trade all their lives and Harry has had sixteen years experience in undertaking. George will continue to manage his Addison store and Harry, the junior partner, will have the sole management of the Tecumseh end of the concern. This house is destined to have a steady and healthy growth.

Lilley House.

Chas. F. Patterson began his career as manager of this hotel March 18, 1886, that being Grover Cleveland's birthday. In the summer of 1891 he purchased the property and made many improvements thereon, moving the office into the corner store and enlarging the hall on the second floor. The house enjoys a liberal patronage from drummers and has a large number of regular boarders. It is one of the best conducted hotels in southern Michigan today.

Avery & Co.

Avery & Ellis opened a grocery store Sept. 16, 1890. After eleven months Mr. Ellis sold his interest to the present firm, and since then Frank D. Avery has been the head manager. He has a natural aptitude for the grocery trade and has built up a very fine business. He deals in both staple and fancy groceries and crockery, carrying a complete assortment in both lines. No firm on Chicago street stands higher in public confidence and esteem, and it has come to stay.

Alfred James.

Alf James has been continually identified with the business interests of Tecumseh since 1853, when he began the grocery business. Since that time, however, he has been better known as supervisor and insurance agent. In 1887 he bought out J. H. Smith & Co. and has since conducted a large and increasing insurance business, representing a long line of fire, life, accident and plate glass companies. In October, 1894, he moved into the elegant office now occupied by him in the James block, where he always has a welcome for his patrons.

Harris & Hiteshu.

Harris & Hiteshu came to Tecumseh from Fremont, Ohio, in 1887 and opened a bankrupt store, in the old "Bidwell Corner." They expected to remain about three months and have been here ever since. They keep a general stock of dry goods and boots and shoes and their store is packed so full that the contents are slopping over the edges. Their gentlemanly methods and square business dealing have built up a splendid trade and they are here to stay.

George Merritt.

Mr. Merritt opened a tobacco and cigar store in the same building he now occupies in 1867, and hence has followed his trade for twenty-eight years. His brands of cigars have an established reputation, which keeps up their sale. The Princess and La Norma are the ten cent cigars and the Selected Gem is a very popular five center. Mr. Merritt is a prudent, economical manager and has built up a lucrative trade.

James Elliott.

Jas. Elliott, our Railroad street blacksmith, is now the oldest established smithy in Tecumseh, having been pounding iron on his own anvil for about 19 years. His acquaintance with the trade, however, dates from his earliest infancy, as he learned to blow the bellows at his father's forge in old Ireland, where his ancestors claimed a direct descent, through a continuous line of smithies, from old Vulcan himself. In 1881 Jim built his brick shop, which is perhaps the best fitted and most commodious shop in town.

LILLEY HOUSE BLOCK.

LET US SPRAY OUR TREES

And Have a Good Crop of Apples.
What More Desirable and Profitable?

From late experiments it has been proven that it can be done. E. Tindall has been appointed agent for the selling of the best and most approved apparatus for the spraying of all kinds of fruit trees, vines, etc., including twenty different styles, from the small, cheap hand pump to the horse power machine for large orchards. All having the most perfect Nozzle. The pumps are made of brass and copper which can neither rust nor corrode, and are furnished with 4 to 8 feet of hose (or longer, if desired) and the Excelsior nozzle; also an air chamber, whereby a constant pressure is obtained so that a continuous force of from 50 to 100 pounds on the nozzle is secured with very ordinary exertion, and not affected by the movements of the plunger, throwing a stream 50 to 80 feet high. Also, peculiar to these outfits, hose are attached by which a small part of the liquid is re-discharged at the bottom of the reservoir with great force, which keeps the poison and water well mixed, which is very essential so as not to hurt the foliage. Reservoirs up to 5 gallons, of copper or galvanized iron, are furnished with these pumps for hand use. For orchards or larger uses a second hand, oil, or water tight barrel may be used, on which these pumps can be placed and moved about on a wagon, as desired. A complete and exhaustive discussion and directions on "How, When and Where to Spray, and the Ingredients Best for Certain Fruits, Vines, Etc.," found in printed matter furnished with these outfits. Please call at C. A. SLAYTON'S warehouse, Tecumseh, Mich., for inspection, further information and purchase of these outfits.

E. E. SHOEBOTTOM, V. S.

Shoebottom comes from the Ontario Veterinary College, from which he graduated in 1[illegible], holding a position in the class among the first. This institution has the reputation of being the best of its kind in America, and a diploma from its faculty is assurance of a thorough and complete training. Such can be obtained at the present time. Dr. Shoebottom has already proven this by his marked success in operations, correct diagnosis and skillful treatment. He has established an office at Garlinghouse Bros., where he will welcome his friends.

WOLCOTT W. MARSH.

Mr. Marsh has run a meat market on Logan street for the past twelve years. Other markets come and go every few months but he keeps right on in the same well beaten path, trying and to conquer. He keeps a complete assortment of meats, has a refrigerator and prides himself in making fresh sausage every week in the year. These are the secrets of success and have made his market a success in this town.

THE GLOBE LAUNDRY.

Two weeks ago last Monday Harring Bennett opened a new laundry on Logan street near Garlinghouse Bros.' and they have already secured a good trade. They have all the latest machinery for doing good work and devote their own time and attention to the trade, hence their work speaks for itself and they are certain to build up a good custom. The Globe Laundry has come to stay.

JAMES S. GILMAN.

Mr. Gilman prides himself on being the best harness maker in Lenawee county. He began work at the bench when just sixty one years ago this month, and has been stitching harness in Lenawee ever since. His present shop in C. A. Slayton's warehouse is a model of neatness and convenience, and he keeps a fine assortment of harness goods. He does repairing and makes heavy or light harness to order. His work apparently good for several years in the business.

BOLAND & WHITING.

Boland & Whiting, who now run a blacksmith shop in the old Ed. Rowland shop on Logan street, have only been established in business since April 1st; however, they already have good work for their share of the trade. Mr. Boland has pounded iron for over 30 years and Andy has perfected his trade in the best shops in town, and is well prepared to do all kinds of work that comes his way with promptness and satisfaction. Give them a call occasionally.

LESTER P. THIBOU.

Lester P. Thibou, although a young man has an old hand at the insurance business. He took the agency of the North British, of Philadelphia, and the Ætna, of Hartford, in 1870 and has kept the agency ever since. Other companies have been added from time to time and he now represents, besides the above, the Delphia Underwriters, the Pennsylvania Fire, the Phœnix, the Niagara, the Underwriter's Agency and the Northern Union. This is a very strong line of companies, which are admirably represented.

J. C. ECCLES.

J. C. Eccles came to Tecumseh over 20 years ago and entered the employ of Strong & McNair as their cutter and manager of their custom department. In August, 1894, he opened a shop of his own, over Marsden & Hall's, where he has given his attention to merchant tailoring and repairing. People who want their garments cut to fit and well made can make no mistake in placing an order with him. He has some elegant samples of suitings on hand, which young men are taking advantage of.

MRS. M. A. FREEMAN.

Mrs. Freeman came to Tecumseh in the summer of 1866 and opened millinery rooms over George Merritt's store. During the ensuing sixteen years she occupied two different stores, and in 1890, took possession of her present store in the Hewett house, where she has splendid rooms for her business. Having experience in this line of trade and tact in catering to the wants and whims of the ladies in the matter of dress enable her to satisfy the tastes of all classes. Hence she has had a good trade for many years.

CHAS. E. WILLIAMSON.

On the first of March, 1885, Mr. Williamson bought Frank Bumann's egg business and took possession. Although coming from a farm, his energy and tact made a success of trade from the start and he soon built up a large wholesale business in eggs and poultry. On the first of June, 1890, he added a retail grocery department and put S. Moore in charge, who has developed a fine grocery trade. They make a strong team, Mr. Williamson attending to managing the wholesale business and Mr. Moore the retail department.

L. D. DEWEY.

L. D. Dewey began buying and shipping poultry on a small scale about five years ago and his business has had a steady growth since that time. He now buys grain and produce of various kinds, including wool in its season and handles it. He is a hustler from away back and never takes a back seat in anything he undertakes. By strict economy and careful attention to details he has made a profitable trade, even in these hard times.

McCANN BROS.

James and Thomas McCann bought out Strong & McNair and took possession of the store on the 18th day of April, 1893, and they have been gaining new friends every day since. They are enterprising young men, well versed in the clothing trade, and have cast anchor in this town to stay. They have already taken a position near the head of the list among Tecumseh's most progressive and reliable business firms.

KARNER BROS.

In October, 1894, they came from Blissfield, bought out the Henry Nyland stock of boots and shoes and proclaimed their purpose to take the lead in the boot and shoe trade. By their courteous treatment of customers, and their square business methods, they have gained a solid foothold here and are already recognized as one of our best business houses. They keep a very complete stock in the line of footwear, at prices to suit the times.

CHARLES BURRIDGE.

Mr. Burridge was chosen Justice of the Peace at a special election held in [illegible] first suit was docketed Oct. 17th and was a simple civil action, "Elmer Hause vs. Abram Pelham." He has served continuously as Justice since that date, except a few months, when he resided in Raisin. Of late years he has given his attention more largely to conveyancing and Probate Court practice. In the latter direction his practice probably exceeds that of any attorney in Lenawee county and is constantly on the increase.

JAMES W. WIGHTMAN.

Mr. Wightman came to Tecumseh in December, 1888, and purchased Capt. Wood's law library and practice. Although coming among us a stranger, he soon established the reputation of being a careful, painstaking attorney and a safe counselor. He enjoys a good practice now, being frequently called to the circuit court and occasionally to the state supreme court at Lansing. May his shadow never grow less.

WALTER C. BURRIDGE.

Among the younger attorneys of Lenawee county, Mr. Burridge has already taken a leading position. He began trying cases in Justice's Court, even before he was admitted to the bar, and as soon as he became a full fledged attorney, he acquired a good clientage in the Circuit Court. He was admitted to practice in the State Supreme Court on the 11th of February, 1893, and since that date has appeared in several cases before that tribunal, where he has met with marked success.

DR. D. W. REED.

Dr. Reed graduated from the Dental School of the State University in June, 1891, and in the August following, he opened an office for the practice of his profession, in the rooms he now occupies. His success here in his chosen vocation shows that his time at the University was well spent, for he has acquired a fine practice. He is thoroughly posted in modern dental methods, including crown and bridge work, and aluminum and rubber plates. His future advancement is assured.

THE TECUMSEH NEWS.

The first week in April, 1883, the first number of the News was issued by the present proprietor, C. F. Field. During the past twelve years he has established his paper upon a solid basis and gained the respect and confidence of this entire community. He has proven himself a man of unimpeachable integrity and honor, an enterprising citizen and a first class editor. May he live long and continue to prosper.

W. H. SPALDING.

Mr. Spalding began his trade with Libbeus Drew twenty-five years ago this spring. In 1878 he drifted west and lived for many years in Milwaukee. In January, 1890, he returned to Tecumseh and opened a tinshop in his present quarters. As he is an expert mechanic he has no trouble in finding steady employment. He does all kinds of tin and metal work, puts in heating furnaces, lays tin roofs and has quite a run of plumbing, in which line his work is deservedly popular.

GEO. E. MATTESON.

Thirty-two years experience with a paint brush is not to be sneezed at when one has a new house and wants a first class job of painting or paper hanging done. It is seven years this spring since Mr. Matteson came to Tecumseh and during that brief period he has demonstrated his superiority as an artist by his works. When you need a new dress of paint or paper, give Mr. Matteson a trial. You will not regret it.

THE POST OFFICE.

Musgrove Evans, Gen. Brown, Cousin Geo. Spafford and S. C. Boughton held the Tecumseh postoffice chair in place from 1824 to 1844, when Polk was elected. Chas. Hewitt served during Polk's administration; Daniel Williams under Taylor; Col. Wm. McNair for eight years under Pierce and Buchanan; Webb Anderson served about five years under Lincoln; and Geo. C. Ketcham a few months under Johnson; Col. L. Saviers served during Grant's two terms and Edgar A. Tribou four years under Hayes; Fred Rosacrans served four years under Arthur. Judge Stacy served two years under Cleveland's first administration, and upon his death, Miss L. Loana Stacy filled the balance of his term of four years. Capt. A. D. Lawrence was appointed by Harrison and served four years. Thos. R. Kyle took the place on November 20th, 1893. The office has always been efficiently managed and never better than under the present incumbent.

THE OLD RELIABLE.

The Advent of the Herald In Lenawee County Journalism.

BRIEF SKETCH OF THE PAPER.

The Growth and Improvements Which Have Taken Place During the Past Forty-five Years.

The first number of THE HERALD was issued on the 25th day of May, 1850, and hence the paper was forty-five years old last Saturday. The present issue is the first number of the forty-sixth volume. Is it not a fitting time to indulge in a little retrospect, to examine our status at the present time and take our bearings for the future?

During the first few years of its publication the paper led a precarious existence. Following the example of most western newspapers in those days, it was a constant load to carry, rather than a financial bonanza to its owners. To conduct a newspaper successfully in a frontier town of one thousand inhabitants would be a very uncertain venture, even in this day and generation, but forty-five years ago it was not only an uncertain but a hazardous undertaking. Several times during its infancy it came very near yielding up the ghost, and actually suspended animation for a brief period during 1852. Careful nursing, however, restored it to life, and since October, 1852, its weekly messages have been scattered abroad through Northern Lenawee, without the loss of a single issue.

James H. Perry was the original owner of the paper and published the initial number. Uncle Charley Spafford, who now lives at Manitou Beach, acted as foreman, job printer, compositor, proof reader and devil. He set the first stickful of type for the first number, and he has set type for the paper nearly every year since, at some time during the year. After four months' experience in running gratuitous advertising and taking potatoes and garden truck for subscriptions, Mr. Perry's ambition was thoroughly satisfied and he concluded to quit. The plant was then sold to L. G. Sholes & Co. During the following year or more its dividends must have been a minus quantity, for it changed hands almost a dozen times in as many months, and finally tipped over into a peaceful slumber. During this period it was owned and conducted a few months by W. H. Stout, the father of our townsman, H. E. Stout. Think what a different career Hub might have enjoyed, had his paternal ancestor stuck to his stick. But Mr. Stout soon wearied of carrying the burdens and honors of journalism and he sold the concern to Wm. Richard. After a few weeks at the helm he sold to John Shepard, and within one month thereafter the good Shepard transferred all his right, title and interest to Benedict. In October, 1852, a syndicate was formed, consisting of Richard, Baxter & DeMott, who took the feeble little brat in out of the wet and gave it a financial standing. This firm was a strong one in those days. Wm. Richard represented the business stability and financial end of the establishment; B. L. Baxter the legal department, and Dr. DeMott the medical interests of the concern. This combination was regarded at the time as an irresistible one, but it soon became weary of the good work, or overburdened with editorial cares and dividends, and within one year Dr. DeMott retired from the firm. Messrs. Richard and Baxter continued their ownership and managed the paper for two years thereafter, when Mr. Baxter retired. He still lives with us, and although age is creeping upon him, his heart is as young as ever. He doubtless looks back upon his three years work in the editorial department of the HERALD as one of the pleasant features of his business career. He didn't get rich, that is true, but he carried the honors of the position with modesty and credit. Mr. Richard and Dr. DeMott have long since passed to their final reward. For the eleven years following the dissolution of this syndicate William Richard owned the plant and either managed it himself or as the lessor of other parties. During this period the office was rented one year to Ralph Stocking, two years to Geo. and Chas. Spafford, one year to W. A. Nimocks, and one year to James A. Castle. Chas. Spafford is still in the land of the living, having a cozy little home at Manitou Beach. George is still sticking type in our composing room. Among all the mutations of the office he remains unmoved and unmolested, and he is likely to stay here during the balance of this century. In Jan., '66, C. M. Burlingame purchased the property, and continued to manage it until November, 1874. On the 16th day of that month, which fell on Tuesday, S. C. Stacy bought the plant and took possession the same day. Since that date he has been the manager of the office and also the sole owner, except for two years and eight months when Stacy Bros. owned the concern in partnership. Upon the sale of the office to the present owner, C. M. Burlingame assumed the position of foreman, which he continued to hold until January, 1883. He then took a similar position in the establishment of the Coldwater Republican, where he is now located, and making up forms as of yore. He occasionally makes his old Tecumseh friends a visit, and is apparently good for many years' service yet.

The HERALD'S first abiding place was in the second story of a wooden building near where Anderson Bros.' grocery store now stands, and occupied one room about the size of Mr. Wightman's law office. This humble domicile constituted its earthly abode for many years. One night a big fire cleaned out the whole frame row, of which this building was a part, and the HERALD plant was carted across the street the next morning. Shortly after Wm. Richard bought it the property was shifted into the third story of the brick store west of the one now occupied by the Tecumseh State Bank, and here it remained for about twenty years, during the entire period of Wm. Richard's and C. M. Burlingame's ownership. The latter part of the same November, in which the present owner took control, it was moved into the second story of Bidwell's block, over the store now occupied by Harris & Hitchu, where it found commodious quarters during the ensuing four years. In the summer of 1878 Mr. J. B. Swan erected the present HERALD building for our use, for which a long term lease was taken. On the two days following Thanksgiving we took possession of the HERALD'S new home, and here the plant is likely to remain for some years to come. At the expiration of Mr. Swan's lease the building was purchased of him, so that the personal property and real estate are now under the same ownership. No better location for a printing office could be found in Tecumseh. Moving a newspaper is nearly as bad as a fire, and we have no ambition to enlarge upon our experience in that line.

Away Back in the Fifties.

Chas. Culbertson, Sr., presented to the Jonathan Hall Library of Ridgeway, in 1889, a bound volume of the Tecumseh Herald, running from Oct. 28, 1852 to Nov. 9, 1854. This covers a period earlier than any number of the HERALD we have yet made mention of. Through the courtesy of the officers of the Library we were permitted to borrow the volume, and we give a few extracts therefrom which will doubtless be of interest to our readers. The paper at that time was a seven column folio sheet, all home print. The first page contains a column of business cards and household reading. The second page contains several editorials and a column memorial on the death of Daniel Webster. It was the first number of the paper issued by Richard, Baxter & DeMott, who bought the plant after the paper had suspended, and gave it a new start in life. The third page—properly the local page to-day—is devoted wholly to Southern and European news and advertising. The fourth page is given up entirely to advertising. We give below the business directory and a few of the advertisements.

PROSPECTUS.

For two years our little sheet has kept its way steadily on under adverse circumstances, having several times changed hands, rather as a matter of accident than choice, and with its editorial department oftentimes almost entirely neglected, its patrons have still given a steady and uniform support.

It is now once more out of debt, and we flatter ourselves, upon a firm and permanent basis. In purposes and character, it will be put upon its original platform. It will be neutral, but not neutralized—never pro-Slavery—never Anti-Temperance—never, so far as we may be capable of judging, irreligious or immoral, but liberal, outspoken, independent and free.

SAW MILL BURNED.

The Saw Mill of Satterthwaite and Comfort was burned to the ground during the night of the 16th inst. How it should have taken fire is a good deal of a mystery, as there had been no fire in or about it for many days previous.

TECUMSEH UNION SCHOOL.

The Fall Term of the Tecumseh Union School will be opened on Monday, Oct. 25, 1852, under the charge of Mr. J. E. Bateman, of Almond, Allegheny Co., N.Y. Able and experienced assistants have been engaged and no exertions on the part of the Trustees or Teachers will be spared to place the school on a level with the best institutions of the country.

An extended course of study has been adopted, and great pains will be taken to insure thorough and practical scholarship.

The services of a classical teacher of acknowledged ability and excellence have been secured to meet the wants of those wishing to pursue the more advanced studies of a College course.

Terms of Tuition, from $3.50 to $4.00 per quarter.

DECORATION DAY.

BY WILLIAM ROSSER CORBE.

Out from the long past comes the memory of a nameless soldier grave and of a heart that broke because her love was not. Out from the past come the shadows of numberless unknown and unnamed heroes, who gave their all of life to perpetuate the union. In the trying times of strife and carnage, when cannons belched and muskets flashed death everywhere, little mounds of earth sprang up in rows here and there in the southland. The memory of these known and unknown dead suggested the beautiful custom of decorating the graves with the choicest flowers of spring, the practice proclaiming to the children and children's children forever that the deeds of these men who died for God and country shall be memorialized as long as courage rates as a virtue.

As time passed members of the army of veterans who returned to their homes dropped out of life, so that now, besides the great national burial places in the south, every cemetery of the north is hallowed by the presence of sleeping soldiers. Wherever these heroes lie flowers are taken at each recurring anniversary and placed as votive gifts upon every sacred altar grave of liberty. History tells of sky-piercing monoliths, of colossal atues and artistic mausoleums erected to the memory of great captains of conquering armies, while thought—if thought there was at all—of the hosts of common soldiers who poured out their life blood for the glory of these chieftains, was as a flitting fancy at eventide, banished with its birth. It remained for the American people, who govern for themselves and are alone supreme, to declare that the humblest life sacrificed in the cause of freedom is as sacred as the penates of the household—as priceless as that of the general who bared his breast to death-dealing bullets.

The problem of human government must be sought to be solved by each successive generation. Blessed is that one which throws such added light that the next one may discern with clearer vision the working of the still-to-be-solved question. The errors of a people—their discontent and mistakes, may sorely try the safety as well as the perpetuity of a government. The labors, the pains and the sorrows of the soldier army must ever serve as warning, as entreaty, as encouragement and as strength to the living and their successors. Each returning Decoration day teaches the lesson of the priceslessness of liberty and union.

For the soldiers who sleep and the cause for which they died the wooded dells are searched, the broad fields are scanned and cultivated gardens are stripped of their choicest gifts. Hail the nation that honors its defenders, dead and living, and let Decoration day be and abide forever, a holy day in the nation. Time has softened the asperities of office days; the opposing passions of men, whose differences were based upon honest conclusions, have been subdued into respect and admiration for the courage that stamped the action of each in the trying times of infinite peril, and a common country is the heritage of all. The custom of [illegible] awakener of strife, but a sublime tribute to exalted worth.

The once ensanguined fields of the south are now being turned over by bright plowshares, and will presently yield fair harvests to the peaceful workers; the voices of the mockingbird and brown thrush fill with melody the groves through which once passed hostile armies. The sound of war is heard no more in the land, and may the memories and lessons of Decoration day preserve an everlasting peace to the nation. The one great baptism of blood should be efficient to the perpetual sealing of the republic in peace and harmony throughout the length and breadth of the land.

BARNEY JENNINGS' CHARGE.

Barney Jennings lived a very uneventful life in his Carolina home until the breaking out of the late civil war. His opportunities were very few, and he had not availed himself of those he might have seized. He was a shiftless, harmless, happy-go-lucky fellow, with abundance of leisure and little or no cash.

When he offered his services as a soldier in the southern army the captain was averse to accepting him because of his unsavory reputation, and only yielded after most urgent entreaty on the part of the ne'er-do-weel. Barney served in the army of the Potomac, or James, participating in the leading battles and winning an enviable name as a fighter. Had he been able to read or write he would have been given a commission.

Alas! at Chancellorsville poor Jennings had his left leg shot away, and his soldier days ended, much to his disgust and discomfiture. Returning home, he hobbled about on a "peg-leg," surrendering himself to whisky drinking and fighting over again his battles, under the "stoops" of the village stores or before the tall bars of the saloons.

HIS LAST TRIBUTE.

Whatever scruples he may have had before the war as to accepting charity, he now felt himself a proper ward of the community. Poor fellow! his appetite for liquor grew stronger every day, and he soon passed into a state of nearly continuous inebriety. His heart nearly broke when tidings came from Appomattox; but, like a brave soldier, he accepted the issues of battle, saying: "The feller wot lams yer is jesterfied in hol'in' on s'long's his hilt do'n' slip."

Before Barney fought at Chancellorsville there had been a battle near his native village, and in the little cemetery were graves of union as well as confederate soldiers who had fallen in that contest. Those of the former were in a group in a deserted and neglected corner of the burial ground, and when the beautiful custom was inaugurated of decorating with flowers the sleeping places of the heroes Barney was greatly distressed because the programme did not include those of former foemen.

"They mought er been wrong," he persisted, "in pilin' down onter us, but they fit p'intedly 'n' I reckon they'd wires 'n' mammies that cried over 'em."

But Barney was a trifle ahead of his neighbors in spirit of amity. The day came, when a wealth of flowers was spread over each southern soldier's grave, while no thought was bestowed upon those that were concealed by weeds, beneath the scraggy oaks and elms. When the speeches and hymns were over a party of young people strayed down in the union quarter, and their astonishment was great when they saw that every grave was covered generously with wild flowers. Near by they saw Barney extended upon weeds his bloated body had broken by its weight.

The touching tribute was Barney's last act upon earth; for he never awoke from the sleep into which he had fallen. He died beside the graves of former enemies, whose courage had inspired his praiseworthy action.

When the next anniversary day came loving hearts recalled Barney's charge over in the deserted corner, and since that time no distinction has been made in that little cemetery between the union and the confederate dead.

HISTORY OF THE DAY.

The custom of decorating with fragrant spring flowers the graves of departed friends is an old one, but the observance of Decoration day as it is understood to-day is shrouded in some mystery, in spite of the fact that the significant national rite is not yet thirty years old. Towns innumerable, both in the north and in the south, lay claim to having originated the day. After sifting, with perfect impartiality, all the testimony relating to the important subject, the best authorities are inclined to accord to Mrs. Charles J. Williams, of Columbus, Ga., the honor of being the mother of Decoration day.

But before speaking at length of this noble southern woman, who saw in "Memorial day" a grand opportunity to reunite the surviving heroes of the struggle between north and south, it might be well to state that the decoration of soldiers' graves did not become a really national custom until 1868, in which year, under date of May 5, Gen. John A. Logan, commander in chief of the Grand Army of the Republic, issued a general order from which we quote:

"The 30th day of May is designated for the purpose of strewing with flowers or otherwise decorating the graves of comrades who died in defense of their country during the late rebellion, and whose bodies now lie in almost every city, village and hamlet churchyard in the land. In this observance no form of ceremony is prescribed, but posts and comrades will in their own way arrange such fitting services and testimonials of respect as circumstances may permit."

When Gen. Logan issued this order he had no idea that young and old,

GEN. JOHN A. LOGAN.

soldier and civilian, would respond to his simple appeal with patriotic enthusiasm and that Decoration day would become one of the established holidays of the nation. And there is no reason to believe that the beautiful custom will ever cease to be observed. If there were, the Americans of the future need but recall these words of gallant John A. Logan to remind them of the duty they owe to the men who died to save their country:

"We should guard their graves with sacred vigilance. All that the consecrated wealth and taste of the nation can do to add to their adornment and security is but a fitting tribute to the memory of our slain defenders. Let no wanton foot tread rudely on such hallowed mounds. Let pleasant paths invite the coming and going of reverent visitors and fond mourners. Let no vandalism of avarice or neglect—no ravages of time—testify to the present or coming generations that we have forgotten as a people the cause of a free and undivided public. If other eyes grow dull and their hands slacken and their hearts grow cold in the solemn trust, ours shall keep it well as long as light and warmth of life remain to us. Let us then at the time appointed gather around their sacred remains and garland the passionless mounds above them with the choicest flowers of spring time. Let us raise above them the dear old flag they saved from dishonor. Let us in this solemn presence renew our pledges to aid and assist those whom they have left among us, a sacred charge upon a nation's gratitude—the soldiers' and sailors' widows and orphans."

With reverence and gratitude the aged, the fair and the young of our land strew the graves of the departed heroes with bright blossoms upon every returning 30th of May. They remember the service rendered by the dead. But they have learned to do more. They have been taught to make pleasant the last days and respect the gray hairs of those who survived the war and are even now preparing to join their comrades in the grand encampment on the other shore. It is well that while we moisten with a tear the hallowed grave of a departed friend, we lend a helping hand and give a cordial smile to the wheezing veteran by our side.

The southern Memorial day owes, as has been said, its origin to Mrs. Mary Anna Williams, of Columbus, Ga. Mrs. Williams was the daughter of Maj. John Howard, of Milledgeville, Ga.,

and was a superior woman. She combined the loveliest woman'y traits of character with that self-reliance and determination generally attributed to the sterner sex. She was liberally educated in the best schools of Charleston, S. C., and Philadelphia, and was accomplished in music, painting and languages. She married Maj. J. C. Williams on his return from the Mexican war. He was a lawyer of high standing and speaker of the house of representatives about the time the war broke out. While colonel of the First Georgia Regulars in the army of Virginia he contracted disease from which he died in 1862, and was buried in Columbus, Ga. Mrs. Williams and her little daughter visited his grave every day, and often comforted themselves by wreathing it with flowers. While the mother sat thinking of the loved and lost ones, the little girl would pluck the weeds from the unmarked soldiers' graves near her father's, and cover them with flowers, calling them "her soldiers' graves," and say they had no one else to care for them. After a short while the dear little girl was summoned by the angels to join her father. The sorely-bereaved mother then took charge of these unknown graves for the child's sake, and as she cared for them thought of the patriots' graves throughout the south, far away from home and kindred, and in this way the plan was suggested to her of setting apart one day in each year that love might pay tribute to valor throughout the southern states. In March, 1866, she addressed a communication to the daily paper at Columbus suggesting our "Memorial day" custom. She then wrote to the Soldiers' Aid societies, and they readily responded, and reorganized under the lead of memorial associations.

was buried with military honors.

TONY'S PRETTY FLOWERS.

The spring had been so late in coming that the good and loyal people of Teckerdsville scarcely knew what they should do about flowers for Decoration day. The hitherto never-failing snowballs and lilacs were in embryo, while of the wild flowers not even a spring beauty or a wood violet was to be seen.

The ladies got together and talked over the situation; the committee of arrangements solemnly decided that something surely had to be done, and that without delay. Then the ladies met the committee, when there was much more talking than ever, which finally culminated in a wrathful outburst from Old Mrs. Malliner, a soldier's widow:

"See yere, now, all there is we'se gotter have flowers ter put onto the graves 'n' all the snivelin' 'n' talkin' back in the worl' hain't ergoin' ter hurry up spring one bit. What's more, we jist kain't put off decoratin'; so we'll hafter take up er collection fer buyin' uv 'em. Here goes my quarter."

This innovation was a startling one to the Teckerdsvillians, who, if patriotic, were also economical, and their contributions were not made with startling alacrity. Still, after much persistence and a thorough canvass of the town, an amount was raised that, in the opinion of everybody, was ample for the end desired. There being no hothouse or flower store in Teckerdsville, Tony Mallinger, only son of the widow, was instructed to proceed to Detroit and make the purchase.

Decoration day opened warm, but with every promise of an all-to-be-desired occasion. The villagers decked themselves in their best attire, the farm wagons came lumbering into town, filled with happy creatures, glad to get away for a day from the arduous toil of the home. Bluejays chattered

ALAS! THE FLOWERS DID NOT MATERIALIZE.

in the apple trees, robins sang soft love notes to their mates, and sparrows twittered upon every hand.

Presently, however, as the crowds gathered, so did the clouds. Patriotism, however, is strong, and the people like to get together in the country. Hence, while they gossiped and speculated upon the possible events of the day, they gave little heed to the falling smoke from the chimneys or the fitful whiffing of the winds, those sure precursers of a rainfall.

The speaker, the preacher, the church choir and the chairman had gathered upon the stage that stood on the outer edge of the cemetery, while two or three thousand people were gathered in front. Then a raindrop fell sputtering here and there upon the new bonnets or dresses of the women, and the derbys of the men. Neighbor regarded neighbor nervously, but no one flinched as a slow, drizzling, but decidedly wetting rain set in.

Chairman, preacher, speaker, choir all did their part without abatement of one jot or tittle of the programme. Loyally the people stood at their posts, uttering no complaints, if they did fail to cheer.

Then, after the benediction was pronounced, the chairman called up the committee to distribute the flowers. Alas! the flowers did not materialize. In their stead, in the paper boxes once containing them, were wretched masses of pulpy, vari-colored paper, tangles of wrapped wire, etc. Tony had purchased a lot of miserably made paper flowers instead of nature's own dear gifts.

"They was so much cheaper," he was careful to explain.

Still there was no end to small flags, so that two of them were placed upon each soldier's grave and thus amends were made in part for Tony's blunder. But Teckerdsville never did and never will forgive him the sorry trick he played.

The Old Guard Dwindles.

There are more soldiers' graves to decorate to-day than ever before. The old guard dwindles.

DECORATION DAY POEM.

"Forward!" was the word when fate
Dawned upon the armed host;

"Fallen!" was the word when night
Closed upon the field of fight.

"Hurt, my boy?" "Oh, no! Not much
Only got a little touch!"

Wonder what the folks would say
If they knew the news to-day!

"Forward!" was the word that flashed
Homeward, when the cannon crashed.

"Missing!" was the word sent home
When the shades of night had come.

"Fallen!" "Yes: he fell, they say,
In the fiercest of the fray!"

"Died last night!" the message told
Thus the morrow's papers read.

One young heart that heard the word
Fluttered like a wounded bird.

One was broken! Bowed her head:
"Mother! Mother! Mother's dead!"

Two green graves we'll deck to-day
Sons and mothers side by side.
None will dare to tell us "Nay"
Both for Right and Freedom fell.

While we honor him who fell
In the fiercest of the fray,
We will honor her as well
Lying by his side to-day.

Let the flowers forever fair
Bloom above our fallen brave,
While the angels guard them there
Glory lingers o'er their grave.

Long ago one sweet young soul
Entered her Gethsemane,
Death to her the greatest goal,
As it must to many be!

But life lingers—O! so long!
And the years so weary grow!
Tears have choked her heart's song
Dimmed those eyes that used to glow!

O! the bleeding, broken hearts,
Living long their lingering death!
Pierced by countless cruel darts
Smothered sobs beneath each breath!

Comrades! Call the roll again!
Write their name on glory's page!
Those who bore the grief and pain
Fiercer far than battle's rage!

When they lie there by his side,
Dearer to him than his life,
Mother, Sister, Sweetheart, Wife,
Or his dear devoted Wife,

And you deck his grave again
Write her name—but not beneath
By her agony and pain,
Crown her grave with finest wreath.

Angels called the roll again,
Wrote her name above the slain
For her patient faith in pain,
Deeper far than battle scars.

Three green graves we deck to-day
This is the third, where lies his
None will dare to tell us "Nay!"
For these three for freedom died.

—H. H. Van Meter, in N. Y. Evening

TO MEMORY DEAR

Some members of the Grand Army of the Republic have recently expressed their disapprobation of Decoration day being turned into a regular holiday for big baseball matches and dancing meetings—instead of being properly regarded as a day, as intended by Congress, for the decoration of the graves of those who fought for the union and for the keeping in lasting memory the deeds of those who saved it. The present generation, says the Illustrated American, knew not those troublous times. It cannot, therefore, be blamed if it does not feel the same personal interest in the dead that do the men and women who lived amidst the tragic scenes enacted in this country from 1861 to 1865. But, at the same time, it must not be supposed that the rising generation is less grateful to the heroes of the civil war than the members of the veteran army are to those of the revolution. It may be that it can no longer say with Longfellow:

"Your silent tents of green
We deck with fragrant flowers;"

but it can finish the verse of the poet's words:

"Yours has the suffering been,
The memory shall be ours."

Largest Regimental Loss.

The largest regimental loss on either side during the late civil war was sustained by the Twenty-sixth North Carolina—Pettigrew's brigade, Heth's division. They had a full quota of men on July 1, 1863, but in the terrible battle of Gettysburg lost 588 men killed and 502 wounded, not to mention the "missing," of whom there were many. According to Col. W. F. Fox, the entire company, 86 strong, every man in the ranks and the orderly who made out the report did so while suffering from a wound in each leg. Surely those were men of iron, which not only "tried men's souls," but made heroes of those who survived as martyrs of the dead.

Oh, He Joyful!

Willy—Say, pop, I'm glad you killed in the war.

Father (pleased)—Are, you? Why?

Willy—Because I'd be going to cemetery to-day, instead of the game.—Puck.

The Terrors of War.

Mrs. Henpeck (visiting her husband's grave)—Yes; here lies all that You would not be my husband had he not been killed in the war.

Mr. Henpeck (fiercely)—Yes, curse war is!—Puck.

Remember the Soldiers.

Remember the soldiers, children,
Remember them all with flowers!
Theirs was the battle and theirs the pain,
Ours is the peace and ours the gain.
Theirs was the sowing, the harvest ours,
And all we can give them to-day is flowers.
—E. C. Dowd, in Youth's Companion.

Did you notice Ed. Kirchgessner's new window yesterday?

Fred Teachout and family, of Brooklyn, spent Sunday in Tecumseh.

Mr. and Mrs. Will Hurlbut were over from Adrian the first of the week.

John Neeley and wife are visiting in these parts, from Hillsdale county.

The report of the Farmers' Social arrived too late for insertion this week.

Geo. Hoag has been taking a respite from work this week, nursing a sore thumb.

During the month of June morning services will be conducted at St. Peter's church.

Editor Blosser of Manchester came down to attend J. Root's funeral last Monday.

Many of the store windows were beautifully decorated yesterday with flags and bunting.

Mrs. J. Ware returned to Grand Rapids Tuesday. Mrs. Ware will remain several weeks with her parents.

Beesen Bros. and Co. are receiving a lot of orders now and take a "heat" in the moulding room every day.

Rev. Geo. E. Rowe, of Brainerd, Minn., will occupy the Baptist pulpit next Sunday morning and evening.

A. C. Stacy gave the decoration address at Onsted yesterday. They had a large turn out and a fine celebration.

The Tecumseh Coal & Lumber Co. have just received a new invoice of the best hard coal, which they offer very cheap.

Co. C has received an invitation to participate in the ceremonies of laying the foundation of the new Monroe armory. The boys will have a good time if they accept.

Pitcher Harris seems to be a bone of contention among the state league clubs. The manager of the league has decided that he belongs to Port Huron but Frank rather favors Kalamazoo.

Mrs. L. Baxter spent Tuesday at Deerfield and on the prairie. Mr. Baxter is closely identified with the development of the big prairie and the citizens thereabouts are always glad to see him.

Mr. B. Stevens of Detroit came out Saturday to visit with friends over Sunday. On account of Mrs. Palmer's illness he remained longer than his intention and did not return until yesterday. His wife, who has been here for some time accompanied him home.

Miss Loana Davidson has been invited to teach her fifth year in the public schools of Traverse City. The city will erect a new ward school and Miss Davidson has been tendered the principalship with a comfortable increase in salary. This promotion is a most complimentary and substantial recognition of her services of the last four years.

Mrs. C. F. Field visited Clinton friends last week.

Cleo Hall inspected lumber in Hudson Tuesday.

A. W. Slayton is sending out odometers by the wholesale now.

The paint brush is getting in its work in lots of houses this spring.

The weather this week jumps from ice to ice cream in 24 hours.

The regular Sunday trains on the Mackinaw will begin next Sunday.

A. W. Mills has booked 285 orders for wage wire fence since last New Years.

Merton Burlingame acted as clerk at the Lilley House two or three days this week.

Walter C. Burridge was initiated into the Knights of Pythias at Adrian this week.

A choice lot of Memorial Day reading may be found on our supplement sheet this week.

Mr. and Mrs. Bert Waring drove down to Ann Arbor last week for a short visit with friends.

Robert Stretch is at home two or three days this week. He stays longer than usual this time.

At the Methodist church next Sunday evening, Rev. J. P. Varner will have for his subject "Mount Carmel."

Mrs. C. V. Hicks, of Oscoda, who has been spending a week or so with Tecumseh friends, returned home Monday.

Our Cambridge letter contains some additional particulars about the unfortunate drowning in that town last Saturday.

Hard coal is very cheap now, $5.50 per ton, and Slayton says he charges no more for delivery with his new wide tire wagon.

Mrs. Mary Jane Kellogg, of Jackson, a sister of B. L. Baxter's, arrived in town Saturday, for a few weeks' visit with her brother.

Rev. E. C. Andrus attended a Liberal Christian conference at Ann Arbor last Tuesday and Wednesday. He was down on the program for a paper.

Rev. D. H. Ramsdell of Clinton gave a fine Memorial discourse at the Presbyterian church Sunday evening. It was highly commended by those who heard it.

Darius Smith, the town treasurer of Ridgeway, is a patriotic citizen. He pays all the bills against the township whether there is any money in the treasury or not.

The W. C. T. U. will meet at the home of Mrs. Walter Hoag during the month of June. Let all ... mother's meeting the first Friday in the month, at 3 p. m. sharp.

Frank Diven, who lives east and north of Tipton, is prepared to remove tombstones and bodies of the dead from one cemetery to another. His charges are reasonable and the work will be well done.

Among the fashion features of Harper's Bazar for the first and second weeks of June will be out-door costumes, bicycle and mountain and beach toilettes in variety; also summer silks and pretty gowns for evening.

Jehiel Davidson, A. W. Slayton and Geo. VanTyne returned from their Louisville trip the last of the week. They had a pleasant trip and made arrangements so that Beers Post will have good quarters at the National encampment.

The little village of Weston is to be commended on its enterprise. It proposes to have water works, and private subscriptions have provided for this improvement. The work has so far progressed that the wind mill tower was raised Monday.

The Friends of Tecumseh will hold a social at the home of Libbie Satterthwaite, Tuesday evening, June 4th. Ice cream and cake will be served and an interesting literary program presented, in which the Woman's Rights question will be freely discussed. Bring all your bright thoughts on the subject. All are cordially invited.

Arrangements have been made whereby the Adrian team will play with the following clubs at Tecumseh on the dates given: June 14, with Lansing; June 21, with Owosso; July 19, with Kalamazoo; Aug. 9, with Port Huron. All that is required now is President Mumby's approval and that will undoubtedly be given.

A well known and prosperous farmer declares that three-fourths of the apples, at least, have been killed by the late freezes and frosts, while other fruits have greatly suffered. In some sections peaches are reported not seriously damaged, while in others the frost made a clean sweep. Altogether, said the farmer, the late frosts have been the most damaging that Lenawee county ever saw.

Two suits in equity were begun in the United States circuit court at Grand Rapids last week. The complainants in each case are Otto Ihling, et al., of Kalamazoo, and the suits are brought against C. L. Rounds & Co., of the same city, and Eaton, Lyon & Co., of Grand Rapids, for infringement of patents relating to apparatus used in the counting and playing of duplicate whist. The complainants seek a restraining injunction and an accounting of profits and losses. The duplicate whist craze has become so widespread that there is an extensive sale of the whist sets and boards, and the Kalamazoo men claim exclusive rights to manufacture them under their patents.

What a beautiful Decoration day it was.

Postmaster Hoob, of Adrian, was in town last Saturday.

The clerk of the weather was in his happiest mood yesterday.

Representative Camburn was at home over Sunday from Lansing.

Horace Fenton, of Hudson, was a guest at W. B. Odion's yesterday.

The weather this week jumps from ice to ice cream in twenty-four hours.

Miss Hattie Whitlier was the guest of Miss Florence Caldwell, in Adrian, last Friday.

The Hayden boys were all at home Monday, but they came on a sad errand this time.

Geo. W. Stacy, of East Buffalo, visited relatives in Newburg and Tecumseh last week.

The addition to Kennedy & Rogers' store is completed, which they will find a great convenience.

J. Raynor Lilley, of Indianapolis, was a Tecumseh visitor over Sunday. His stay was entirely too brief.

Claude VanTyne came out from Ann Arbor on his wheel last Saturday and remained a day or two.

The June social of the ladies society of the Baptist church will be held on Thursday, June 6th. Supper from 5:30. All are invited.

Whitney Watkins and friend, Mr. Perry Hori, a Japan student of the Agricultural college, attended Union services here last Sunday evening.

I. S. Osborn has just sown 180 acres of Alfalfa, near Hagerman, New Mexico. Irve always did like to raise hay and we trust he will have a good crop.

D. T. Hall has received his warrant appointing him as brigade hospital steward. Co. C will be glad of this as it's fun to be sick when Dan is in the hospital.

Mrs. Robison and Mrs. Clark, of Jackson, daughters of Henry Hayden, and Mrs. Wm. T. Mitchell, of Port Huron, sister of Mrs. Wm. Hayden, attended the funeral Monday.

J. H. M. Campbell has secured the agency for Shepardson's combination bicycle lock. It is a good thing, easily managed, and moderate in price. They ought to go like hot cakes.

It seems like old times to see the H. L. Stewart residence on Chicago street again opened. The members of the family, who have returned from the South, are heartily welcomed.

Geo. Williamson was shaking hands with Tecumseh friends this week. He is about to make a tour of Michigan cities soliciting consignments for the commission house of John C. Quick, of N. Y. city, with which he is connected.

The cantata given by the Epworth League last Friday evening proved to be a very meritorious entertainment. The parts were all well taken, and the singing of each and every one was excellent. The receipts too paid for the trouble and time expended, as they were about $15.00.

Rev. H. A. Smith gave his farewell sermon at the Baptist church last Sunday morning to a large congregation. Mr. Smith has done a fine work here and made a goodly addition to the membership of his church. We sincerely regret his decision to leave us. A minister of his talents and industry cannot remain long unemployed.

The Council Proceedings this week contain the particulars of the new contract entered into with the Tecumseh Electric Light Co. The street lights will be run all night hereafter, and nine new arc lights will be erected. The rates for commercial lighting will be less than heretofore and the meter system will be adopted.

At a meeting of the Sunday school superintendents of Macon, it was resolved to hold an Institute at the Reformed church in South Macon, June 19, afternoon and evening. Program in due time. Everybody is cordially invited and a special invitation to Sunday schools in the surrounding townships.

Through the kindness of Dr. Woodward we are in receipt of a beautiful souvenir of Buffalo and program of the 5th session of the military surgeons of the United States, which he recently attended. The book contains illustrations and descriptive matter of the city. Among the members of the association appears a very natural half tone of our townsman. The doctor's name appears on several important committees.

The one subject that is uppermost throughout the country is, of course, the currency question. The first definite—and we might say, serious and compact—statement that has been made by the author of "Coin's Financial School," is made in this number of The Forum. In other words, the book which is having such an extensive circulation is practically compressed into the article by Mr. Harvey, the author of "Coin's Financial School," which he entitles "The Free-Silver Argument." This argument is answered directly, statement by statement, by the Hon. John DeWitt Warner, a member of the Coinage Committee of the House of Representatives, and a leading spirit of the New York Reform Club. This debate of free silver is one of the features of this number.

—When the Waterbury watch Company stopped manufacturing their old style watch, the flood gates of cheap Swiss factories were opened, and poorly made, very unreliable watches were forced on the market in place of the very accurate Waterbury, which had but the one fault—its long wind. The clock factories, with their cheap clock watches, added to the stock of poor stuff, and the Waterbury Company were appealed to for something good and cheap in the quick wind series. The result is the new 'Trump' watch, which sells at $2.50. Call on ADAMSON BROS. and see this new watch.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

MICHIGAN LEGISLATURE.

Senate.

LANSING, Mich., May 24.—The senate Thursday passed bills admitting all foreign corporations to the state upon the same footing as those organized within the state, and appropriating $10,000 for the support of the food and dairy commissioner's department, increasing the salary of that official from $1,200 to $1,500 and providing for a state analyst. All after the enacting clause was stricken out of the Jewell bill, which proposed to tax sleeping, dining and parlor car property.

LANSING, Mich., May 24.—The senate on Thursday passed a bill increasing the specific tax upon the gross earnings of railroad companies one-half of 1 per cent, and if earnings are in excess of $8,000 per mile it is increased 1 per cent. It will bring an additional $150,000 to the state treasury. The senate also passed the Donovan interchangeable railroad mileage book bill, which has previously passed the house. Its constitutionality is questioned.

LANSING, Mich., May 25.—The senate Saturday passed the anti-lobby bill, which requires the registration of lobbyists at each session and the record of the measure upon which they are engaged. The senate in committee of the whole agreed to the bill establishing a normal school in the upper peninsula.

LANSING, Mich., May 28.—The senate Monday struck out all after the enacting clause of the Waite anti-treating liquor bill, and took the same action on the Wildey bill providing for payment of taxes semi-annually, and the bill prohibiting extra charges by express companies upon transportation of poultry and live stock. The Aspin bill, providing for the incorporation of trust companies in cities of less than 60,000 population, with a capital of $100,000 from 60,000 to 100,000 of $150,000 and over 100,000 population of from $300,000 to $1,000,000, was lost on passage.

LANSING, Mich., May 29.—The thirty-eighth session of the state legislature closed at midnight, having been in session since January 7. The senate tabled for the session the Robinson bill reducing passenger rates on the upper peninsula railroads from four to three cents per mile by a vote of 17 to 9. Both houses passed the general budget bill providing for the general expenses of the state government, appropriating $1,900,000 for 1895 and $1,173,000 for 1896. This will make the total tax levy for the two years approximate $4,500,000.

The most important legislation of the session has been the election of Julius Caesar Burrows to the United States senate to fill out the unexpired term of the late Senator F. B. Stockbridge. The liquor law was amended, making all licenses $800 for both spirituous and malt liquors. The old law was $500 for spirituous and $300 for malt. All social clubs will have to take out licenses if liquor is vended. Much time has been spent amending city charters, and every city has come in for a share of some wholesome legislation. The anti-liquor treating bill was also killed. A law was passed to compile the laws of the state by a commission, defeating the "Howell statutes" plan as well as publication by Callegan & Co., of Chicago. The University of Michigan was granted an appropriation of $5,000. The bill providing for capital punishment was killed. The anti-fusion bill prohibiting the appearing of a candidate's name on the ticket but once, though nominated by two or more parties, was passed. The bill to submit an equal suffrage amendment to the people was defeated.

House.

LANSING, Mich., May 24.—The Waite anti-treating bill passed the house Thursday by a vote of 75 to 17, and was given immediate effect. The bill makes it unlawful for any person to purchase for or give to another any spirituous, malt, brewed or fermented liquors in any saloon, bar-room, club-room or tavern where the same is kept for sale by the drink, or to treat another in any way in any such places to a drink of liquor. It also prohibits the selling of liquor for such purposes and provides a fine and imprisonment for violation of its provisions. The house passed a joint resolution submitting to the people in November, 1896, the question of relegating municipal charter legislation to the municipalities, except that the legislature shall have sole power to limit or restrict the powers of cities and villages in regard to taxation, borrowing money, contracting debts and loaning their credit. The senate capital punishment bill was reported from the committee, amended so that executions will not take place until one year after conviction, and the Michigan instead of the Ohio definition is adopted.

LANSING, Mich., May 25.—The House on Friday passed the Kelley congressional apportionment bill, which corrects the democratic gerrymander of 1891; the bill appropriating $75,000 for the support of the home for the feeble minded and epileptic; the state public school appropriation bill, and the bill creating a commission to locate a normal school in the upper peninsula and making an appropriation of $40,000 therefor. The Wood bill requiring social clubs dispensing liquors to take out a saloon license and pay a tax of $500, and the state university appropriation bill were lost on final passage, the latter for the third time. The senate capital punishment bill was made a special order for Monday.

LANSING, Mich., May 27.—The house Saturday passed the bill amending the fish and game law, authorizing the appointment of three deputy wardens and appropriating $4,000 for the appointment of a deputy in each county, if desired, with compensation not to exceed three dollars per day. The bill providing that no street car lines shall be laid upon any street in Detroit unless consent be obtained from a majority of the property owners was defeated.

LANSING, Mich., May 28.—The house Monday passed a bill requiring all social clubs to pay a $500 liquor tax, but exempts arbeiter societies having seventy-five members or other societies dispensing liquors to provide a mortuary fund. Although a restrictive measure, it amends the general law to permit saloonkeepers in villages to secure bondsmen anywhere within the township in which the village is situated instead of being confined to the village. The house also passed the Shaw newspaper libel bill by a vote of 73 to 9. Bills prohibiting marriage of females under 18 years of age without the consent of parent or guardian, and prohibiting the keeping for sale of quail, woodcock or partridge passed. The bill for the punishment of officers of banks who take deposits knowing their institution to be insolvent and making stockholders at once accountable for deficiencies in insolvent banks, was agreed to in committee of the whole, and the committee struck out all after the enacting clause of a joint resolution submitting to the people the question of leaving the matter of state officers' salaries to the legislature. The house by a vote of 43 to 43 refused to pass the senate capital punishment bill but the vote was reconsidered and the bill tabled.

LANSING, Mich., May 29.—Another attempt was made in the house to pass the hanging bill, but it failed by a vote of 47 to 47. A similar fate befell the resolution submitting the question of woman's suffrage to the people, the resolution coming within three votes of passing. The house defeated the Detroit Citizens' street railway bill, abolishing the present board of public works of Detroit and substituting therefor a single commissioner of public works.

A Gift to the State.

DETROIT, May 24.—Mrs. L. G. Chandler, widow of ex-United States Senator Zacharias Chandler, of Michigan, has presented to the state the portrait of her husband which hangs in Representative hall at Lansing. It is the work of the late L. T. Ives, father of Percy Ives, the Detroit artist who painted the portrait of President Cleveland now on exhibition at the Art loan here, and who recently restored the Chandler portrait.

Broke His Neck.

PORT AUSTIN, May 29.—Vene Badgley, a farmer near Kinde, threw himself into a well and was drowned. His neck was broken by the fall. Before committing the act he took all the money in his pocket, some $8,400, and placed it on a table.

MICHIGAN TOWN SWEPT BY FIRE.

Every Business Building But Two in Galien Is Burned.

NILES, May 27.—The village of Galien was damaged by fire Sunday morning. Every business building in the place but two stores and the post office was destroyed. The loss will aggregate $20,000, with insurance of about half. The following firms were burned out: Prince Brothers, hardware; C. D. Rhodes, general merchandise; E. Harris, general merchandise; M. O. Smith, drugs; C. H. Lyon, livery office; Dr. L. E. Peck, dwelling; Peter Critchett, George Minsler, barber shop, and De Nash Brothers, meat market.

Got Her Husband Back.

SAGINAW, May 23.—Three weeks ago a man and woman arrived here and obtained board, the man securing a position. He gave his name as Joseph Markham. Two days ago he disappeared, and it now develops that the woman is a Mrs. Berow, who eloped with him from Biddeford, Me. Mrs. Berow is only 22 and pretty. Markham's wife followed the eloping couple here and induced her husband to go back, leaving the other woman penniless.

Benton Harbor Pioneer Dead.

BENTON HARBOR, May 26.—Hon. Henry C. Morton died at the family residence Saturday morning, aged 78. In 1831 he moved from New York, his birthplace, to Kalamazoo and here in 1835. He owned all Benton Harbor at one time and set the first orchard here. He built the Benton Harbor ship canal. He was elected to the legislature in 1862, was postmaster here from 1864 to 1872.

Union of Liberals Proposed.

ANN ARBOR, May 29.—A conference of the Unitarian and other liberal churches of Michigan was held here, with 200 outside delegates. It is the first conference of the kind ever held in the state, and its object is to lead to the union of all liberal denominations. Many papers were also read on points of common work and interest.

Boat Will Withdraw.

HOLLAND, May 28.—On account of being refused dockage here the steamer Mabel Bradshaw will be withdrawn from this harbor and will go to Pentwater Sunday next. The refusal is due to the enmity of the Holland and Chicago Transportation company, whose earnings were cut into by the Bradshaw last season.

Will Close the Mines.

ISHPEMING, May 29.—The Lake Superior Iron company will close its non-Bessemer ore mines June 1. There is no market for the ore. The company has over 100,000 tons of unsold non-Bessemer in stock at Cleveland and also has several thousand tons here. Two hundred men will be laid off.

To Restrain the Executors.

KALAMAZOO, May 25.—A petition was filed in the circuit court to prevent the dissolving of the injunction to prevent Judge Kinney and Otis C. Johnson, of Ann Arbor, executors and trustees of the Lucy W. S. Morgan estate, from disposing of property of the estate.

Took a Fatal Dose.

VICKSBURG, May 28.—Charles A. Baldwin, postmaster under President Harrison and formerly publisher of the Vicksburg Commercial, committed suicide Sunday night by taking strychnine. He was about 45 years old and was a victim of drink.

Choked to Death.

JACKSON, May 27.—Freddie Nicolay, 6, choked on a piece of meat at supper Saturday night and before a doctor arrived died.

THE POPE MURDER.

Sensational Evidence in the Trial at Detroit.

DETROIT, May 28.—William Brusseau, the self-confessed murderer of Dr. Pope, finished his testimony Monday in the trial of Mrs. Pope, also charged with her husband's murder. Brusseau admitted having at first told various stories of the crime, but insisted that the truth was that he murdered the doctor while under Mrs. Pope's influence.

DETROIT, May 29.—A sensational feature of Tuesday's session of the Pope murder trial was the statement of David Wright, a paperhanger who declared Mrs. Pope once offered him $5,000 of her husband's insurance money if he would get Pope out of the way. He said he and the woman had been drinking. To appease her he said he would do the deed, but never attempted it. Insurance agents representing various life concerns took the witness stand. They testified to a number of policies taken out by Mrs. Pope upon her husband's life. In one or two instances it was shown that the policies were canceled because the insurance men believed Mrs. Pope had designs upon her husband's life.

A WILL CONTESTED.

Mrs. House Left Much of Her Estate to Public Institutions.

KALAMAZOO, May 25.—Among the beneficiaries in the will of the late Mrs. Emaline A. House are the First Congregational church, of this city, for $1,000; Olivet college, $5,000; Drury college, $5,000; Children's home, of this city, $2,000; American Sunday School union, $500. The Women's Home Union of Congregational Churches of Michigan and the American board of foreign missions are also generously remembered. The remainder of the estate of $70,000 is divided among other charities and relatives. Some of the relatives have filed against the probate of the will, but the First Congregational of this city will defend the will.

WARM RAINS NEEDED.

Michigan Crops Would Be Greatly Benefited by a Little Moisture.

LANSING, May 29.—The weekly weather crop bulletin issued by the Michigan weather service here summarizes the crop situation as follows:

"The past week has been a continuation of cool, unfavorable weather, but with a slight improvement during the last two days. Reports show that the damage by frost to fruits during the previous week is not so great as was at first reported. The grape crop has probably suffered the most. Farm work has been greatly advanced in all sections. Corn and potato planting are nearly finished in the southern section, is well along in the central section, and has a good start in the northern section. Warm rains are much needed in all sections."

Embezzlement Charged.

DETROIT, Mich., May 28.—J. Huff Jones, who died about two years ago, has been shown to have been a defaulter, according to his accounts, in the sum of nearly $50,000. Mr. Jones acted as trustee of two wards, Henry K. Jones and Matilda Thompson, heirs of De Garmo Jones. An expert accountant has been engaged on the trustee's books for nearly a year and on Monday finished his work. The guardian is shown to have died insolvent, although he was supposed to have been wealthy.

Named by the Governor.

LANSING, May 29.—Gov. Rich made the following appointments Tuesday: Member of state live-stock sanitary commission, H. H. Hindes, of Stanton; members of state board of health, V. McAlvay, of Manistee, and Delos Fall, of Albion; members of state mining school board, John M. Longyear and Alfred Kidder, of Marquette; members of board of control of the school for the deaf, Charles S. Brown, of Flint, and W. J. Spear, of Vassar; guardian of industrial home for girls, Frank W. Waite, of Sturgis.

A Judgment for Taxes.

LANSING, May 27.—The State was given a judgment for $4,551.61 against the Wisconsin Central Railway company for the taxes assessed on the company's earnings in Michigan in 1889, payment of which was refused. The tax amounted to $1,866.64, the balance of the judgment being interest and the penalty for non-payment, which is 2 per cent a month on the amount of the tax.

Held Horse Thief at Detroit.

DETROIT, May 28.—Fred Walf, of No. 8 Palmer avenue, reported to the central police station Monday afternoon that at 12 o'clock his father, an aged man, was leading a horse from the barn to the front yard to allow it to eat grass, when a man came along, cut the rope, jumped on the back of the horse, and rode it away. The old man some time later gave the alarm and then the thief had disappeared.

The sensational preacher and the sensational newspaper are very much like the sensational sky rocket. They don't do much sizzling and sputtering on the return trip.

Three Crops a Year

Can be grown on the same land in eastern Mississippi and southern Alabama along the line of the Mobile & Ohio railroad. The summers are cooler, the winters are milder, the death rate is lower than in the north. Improved farms $10 to $15 per acre, unimproved land $3 to $5 an acre near railway stations. It is the best portion for raising fruits and early vegetables, stock raising and general farm crops. Lands are advancing, now is the time to buy. Very low rate excursions, monthly. The Mobile & Ohio has put on two through fast trains each way daily between St. Louis and Mobile. It is the shortest and quickest route to the south. An illustrated pamphlet telling all about our country will be sent free to all who wish it. Apply to F. W. Green, General Agent, No. 108 North Broadway, St. Louis, Mo., or to R. E. Lee, General Passenger Agent, Mobile & Ohio railroad, Mobile, Ala.

IN Society women often lose the effect of much gayety—balls, teas in rapid succession find them worn out, or "run-down" by the end of the season. They suffer from nervousness, sleeplessness and irregularities. The smile and good spirits take flight. It is time to accept the help offered in Doctor Pierce's Favorite Prescription. It's a medicine which was discovered and used by a prominent physician for many years in all cases of "female complaint" and the nervous disorders which arise from it. The "Prescription" is a powerful uterine tonic and nervine, especially adapted to woman's delicate wants for it regulates and promotes all the natural functions, builds up, invigorates and *cures*.

Many women suffer from nervous prostration, or exhaustion, owing to congestion or to disorder of the special functions. The waste products should be quickly got rid of, the local source of irritation relieved and the system invigorated with the "Prescription." Do not take the so-called celery compounds, and "nervines" which only put the nerves to sleep, but get a lasting *cure* with Dr. Pierce's Favorite Prescription.

"FEMALE WEAKNESS."

MRS. HOOVER.

MRS. WILLIAM HOOVER, of *Bellville, Richland Co., Ohio*, writes: "I had been a great sufferer from 'female weakness;' I tried three doctors; they did me no good; I thought I was an invalid forever. But I heard of Dr. Pierce's Favorite Prescription, and then I wrote to him and he told me just how to take it. I took eight bottles. I now feel entirely well. I could stand on my feet only a short time, and now I do all my work for my family of five."

Cleaning House.

Hard work or easy work, just as you choose. If you find it hard work, it's because you don't use **Pearline.** You'd rather waste your time and your strength with that absurd rubbing and scrubbing. Of course it's hard—that's why Pearline was invented, that's why **Pearline** is a household word. You don't know how easy it can be, until you let Pearline do the work.

Then house-cleaning slips right along. It is over before you know it.

Send it Back

Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends something in place of Pearline, be honest—send it back. 333 JAMES PYLE, N. Y.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 2. Comment by Rev. Walter J. Yates. Topic, The Excellency of Wisdom.

SCRIPTURE READINGS.—Job xxviii. 12-28.

When it comes Zophar's turn to speak in the third series of addresses, he is silent. All arguments had been exhausted, and still Job is as firm as ever in maintaining his innocence of crime and impiety. After pausing for Zophar to speak and seeing that his friends have been silenced Job proceeded with his own speech, declaring his uprightness and rehearsing the false claims they had made. He then unfolded his own exalted conceptions of deity and reliance upon the divine wisdom. The lesson of the week is one of the sublimest pieces of writing in existence and may profitably be committed to memory by every one.

The Great Event.

The greatest event not only of this year, but of all the years in the League's history to the present time will be the second international convention at Chattanooga June 27-30. A beautiful illustrated pamphlet has been prepared by the local committee, which is mailed free to any Methodist writing for it to "Headquarters Epworth League, International conference, Chattanooga."

An official programme, with sketches and pictures of all speakers, music, illustrated guide to the city and environs will be issued the 1st of April by the same committee. Leading generals of both armies will explain the movements of troops on the battlefields.

The most thorough preparation for reception of all guests will be made, and every arrangement possible for comfort will be secured.

To many it will be the event of a lifetime. To all these will be red letter days.

The Forces.

The present population of the United States is about 70,000,000. The present membership of the Protestant churches is 17,500,000. Add to this the numbers of the Catholic church, and what a power for righteousness we have if all these were truly consecrated and working in harmony for God and humanity!

The Young Men.

The Young Men's Christian associations number 1,224 societies in the United States, with a membership of 232,653. This means much for social purity, business integrity and just government.

One Law For All.

There is not one standard of morality for men and another for women. Nor does God's law change for the various social orders in community. Chastity is binding on rich and poor alike. Honesty is obligatory upon all men. The same standard of virtue applies to all without regard to sex, wealth or culture.

Immutable.

"I change not!"
Lord, we need no other token
That Thou to us wilt ever faithful be.
If but one word of love
Had e'er been spoken,
That word had proved Thy love's eternity.
—Annie Clarke.

Chattanooga Leagues.

There are 20 Methodist churches and as many thriving chapters of the Epworth League in Chattanooga and suburbs. Prominent business men have been placed on the local committee of arrangements, and all inquiries regarding the coming conference will be cheerfully answered.

Much From Little.

Much interest has been aroused by a proposition of Chaplain McCabe that all members of the Methodist Episcopal church unite in a collection for benevolencies in which all shall give equally. One cent per day is the sum asked. He figures that such a contribution would yield $10,000,000 per year. He grows happy in arranging how to divide this among missionary, church extension, freedmen's aid, educational and all the other connectional societies. And this is not a wild dream, but sober calculation within easy reach. Why not do it?

The Secret of Happiness.

I have lived to know that the secret of happiness is never to allow your energies to stagnate. The old proverb about too many irons in the fire is an abominable lie. Have them all in—shovel, tongs, poker. The more the better.—Adam Clarke.

No Substitute.

There is no giving which can be substituted for obedience to God's commands. No man will ever be able to love God who does not obey Him. "Obedience is better than sacrifice and to hearken than the fat of rams."

Junior Work.

In many parts of the country this department is making rapid progress. It is wise to give attention to the boys and girls, and no better way has been found than is offered by the junior organization.

The Companionship of Christ.

Five minutes spent in the companionship of Christ every morning—aye, two minutes, if it is face to face and heart to heart—will change the whole day, will make every thought and feeling different, will enable you to do things for His sake that you would not have done for your own sake, or for any one's sake.—Drummond.

Extras.

The cause of failure among young men in the majority of cases arises from the insane desire for pleasure.

Happiness is found only in daily attention to duty and careful attention to helping others.

The best summer reading is not found in light, trashy novels, but Epworth Leaguers will find in the reading course good, interesting material to take on vacation trips and outings.

SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body, induced by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life:—The farm, the office, the workshop, the pulpit, the trades and the professions.

SYPHILIS EMISSIONS STRICTURE CURED

Wm. A. Walker of 16th Street, says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became 40th and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

Capt. Chas. Ferry says:—"I owe my life to Drs. K. & K. At 14 I learned a bad habit. At 21 I had all the symptoms of Seminal Weakness and Spermatorrhœa. Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their *New Method Treatment*. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. Mr. and Mrs. S. W. Warner have moved into a house on Shawnee street for the summer. Mrs. Warner was a daughter of Gen. Brown and has many friends in Tecumseh.

Last Monday evening Bishop Davis made his annual visitation to St. Peter's church. The rite of confirmation was administered to seven candidates. The sermon of the Bishop as well as the service in which Rev. Chapman of Adrian assisted, was unusually able and impressive.

A large contingent of Tecumseh Masons attended the dedication of the Masonic Temple at Manchester last Tuesday night. The impressive Masonic ceremonies of the masonic order were regularly presented, after which the banquet was served in Arbeiter hall to about 500 participants. The literary program was fully up to the high standard of such occasions and was a high testimonial of the zeal and hospitality of the Manchester brothers.

It is very gratifying to the local management that the first game of any consequence this season came off yesterday with unqualified success. The Adrian College club was matched against a picked nine of Tecumseh, and both teams put up an excellent game. Nine innings were played, the score standing 4 to 10 in favor of Tecumseh. Base hits Tecumseh, 13; Adrian, 7. Errors, Tecumseh, 3; Adrian, 5. Lowe and Cutting for Tecumseh and Albright and Clapp for the visitors, made two baggers while Seofield helped out the score of the home team by securing three base hits in the seventh. The batteries were Clapp and Haddel for the college, Fitzgerald and Seofield for Tecumseh. Struck out—Fitzgerald 10, Clapp 2. Mr. T. Fitzgerald, who pitched for Tecumseh, holds down the box for Goodman's nine which is the lead in the Toledo City league. He throws a swift ball, which is quite hard to find with the bat. Without injustice to any it may be said that the feature of Tecumseh's game was the work of the battery, while that of the visitors was their splendid out fielding. Another feature, which games sometimes lack, was the gentlemanly bearing of the college boys which was fully appreciated by the home players.

IMPORTANT ANNOUNCEMENT.

"M. Quad." the Famous Humorist, Takes his Old Place on The Free Press.

We find great pleasure in announcing to our readers that Chas. B. Lewis, the famous "M. Quad" has resumed his former place upon The Detroit Free Press. Since his retirement from The Free Press four years ago Mr. Lewis has been writing for one of the leading syndicates. His preference for direct newspaper work, however, led him to abandon that connection, and hereafter his popular writings will appear only in The Free Press. Mr. and Mrs. Bowser, Brother Gardner, Arizona Kaiser, Zeb, White, Abe Crofoot, Mrs. Jarkup and many new characters will appear regularly.

The publishers are making a special four months' trial offer of the Semi-Weekly Free Press for 35 cents to introduce their paper to new readers, and we would advise those looking for a great bargain to send in their subscription at once. The offer is good only until August 1.

ABOUT "SAFE CURRENCY."

A Criticism of the President's Letter by Senator Stewart, of Nevada.

Senator Stewart published a lengthy open letter to President Cleveland in answer to his letter to the Chicago committee, wherein the president advocates "a safe currency," from which the following is taken:

"Assuming, as I must, that it is want of information on your part, without the least desire to deceive the people, you will pardon me for informing you for what the advocates of unrestricted coinage of both gold and silver contend. This contention is so clearly stated by your secretary of the treasury, Mr. Carlisle, in his speech in the house of representatives on February 21, 1878, that his exact words have become the matter of the bimetallists. He contended for unlimited coinage of both metals 'upon terms of exact equality.'

"That is the contention of the forces in favor of bimetallism and opposed to gold monometallism, and this is the full extent of the demands of the advocates of silver coinage. Why do you argue that a return to the coinage of both metals upon 'terms of exact equality' as established by Jefferson and Hamilton and maintained by all [illegible] of every party previous to the clandestine demonetization of silver in 1873—would debase the currency and destroy the credit of the government? Have you ever compared the prosperity of the country under your illustrious predecessors, who maintained unrestricted coinage of both metals, with the misfortune and depression which afflict the country under your administration? Did it ever occur to you that Jefferson and Jackson might be right and that you might be wrong? Did you ever consider the possibility of the radical change that you, Mr. Sherman and your associates in co-operating with you, term the 'forces of safe currency,' have made?

"You have disregarded not only the teachings of the fathers of the republic, but you have reversed the usages and customs of the civilized world which existed for thousands of years previous to 1873. You have destroyed one half of the world's metallic money and enhanced the value of the other half, fully 100 per cent. You have compelled the debtor to surrender more than double the amount of property to liquidate his debt, that the money he borrowed would have purchased at the time he incurred the obligation. You have increased the value of gold by refusing the use of both metals as money, and created a constant decline of prices until you have ruined enterprise, deprived labor of employment and produced universal distress.

"You now call upon the democrats of Illinois to present a plain and simple argument, which will satisfy the people that a financial policy which makes them miserable is 'sound money and safe currency.' If you know such an argument why do you not produce it? If you know any argument that will convince the people that it is right for them to suffer depression and hard times while all the wealth they produce is absorbed by the dealers in bonds and manipulators of money, it is your duty to present that argument without delay. Such an argument would be a new discovery and one never before used by any advocate of your sound money forces. If you can show that the contraction of the volume of money, of ultimate payment in gold alone has made times prosperous, nobody else can. It all depends upon your superior wisdom. The country is looking to you, and you alone, to explain why times are hard under your sound money policy. You have delayed the explanation too long. The country is getting impatient."

STIRRED UP.

The Agitation for Free Coinage of Silver Being Carried on with Much Vigor.

Reports from all over the country received here indicate that the agitation for the free and unlimited coinage of silver is being carried on with great vigor and earnestness. The action of the Illinois democratic state committee in summoning a state convention to adjudicate the party's action on the question has evidently given an impetus all along the line. There is no longer much doubt that the silver men are well organized, and are distributing an extraordinary quantity of literature on the free coinage question. As heretofore stated in these dispatches, the movement is taking root in the east, and serious politicians in Pennsylvania and New Jersey are now ready to believe that the silver question will be a live issue in these states in future.

Senator Don Cameron, of Pennsylvania, who has steadily voted for free coinage in the senate, has always maintained that a majority of the people of Pennsylvania, exclusive of Philadelphia and Pittsburgh, were in favor of free coinage.

A conspicuous politician from Pennsylvania informed your correspondent that the farming and laboring element in rural Pennsylvania were almost as earnest advocates of free coinage as the like classes in Kansas and Colorado.

Reports received from New Jersey indicate that the free silver propaganda is making immense progress in that state, and is being taken up extensively by the agrarian communities. Representative Hepburn, of Iowa, a republican, who was solicitor of the treasury during the Harrison administration, arrived in Washington after an absence of six weeks in Iowa. "During his western trip Mr. Hepburn paid particular attention to the feeling of the people on the silver coinage question. Speaking on the subject he said:

"I thought I saw an increasing feeling in favor of an immediate unlimited coinage of silver by the United States, which was very surprising to me. I spent a number of days in Chicago, and found the same conditions there. On the railway trains silver was a general topic of conversation. Free silver literature was in wide circulation everywhere. The educational processes being put forth in behalf of free silver are having marked influence on the people."—Washington Cor. St. Louis Republic.

DOWN IN SUNNY SOUTHLAND.

A Trip to Louisville, Kentucky, on a Palace Car, for the G. A. R.

Tuesday, May 21, just after tea, Jehiel Davidson, Geo. VanTyne, and myself started over the famous C. J. & M. R. R. which landed us safely in Toledo. On the following morning, after an early breakfast at the Burnett House, we took a street car that landed us at the Ohio Central depot where we found our gentlemanly and genial escort, Stimp. Harvey, and a Palace car. Besides all this we met a jolly crowd of twenty-eight people, all of whom were members of the G. A. R. and W. R. C., and were enroute to Louisville on the same business as we. At 7:40 we pulled out from the depot in the very best of spirits and bright prospects for a day of sight seeing and pleasure. First at Trombley, Ohio, which is 29 miles from Toledo, we came into the famous Oil Fields of Ohio. I have been through some of the large oil fields of Pennsylvania, but these surpass all that I have ever seen before. From Trombley to Findlay, a distance of 15 miles, we were in sight of one continual mass of oil derricks with pumping arrangements and oil tanks. These tanks are made of iron and have a capacity of from 25,000 to 30,000 barrels of crude oil, and there are 500 or more of them. This will give you a little idea of the immense amount of business done in this oil field.

Our gentlemanly host did not allow us to want for a single thing; morning papers, guides, eatables, cigars and gum were as plentiful as though they grew on trees. At Kenton we left the famous Central and were switched to the Big 4, or the Cleveland, Cincinnati, Chicago & St. Louis railroad, and from this point on through Belle Centre, Urbana, Springfield, Columbus, Dayton, and on to Cincinnati, we rode through the finest of Ohio's farming lands, yet all along the late, heavy and destructive frost gave vegetation a dim look. At Cincinnati we made only a short halt, after which we were rushed over the Ohio river bridge into Old Kentucky; here we were coupled to the rear end of a train on the Louisville and Nashville railroad. From Covington we plunged on around and over hills, stopping at only a few of the larger places such as Milldale, Walton, Northville, La Grange, Pewee Valley, etc., until we arrived safe and sound at Louisville at 7 p. m. On the last 110 miles we found that a portion of the inhabitants travel on the backs of horses and mules. The larger portion of the inhabitants were so thoroughly tanned that we called them negroes; and all through the valleys they were preparing the land for the young tobacco plants, which appeared to be started in beds under very large sheets of thin white cloth; this is done to prevent the flies from eating the young tender plants. When about three inches high this cloth is taken off as the plant is too far advanced for the flies to tackle; then they are allowed to harden a few days in the open air, after which they are transplanted in rows 2 feet each way. When these plants become fully matured they are attacked by an entirely different species and paid for.

A BUSY DAY IN LOUISVILLE.

After refreshing the inner man at the Willard Hotel we all adjourned to the parlor and passed resolutions expressing thanks to Mr. Harvey, of the Ohio Central, also the passenger agent of the Big Four and the L. & N. for their courteous treatment of our party; (in the near future I have the promise of a copy of these resolutions for each member of Beers Post and Corps.)

Thursday morning after having a good night's rest on Kentucky soil, we were again ready for sight seeing and business. Comrade VanTyne and myself started out to look the city over. First we took an electric car out Fourth street and back to Second; this gave us a view of the fine resident portion of the city or that much of it at least. At 10 a. m. we all met at the headquarters of the National Encampment to learn all that we could in regard to the National Encampment for September next, and we do feel pretty well posted; here we procured the address of a great many southern people, who propose to throw open the doors of their homes for a few days, or during the encampment, to the G. A. R.'s, W. R. C.'s and their friends. I was pleased with a large number of nice residences on Chestnut street at which the occupants say that they will board us for $1, $1.25 and $1.50 per day; this with the car fare of $7, or about that, from Tecumseh to Louisville and return, gives the Post and our friends one of the best chances to see the sunny south next September, 8th to the 14th inclusive. After this meeting it struck us that we would run out by the electric railway to New Albany, Ind., and from there to the Indiana penitentiary at Jeffersonville, and get back to the Willard Hotel in time to accept an invitation from Col. Melliken to be on hand at 3 p. m. and take hacks for a drive around the city. During this ride we visited the Louisville Cemetery, which is very large, and in it there are many very fine monuments erected. The flower beds are beautiful; I think that I never saw more beautiful roses anywhere; these, as well as other flowers, appear to flourish to perfection in this southern clime. Here also, rests 4,000 of our noble dead soldiers, most of whom died in the hospital, as no large battles were fought at or near Louisville. While riding through this cemetery our driver said that he wished he had a bucket to water his horses, as we were taking a "right smart long drive." After driving a distance of twenty miles or more, which took us about three and one-half hours, we decided that Louisville was one of the finest cities that we ever had the pleasure of visiting, and we fully decided then and there to recommend our friends and the people in general not to miss the low rates and beautiful city and its hospitable people next September. After tea we were nicely entertained by three colored gentlemen with their banjoes, lasting until it was time for us to go to the depot, where we found our palace car and a sleeper, which we proceeded to occupy at once. I heard that the train did not start for Cincinnati until 2:35 a. m. but I cannot swear as to whether it did or not. However, at 7 o'clock the following morning we were safely in Cincinnati, with ravenous appetites; and after a good substantial breakfast we took to our car for another ride on the Big 4, and at 10:35 we pulled into Dayton, where we could see the National Soldiers' Home, but had no time to go to it. I have been there and know it to be a very beautiful place. Its display of flowers cannot be surpassed in this country. We stopped at Springfield, the home of our former townsman, Dr. R. B. House, but did not see him at the depot and had no time to call on him. At 12:30 we arrived at Ohio's capital, Columbus, after a ride of three and one-half hours through one of the best and most productive farming districts of Ohio. I forgot to mention that just before we arrived at Columbus we passed Camp Chase, which is now the famous ground on which were housed and fed so many rebel soldiers during the war. Here lay the remains of some 2,500 men who tried their best to destroy our government, and this is a small number for the vast army quartered on these grounds. After having refreshed the inner man and finding that we had nearly three hours in which to look over this beautiful city, Baker and myself procured a carriage and, in company with four lady friends, we proceeded to do the city. We drove through the streets where the most beautiful residences were built; we then drove to the State Asylum for the blind and the deaf and dumb; then we thought we would drop in upon Gov. McKinley at the Capitol for a few minutes and shake him by the hand, all of which we did. He was very cordial to the Michigan delegation. At 3:10 we started for home, via. Kenton, which we reached at 5:10 and Toledo at 7:15; and here we began to lose some of our party, with whom we now felt well acquainted after riding, talking and sight seeing with them for three full days.

With us on our trip we had the general passenger agents of three roads, the Ohio Central, Big Four, and the L. & N., all of whom were very jolly, and two of them were old soldiers, and the way that they and our W. R. C. ladies played pedro was a caution.

At Toledo we shook hands and bid each other a hearty good bye, all agreeing that it was one of the most pleasant trips that we ever took during our lives.

A Word In Your Ear.

It's a word of advice and suggestion. It will save you money if you heed it. Times are not as good as they were. They are improving, but still we must all retrench. Formerly we could subscribe for half a dozen, possibly even a dozen, newspapers and magazines. Now we must get along with two or three. Our home paper we must have—can't get along without that anyhow. We always found a good deal in the other papers and magazines that we didn't especially care for. If we could just get a good weekly journal that would give us the cream of all these other papers and magazines, the things best worth reading and preserving, we could save both money and time, and, still keep up with the world's doing and thinking. Well, now, you can get just such a journal—PUBLIC OPINION, published in New York City. Write for sample copy, or call at this office for information and special rate if taken in connection with the HERALD.

Just a Moment, Please.

To the Interchangable Milage ticket issued by the Ohio Central lines, already the best in the market, has been added the entire B. & O. system west of Pittsburgh, including the Pittsburgh & Western railroad, making it incomparably the best mileage ticket issued by any line. If you want a ticket that includes the B. & O. system as well as Big Four, such tickets are issued by Ohio Central agents only.

BASE BALL BATS.

We understand Port Huron does not now want Harris. It seems Harris never did want Port Huron.

The Tecumseh nine have ordered new suits for the diamond. The cloth was procured at the Clinton Mills.

Next week Thursday picked nines from North Adrian and Tecumseh will match their skill on Tecumseh's grounds.

The game last Saturday between Little Hope and a picked nine from town resulted in a score of 12 to 8 in favor of Tecumseh.

Our nine will go to Dundee next Tuesday, June 11, to be matched against the Britton Giants on the occasion of the big Maccabee meeting at that place.

The first game under the arrangement whereby Tecumseh is to have four exhibition games between league teams, comes off one week from to-day, June 14, between Adrian and Lansing. Tecumseh should give the scheme the support of a good crowd.

Tomorrow the first nines of Tecumseh and Clinton will play on our grounds. Both teams are in good shape and will doubtless put up a very interesting game. The games already played here this season have been good and the boys should be encouraged in their efforts to obtain suitable suits, for which the proceeds of this game will be used.

The set-to of Knowledge vs. Business, as fought out by the high school boys and clerks, revealed the fact that the fine business instincts and training of our embryo merchants were a few better in a game of ball than the ponderous, but unfinished, brains of our intellectual giants. The score stood 5 to 3 in favor of the clerks at the end of the 5th inning, which was a pretty close game for the amateurs. Batteries, Day and Waring; Grayson and Spaulding.

FARMERS' SOCIAL CLUB.

The annual May meeting of the Farmers' Social Club was held last Friday afternoon at the home of Mr. and Mrs. B. J. Rector. It was one of those delightful spring days so thoroughly enjoyed by every one and in exact keeping with the spirit of the company assembled to enjoy the meeting.

The program was excellent. First music by Misses. Fisher and Gillespie, followed by reading of a beautiful selected poem by Mrs. Garlinghouse. Little Earl and Eva Rector did themselves credit in a cute dialogue. Mrs. Remington read one of her original poems. Mrs. Fannie Rector read an excellent essay entitled. Our May meeting. Mr. O. B. Finch and Mr. I. H. Schroder each gave a declamation which spoke marvelously for their memories as they were pieces they had learned in boyhood days. The program closed with music by Ora and Jennie Gillespie. It was thought necessary to dispense with the question as the afternoon was so far advanced. Mrs. Rector then invited the company to the dining room where a delightful supper was in waiting, and all enjoyed Mrs. Rector's viands immensely.

An hour or so spent in visiting soon passed and the gathering twilight warned all—although so loth to go—that it was time to depart, each carrying home pleasant memories of the May meeting, and feeling they owed Mr. and Mrs. Rector a vote of thanks for their hospitable entertainment.

The club will hold its annual picnic at Wampler's lake, June 22d.

GUMBO'S GRAB BAG.

IN SWIMMIN' TIME.

Well, goodness gracious, this is nice!
Some sneakin', low-lived joy
Has been and tied my clothes all up,
And tied 'em up to stay!
I think that's just the meanest thing
That anyone can do,
For when I think I've swum enough
I want to dress, don't you?

O, I have had the bossest time,
For swimmin''s lots of fun—
But now I've come to dress myself
And found what they have done,
Who did this dirty trick;
If he'll just come and show himself
I'll make the feller sick!

My stockings both are full of knots,
And see how tight they're tied!
And both the legs of my old pants—
I think such tricks are stride—
My shirt is just an awful mess—
It almost makes me swear;
I'll have to use my teeth on that—
Gee whiz! Now just look there!

I tore my shirt, but that is all,
I've got the rest undone.
Like other boys, I like a joke
And always watch for fun,
But tying clo'es is dirty mean—
There goes Bill Simpson in!
I'll tie his clo'es up worse'n mine—
I bet he'll swear like sin.

—LaVern F. Wheeler.

He first gets fed at one side of my guest, and then goes round the table to his other side, and pretends to be another dog."

Here is a summer's job for some of our energetic, mathematically inclined people. A lady took a basket of eggs to town and being asked how many she had, said: If I take out two at a time I have one egg left in the basket; if I take out three at a time I have one left in the basket; if I take them out four at a time I have one left in the basket; if I take them out five at a time I have one left in the basket; if I take them out six at a time I have one left in the basket; but if I take them out seven at a time there will be none left in the basket. How many eggs are there in the basket?

An exchange tersely remarks: The first duty of any newspaper that is fit to survive is to bring the largest possible number of people into the closest possible touch and fullest possible sympathy with each other. It will sometimes go wrong. It is human nature to do that. But if it keeps going in the right direction—the direction of serving the largest number of people with what they are sufficiently interested in to read, when otherwise they could not read at all—it is still worth more to civilization and progress, to higher education and to more nearly perfect humanity than all the exclusive organs of the select that were ever published by snobs for snobs since the kingdom of snobdom was founded.

Sunday Train Service via C., J. & M.

Prof. T. W. White gave the senior class a reception last Saturday evening. Refreshments were served on a splendid scale. The most attractive feature of the evening were the souvenir fans which were becoming to the occasion. A very pleasant time was enjoyed by all present.

To Beautify the Complexion

—do not take the cosmetics, paints and powders which injure the skin, but take the easiest way to gain a beautiful color and a wholesome skin. Health is the greatest beautifier. The means to beauty, comfort and health for women is Dr. Pierce's Favorite Prescription. Dull eyes, sallow or wrinkled face, and those "feelings of weakness," have their rise in the derangements peculiar to women. "Favorite Prescription" will build up, strengthen, and invigorate, every "run-down" or delicate woman by regulating and assisting all the natural functions.

To cure constipation, billiousness, indigestion, sick headache, take Dr. Pierce's Pellets. One a dose.

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœa and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

CROSS-EXAMINATION

Could Not Weaken Such Testimony As This.

(*From the Kalamazoo Telegraph.*)

The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken down by our representative:

"My name is John A. Wallace. I am a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 106 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months I have been having attacks of kidney complaint, the pain in my back over my hips was very severe at times; my urinary system was also in a bad state of derangement, sometimes the urine was scanty and then again the amount would be excessive, and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I am now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am continuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. I have unbounded confidence in Doan's Kidney Pills as a remedy for all kidney ailments; have good reason to be, as they have done so much for me."

Can you ask any more than this? Doan's Kidney Pills are relieving more backs of the burdens they have been forced to bear through the kidneys than all other means devised, and, better still, they are doing this right here in Michigan. Ask any one who has ever taken them and see what they will say.

Doan's Kidney Pills for sale by all dealers, price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

BRITTON BUDGET.

We enjoyed a small rain Tuesday.

Mrs. Geo. Hawks was a Tecumseh visitor Friday.

Wesley Pennington was over from Macon Wednesday.

A. A. Geroline was in Adrian on business last Tuesday.

The foundation is nearly completed under the new elevator.

J. B. Kinney of Adrian, is buying wool in Britton this week.

Ira Hause of Clinton, made a short call on Britton Wednesday.

Services in DeSpelder Church each Sunday at 2:00 in the afternoon.

Mrs. Osgood, of North Morenci, is visiting their son Will.

Wonderful exhibition bicycle riding may be seen daily on the midway.

D. VanNocker was looking after his business interests here Tuesday.

S. Marsteller, of Clinton, shook hands with Britton friends Wednesday.

The Britton Giants play Cone on our grounds to-morrow. Look out for a good game.

M. Hiscock came up from Toledo on the excursion Sunday to call on Britton friends.

Service of the Reformed Church in the G. A. R. Hall next Sunday morning at 10:30.

Several Brittonites took in the excursion over the C. J. & M. to Devils Lake Sunday.

The Misses Zulu and Florence Smith of Blissfield, were the guests of Mrs. Hoagland over Sunday.

Several of our Britton boys, thirsting for military glory and the clash of arms, will join the ranks of Co. C in the near future.

The corner stone of the Reformed Church will be laid with appropriate ceremonies, June 18th at 2:30 o'clock in the afternoon.

The A. O. Miller family gave their concert at Exelby Hall, Saturday night to a rather slim audience. The performance was enjoyed by those present.

Curtis & Linn are getting well settled down to business in their store. They have arranged their candy case in a most tasty and appetising manner.

Remember that the Goliaths of Britton play the Tecumseh nine at Dundee on Tuesday next, June 11. This is the occasion of the big Maccabee reunion and everybody will be there.

Will Osgood and father were passengers on the fast train to Detroit Wednesday morning. We understand that Will intends taking a short course in the art of embalming before he returns.

The W. C. T. U. will give an ice cream social on C. B. Exelby's lawn tomorrow afternoon and evening. Don't forget the quality of their cream or their manner of serving, which is the best.

Will McCarbery's infant son was most seriously scalded Tuesday by pulling over a tea pot of boiling hot tea onto itself while sitting at the table. At the last reports we have, the little one's recovery is doubtful.

We are pleased to state that Frank Allen, well known in these parts and who has been a faithful employee of the C. J. &M. for several years has received a substantial promotion. Frank is now chief train dispatcher and Superintendant of telegraph, having succeeded Mr. W. D. Stearns to that position.

Monday afternoon occurred what might have easily been a very serious accident. Some loose hay lying about the hay barn on the Mackinaw track was set on fire, probably by sparks from the afternoon local, and was burning very nicely when seen and extinguished by workmen on the elevator.

Spectators who witnessed the game played Tuesday between Britton and Milan, enjoyed a very well played contest. The score was as follows:

Innings	1	2	3	4	5	6	7	8	9
Britton	3	0	0	0	0	1	1	4	0—9
Milan	0	0	3	0	0	2	0	1	0—6

Batteries—Easlick and Lewis; Norris and Maynard. Struck out by Easlick, 7; by Norris, 7. Umpire, Gauntlett.

Next week will be commencement week with the Britton public schools, and a very complete program has been arranged for the various exercises. The commencement exercises will be conducted in Exelby's Hall Friday evening June 14, when the four young ladies of the class of '95 will make their first step from school work to duties of actual life. The Elsie Quartet, of Adrian, and the Britton orchestra will furnish music for the occasion. The closing exercises of the school will be given by the primary scholars on Friday afternoon at the school house, and a cordial invitation is extended to all friends and patrons by the teachers and scholars. Rev. E. Mudge will deliver the baccalaureate sermon at the Christian church Sunday morning, June 16.

—NOTICE TO FARMERS.—

As I can show already excellent colts as the product of my well bred stallions without fear of contradiction, we invite farmers of Ridgeway and Lenawee county and surroundings, to the fact that we have as good strains of Clydesdale blood as Scotland can produce. Mrs. F. G. Florance visited Mrs. Lewis Friday. The latter is able to be out after an illness of eight long months. We welcome her again among us.

Now is your chance for fine Crayon work done cheap, as there was a man from Detroit here taking orders. Those who gave him orders are highly pleased with the work.

Warren Wooster is working on John Lewis' new house and soon we hope to see a nice residence added to the west side of town. The frame is up and soon will be enclosed.

Mr. and Mrs. John Britton were in town Sunday on their way to Adrian to attend the ascension services of Adrian Commandery, of which both gentleman are members of that order.

Mr. and Mrs. Reed, formerly of Kansas, are moving back to Michigan. Mrs. Reed was Miss Anna Binns and her relatives and many friends are glad to welcome her to her native home.

When you want to take a drive on first-class roads, Holloway takes the cake. When the doctor and the merchant of the place take a shovel over their shoulder and start for the gravel bed, it means business before pleasure.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and colds, each bottle guaranteed. Electric Bitters, the great remedy for liver, stomach and kidneys. Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Orr & Temple's drug store. 1

RIDGEWAY RAMBLES.

A large number of the young folks went to Tecumseh to attend the Decoration Day exercises.

Helen Foster and her friend, Nellie Grafftey, of Toledo, were the guests of Leila Sutton, Friday of last week.

A. J. Sutton went to Onsted Friday for a month, to look after the station work during the absence of the agent.

Wm. Barrett, Sr., was found in his barnyard Monday in an unconscious condition. He was overcome by the heat.

Lester Osgood, wife and daughter Mary visited his daughter, Mrs. Fred Gorton, of Ypsilanti, from Thursday until Monday.

The commencement cards of the graduating class of the village school are out and are beauties. The graduating exercises will be held at the church on Friday evening of next week.

The attendance at the Epworth League ice cream social held at the church on Friday night was about the average. With a little effort in the way of advertising properly it might have been larger.

Children's Day will be observed next Sunday. In the morning Rev. H. Cansfield will present a discourse appropriate for the occasion, and the Sabbath school scholars are preparing a fine exercise for the evening service.

The following order has been issued by the superintendent of the C., J. & M. railway:

Office of Superintendent,
Toledo, O, June 1, '95.

Mr. W. D. Stearns having been assigned other duties, Mr. Frank Allen is appointed superintendent of telegraph and chief train dispatcher; his orders will be respected accordingly.

The Senior class in school has organized with Guy Pocklington as president; Fern DePuy, secretary; Gertrude Boyd, treasurer. The class are all wearing class rings. They have adopted the red, white and blue for class colors, and are sending out invitations to the commencement exercises which are to be held in the audience room of the church on Friday evening, June 14, at 8 p. m. Every effort is being made to make this a red letter day in the history of the Ridgeway school, so come early and avoid the rush.

Equal and Exact Justice Obtained.

Have you a claim against the General Government, either for a pension for land under the various acts of congress, for damage done by Federal troops during the late civil war, or do you want a patent upon a practical invention which, though simple, may be the means of making a fortune for you, and perhaps revolutionizing some important branch of industry. If so, write at once to the Press Claims Company, lock box No. 488, or 918 F Street N. W., Washington, D. C., and they will tell you all about it, sending you without cost, if you will mention this paper and mention this fact, a very interesting little book containing the history of some important inventions, and how to proceed to obtain a patent. Address all communications to Phillip W. Avirett, Managing Attorney, Press Claims Company, Lock Drawer 588, Washington, D. C.

Chronic Nervousness

Could Not Sleep, Nervous Headaches.

Gentlemen:—I have been taking your Restorative Nervine for the past three months and I cannot say enough in its praise. It has

Saved My Life,

for I had almost given up hope of ever being well again. I was a chronic sufferer from nervousness and could not sleep. I was also troubled with nervous headache, and had tried doctors in vain, until I used your Nervine. Yours truly,

TRASK'S
Magnetic Ointment.

The worst Sores, Bruises, Cuts, Burns, Sprains, Skin Disorders, Sore Throat, Croup, Rheumatism, Lameness, Piles, and all external and internal affections characterized by INFLAMMATION, yield to its influence as if by magic. It is a purely vegetable preparation by a regular physician of eminence, and its success has been marvellous in the most obstinate cases. Sold by Druggists and Dealers at 25 and 50 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural functions of the skin and equalize the circulation of the blood. By this means a controlling power is gained over the most malignant forms of disease. It penetrates to every portion of the human frame; every bone, muscle, vein, nerve and ligament is searched out and made sensible to its soothing and healing influence. Hence it copes readily with internal as well as external diseases.

Over 40 Years,

this Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have no space here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this notice who have ever used this Ointment, to frankly state their experience with it to inquiring friends. If but one in a hundred would do this we should be perfectly satisfied with the result. Full directions for use will be found on pamphlet around each bottle.

Prices 25 and 50 cents per bottle. Sold by all dealers in medicine.

TECUMSEH, MICH., JUNE 7, 1895.

The selection of Attorney General Olney to fill the vacancy caused by the [illegible] gives general satisfaction. Mr. Olney is undoubtedly qualified for the place, and if the rights right of a man be reserved for the Attorney Generalship, the change will strengthen the cabinet.

Flamboyantly disgusting to ordinary people was the indecent haste with which the politicians began speculating as to who would succeed the late Secretary Gresham. The very moment his death was announced. The fact that the law gives the President thirty days to fill the vacancy makes this ghoulish haste all the more inexcusable. To the credit of the President and members of his cabinet, be it said that they took no part in these discussions. It was really a great stricken party that accompanied the remains of Secretary Gresham to Chicago, and outside of the family the President appeared to be the most stricken of them all.

A reaction in favor of genuine bimetallism is evidently coming both in this country and Europe. The New York World says:

The truth is that men who look at world-wide affairs are, more than anybody else, anxious for the world-wide stability of exchanges. And some of them are beginning to think that the recent business depression extending over the world, was largely due to the fluctuations produced by making gold payments a trade barrier between Europe on the one hand and Asia and South America on the other. They take the broad view that the occupation of all nations upon a bimetallic basis would insure greater stability in finance and greater freedom of commerce than can be expected from the present situation, with silver monometallism the basis of trade in one half of the world and gold monometallism in the other.

Limit Your Wants

From the nature of things the income of most of the inhabitants of the earth must be limited, and indeed within very narrow bounds. The product of labor throughout the world is unequally divided, would not make the share of each individual large. It is impossible that every one should be wealthy or even rich. But it is by no means impossible to be independent. And what is the way to compass this—as Horace Greeley aptly designated it—"glorious privilege?" The method is very simple. It consists in one rule. Limit your wants. Make them few and inexpensive. To do this would interfere but little with your real enjoyment. It is merely a matter of habit. You require more, or you are satisfied with less, just as you have accustomed yourself to the one or the other. Limit your wants, estimate the least and never exceed it, taking pains always to keep it inside of your income. Then you will secure your lasting independence. Young men, think of this. A great deal of the happiness of your lives depends upon it. After having made your money, spend it as you choose, honestly but be sure you make it first.—Wesleyan Wesleyan.

A Puzzled Japanese Official.

A Chicago-visited Japanese official visited N. Y. a few days recently and a member of the municipal government, who had been in Japan and can speak the language of that country, undertook to show him around.

"Is that official making an arrest?" asked the Japanese, as he saw a man stop a milk wagon.

"Not exactly," replied the official. "He is a milk inspector, and his duty is under the law, to see that no impure milk is sold in the city. If the milk is all right he will let the milkman pass on, otherwise he will arrest him."

"What is impure milk?"

"Milk that is mixed with chalk or water."

"Is chalk a poison?"

"Oh, no—it impairs the quality—that's all."

"Does water in milk make anybody sick?"

"Why, of course not. But when a person pays for milk he wants milk, not water, which he can get for nothing when he desires it. It is swindle on the public to put water in milk."

"But you say no one is hurt by it?"

"Feelings are hurt—that is all."

Soon after they passed a low corner saloon, when the door opened, and a man who came staggering out tripped, struck his head against a lamp post, and fell heavily on the sidewalk, where he lay as if dead.

"What is the matter with that man," asked the foreigner from Japan.

"Full of benzine," replied the municipal officer with a glance of disgust.

"Benzine? What is that?"

"It is the name we have in this country for poor liquor—poor whisky, you understand."

"Is there any good whisky?"

"Oh, yes, there is good whisky; but some saloons can make more money selling bad whisky."

"Bad whisky is poison?"

"Deadly poison, sometimes."

"Has a man a license to sell whisky, same as the milkman has to sell milk?"

"Of course, or he wouldn't carry on business."

"And do you inspect the whisky as you do the milk?"

"Never."

"Yet there may be poison in it, while milk is adulterated with chalk or water, that does no harm in particular you say."

"Ahem," said the city official, twisting about uneasily, "let's look at the markets."

At the markets they found officials inspecting the meat that was on sale.

"What do they do that for?" asked the Japanese.

"To see that the meat is healthy," was the reply.

"If a man should eat a piece of unhealthy meat would he stumble on the sidewalk and split his head open against a lamp post, as the man did coming out of the saloon. Would watered milk do so?"

"Why certainly not."

"Yet you inspect meat and milk, and let men sell poisoned whisky, that kills people, as much as they please. I can't understand your country."

And we ask who can?—Texas Siftings.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most exhaustive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Married, by Rev. W. T. Williams at the Congregational parsonage at Tipton, Wednesday evening, June 5th, Mr. Guy E. Belding and Miss Edna A. Fergason. Mr. Belding is one of our popular young men, too well known to need an introduction to our city readers, he having been with Avery & Co. for several years. Miss Fergason leaves a host of Clinton friends to come to her new home here. Mr. and Mrs. Belding and Mr. and Mrs. F. R. Dickinson, whose marriage is noticed elsewhere, will occupy H. L. Jones' double house on E. Chicago street. May they live long and prosper.

The Council will now pay one-fourth the cost of new cement sidewalks. This will reduce the cost to Bob Hills more than the expense of lumber.

Saturday afternoon occurred the death of Mrs. Emma Blessing of Bronxville. Mrs. Blessing was the widow of the late John Blessing and been an invalid for some time. The funeral was held Monday afternoon, Rev. Hageman officiating.

Mrs. E. B. Wood will attend this week the commencement exercises of the teacher's Kindergarten class in Toledo, of which Miss Julia is a member. Miss Wood will organize a class of pupils for instructions before returning home.

Subject for Sunday in the Universalist church: "The Children." In the evening a children's concert will be given by the Sunday school. Everybody invited. Y. P. C. U. meeting at 6:30 p. m., topic "Animals and the Golden Rule."

Monday a young man rode into town on an elegant high "Victor" bicycle, which he seemed very anxious to dispose of, as he was in a hurry to get to Toledo and he was afraid his wheel would not get him there quick enough. His strange actions aroused suspicion, and officer Richards was notified. After interviewing the young man, Cal was satisfied that the wheel had been stolen, but while he was taking the necessary steps for detention, the kid slid. It developed next day that the young man's name was Higginson, and that he stole the wheel in Colon, Mich. Saturday. He has not been located yet.—Hudson Gazette.

A Correction.

ED. HERALD.—Please allow me small space to correct the mistake in your paper of last week. You stated that I started in business on a small scale five years ago. It should have read seventy-nine years ago, as that was the time I began buying poultry, and for twenty years I bought and shipped from Adrian. In the fall of '81 I opened up business here where I am at the present time, and I must say that for the first five years in Tecumseh it was like swimming in stream among the old sharp and wolf rats. But, thank God, I am here today, enjoying as good a trade as any man in the state. I thank my old customers and the many new ones for their patronage, and say to them, to come right along and I will do as well by them as any man in the state and will pay them cash for their eggs and wool, or anything else, at my store on Railroad street. Yours truly.

Deafness Cannot be Cured

by local applications, as they cannot reach the deceased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but the inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any cases of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The children of Mrs. Lucy O. Luce held a very pleasant family reunion at her home in Tecumseh last Thursday, it being the first time they had all been together in 8 years. Beside the family at home the following were present, Eliza A., of St. Joe Co., Geo. W., of Jackson Co., Manly A. of Ionia Co., and Chester W., of Franklin, Lenawee Co.

The edition of the Elgin, Ill., Daily News for May 30th, was a special edition issued by the Woman's Club of that city. It is a double sheet, or sixteen page paper, and is literally a hummer. The ladies were at work on it several weeks. Mrs. Geo. N. Stacy filled the position of advertising manager, and the ads. in that one number netted over one thousand dollars.

The Detroit Y. M. C. A. have arranged a bicycle trip to Niagara Falls. It will last just one week, from Aug. 14th to 21st. inclusive. We have received a program of the tour, containing a map of the route and an itinerary of the journey, which is an elegant job of printing. All State wheelmen will be welcomed to the party. It is likely to be the biggest bicycle event of the season.

The game played at Kalamazoo last week Thursday between Kalamazoo and Adrian was one of the most hotly contested ones played in the state league this season, though only an exhibition game. It was largely a pitchers' battle, and Harris won against Wilson in the eleventh inning. Harris and Wilson are probably the two best pitchers in the State league, and Harris seems to be a little the best of the two.

It is said that students of the university sell more than half the books bought of agents in Michigan during the summer months. This is the harvest time with the boys, and book dealers all over the country recognize the fact that they make elegant canvassers. The bulletin boards are covered with seductive invitations to come and make $10 a day. One wholesale book house claims to have sold 100,000 during the last season through student canvassers; most of them were from the U. of M.

William Martin Johnson, who illustrated the "Garfield" edition of "Ben Hur" for the Harpers, and also their editions of "The Cloister and the Hearth" and "Hypatia," becomes the art editor of The Ladies' Home Journal on June 1, leaving New York to reside permanently in Philadelphia. Mr. Barton Cheyney, a clever newspaper man who has been attached to the press of Delaware and Pennsylvania, is also added to the Journal's editorial staff as one of Mr. Bok's principal associates.

Last evening, at the residence of the bride's parents, Mr. and Mrs. Matthew Montgomery, in Franklin township, occurred the marriage of their daughter, Maggie May, to Mr. Forest R. Dickinson, of this place, Rev. W. T. Williams, of Tipton, officiating. At 7:30 o'clock about ninety guests had assembled, and soon the strains of the Wedding March hushed the room. The bride and groom were attended by Mr. Allan Montgomery and Miss VanValkenburg. After the ceremony an elaborate repast was served. The large and valuable collection of gifts show the esteem in which both parties are held. Mr. and Mrs. Dickinson left this morning for a week's visit at Mr. Dickinson's old home in Waterloo, Ind., after which their home will be in this village. We join their many friends in extending best wishes for prosperity, health and happiness in the future.

—When the Waterbury watch Company stopped manufacturing their old style watch, the flood gates of cheap Swiss factories were opened, and poorly made, very unreliable watches were forced on the market in place of the very accurate Waterbury, which had but the one fault—its long wind. The clock factories, with their cheap clock watches, added to the stock of poor stuff, and the Waterbury Company were appealed to for something good and cheap in the quick wind series. The result is the new 'Trump' watch, which sells at $2.50. Call on ADAMSON BROS. and see this new watch.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

A LIFE TERM.

Punishment Fixed for Mrs. Pope for Killing Her Husband.

DETROIT, Mich., June 5.—The jury in the case of Mrs. Nellie Pope, charged with the murder of her husband, returned a verdict of guilty at 2 p. m. Tuesday, and she was immediately sentenced to life imprisonment.

As sentence was pronounced, Mrs. Pope bowed her head and sobbed. Little Bernice, her daughter, sprang into her mother's arms, and throwing her arms around her neck, cried piteously. Mrs. Pope, kissed her child time and time again, all the while hugging her closely to her breast. The verdict and sentence were received with demonstrations of approval by the crowd, which completely filled the court room. Mrs. Pope was followed back to the jail by a large crowd of persons who struggled and fought to get a glimpse of the woman. She kissed her sister and Bernice goodby outside the jail doors. She was taken to Jackson Tuesday afternoon, but later will be returned to the Detroit house of correction to serve out her sentence.

Brusseau, Mrs. Pope's paramour, who did the killing, will undoubtedly plead guilty when arraigned and will probably receive a life sentence also.

[The murder of Dr. Horace Elliot Pope was a cold-blooded and heartless killing. Mrs. Pope claimed to be an invalid and a barber named William Brusseau was employed by her as a nurse and attendant. Pope was banished to the kitchen and a bunk upon the floor, while Brusseau slept in a second bed in the room of Mrs. Pope and her little daughter Bernice, the door connecting the two rooms being fastened. Some time after midnight of February 12 Pope was called to the bedside of his wife, she claiming to be unusually ill. He went to sleep in a rocking chair by the side of the bed. Then the woman's paramour Brusseau, crept from behind a curtain with a hatchet, and advancing upon the sleeping man, literally hacked his head to pieces. The conspirators arranged for their defense by firing a bullet from a revolver owned by Dr. Pope into the door dividing the rooms and decided on a story of assault by Dr. Pope and his killing in self-defense. Bernice, the little girl who occupied the room with her mother and Brusseau, was carefully drilled in this story, and then Brusseau raised an alarm. Both Brusseau and Mrs. Pope were held on suspicion, and the former, after getting away from the woman's influence, finally confessed that the murder was premeditated and was for the purpose of securing the insurance on the doctor's life, which amounted to $15,000. He told the story of how the murder was planned and executed on the stand, and the sharpest cross-examination could not shake his story, which is generally believed to be true.]

FAVORABLE TO CROPS.

Michigan Reports Good Corn Weather—Plenty of Rain North.

LANSING, June 5.—Tuesday's bulletin of the Michigan weather service says that in the upper peninsula the past week has been favorable for all growing crops; the rainfall has been plentiful and temperature firm and the sunshine beneficial. In the southern part of the state, where wheat is beginning to head out, the straw is short and the head small. Grass is also short and somewhat thin. The weather has, however, been favorable to corn, which is coming up nicely and looks good.

Mr. Uhl's Aspiration.

WASHINGTON, D. C., June 5.—It is said that in case Solicitor General Conrad gets a cabinet position Mr. Uhl, of Michigan, assistant secretary of state, would be a candidate for the vacant solicitor generalship. Mr. Uhl was a candidate for this place at the time Mr. Maxwell was appointed, and it is believed the change from the department of state to that of justice would be most agreeable to him. Mr. Uhl will perform all the duties of secretary of state until a successor to the late Secretary Gresham is named.

A Grewsome Witness.

CENTERVILLE, June 4.—In the Swartz murder trial the heart of Edward Johnson, the murdered man, was brought into court by the attorneys for the defense, who are trying to prove that Johnson committed suicide. The heart was pierced by four bullets, and the doctors gave the defense a great shock when they declared it impossible for a man to live after receiving one bullet through the heart. The defense sought to establish the theory that Johnson fired the four shots.

W. C. T. U. Convention.

BATTLE CREEK, June 5.—The Michigan Woman's Christian Temperance union is holding its twenty-first annual state convention here. The session will continue until Friday night. After a consecration meeting committees were appointed and summarized reports received from the several district presidents. Addresses of welcome, the response and a musical and literary entertainment occupied the evening session.

Fire at Kalamo.

KALAMO, June 1.—By a fire that broke out shortly after 2 o'clock Friday morning the business portion of Kalamo was wiped out, and only by the most strenuous exertions was the rest of the village saved. The principal losers were William Fowler & Co., grocery store; C. D. Cooley, drug store; Charles Herring, barber shop and office; Dr. L. C. Jones; L. Powers, meat market. The loss is $10,000, on which there is little insurance.

Strikes Reported.

MANISTEE, June 5.—The salt lifters of the state lumber camp struck Monday for and obtained an advance in wages from $1.35 to $1.50 per 100 barrels. The packers then struck for a 10 to 15 per cent. raise and are still out. The Eureka Lumber company's salt workers have also struck, and it is expected that the strike will extend to all the salt plants in this region.

Big Mortgage Filed.

GRAND RAPIDS, June 5.—The Empire straw works, formerly known as the Royston straw works, has filed a chattel mortgage for $69,500 to the Peninsular Trust company as trustee, to secure local banks. The banks are secured by notes backed by bonds indorsed by stockholders of the company, and the present mortgage tends toward reorganizing the company.

AFTER SEVEN YEARS.

John Butler Estate Wins Its Case in the Michigan Supreme Court.

GRAND RAPIDS, June 4.—The suit of the Grand Rapids & Indiana Railroad company against the John Butler estate, which the United States supreme court decided in favor of the defendants to-day, involves the title to five acres of river front worth thousands of dollars. In 1871 the railroad company received a grant of 1,000,000 acres of land from the government, and in looking over the unentered lands in the state found the tract in question in the form of an island in the river, and promptly listed it as a part of the grant. Butler claimed that the island did not exist when the land was originally surveyed in 1832, but that it was a natural accretion, the development of a sandbar in the river, and he based his title to it on his riparian rights. The case has been in the courts seven years and the final decision is the same as in the state courts.

MICHIGAN BANKS.

They Make a Good Showing of Their Financial Condition.

LANSING, June 1.—A statement showing the condition of the 167 state banks and four trust companies of Michigan at the close of business, May 7, issued by the banking commissioner, shows total loans and discounts of $37,772,817; stocks, bonds and mortgages, $26,839,063; cash reserve, $13,909,676. The capital stock paid in is $12,405,112; surplus, $2,614,662; undivided profits less current expenses, interest and taxes paid, $1,998,548. The total deposits of $63,782,852 show an increase of $3,226,088 over December 19 last, the date of the last report, and the total loans an increase of $3,761,140.

NEW LAWS.

Most Important Measures That Passed the Legislature.

LANSING, June 1.—The legislature, which adjourned a week ago, did much work. A synopsis of its most important doings follows:

Most of the unusual measures and those bills which were considered of great importance because of the interests they affected failed to pass. Of the railroad bills which failed to become laws were those repealing the special charter of the Michigan Central reducing the passenger rates in the upper peninsula and increasing the rate of specific taxes. The repeal bill failed principally because of its alleged unconstitutionality and the assertion that the state would be required, under the terms of the company's special charter, to pay damages accruing from such repeal which damages were estimated at $250,000 per annum; and the failure of the tax measure was largely due to the fact that, because of special charters, the companies making the most money could not be reached by it, while those on the verge of bankruptcy would be the only ones affected.

None of the bills introduced at the instigation of the furniture manufacturers and labor organizations and designed to abolish or restrict the convict labor system became laws; the legislature believing that the present system competes less with free labor than any advocated by its opponents. All the unusual measures, such as the anti-treating bill and the bill designed to regulate and restrict the lobby, died also, although each was passed by one of the bodies. The capital punishment and the woman's suffrage bills were other important bills which went into the waste basket.

Considerable important legislation was enacted, however. The educators of the state scored a victory in having the compulsory educational law so strengthened that all children between the ages of 8 and 14 years will henceforth be obliged to attend school at least four months every school year. The penalty for a violation of this law is such that parents and guardians will not seek to evade the statute. The Redfern law provides that all teachers in city schools must hold certificates before they can teach, the penalty being the forfeiture by offending districts of all primary school interest money.

The most important enactment affecting the prison is one establishing the parole system of dealing with convicts. This bill was given immediate effect.

The pure food laws of the state were also greatly strengthened and an appropriation of $10,000 made to aid in their enforcement. The factory inspection law was amended so as to give the inspectors increased powers and to absolutely prohibit the employment of children under 14 years old in any of the factories of the state. The law was also made explicit and exacting relative to the use of elevator gates, blowers and other appliances designed to protect the lives and health of the employes.

A law providing for the incorporation of labor organizations so that they may sue and be sued was passed in accordance with the recommendation of Gov. Rich, who believes that it will tend to the more ready settlement of disputes between capital and labor.

Amendments and additions made to existing insurance laws make more binding the statutes prohibiting the soliciting of business for unauthorized companies and provide a manner in which the Lloyds companies can transact business in Michigan in certain cases.

Much legislation in the interests of purity of elections was enacted. The most important of these measures is the so-called anti-fusion law. As originally passed this law prohibited the name of a candidate from appearing on the official ticket more than once, regardless of the number of different parties nominating him, but it applied only to state and county elections. It worked so well in the special congressional election in the Third district that a subsequent bill was passed making the same rule apply to all elections, state, county, municipal and township. The Barnard law makes it unlawful for a delegate to any political convention to give a proxy, providing that all vacancies are to be filled by a vote of the balance of the delegation. It also makes it unlawful for a candidate to hire anyone to work for him in a convention.

Miscellaneous bills of much importance establish an additional normal school at Mount Pleasant; establish a training department at the State normal school; provide for the removal of the homeopathic department of the university to Detroit; empower county boards of supervisors to condemn the right of way of plank road companies; the Donovan bill, providing for the issuance by all railroads operating in Michigan of interchangeable and re-leemable mileage, good to be used by any member of the purchaser's family; making it unlawful for employers to require their employes to insure in any particular company; requiring companies accepting a bonus for locating manufacturing plants to refund the sum received with interest in case they remove any material portion of the plant within five years; providing for a permanent state weather service; creating the office of state tax statistician.

While the legislature was an economical one, yet the state tax levy for the ensuing biennial period will approximate $4,500,000, which is the largest in the history of the state.

A total of 531 bills were passed by the legislature. Of these 169 were senate bills and 362 were house measures. The total is eighty-two greater than in 1893.

LANSING, June 4.—The bill establishing an additional state normal school at Mount Pleasant, which, it was generally believed, would be vetoed, has been signed by the governor. The bill removing the Homeopathic college from Ann Arbor to Detroit was also signed.

LANSING, June 5.—The following are additional important bills approved by Gov. Rich: General budget for the expenses of the state government; placing building and loan associations under the supervision of the secretary of state; providing for a recompilation of the laws of Michigan, and the Foster bill providing for the incorporation of mutual fire insurance companies, which shall have authority to limit the liability of stockholders.

Forests Burning.

PINCONNING, June 4.—Fierce forest fires are raging near Highwood, Gladwin county. A strong westerly wind prevails and the flames are being swept to the eastward rapidly. The telegraph poles between Highwood and Rhodes are burned down and no further reports can be received. Nothing can be known of the fire until it reaches Deep river or Standish, in Arenac county.

Now that Chicago has a reform mayor, it is found that 530 men are doing the work which had before been committed to 2,000. And even this comparatively small number get along very comfortably.

FOR WOMEN.

There are facts which every woman should know and should teach her daughters, but which many never learn because they have no trustworthy teacher and don't know where to find one. To supply this want the Zoa-Phora Medicine Company, at Kalamazoo, Mich., publishes a book on Diseases of Women and Children, well illustrated, easily understood. Every woman, or girl above 15 years, should read it. For the purpose of advertising they will, on receipt of 10 cts. to cover cost of mailing, send a pamphlet edition, in sealed envelope to any lady (and to ladies only) who desires it.

These books given away by C. A. Wright and Baker & Hall, druggists.

Three Crops a Year

Can be grown on the same land in eastern Mississippi and southern Alabama along the line of the Mobile & Ohio railroad. The summers are cooler, the winters are milder, the death rate is lower than in the north. Improved farms $10 to $15 per acre, unimproved land $3 to $5 an acre near railway stations. It is the best portion for raising fruits and early vegetables, stock raising and general farm crops. Lands are advancing, now is the time to buy. Very low rate excursions monthly. The Mobile & Ohio has put on its through fast trains each way daily between St. Louis and Mobile. It is the shortest and quickest route to the south. An illustrated pamphlet telling all about our country will be sent free to all who wish it. Apply to E. Wakefield, General Agent, No. 108 North Broadway, St. Louis, Mo., or to E. D. Rowe, (General Passenger Agent) Mobile & Ohio railroad, Mobile, Ala. tf

PROGRESS.

People who put the greatest degree of comfort and real enjoyment out of life are those who make the most of their opportunities. Quick perception and good judgment, used promptly to select and make use of those refined and improved products of modern inventive genius which best serve the needs of their physical being. Accordingly, the most intelligent and progressive people are found to employ the most refined and perfect laxative to regulate and tone up the stomach, liver and bowels, when in need of such an agent—hence the great popularity of Dr. Pierce's Pleasant Pellets. These are made from the purest, most refined and concentrated vegetable extracts, and from forty-two to forty-four are contained in each vial, which is sold at the same price as the cheaper made and more ordinary pills found in the market. In curative virtues, there is no comparison to be made between them and the ordinary pills, as any one may easily learn by sending for a free sample, (four to seven doses) of the Pellets, which will be sent on receipt of name and address on a postal card.

ONCE USED THEY ARE ALWAYS IN FAVOR.

The Pellets cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation, sour stomach, loss of appetite, coated tongue, indigestion, or dyspepsia, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels. Put up in glass vials, therefore always fresh and reliable. One little "Pellet" is a laxative, two are mildly cathartic. As a "dinner pill," to promote digestion, take one each day after dinner. To relieve distress from over-eating, they are unequaled. They are tiny, sugar-coated granules; any child will readily take them.

Accept no substitute that may be recommended to be "just as good." It may be better for the dealer, because of paying a better profit, but it is not the one who needs help. Address for free sample, WORLD'S DISPENSARY MEDICAL ASSOCIATION, 663 Main Street, Buffalo, N. Y.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 9. Comment by Rev. W. J. Yates, A. M. Topic, The Ways of God Justified.

SCRIPTURE READING.—Job xxxiv, 14-32.

After Job had uttered his eloquent tribute to wisdom, which exceeded in beauty and sublimity anything which his friends had said, he again takes up his complaint at the distressing condition in which he finds himself. He has declared that God alone understands the way of wisdom and knows the place thereof. "Unto man He said, Behold the fear of the Lord—that is wisdom—and to depart from evil is understanding."

With deep feeling Job describes in the twenty-ninth chapter his former condition of honor among the people. In the thirtieth he pathetically portrays the contempt in which men now hold him and the pain of his bodily sufferings added to the distress of mind. Earnestly he pleads in the thirty-first chapter for recognition of his integrity in all his former dealings. He protests his innocence of any wrongdoing or evil intention in any of his relations with his fellow man and calls down imprecations if he has in any way been false. He reiterates the sentiments uttered at first and firmly holds the position so clearly stated in the twenty-seventh chapter, second to seventh verses. God has afflicted him not because of wickedness or in punishment for any sin. He will maintain his righteousness and consciousness of his integrity at all hazards. He has no explanation to give of God's dealings. He doesn't understand them. Of two things he is sure. The first is that God is the supreme and all wise ruler over men and nature. The second is that his own conscience is clear of any intentional wrong to men or irreverence toward God. He indignantly repudiates the views of his friends—that God punishes and rewards every man in this world according to his just deserts. Whether he can explain God's ways or not, he knows in his own spirit that he is not the outrageous sinner which his grievous sufferings would prove him to be according to their theory; therefore their theory must be false and their defense of God's justice a gross misrepresentation.

Though the three friends of Job have been silenced, the argument is not ended. Elihu, a young man, has been listening and is full of indignation, both at Job and his friends, because none of them has justified God's mode of dealing with men. He speaks with more bluntness and zeal than any of the preceding. He perverts Job's words and charges him with grossest impiety, with maintaining his own righteousness and accusing God of injustice. His words are sharp, but his argument is even weaker than that of Job's other opponents. He thinks afflictions are for discipline rather than for punishment.

This thought is buried in a great mass of verbiage, and he concludes the whole bombastic utterance with the confession of ignorance of God's designs much in the same language which Job had used, and not an iota in advance of the afflicted patriarch's conception. "Touching the Almighty, we cannot find Him out. He is excellent in power, and in judgment, and in plenty of justice. He will not afflict."

Hot Weather Meetings.

One of the difficult questions to settle in all church work is in regard to keeping up meetings during hot weather. The city churches find it often difficult to get enough people together to have any service, because so many are away in the country. Country churches find it hard work to get time to hold services, because there are so much work and recreation to be attended to in behalf of city boarders and visitors. Yet there are always many in the city who can't get away. They need the meetings more than at any other time to keep in working shape and avoid lonesomeness. Keep up the meetings. But don't hold them in a musty, stuffy church vestry with all windows and doors closed. Get out in some one's garden or on the lawn or in ample parlors of some private residence. Make the programme short and bright and make the social element prominent. Have some letters to read from absentees traveling or at the seaside, among the mountains or on the farm. No heavy literary work should be attempted. Plan to have a day's outing in some pleasant spot. Invite and pay all expenses of some poor young men and women. Give some one a day of real pleasure that will make all the rest of the 365 days less dull and dreary because of its remembered sunshine and hearty good cheer.

The Great Chattanooga Convention.

From all parts of the United States and Canada the members of the Epworth League will soon be gathering to Chattanooga for the second international conference. Great multitudes will be in attendance, yet so thorough has been the preparation for their reception and so ample the provisions for comfort and enjoyment that the crowds will be a help and inspiration instead of a source of annoyance. To many it will be the one great experience of a lifetime. The seeing, hearing and personally meeting the great and good and honored ones of Methodism, whose names have become familiar by reading, will be a privilege never before presented to many, and never to be repeated to some. It is desirable that as many as possible go from New England. Fares are reduced and boarding rates are reasonable. Information can be had by writing to "Headquarters Epworth League International Conference, Chattanooga." A 16 page illustrated pamphlet will be mailed free on application. For 25 cents the official programme will be sent.

Literature and Reading.

Great numbers of Christians do not subscribe for or read any religious periodical. They are too poor or too busy, they say. This is only part of the truth. The fact is, they are too little interested in religious matters.

16 Years in Detroit. 200,000 Cured.

Young or Middle Aged Man. You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. *Self abuse or later excesses* have broken down your system. *Mentally, physically and sexually* you are not the man you used to be or should be. Lustful practices reap rich harvest. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy strength and ambition. Our *New Method Treatment* will positively cure you. It will make a man of you and life will open anew. *We guarantee to cure you or refund all money paid.* No names used without written consent. $1,000 paid for any case we take and cannot cure.

SNATCHED FROM THE GRAVE—A Warning From the Living.

Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit; I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children." C. W. LEWIS, Saginaw, Mich.

Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, dreams and losses at night, no ambition. The "Golden Monitor" opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks." I. L. PETERSON, Ionia, Mich.

Syphilis Cured. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of *Gleet* and *Stricture* by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years." W. P. M., Jackson, Mich.

A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have sent many victims of this lustful habit to Drs. Kennedy & Kergan for treatment. I can heartily endorse their *New Method Treatment* which cured them when all else failed."

A Doctor Recommends It. "I know nothing in medical science so efficient for the cure of *Syphilis* and *Sexual Diseases* as the *New Method Treatment* of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact." T. E. ALLISON, M. D.

Reader Have you been guilty? Has your *Blood* been diseased? Are you weak? Do you desire to be a *man*? Are you contemplating marriage? Our *New Method Treatment* will positively cure you. Cures Guaranteed or No Pay. Consultation Free.

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A. Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, with no apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1883 an old and intimate friend induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

LET US SPRAY OUR TREES

And Have a Good Crop of Apples.

What More Desirable and Profitable?

From late experiments it has been proven that it can be done. E. Tindall has been appointed agent for the selling of the best and most approved apparatus for the spraying of all kinds of fruit trees, vines, etc., including twenty different styles, from the small, cheap hand pump to the horse power machine for large orchards. All having the most perfect Nozzle. The pumps are made of brass and copper which can neither rust nor corrode, and are furnished with 4 to 8 feet of hose (or longer, if desired) and the Excelsior nozzle; also an air chamber, whereby a constant pressure is obtained so that a continuous force of from 50 to 100 pounds on the nozzle is secured with very ordinary exertion, and not affected by the movements of the plunger, throwing a stream 50 to 80 feet high. Also, peculiar to these outfits, hose are attached by which a small part of the liquid is re-discharged at the bottom of the reservoir with great force, which keeps the poison and water well mixed, which is very essential so as not to hurt the foliage. Reservoirs up to 8 gallons, of copper or galvanized iron, are furnished with these pumps for hand use. For orchards or larger uses a second hand, oil, or any tight barrel may be used, on which these pumps can be placed and moved about on a wagon, if desired. A complete and exhaustive discussion and directions on "How, When and Where to Spray, and the Ingredients Best for Certain Fruits, Vines, Etc.," found in printed matter furnished with these outfits. Please call at C. A. SLAYTON'S warehouse, Tecumseh, Mich., for inspection, further information and purchase of these outfits.

ONSTED OFFERINGS.

A Thriving Village Among the Cambridge Hills and Lakes.

HER STORES AND FACTORIES.

A Few Facts About Our Hustling Neighbor on the Mackinaw.

We spent a portion of two days the first of the week at Onsted, renewing old acquaintances and forming new ones. Since the new railroad—then called the Michigan & Ohio—established a station there the town has enjoyed a healthy growth and has become quite a business center. It is the metropolis of Cambridge township and the best village between Tecumseh and Addison on the Mackinaw road. The population must be about 300 at present. It has a Free Baptist church, of which Rev. Wellington Joy is pastor, which is in a flourishing condition. A good school sheds its benign influence over the community. Miss Eugenia Howes, the teacher, has given excellent satisfaction. There is a fine Masonic lodge here, Finch Lodge, No. 407, of which Ed. Taylor is Master and Geo. Kilbury Secretary. They have a good membership and are in a prosperous condition. The order of the Maccabees is also represented here by Justice Tent, No. 503. Wm. T. Clayson is Commander and M. P. Wemple Record Keeper, and the lodge has a large and growing membership. The Onsted Driving Club is one of the institutions of the town, of which F. I. Kinney is President and G. W. Ross Secretary. They give their first matinee of the season tomorrow, June 15, when a fine lot of races may be witnessed. The village has two good hotels and a nice little printing office, the Onsted News. The depot is now in charge of A. J. Sutton, of Ridgeway, who is temporarily in charge until the first of July, during the absence of the regular agent.

J. F. Brooks.

Among the business firms, one of the oldest and best is that of J. F. Brooks. He began business ten years ago on a small scale by running a tin shop. Two years later he started a hardware store on the north side, and has been gradually extending his lines ever since. Four years ago he bought the Sickner property on the south side and erected a two-story building on one corner of the lot and moved into the same four years ago next January. On the first day of October, 1893, he assumed charge of Uncle Sam's mail at Onsted and is now serving in the capacity of P. M. He carries a well assorted hardware stock and also has a clock and watch department. The second story of his store is used for a public hall and for a Maccabee lodge room. Mr. Brooks is well fixed at present.

Hines & Skinner.

The partners in this firm are both heavyweights in more senses than one. Mr. Hines has bought poultry and conducted a meat market for several years. In February, 1894, the present firm was organized, and during the few months since then they have stepped to the front in business. They carry on a first-class meat market, as of yore, where a full supply of fresh and salt meats is kept on hand. They also purchase poultry and stock of all kinds and have added a full and complete grocery stock to their store. They also keep a fine line of confectionery. The partners are both practical business men, give their personal attention to all the details of their business and are bound to succeed.

W. A. Teachout.

But few men know how to run a hotel successfully, but Mr. Teachout is "built that way." Although a young man yet, he has had fourteen years experience already in catering to the public. He managed the hotel at Rome Center, in this county, for ten years, and four years ago next October he took possession of his present hotel. He has a good patronage of both regular boarders and transients, and it can safely be said that he has become one of the business fixtures at Onsted. His wife sets an excellent table and manages her part of the household affairs admirably. Mr. Teachout runs a feed barn and livery in connection with the hotel, which has a good patronage.

W. F. Muck.

Mr. Muck came to Onsted in February, 1894, and bought out German & Perkins. He has one of the best locations on the south side and is evidently enjoying a good trade. His stock consists of dry goods and groceries, boots and shoes, and he keeps a good assortment in all these departments. Although comparatively a new comer in the business circles he has acquired an excellent reputation as a man of square dealing. His future success, as one of Onsted's leading merchants, is assured.

Onsted & Wemple.

Mr. M. P. Wemple came to Onsted before such a place was known on the county map, having charge of a section of the M. & O. railroad as civil engineer. He liked the people of that neighborhood, considered it a good opening for a new town, and when his job on the railroad was completed he settled down to business at once. The present firm was organized in January, 1894, and have been forging right ahead ever since. They run the elevator and buy all kinds of grain for shipment. They also manage a large lumber yard and deal quite extensively in seeds, salt and lime. Mr. Wemple has always been the active manager of the firm and has a neat office in the elevator building, where his friends are welcome.

A. G. Weatherhead.

Mr. Weatherhead is entitled to the honor of revivingan old industry, which is likely to grow into a large and lucrative concern. Last April he rented the old Laur cheese factory, brushed out the cob-webs, cleaned it up, put in a lot of new machinery, and on the first day of May he pressed his first cheese. Although he has been running only six weeks, he is now taking in about one thousand pounds of milk daily and making four or five cheese each day. He came from South Lyon, Mich., where he had been engaged in the same business. Mr. Weatherhead is a graduate of the Wisconsin Dairy School, which is located at Madison. He is, therefore, well versed in the theory of his vocation and has had considerable practical experience as well. He proposes to fight it out on this line and develope a large business, for the building has a capacity to accommodate a trade five times the present output. May success attend his efforts.

Perkins & Wallace.

The good people of Onsted evidently believe in woman's rights, for this firm, though composed of the fair sex, is doing a fine business. Seven years ago Mrs. Jennie Perkins opened a millinery store in the same building now occupied by the firm, and four years ago last January Miss Susie B. Wallace took a partnership interest. They keep a very complete stock of millinery and also a fine assortment of dress goods and ladies' furnishings. Mrs. Perkins owns the property, so they have never been shifting about from place to place and they have the neatest and tidiest store in the village. Mrs. Perkins' long experience enables her to cater to the wants of the ladies, and she can thus satisfy the most varied tastes in hats and bonnets for the fair sex. The firm enjoys a fine trade which is constantly increasing.

J. S. Kane.

Among the business men of Onsted, Mr. Kane may be said to belong to the old guard, as he came here very soon after the M. & O. railroad was opened. He opened a drug store in December, 1885, in connection with Mr. Curtis, the firm being Curtis & Kane. In a few years they sold to L. D. Palmer and Mr. Kane entered his employ. Mr. Kane afterwards bought the property of Curtis and in July, 1892, he opened an entire new stock of goods in his own building. He keeps a large stock of drugs and medicines, a full line of groceries, ready made clothing and gents' furnishings. Mr. Kane is personally popular, keeps experienced clerks in his employ, and hence he always enjoys a good trade. He has become one of the fixtures in Onsted and is likely to continue in trade here for a long time in the future. May his shadow never grow less.

A. L. Mosher.

Mr. Mosher took the Onsted Hotel in August, 1894, and he was so well pleased with his venture that on the first of May last he renewed the lease. Mr. Mosher used to manage a livery in Brooklyn, but this is his first experience at hotel keeping. He settles into the traces, however, like a veteran and has already established the reputation of being a first-class landlord. His hotel is the brick house on the south side and is a very convenient and commodious building for that purpose. He enjoys a good custom from commercial travellers and has several regular boarders besides. He also runs a feed barn and livery in connection with the hotel, which helps out very materially with the finances. His table is well provided with both substantials and delicacies and people find it a good place to indulge in a good, square meal.

Solomon Billmeyer.

Last spring Mr. Billmeyer bought out Terry & Randolph and has since conducted the agricultural implement store on the north side. He keeps the celebrated Deering machines, of which he has sold a large number this spring, some of the Gale company's machinery and a full assortment of agricultural implements of various kinds. He also sells the Kalamazoo buggies and other makes. If industry and push merit success, then Mr. Billmeyer is bound to succeed.

Sickner & Sheeler.

No town is complete in these days without a good flouring mill. The Roller Mills, conducted by the above firm, give Onsted a first-class concern in that direction. Mr. Sickner, the senior partner, has had twenty-two years experience in the milling business and is thoroughly posted in all the details of that industry. Mr. Sheeler has recently bought Groger's interest and is settling down to his new calling admirably. They have two rollers of the latest pattern, and also an old style burr for feed grinding. The present firm is a strong one and is destined to thrive and prosper for many years. Onsted needs such an institution and they are fully capable of supplying the want.

S. J. Fish.

Mr. Fish runs a peculiar combination, but he makes it work like a charm. He has been conducting a tonsorial parlor for some two years. Last spring he added a confectionery room, where he keeps a fine supply of candies and also soft drinks, ice cream, etc. He has neat, cozy quarters, where both ladies and gentlemen can tarry a few moments with pleasure, to partake of cooling refreshments during the hot weather. His ice cream is fine and made fresh every day.

Schuyler & Smith.

Every country village needs a good blacksmith shop and this firm fully supply the wants of this community in that regard. In March, 1894, they bought out A. F. Peters and since that date the hammer and anvil have not been idle in their shop a single day, except Sundays and holidays. They do all kinds of carriage and wagon repairing and also make a specialty of horse-shoeing. They have a very large custom in this branch of the business.

The Onsted News.

Last, but by no means least, is the village paper, which is published by Miss Myrtle M. Maxwell. The paper was started in July, 1894, and this week's issue is No. 46 of the first volume. In December last Miss Maxwell bought the office and has conducted it since that date, doing all the work upon the paper herself, both editorial and mechanical. The sheet is a credit to the owner and also to Onsted, and the business houses of the village accord it a liberal advertising patronage.

ANOTHER FLAG RAISING.

The spirit of patriotism is surely spreading over the land and ere long the school house without a pole and U. S. flag will be the exception. Saturday, June 8, a beautiful white pole was raised at the school house in Dist. No. 1, Clinton township. Mr. Arthur Camburn has presided over the school the past year, and that he has given satisfaction was fully demonstrated by the large number of people who assembled to witness the exercises last Saturday. Mr. Camburn invited the school east, and also the one south of his, to join in the exercises. The Post and W. R. C. of Tecumseh were also invited to send representatives. The exercises commenced early in the afternoon, by the raising of the pole and running up the beautiful new flag, after which the exercises consisted of patriotic songs, recitations, essays and readings. A class of young boys and girls gave a flag drill, which an old veteran pronounced fine, and it was certainly enjoyed by the audience. Short talks were given by Mr. Shull, Mr. Stevens and Rev. Blachford, of Tecumseh, and an interesting paper by Mrs. Hanley. The district appreciate the assistance given by the Macon young people, Miss Clarkson's pupils, and the little folks from Tecumseh. A large canvas was stretched over the front yard, making a pleasant and convenient place for holding the exercises. At the close three cheers were given and the people dispersed to their homes, well pleased with the afternoon's entertainment. Dist. No 1 is proud of its teacher, proud of its school, and now points with pride and patriotism to its flag.

TIPTON ON PAPER.

What They Are Doing in Franklin This Summer.

We made the village of Tipton a business call the other day and found the place all right side up with care. Tipton is not as large as Adrian or Tecumseh, that is true, but it is on dock, just the same, and doesn't propose to be counted out in the race for business. It contains two good churches, both of which are well sustained and in a thriving condition. Rev. H. T. Shier is pastor of the M. E. church and Rev. W. T. Williams is pastor of the Congregational. Both are young men, but well educated and thoroughly imbued with the importance of their work, and hence they are tilling the Master's vineyard to good acceptance. There is a flourishing Maccabee lodge, Tipton Tent, No. 239, which contains over 100 members. C. A. Cooley is Commander and W. J. Hampton Record Keeper. There is also a Hive of 52 members. Mrs. Wm. Pentecost being Lady Commander and Miss Edie M. Burns Record Keeper. Frank Jenkins conducts the postoffice, with the help of his wife when he is away, and the office was never better managed than at present.

W. J. Hampton.

Mr. Hampton still holds forth in the brick store on the corner and may be regarded as a fixture in Tipton. He began business on a small scale on the 1st of March, 1888, in the small building on the southeast corner. In the fall of 1892 he built his present brick store and moved into it on March 3d, 1893, with a new stock of goods. The building is an extra good one for his use, containing family rooms in the rear, a large store in front and a fine public hall in the second story. This hall is used by the Maccabees for their lodge room. He carries a general stock of goods suitable for a country store, comprising groceries, dry goods, boots and shoes, and everything which the farmers need. He also deals in farm machinery quite largely and ships butter and eggs in their season. A splendid flowing well supplies the premises with water. Mr. Hampton has a nice family, a large trade, and has "come to stay."

John Conlin.

Across the street on the south side is located John Conlin's store. He began business in Tipton away back in 1884 in the small building on the southeast corner; moved into his present quarters in April, 1889, and has been gradually extending his lines ever since. He owns the property he now occupies, which is well fitted for his uses. His family reside in the rear rooms and there is a commodious public hall in the second story. He erected a fine barn last fall and has otherwise improved the property. He keeps a general stock of merchandise suitable for the farming community. By strict attention to business and square dealing he has built up a fine trade. He makes a specialty of boots and shoes, having advantages in the buying of these goods which most traders lack, and hence he enjoys a large and increasing trade in these staple articles of necessity.

Tipton Cheese Co.

This is a new concern, less than two months old, but the way it is forging to the front is a caution. The company consists of several stockholders. J. W. Crane is president, Wm. A. Beebe manager and B. F. Beebe secretary. The building was rushed up in about two weeks and they took in the first milk April 23d. New patrons have been added to the list almost every day sihce and they are now receiving a daily average of about 5000 pounds of milk and making about 20 cheese every day. Last Monday they took in 5516 pounds of milk. They have the very latest machinery and appliances and hence turn out a product that has already established a first-class reputation in the market. Their sales thus far have been in Illinois and Wisconsin. They were very fortunate in procuring Milo A. Stocking as cheese-maker. He has had fourteen years experience in the business and has lots of blue and red ribbons for prizes received. In the year 1890 he took 27 premiums at different fairs in Illinois for the best made cheese. The same year he took the sweepsteaks prize at the American Dairy fair held in Chicago. Under his efficient management this new industry is bound to grow right along and has brilliant prospects for the future. The output is already more than the company expected, and Frank Jenkins is now employed as assistant in the factory. The farmers cannot overcrowd the capacity of the concern with Stocking and Jenkins at the helm.

A. J. Bouck.

Mr. Bouck has been pounding the anvil, setting tires and fitting on horse shoes in the same shop he now occupies for fourteen years. He does all kinds of wagon and carriage repairing and makes a specialty of horse-shoeing, in which branch he has a large custom. He generally keeps another hand in his employ and it is a "cold day" when he hasn't plenty of work to keep him busy. He is regarded as a first-class mechanic in his line of trade.

The annual exercises of the Alumni association are held tonight at the Town Hall. The program will be carried out as published last week, with the exception of a few changes, which it was found necessary to make. The banquet will follow at the hall directly after the program.

At a meeting last Friday the Maccabees accepted a proposition from Smith & Huntington to fit up suitable lodge rooms over their brick store now being erected. The new quarters will be finished especially for the purpose and will also be much more commodious than those now occupied.

Probably the most notable event in the history of Wampler's Lake occurred last Monday when a large party of Clinton people of eligible age and sound mind visited that popular resort for a few days outing. Tecumseh and Detroit were also represented and did their share towards making the occasion one long to be remembered both by the denizens of the lake country as well as by the participants themselves.

The game of ball last Saturday between Clinton and Tecumseh, on the latter's grounds, was hardly up to the standard for either team, Clinton, especially, putting up a poorer game than usual. The following are the particulars of the match:

It's Dangerous Ground

that you stand on—with a cough or a cold, and your blood impure. Out of just these conditions comes consumption. You must do something. In the earlier stages of consumption, and in all the conditions that lead to it, Doctor Pierce's Golden Medical Discovery is a certain remedy. This scrofulous affection of the lungs, like every other form of scrofula, can be cured by it. In severe, lingering coughs, all bronchial, throat and lung affections and every disease that can be reached through the blood, it is the only medicine so effective that, once used, is always in favor. A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœr and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

Ohio is disposed to rub it in on Gov. McKinley. During his last attack of absence from the State they lynched another man out there.

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891: "Clinic Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself, am able to testify to its merits. My face to-day is a living picture of health, and Clinic Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities. LOOKING BACKWARD.

Look after the Back: A Fall, a Strain, a Constant Sitting or Stooping Position Brings Backache—Do You Know This Means the Kidneys are Affected?

How few people realize when their back begins to ache that it is a warning provided by nature to tell you that the kidneys are not working properly. You have a severe fall, you strain yourself lifting or perhaps you are compelled to maintain a sitting or stooping position for long intervals at a time, your back begins to ache, then your head, you become listless, tired and weary, but do you understand the real cause? We think not, else you would not use plasters and liniment on the back, which only relieve but do not reach the cause. If you would rid yourself of the pain and cure the root of the trouble, at the same time save many years of suffering and perhaps life itself, you will take a kidney remedy that has been tried and proven that it will cure.

Mr. John Robsoin of 661 Russell Street, Detroit, says: "As a result of exposure during the war I have suffered ever since with rheumatism and kidney trouble. Pains would start in my hip and go around to my back. Highly colored urine denoted kidney disorder. The pain in my back was often so bad I had to give up work until the severity of the attack passed away. I have used many liniments and other things, but received very little relief. Some time ago I started using Doan's Kidney Pills and they have worked a wonderful change in me. My back is all right now and I owe it all to the almost magical influence of Doan's Kidney Pills."

Mr. Robsoin was a member of the Fifty-first Illinois Regiment, which served through the war with honor and distinction. Doan's Kidney Pills are for sale by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

The Most Thorough Purifier of the Blood Yet Discovered.

It purifies the Blood.
It invigorates the Liver.
It regulates the Bowels.
It strengthens the stomach.
It gives vivacity in place of lassitude; cheerfulness in place of gloom, and robust vigor in place of debility.

Dyspepsia, Biliousness, Disordered Liver, Constipation, Nervous Affections, General Debility in short all the numerous diseases and discomforts caused by impure blood are speedily conquered by this powerful corrector, the chief and sovereign of all ancient or modern medical discoveries—KING OF THE BLOOD.

Its name is its best description as it is a royal dispenser of the blessings of health and vanquishes the foes that lurk in the blood.

It banishes PIMPLES, SALT RHEUM, SCALY ERUPTIONS, ULCERS, SCALD HEAD, FEVER SORES and all SCROFULOUS DISORDERS.

It checks CONSUMPTION in its early stages. has frequently cured it when advanced.

It disperses TUMORS and CANCERS without the Surgeon's knife.

It cures DROPSY, general or partial.

It cures FEMALE WEAKNESS and DISEASES.

It reduces in a safe and effectual manner all swellings, external or internal.

It eradicates the effects of Venerial Disease and Mineral Poisons and establishes a sound constitution.

Many certificates, much further information and full directions for using will be found in the pamphlet, "Treatise on Diseases of the Blood," in which each bottle is enclosed.

Price $1 per bottle containing 1¼ ounces, or 50 doses. Sold by dealers in medicine.

If your druggist does not happen to have it on hand, request him to order a supply of it for you will be cheaper than for you to order direct of us, and less trouble.

HOLLOWAY HASH.

This is fourth of July weather.

Miss Fan Kelley spent Sunday at home.

Miss Agnes E. Still spent Sunday at home.

Miss Stella Anthony was a caller in town Thursday morning.

Mrs. L. C. and C. E. Winship drove over to Adrian Wednesday.

Chas. Sutherland, of Adrian, is visiting Cassie and Forest Florance.

Mrs. Bert Carpenter and Etta C. were callers in Tecumseh Tuesday last.

Misses Bertha Britton and Belle Rupp were callers in town Sunday afternoon.

Several ladies of this place attended the services at the Reform School at Adrian.

The ladies social meets at Mrs. A. D. Macham's Friday afternoon. All are invited.

Mr. and Mrs. Camburn, of Adrian, were guests of Hon. Horace Holdredge last Sunday.

Mrs. Snow, of Montpelier, Ohio, is stopping with her daughter, Mrs. W. C. Holt, at present.

Mr. and Mrs. Macham and Brown and wife attended the social at A. Richard's in Tecumseh.

C. T. Ratts, the popular young creamery man, has changed his abode to the home of Benj. Kelly.

Mrs. Dora Bowen attended church here Sunday and was a guest of her mother, Mrs. D. P. Anthony.

Dr. Nixon has his buggy painted up in fine shape and it looks very nice. The young ladies admire it very much.

Mr. and Mrs. Otis Hoadley, Darius Fisher and Miss May Bennett, of Fairfield, visited G. McClenathen and wife Sunday.

A. D. Macham sports a fine new surrey and can put on style as well as anyone, and takes the dust of no man these days.

Hartman's ice cream parlors were thronged with visitors and they disposed of ten gallons to the public Saturday and Sunday.

Miss Florence Spencer has a fine new bicyle, a present from her father, and she makes a fine appearance as she is a graceful rider.

Children's day was observed at the church. The exercises were good and the decorations of flags, bunting and flowers were beautiful.

Married, Miss Ida Ball and Mr. Sam Boyd. They will make their future home in Kalamazoo, where Mr. Boyd has a position in the asylum.

F. G. Florance has Vienna bread to sell, fresh from the bakery. Also, a very fine line of sweet cucumber pickles. He solicites your patronage.

What's the matter of Holloway having a celebration the fourth of July? Let the citizens take hold of the affair and have a rousing old fashioned celebration.

The Maccabees give a memorial address at their hall Sunday afternoon, June 16, in honor of their departed friends. L. C. Chase delivers the address.

Miss Addie Bethel, a former operator in this place, was married Monday evening to a Mr. Rick, an engineer of the Wabash road. They reside in Montpelier, Ohio.

The new store which started here this spring is doing a good business. Mr. and Mrs. Hartman are courteous to all and treat people in a way that draws trade. Success to them in their enterprise.

The Grahamtown school held their reunion at the home of Allen Kelley and a pleasant time was enjoyed by all. Aunt Laura Haviland met with them once more, and may she live to enjoy lots more reunions.

THE RAISIN INSTITUTE.

The Eleventh Annual Reunion of the Alumni, Held on Tuesday June 6th.

The annual reunion exercises of the old Raisin Institute or "Graham School," as it was once called, are looked forward to with much interest by the graduates of that institution. This year the reunion was held at Mr. Allen Kelley's, near Holloway in the town of Raisin. It is a beautiful place for a gathering of this kind and the day was perfect. Guests began to arrive early in the forenoon, and when the dinner hour had arrived, eighty-five were in attendance.

The time till noon was given to the hearty handshake, renewal of old acquaintance and reminiscences of the past.

The central figure was the founder of the institute, Mrs. Laura Haviland, or "Aunt Laura," as she is familiarly called, hale and hearty, with a laugh joyous enough to [illegible] most chronic case of "blues," and which tells us that the hand of time rests lightly on this "Mother in Israel," who has reached the ripe age of 86.

Precisely at 12 the guests were invited to the lawn, where a bountiful repast had been spread, to which ample justice was done, after which they adjourned to the spacious parlors, where the following program was carried out:

Music—"America," by W. E. Doty and others.

Prayer by Rev. Stead.

In the absence of the president, who was to have given the annual address, the Rev. L. C. Chase was called upon, and made a few timely remarks on the benefit of these reunions, paying a high tribute of respect to "Aunt Laura," whom he regarded as having done much to mould for good the character of many present.

"The last Olcott year," by Mrs. Julia Knight-Edwards, was a production of much worth.

Letters from absent students were then read.

The committee on memorial chronicled the death, since the last meeting, of the following members: Mr. F. C. Rector, Mrs. Katie Hoag-Cook, Mrs. Louise Cobb-Taggart, Mrs. Anna West-Wilson and Mr. Otis Smith.

The committee on program reported the following for the year 1896:

Address by the president.

"The Rood administration," by Rev. S. B. Smith, of Grand Rapids.

"The students of Adrian," by W. H. Knight.

"Poem," by Mr. T. S. Applegate.

Mr. and Mrs. Granville Knight were appointed a committee on music.

Mr. Horace Holdridge, Mrs. Walter Fuller and Miss Carrie Colvin were appointed a committee on resolutions for 1896.

The program committee for 1896 will be Mrs. Eliza Holdridge-Camburn, Mr. E. G. Wilson, and Mr. Everett Torrey.

The following officers were elected for the ensuing year:

Pres.—J. B. Colvin.

Vice Pres.—Mrs. Eliza Holdridge-Camburn.

Sec. and Treas.—Cicero Torrey.

The benediction, by Aunt Laura, closed the exercises, and the guests were then served with ice cream. Then with a fervent good-bye the guests departed, feeling that another "oasis in the desert of life," another reunion of the students of Raisin Institute was an event of the past.

Palpitation of the Heart

Shortness of Breath, Swelling of Legs and Feet.

"For about four years I was troubled with palpitation of the heart, shortness of breath and swelling of the legs and feet. At times I would faint. I was treated by the best physicians in Savannah, Ga., with no relief. I then tried various Springs without benefit. Finally, I tried

Dr. Miles' Heart Cure

also his Nerve and Liver Pills. *After beginning to take them I felt better!* I continued taking them and I am now in better health than for many years. Since my recovery I have gained fifty pounds in weight. I hope this statement may be of value to some poor sufferer."

CHILDREN'S SUNDAY.

One of the most beautiful customs observed in the entire church calendar is the celebration of Children's Sunday, and our societies and Sunday-Schools so fully realize this fact that they spare no pains to make it a day emblematic of the pure hopeful little lives for whose edification it has been established. Last Sunday was children's day all over this broad land but in the custom, in Tecumseh at least, it did not live up and exceed the blessing of such pretty and inspiring exercises as the event calls forth that each and all may have the pleasure of the occasion efforts. Accordingly the Sunday-schools of the Presbyterian, Universalist and Baptist churches observed last Sunday, while the Methodists, Episcopalians and Friends will hold the programs next Sabbath.

In the Baptist church the exercises were held in place of evening service at the usual hour of 7:30. The program consisted of recitations, responses and music, in the most part rendered by the children of the school, the regular choir singing the opening piece and Rev. H. A. Smith pronouncing the benediction at the close. Perhaps the feature of the evening might be said to be an emblematic piece of dialogue entitled "The Fountain of Life," in which the Pilgrim, Miss Blanche Taylor, was seeking life and peace. The weary seeker was offered the emoluments of education, ambition, wealth and music but was only satisfied when Mercy proffered the blessings of immortal life as represented by the cross. Rev. G. E. Rowe made a short address to the school most appropriate to the occasion. The church was decorated with wild flowers, ferns and vines.

The Presbyterians gave the time of the regular morning service to their program which was listened to by a very large audience of attentive observers and listeners, for when the children of the Presbyterian Sunday-school speak everybody looks and listens. As usual on such occasions here the children rendered most of the program, consisting of recitations, special exercises, music etc. The music was a prominent feature this year and it is unnecessary to comment upon the singing of the children when they all sing together. Of course the flowers played an important part in the affair and all in all it was carried out in a manner highly creditable to the standing of the school.

At the Universalist church the pastor gave an address to the children in the morning, and at the close of the regular service four little ones received the rite of baptism. In the evening a Sunday-school concert was given consisting of music, recitations, declamations, etc., in which both children and adults acquitted themselves with much credit. The violin solo and address by the pastor were very fine and added much to the interest of the program. Mr Andrus is entitled to more than the usual amount of credit for the good work he has accomplished during his brief pastorate. The Sunday-school is nicely started and in a healthy condition. The floral decorations were elaborate and beautiful and most tastefully arranged.

Some Unpleasant Facts.

The policy of the State of Michigan in respect to the liquor traffic is now pretty clearly defined. In 1887 a constitutional amendment was submitted to the people and defeated. Well-formulated charges of fraud in connection with the counting of ballots were presented to the legislature and were promptly shoved away into pigeon holes, never to see the light again. In 1895 the legislature refused to submit another amendment and refused to pass a bill prohibiting treating. It raised saloon licenses to $500, the purpose being, according to the organ of the party in power, to "preserve the saloon rather than destroy it." On the junketing trip to the upper peninsula the legislative train carried intoxicating drinks at public expense, and members of the legislature were seen to go into saloons by sleigh loads in a certain town in northern Michigan. With a single exception, these law-makers were all of one political faith and were all overwhelmingly elected to their positions. They may be supposed to have represented the sentiments of the voters. During the past quarter-century the drift of sentiment and legislation in this state has been away from prohibition. This fact cannot be denied, whatever the causes may be. Nor can the present conditions be ignored, whatever complaints may be made by a few, and whatever remedies may be proposed by the minority. The truth is that this commonwealth is fostering the liquor traffic and coolly ignoring radical temperance sentiment. Unless some method is devised to bring prohibitionists together for concerted action and to create a balance of power, nothing good may ever be expected from the politicians. The party press will continue to ridicule, or at least to misrepresent prohibition, some because they are opposed to the idea, and others because they wish to please the liquor element. These misrepresentations will continue to have weight with the masses of voters who prefer party to principle, and no reform may be expected. These are cold facts. One class of good people may blame another class of people for this unfortunate state of affairs, but while they are berating each other the liquor devil will retain his grip upon the lawmakers, and upon the makers of those who make the law, and nothing practical or sensible will be done.

Temperance.

There are 32,000 liquor shops in Paris and 425,000 in the departments, one to every 85 inhabitants.

The legislature of New Mexico has enacted a law prohibiting the sale of tobacco in any form to minors.

The government of Canada has prohibited the sale of intoxicants among the Indians of Hudson Bay territory and punishes severely any violation of this law.

Alarmed at the ravages of strong drink, the Belgian government has ordered the display in all school-rooms of a printed placard setting forth the injurious effects of alcohol.

State control of the liquor traffic is to be tried on a large scale in Russia. In the government of Perm Uta, Orenburg and Samara, in east Russia, drinks are to be sold only by the state.

The conversion of Sir William Vernon Harcourt to temperance views is largely due to the influence of his wife. Lady Harcourt is the daughter of the American historian, John Lothrop Motley.

Senator Hoar, of Massachusetts, says he wishes to be counted among those who do not mean to give up the attempt to rescue the cities and towns of that state from the vice of dram-drinking and dram-selling.

The liquor dealears of New York now blame Mayor Strong for the failure to enact Sunday opening laws. They say he favored it and recommended them to try the experiment of keeping open saloons on Sundays, and that this stirred up the Sabbatarians and temperance men all over the state, and that representatives at Albany have been so deluged with petitions and protests and remonstrances that they dare not vote to submit the matter of Sunday opening to a vote of the people.

BASE BALL BATS.

Eaglick and Lewis played good, steady ball at Tecumseh Saturday.

The giants passed through here Tuesday night to play the M. C.'s at Jackson Wednesday.

Last Tuesday was a hot day for accidents. Schofield got a straight punch in the neck, Waring a hot rib-roaster, and Spaulding a sprained ankle.

Tecumseh is being treated today to a regular game between the leading nines of the state and we sincerely hope that she will turn out a crowd commensurate with the courtesy shown by the management in bringing the game to this town.

The game in the near future will be the long looked for contest between the Cigar Roller Cots and the Hollow Ware Giants, which has been fixed for tomorrow. There is much rivalry between these popular teams and a fight to the finish may be looked for. This will be [illegible]

Last Saturday seemed to be a hoodoo for the nines which were contesting in old Lenawee. The game at Adrian between the Adrian League and the dusky Giants resulted in 20 to 10 for the Giants; at Briton, Britton vs. Cone, 15 to 16 for Britton, and at Tecumseh the home team got 20 to Clinton's 9. The aggregate of these scores would indicate a rather bad day for the diamond.

The game at the Maccabee celebration at Dundee Tuesday was also rather ragged, considering the work heretofore done by the nines engaged. The score given below tells how the game went:

	1	2	3	4	5	6	7	8	9	R	BH	E
Tecumseh...	1	3	0	1	7	4	0	1	*	17	14	8
Britton.....	4	0	0	1	2	3	0	2	2	14	12	5

Batteries—Harris and Scofield; Fitzgerald, Biggs and Lowe. Earned runs, Britton 5, Tecumseh 10; 2 base hits, Grayson 2, Cutting, Lee, Lewis; stolen bases, Scofield 3, Grayson 2, Cutting, Whelan; base in balls, off Harris 2; off Fitzgerald 7; wild pitch, Harris 1, Fitzgerald 3; struck out by Harris 13, by Fitzgerald 6, by Biggs 3. Umpire, Wm. Ross. Time, 2:30.

A very good game was played yesterday between the North Adrian club and the first nine of Tecumseh with three high school boys in as substitutes. Harris pitched one inning, played on first base and at shot, all in excellent form. Kennedy and Pennington pitched the rest of the game with Grayson behind the plate. Ryan and Derby constituted the battery for the visitors and the whole team averaged a good, lively game, playing ball the entire time. The score was as follows:

	1	2	3	4	5	6	7	8	9	
Tecumseh.....	0	2	3	4	3	0	0	2	*	—14
North Adrian.....	1	1	0	0	0	1	0	8	0	—11

Home run, Harris; 3 base hits, Harris; 2 base hits, Whelan, Harris 2, Aten, Tripp, Derby; struck out by Derby 7, by Pennington 3 Harris 2, Kennedy 1.

The game between Clinton and Tecumseh last Saturday afternoon was hardly up to the mark which has been previously set by these clubs. Clinton, especially, seemed to be suffering from indisposition, and the home team did not play the game that they have heretofore put up, though Easlick and Lewis, the battery from Lake Ridge, did a very good job from start to finish. The features of the game, outside of poor playing, were two three-base hits by Whelan, Cutting's two-bagger in the 6th with three men on bases, and Nauman's excellent work in centre field for Clinton. The umpiring was entirely satisfactory to both teams. The score was as follows:

ADDITIONAL LOCAL.

Miss Matilda Muetschel, late preceptress of the west side schools at Hudson and who has accepted a like position at Flint for next year, was the guest of Miss Flora Hartbeck Tuesday.

Mrs. Alice Hardenburgh left home Monday for a trip up the lakes on the propeller Marquette. She will be the guest of Capt. and Mrs. Chilson and will be gone probably about ten days.

At the Friends' church next Sabbath, regular service will be held in the morning and brief children's exercises in place of Sabbath school. No service in the evening, as the congregation will unite in the union services.

Mrs. R. C. Van Antwerp has disposed of her ice cream and restaurant business to Robt. Moir who takes possession soon. Mrs. Van has successfully catered to the people of Tecumseh for many years and though her many friends will miss her at the old stand, they rejoice that her business has fallen into good hands.

Next week will be pretty well filled with "doings." The Tecumseh School Commencement will take place the 20th and the Alumni meeting on the 21st. The Raisin Valley Commencement and the Farmers' Union Picnic will be held on the 21st. The Farmers' Social club and the T. and F. club will hold their picnics on the 22d.

The Tecumseh High School Commencement will take place next Thursday evening at Sutton's opera house. The class is one of the best that ever left the High School, and a program of extra merit may be expected. There are ten graduates—five young men and five young ladies. The invitations were sent out several days ago, and a crowded house is a certainty. Keep that evening clear of all other engagements.

The home of M. E. Lamkin, on section 32, in Raisin township, was totally destroyed by fire about 6 o'clock Wednesday morning. Mrs. Lamkin arose started a fire in the kitchen stove, and then returned to bed. A short time afterward Mr. and Mrs. Lamkin were startled to hear a crackling sound, and hurrying out of bed they found the kitchen to be in flames. A good share of the contents were saved, but they were badly damaged. The house was insured in the Farmers' Mutual for $200 and the contents for $500.

OBITUARY.

MRS. JOHN BLESSING.

At her home in Tecumseh, at 6 o'clock Saturday evening, Mrs. John Blessing passed away at the age of 52 years. She was born in Yorkshire, N. Y., Aug. 1, 1842, and was married to Mr. John Blessing Jan. 25, 1858. Five children were born to them, three boys and two girls, all of whom are living to mourn the loss of a kind, loving and affectionate mother. "At sweet rest." Funeral services were conducted by the Rev. James Hageman at the house Monday, June 3, at 4 o'clock p. m. The surviving children wish to extend their thanks to those who so kindly assisted them in their time of affliction.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Deafness Cannot be Cured

by local applications, as they cannot reach the deceased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but the inflamed condition of the mucous surfaces.

James Lowry and wife leave home tomorrow for their Atlantic trip. They expect to leave New York on the 19th on the White Star steamer Majestic. May they have a smooth voyage across the pond, a pleasant visit and a safe return. Mr. Lowry has been closely confined to his business for many years, and he has earned a few weeks' respite from work. That he may enjoy them is the wish of his friends.

Ladies should read carefully the advertisement headed "Tea Club Orders." They may procure either a 100 piece English Dinner Set, or a 12 piece English Bedroom Set, by getting up a club. This is an excellent opportunity. The offer is made to introduce his teas and baking powder to the readers of this paper. For full particulars write or call on A. Beesch, Importer of Teas, 613 Summit St., Toledo, O.

While the Rev. Blachford was attending the convention in Ann Arbor last week, he met Mr. David Galatian of Detroit, and Mr. Peter Galatian of Ann Arbor, two sons of the late Dr. Peter Galatian, who lived in Tecumseh from 1841 to 1842. Dr. Galatian conducted the first Episcopal church service held in Tecumseh, the place being his own home where the service was for the benefit of his family. Soon others joined, and from that time St. Peter's congregation grew. The Doctor and his wife were the first communicants. Mr. David Galatian gave to Mr. Blachford the photographs of his father and mother, suitably framed, which are to be placed in the vestry room of St. Peter's church. Mr. David VanTine is the only member of the present congregation who remembers having seen these first Episcopalians of Tecumseh.

We will not celebrate.

—When the Waterbury watch Company stopped manufacturing their old style watch, the flood gates of cheap Swiss factories were opened, and poorly made, very unreliable watches were forced on the market in place of the very accurate Waterbury, which had but the one fault—its long wind. The clock factories, with their cheap clock watches, added to the stock of poor stuff, and the Waterbury Company were appealed to for something good and cheap in the quick wind series. The result is the new 'Trump' watch, which sells at $2.50. Call on ADAMSON BROS. and see this new watch.

The World's Fair Tests

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

FURIOUS FLAMES.

They Cause a Loss of Over $300,000 in Kalamazoo.

KALAMAZOO, Mich., June 10.—Fire Sunday afternoon destroyed the extensive lumber yard and sash, door and blind factory of Dewing & Sons and several frame and brick blocks. Dewing's loss will be over $100,000, with $75,000 insurance. The total loss will be over $300,000. The fire broke out at 3:45 o'clock in the lumber in the yard next to the immense box factory and in an incredibly short time the whole factory was in flames and at 5:30 the brick walls fell in. The blaze then began to appear over the roofs of the buildings on the east side of Burdick street, between Kalamazoo avenue and the Michigan Central tracks. All those business blocks, except a two-story brick store owned by Lawrence Luby, at the corner of Kalamazoo avenue and Burdick street, are practically or totally destroyed. The buildings totally or nearly destroyed are:

Buildings Burned.

Murphy's brick block, owned and occupied by Edward Murphy as a saloon and residence; story and a half brick building owned and occupied by Columbus Reisterer as a saloon and residence; story and a half brick block, owned by John Bommerscheim and occupied by him as a saloon and residence; brick building owned and occupied by Frank Wagner as a saloon and residence; frame building owned by Lawrence Luby and occupied as a residence by Edward Cagney; the Johnson hotel; the three-story brick owned by Mrs. John D. Johnson; the brick building owned by O'Neill and occupied by the National Cigar company, and F. L. O. Shaughnessy and F. E. McGlinon buildings.

Bommerschlem has $5,000 insurance, O'Neill $1,000 and the Johnson hotel $5,000. The contents of nearly all the buildings were saved. Everything was saved from the office of the Dewing & Sons factory. Two small dwellings on North Edwards street were also destroyed.

The firms burned out will at once rebuild. The fire is supposed to have been started by tramps. There was no fire in the engine room or anywhere about the premises. It is the largest fire ever experienced by Kalamazoo, and the fire will throw 150 men out of employment.

WORST CROPS IN YEARS.

Lower Peninsula of Michigan Suffers from the Severe Drought.

LANSING, June 12.—Over the upper peninsula and extreme northern part of the lower peninsula the weather has been very favorable to all growing crops. In the southern half of the state, however, the conditions have been very unfavorable, due to the continued spring drought. All crops except corn have suffered greatly. Wheat and grass shows the continued lack of moisture the most, being thin and having very short straw. Corn is generally reported as growing finely and coming up well, probably due to the fact that it has such a deep root. Altogether the reports received for the past week indicate that the general condition of most crops in the southern part of the state is the worst for some years.

FOR MICHIGAN SILVERITES.

State Convention Called to Meet June 25 at Grand Rapids.

BATTLE CREEK, June 8.—The following call for a state silver convention has been issued:

"The electors of Michigan are hereby called to meet in convention June 25 at Grand Rapids, to effect a state organization on the lines embodied in the address of the American Bimetallic league of March 5 and fight to a successful termination this momentous question. Let every county in the state be represented. Let every silver club send delegates or come in a body. Lastly, let the entire people turn out and prove that Michigan is not behind in this the great question of the day.

"SAMUEL MCKEE, Kalamazoo county.
"F. C. RHEUBOTTOM, Branch county.
"G. W. AYRES, Hillsdale county.
"B. S. PRATT, Eaton county.
"J. M. LITTLE, Calhoun county."

Meeting of Old Settlers.

TRAVERSE CITY, June 6.—The annual meeting of the Old Settlers' association of Antrim, Benzie, Charlevoix, Grand Traverse, Kalkaska and Leelanaw counties was held here Wednesday with the largest attendance in its history. A business session was held in the morning, and Perry Hannah was elected president. The afternoon was devoted to reminiscences. Among those present were five who were residents of Michigan when it was a territory, and have lived here ever since.

Died of His Injuries.

ST. JOSEPH, June 9.—Charles Springstein, who was injured by falling into the hold of the steamer City of Louisville Monday, died Saturday night without regaining consciousness. He was one of the managers of the Hotel St. Joseph and was formerly steward of the Chicora. He leaves a wife and two daughters. He has been in the employ of the Graham & Morton Transportation company for years.

Arrested for Swearing.

FLINT, June 10.—John Wood, an old man, who acted as second for Joe Burns in a recent wrestling match with Ed Brown, was so mad over the decision that he attacked the referee before a large crowd on the street in language that would have shocked a pirate. The anti-profanity law was dug out of the dust and used to send the old man to jail for twenty days.

A Bicyclist's Death.

KALAMAZOO, June 12.—Albert J. Monroe succeeded in covering 100 miles on his bicycle. The next day he took a long ride, at the end of which he died suddenly. The coroner's jury found that his death was due to apoplexy brought on by excessive bicycle riding.

Child Burned to Death.

GREENVILLE, June 12.—The three children of Farmer Craig, north of here, attempted to build a bonfire in the barn, and two of them were seriously burned in trying to rescue the youngest, who was burned to death.

Drowned.

BENTON HARBOR, June 11.—Nicholas Broderson, of St. Joseph, fell from a painter's scaffold on the steamer City of Louisville into the canal here and was drowned.

The Canadian steamer Jack, which collided with and sunk the steamer Norman in Lake Huron, was officially appraised at $8,400, which will be all the damages that can be recovered.

Raised the Rate.

KALAMAZOO, June 10.—The city board of supervisors have finished their labors in the work of fixing the general taxes on real and personal property in Kalamazoo. The rate for the year will be $1.50, eighteen cents higher than a year ago. City officials when questioned concerning the raise, say that it was too low last year. In their opinion it costs $1.50 to run a city of this size. Again it is the earnest desire of Mayor Ihling to begin paying off the city debt, which now exceeds the limit.

Sued for Damages.

BENTON HARBOR, June 11.—Alderman Charles Shriver, of this city, who received injuries in a street railway quarrel here last season, has sued the St. Joseph & Benton Harbor Street Railway company for $25,000 damages. This, with a suit against President Bean, makes $40,000 which he sues for.

Excursionist Injured.

BENTON HARBOR, June 10.—An excursion from Anderson, Ind., consisting of two trains, brought about 2,500 persons to the city Sunday. Young Fipp, son of Miller Fipp, near Anderson, fell from the train at Reeds, and was fatally injured.

Victim of the Heat.

STURGIS, June 11.—Dennis Kane, proprietor of the Sturgis Marble works, ex-president of the water board, and an ex-alderman, was killed at Burr Oak Monday by sunstroke.

TEACHERS WILL MEET.

Forty-six Institutes to Be Held During July and August.

LANSING, June 12.—Superintendent of Public Instruction H. R. Pattengill has arranged for forty-six state teachers' institutes to be held during July and August. In July institutes will be held in the counties of Arenac, Hillsdale, Macomb, Mason, Kalamazoo, Wexford, Kent, Montcalm, Antrim, Washtenaw and Van Buren. Those appointed for August will be held in the counties of Barry, Cheboygan, Eaton, Gratiot, Oceana, Osceola, St. Joseph, Shiawassee, Genessee, Alpena, Benzie, Calhoun, Cass, Charlevoix, Clare, Ionia, Isabella, Jackson, Kalkaska, Lenawee, Livingston, Missaukee, Newaygo, Oakland, Branch, Grand Traverse, Houghton, Ingham, Lake, Manistee, Mecosta, Midland, Monroe, Ottawa, Otsego and Wayne. Some of the foremost educators in the state will act as conductors and instructors of these institutes, and none of the institutes will be of less than eight days' duration, while some will continue for two and four weeks.

SUIT INVOLVES $1,000,000.

Government Will Try to Recover 21,000 Acres of Michigan Land.

BAY CITY, June 12.—In 1856 the United States gave the state of Michigan a land grant for aiding the building of railroads. The government claims to have reserved certain parcels in Isabella county for Indian missionary lands. This reservation was certified by the government clerk as belonging to the grant, and when the Flint & Pere Marquette railroad was built it acquired possession of this reservation in addition to other lands. Tuesday the government brought suit in the United States court in this city against the Flint & Pere Marquette railroad and 350 firms, corporations and individuals who have bought land in the reservation from the railroad company for the recovery of 21,000 acres valued at upwards of $1,000,000. The railroad company claims that it acquired possession of the land regularly and it will make a strong fight against the government.

"DEL" SWARTZ IS CONVICTED.

Jury Accepts Circumstantial Evidence of His Guilt of Murder.

CENTREVILLE, June 8.—"Del" Swartz, charged with the murder of Willard Johnson last fall, was found guilty, the jury having deliberated on the verdict five hours. When asked by Judge Yaple if he had anything to say the prisoner strenuously denied any connection with the crime and asked that death might strike him at once if he were not telling the truth. He was at once sentenced to Jackson prison for life at hard labor. Swartz was convicted wholly on circumstantial evidence, Johnson's body having been found in a creek with four bullet holes in it. A family quarrel was at the bottom of the crime. Milburn Rockwell, Swartz's hired man, will shortly be tried as an accomplice.

TRAGEDY IN MICHIGAN.

A Woman at St. Louis Kills Her Two Children and Herself.

ST. LOUIS, Mich., June 12.—Mrs. Herman Becker, aged 34, and two children, a boy and girl, aged 4 and 5 years, were found at 12:30 o'clock Tuesday in a little back cellar with bullet holes in their heads. The little boy was shot in the left temple; the girl in the left cheek; Mrs. Becker in the right temple. They must have been dead for at least two hours when found. It is claimed that Mrs. Becker was not of sound mind, and there has been trouble in the family of late. She left a letter saying that she was sick, so were the children, and they must die.

Wants Deposits Returned.

LANSING, Mich., June 12.—The Central Michigan savings bank, of Lansing, failed in April, 1893, at the end of a run during which about $75,000 of deposits were withdrawn. Receiver Stone has demanded the return of all such deposits, the Michigan statute declaring that all deposits withdrawn because of the fear that the bank is insolvent are void. If restoration is not made suits to recover will be instituted. The state is interested to the extent of $25,000, which was checked on the day the bank suspended.

Killed a Woman.

ELK RAPIDS, June 12.—George Love, a farmer, had been annoyed for some time by the ponies of his neighbors getting into his field. Love caught them at night and locked them up. When their owner, Mrs. Solomon, who was a full-blooded Indian, went to release the horses Love fired at her with a shotgun. Mrs. Solomon died from the effects of the wounds, and Love was locked up.

A TOO MODEST WOMAN!

Is such a thing possible?

It is.

Many a woman suffers month after month, whole years, because she shrinks from talking about her complaints.

Foolish do you say?

No, it is simply due to a natural, commendable modesty. Still she owes it to herself either to consult a good Physician or else to get the Zoa-Phora Medical Book on Diseases of Women and Children and, after satisfying herself the Zoa-Phora is what she needs, obtain a bottle or a box of it and use it faithfully. Both the book and medicine may be obtained either direct from the Zoa-Phora Medicine Co., at Kalamazoo Mich. or through your druggist. All correspondence is kept strictly confidential.

Zoa-Phora sold and books given away by C. A. WRIGHT and BAKER & HALL, Druggists.

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion Go Hand in Hand.

Concentrated thought, continued in, robs the stomach of necessary blood, and this [illegible] When a five horse-power engine is made to do ten horse-power work something is going to break. Very often the brain worked man coming from the field or the office will "bolt" his food in a few minutes which will take hours to digest. Too, too many foods are about as useful in the stomach as a keg of nails would be in a fire under a boiler. The ill-used stomach refuses to do its work without the proper stimulus which it gets from the blood or the nerves. The nerves are weak and "ready to break," because they do not get the nourishment they require from the blood, and finally the ill-used brain is morbidly active when the overworked man attempts to find rest in bed.

The application of common sense is the treatment [illegible] stomach and the whole system [illegible] busy man the full enjoyment [illegible] healthy digestion when he takes [illegible]'s Pleasant Pellets to relieve [illegible] stomach or after a too hearty meal, and Dr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and enrich it. It has a peculiar effect upon the living membranes of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, the deadened, or put to sleep, as the so-called celery compounds and nerve mixtures do—but refreshed and fed on the food that's need for health. If you suffer from indigestion, dyspepsia, nervousness, and all of the ills which come from impure blood and disordered stomach, you can cure *yourself* with Dr. Pierce's Golden Medical Discovery which can be obtained at any drug store in the country.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 16. Comment by Rev. W. J. Yates, A. M. Topic, The Discipline of Suffering.

SCRIPTURE READING.—Job xxxiv, 29-32.

Elihu seems to have caught a faint gleam of the truth regarding the explanation of human suffering. He finds in it an element of discipline to correct men and turn them from error into right ways of thinking and doing. It is not all vindictive or retributive, not sent merely for punishment, but rather for admonition. Yet how far short he is of the New Testament position! The true relation of men to God had not then been fully grasped by any one. Nor could it be till Jesus Christ had come in the fullness of the love and power of the Spirit of God and revealed God as a loving Father. The best passage on this subject is that found in Hebrews, xii, 1-13.

The problem of human suffering is inexplicable except in connection with the mediation and redemptive work of Jesus Christ. This deepest and darkest enigma of all human existence finds a clew to future solution in the gospel of the Son of God, who promises eternal salvation of soul and body to all who, by repentance of sin and faith in him, will accept the divine nature and do the will of God.

Don't Forget Chattanooga.

Many Leaguers plan for vacation trips of greater or less expense. To all who can possibly take it we commend the trip to Chattanooga to the great League convention, June 27-30. The programme will be the finest ever planned for any similar gathering. The leading men of the three leading branches of Methodism on the continent will be present and many of them will speak. Delegates from every section of the country will meet and become better acquainted with each other and the work in which each is engaged. Ideas will multiply and broaden, and all will separate wiser and better than they came. The travel and local excursions will give new conceptions of our land, its resources, its people and their needs. The scenery is such as will live in memory delightfully through coming years. The study of historic battlefields will quicken and deepen patriotism. Best of all, the deep spirit of devotion will be aroused to new life in all the members who place themselves under the influence of the meetings with a purpose to get all the benefit possible. It will be a great feast to the soul.

An Epworth League Worker.

Rev. George S. Butters was elected to the presidency of the First district of the Epworth League at the convention in Worcester, October, 1892. During the period of his holding this position he was on the editorial staff of Zion's Herald and had charge of the League page in that paper. He instituted the plan of having each department represented in the monthly League editions, which feature has been kept up ever since. At the time of his election a junior League superintendent was also chosen, and one of the features of Mr. Butters' presi-

REV. GEORGE L. BUTTERS.

dency was to put the junior work on a good basis. Several conferences were held under his direction for those interested in work among the children, and many of the plans which have since accomplished so much were then put in operation. Addresses were delivered at conventions and anniversaries all over New England, and the president was so much in demand for these occasions that he was unable to attend faithfully to the work of his large and prosperous church. For this reason he declined to be re-elected at the convention held at Plymouth, Mass., in 1893.

The Need of Power.

The desire for power is not of itself an unholy ambition. It is the development of natural, inborn tendencies. The manner in which the power is used and the motive back of the desire for more determine the question of good and evil. Paul prayed continually that the members of the churches founded by him might be filled with knowledge and power by God's Spirit. He exhorts them to be strong in the Lord and in his mighty power. What is needed by the church at the present time and by individual Christians is not so much increase of wealth or position in society as a real increase in power of godly and good lives. Power to speak the truth, power to be gentle when men are boldly and openly evil, power to forgive when men injure, power to give of one's substance when it increases and when it decreases. The world needs Christians with power. God needs children who will use his power. Christians need the fullness of God's Spirit that they may be clothed with power.

Trusting.

No path we shun, no darkness dread,
Our hearts still whispering, "Thou art near."

On Thee we fling our burden
O love divine, forever dear
Content to suffer while we

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body, indulgence by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade early, others at an early age at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find misfortune or comfort there. The victims are found in all stations of life—The farm, the office, the workshop, the pulpit, the trades and the professions.

SYPHILIS EMISSIONS STRICTURE CURED

Wm. A. Walker of 16th Street says: "I have suffered untold agonies for my "sins of youth." I was indiscreet when young and ignorant. As "One of the Lost" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loss, pimples on face, finger nails came off, I became lean and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

CURES GUARANTEED OR MONEY REFUNDED

Capt. Chas. Perry says:—"I owe my life to Drs. K. & K. At 21 I learned a bad habit. At 24 I had all the symptoms of Seminal Weakness and Spermatorrhœa. Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their *New Method Treatment*. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. K. & K. are scientific specialists and I heartily recommend them."

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1869 old and infirm, and ill-fitted him to impart the knowledge of cure to fellow sufferers. It matters not how severe your case, or how many other remedies have failed, you should be perfectly free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus Dance, and all forms of Nervous Affliction. If you wish to try this wonderful remedy free of all charge, write, stating your case as plainly as possible, give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

LET US SPRAY OUR TREES

And Have a Good Crop of Apples.

What More Desirable and Profitable?

From late experiments it has been proven that it can be done. E. Tindall has been appointed agent for the selling of the best and most approved apparatus for the spraying of all kinds of fruit trees, vines, etc., including twenty different styles, from the small, cheap hand pump to the horse power machine for large orchards. All having the most perfect Nozzle. The pumps are made of brass and copper which can neither rust nor corrode, and are furnished with 4 to 8 feet of hose (or longer, if desired) and the Excelsior nozzle; also an air chamber, whereby a constant pressure is obtained so that a continuous force of from 50 to 100 pounds on the nozzle is secured with very ordinary exertion, and not affected by the movements of the plunger, throwing a stream 50 to 80 feet high. Also, peculiar to these outfits, hose are attached by which a small part of the liquid is re-discharged at the bottom of the reservoir with great force, which keeps the poison and water well mixed, which is very essential, so as not to hurt the foliage.—Reservoirs up to 8 gallons, of copper or galvanized iron, are furnished with these pumps for hand use. For orchards or larger uses a second hand oil, or any tight barrel may be used, on which these pumps can be placed and moved about on a wagon, if desired. A complete and exhaustive discussion and directions on "How, When and Where to Spray, and the Ingredients Best for Certain Fruits, Vines, Etc.," found in printed matter furnished with these outfits. Please call at C. A. SLAYTON'S warehouse, Tecumseh, Mich., for inspection, further information and purchase of these outfits.

THE S. W. FARMERS' CLUB.

Friday, June 7th proved to be a day such as Lowell describes in "And what so rare as a day in June." An ideal June afternoon, with fine roads, free from dust brought a large attendance of club members to the home of Mr. and Mrs. W. H. Henion, on the plains west of Manchester village.

Pres. English, in his opening remarks said: This is an exceptional season. For usually the first of June, one year compared with another, finds crops, in fact all kinds of vegetation, at about the same stage of growth, however backward the season may have been, but it is not the case at this time.

First upon the program came a song by Mrs. and Mrs. H. H. Yokom accompanied by Mrs. J. F. Spafard as pianist. It was "Keep the Old Friends with the New."

The subject of capital punishment was left over from the last meeting and after remarks by Messrs. Rawson, Hitchcock, Merithew and English, who each favored its abolition, a vote was taken which stood 13 to 7 in favor of the restoration of capital punishment in the State of Michigan. This was not a full expression of the club by any means.

Mrs. J. P. Tracy read a fine essay on "Home life on the Farm." "All duties are means toward improvement." She thought farmers indulged a fault finding spirit with regard to the prices of produce etc., that had a tendency to depreciate their position and make young people dissatisfied with the farm. In straitened times, we learn to practice economy. It is a virtue to so let self-denial rule the home that only what can be afforded shall be desired.

J. G. English read a paper on the topic for discussion—The conditions surrounding agricultural operations are changing. What methods shall be adopted to best meet these changed conditions? "When fortune's wheel turns, we must sometimes expect to be on the lower side." By the past we judge the future. Wheat, cattle, sheep and wool have been profitable and may be so yet. Do not attempt specialties not adapted to your farm, such as onions, celery, beans, and the like. Onions especially, require much hand labor and oats or corn can be grown on such soil, with profit.

A. Hitchcock thought there were no changed conditions unless in wheat growing. Corn, for him, was a most profitable crop. Cultivation assures the crop of corn. Three or four times cultivating is good; seven or eight times is better. The times demand close attention to small details.

Richard Green emphasized the need of care of implements. All should be housed when not in use and Saturday night, with him, always found the tool house and barn doors closed on his tools. Cruelty to farming tools is as much to be condemned as that to animals.

S. W. Merithew said: Let farmers organize as do other classes. In proportion to the capital invested, sheep are as profitable as at any time in the past few years. He made the assertion that in twenty-five years, sixty per cent of the farms would be under the management of tenants.

A. D. English quoted Ben Johnson's saying, that we should not be the first to adopt new methods nor the last to lay the old ones aside, as applicable to the present situation.

G. S. Rawson said wool-growing seemed to have reached an unprofitable stage. A few years ago he realized two dollars per head for the wool and this year but seventy or seventy-five cents per head. Other countries feel this business depression as much as does our country. England seems to feel it more than France.

Pres. English thought most people had an impression that success was only attained by those commanding large salaries or fees. It is wrong to think it belongs only to those who have achieved extraordinary prestige along their chosen line of work. The young physician is pointed to. Dr. Bliss, who received $25,000 for attending President Garfield; the lawyer, as Daniel Webster or Rufus Choate; the minister, to Beecher, Spurgeon or to Robert Collyer, but success comes to men along the common lines of work as well as to those who stand at the head of their profession.

Adjournment for tea came next on the program and soon a merry company was seated at the club tables partaking of the refreshments so bountifully provided by the hostess. The strawberries and ice cream proved particularly tempting and delicious.

As the shadows lengthened across the lawn we took our departure, hoping we might be permitted to attend the Sept. meeting at "Hard Scrabble," home of Mr. and Mrs. Merithew, after the summer vacation.

WHAT THEY SAY ABOUT IT.

Comments of Exchanges on Our Anniversary Supplement.

The "old reliable" TECUMSEH HERALD was 45 years old last week and celebrated its birthday by publishing a fine four page supplement description of the village, its business firms, and outlining its ancestry. Long live the HERALD and wealthy become its proprietor.—Addison Courier.

THE TECUMSEH HERALD is 45 years old, and to celebrate the event last week its owner, Scovel C. Stacy, got out a handsome, 12 page paper. Four pages were devoted almost entirely to a history of "beautiful Tecumseh, the pioneer town of the banner agricultural county of Michigan," and to biographical sketches of its leading citizens.—Detroit Journal.

The first number of the TECUMSEH HERALD was issued on May 25, 1850, and the last issue began volume 46. The town had about 1,000 population when the paper was started and now numbers upward of 3,000. The paper had a varied experience, changing hands every few months in its earlier history. In 1874 the paper was purchased by S. C. Stacy, who has been its editor and proprietor ever since. The paper has had a hearty support all these years, and here is the wish that it may live and grow forty-five years longer under the present able management.—Evening Telegram.

Our esteemed contemporary, the HERALD, entered upon its forty-sixth year last week and celebrated the event by publishing an anniversary supplement containing a well-worded write-up of Tecumseh's business houses and manufacturing establishments and an entertaining account of its own history from the day it began its existence in 1850 [illegible] to the present day. The HERALD endured the vicissitudes of a precarious existence during the early years of its career, but like most children, it lived through them all, became of age over twenty years ago and is now in the robustness and vigor of manhood. May it live long and prosper is our wish.—Tecumseh News.

RIDGEWAY SCHOOLS.

A Fine Commencement Program at the M. E. Church.

THE PROGRAM OF EXERCISES.

A Brilliant Collection of Essays, Music, Recitations, Etc.

The season of graduation in the schools has rolled around, bringing its candidates for commencement honors as surely as June brings its flowers. Not many years ago the candidates were all men; but now a goodly mingling of women gives variety and grace to the pictures of the commencement stage. Women have learned how much education concerns them, and society is learning that woman has no real charm which education impairs, but has many charms which it enhances.

The scenes and ceremonies of the closing days in a school year have a perennial attraction. They are the same from June to June, but so are the roses. No one remains away from them because he saw them the year before. It is not change that one desires to note in them, but sameness. The old graduate does not attend them because he wishes to find something new, but more because he would recover something old—his own youth with its romance and ambition. He returns for many reasons, one of which is to renew a part of his. The sight of a graduating class has inspiration. It shows the scholar who will be the scholars of the future. It is an assurance that the intellectual life shall not want for ardent votaries to preach and illustrate its worth, and a warrant that the thinned ranks of those who labor for something better than material ends are to be replenished. There is inspiration in the young faces lit up by all the fine enthusiasm of youth and touched with the impress of thought and noble aim. And so we welcome the graduates of 1895.

In response to beautiful invitations which were sent out several days beforehand, a brilliant audience assembled at the M. E. church in Ridgeway on Friday evening, June 14th, to witness the graduating exercises of the Class of '95. The auditorium had been elaborately trimmed with flowers and plants and the national colors and was a veritable bower of beauty. Upon the platform were seated the three graduates, Gertrude Boyd, Fern DePuy and Guy Pocklington: also the other members of the school who participated in the singing, Prof. Howell and Revs. Cansfield and Yager. Bro. Yager was wise in making his old Ridgeway parishioners a visit upon this opportune occasion. At the appointed hour Prof. J. C. Howell called the assemblage to order and the program was presented in the following order.

Benediction.	

The musical part of the exercises was under the direction of Miss Dora Grayson, of Tecumseh, and the singing by the school pupils showed the effects of her careful training. The essays by the three graduates were finally written and delivered in a manner that held the attention of the entire audience. As no abstract could do them justice, we present them entire below. The recitations by the younger pupils were happily chosen and nicely rendered.

In presenting the diplomas Prof. Howell indulged in a few words of commendation and advice to the pupils and thus fitly ended the best school entertainment ever given in Ridgeway. The Ridgeway school was never in a more thriving condition than at present, and the chief credit therefor should be awarded to Prof. Howell himself for his untiring efforts to bring about that result.

The gift tables in the vestibule were loaded down with floral and other mementoes from friends of the graduates. The two young ladies were each the recipient of a beautiful gold watch from their parents, and all received many articles of value, which will be treasured by them through life. "Beyond the Alps lies Italy," was their class motto. They have crossed the Alps; Italy now lies before them.

Religious Liberty.

BY FERN DEPUY.

"Through the harsh notes of our day,
A low, sweet prelude finds its way;
Through clouds of doubt and creeds of fear,
A light is breaking, calm and clear;
That song of love, now low and far,
Ere long shall swell from star to star;
That light, the breaking day, which dips
The golden spired Apocalypse."

In the spirit of liberty which is abroad in our land, I point for a moment toward the inevitable spread of the world religion, which awaits the full and free acceptance of the methods and results of modern science.

It is no part of the present purpose to take sides on disputed critical questions, but to intimate something of the rational of the present attitude toward the Bible, which "in the field of scholarship is a settled question," but which is still a source of pain to many pious minds. Criticism is like surgery; it is needful in an emergency but it is a poor pastime. So much attention has been attracted by the press to heresy trials of higher critics, and the last century has been one of such a polemical turn that we are in danger of forgetting the movement of science in the clangor of controversy which, on both sides, contains some notes of spite. Perhaps few persons outside of scholarly Theologians appreciate the magnitude or the far reaching significance of the revolution in progress throughout the Christian world which is rapidly changing religious conceptions regarding man and his relations to the Infinite. The liberal students of life and religion in modern times have found many thought completing facts confronting them, which were unknown to the great spritual leaders of earlier days. However fearless and fond of the truth they may have been, in the very nature of the case they did not and could not utter the final word.

Humanity, actuated by the spirit of the Infinite, is ever pressing onward in search of spiritual illumination. The desire for knowledge becomes a passion with higher born natures; to know the truth is the supreme attainment, the ultimate of man's dream. And, in his ever onward march, he is like a traveler ascending a mountain range. Each day a broader world unfolds before his vision, each day he sees how incomplete was his conception and how inaccurate his conclusion based on the outlook of the day before. The revelations, while broadening human conception and exalting man's ideals, have revealed the fact that many positions maintained by theologians when human vision was more circumscribed, are untenable in the broader truth revealed to the children of this generation. That liberty of thought and human progress and the falling away of old time limitations, should awaken feelings of a widely different nature in the breasts of men equally sincere, is by no means strange. To one class of theological students, in the revelations of our day there is an inspiration calling forth their highest and holiest endeavors. To them the Creator is no longer the God of a peculiar people, with an ear deaf for ages to the cry of earth's teeming millions, but in Him they behold the love-life essence of the universe. Instead of a greatly magnified man, they see a wise, order-loving and conscious energy, which throngs the tireless ages step by step and leads life from the lowest forms, on to heaven's aspiring man. To them, in the light of today, religion reflects the sanity of the infinite. On the other hand, a large number of equally sincere Biblical scholars, who have, from the cradle, learned that all the religion from Alpha to Omega lay between the covers of our sacred Book, look upon the new thought with the greatest apprehension. They are not willing to recognize the strands of gold in the great religions of other ages. Their conception of God is such that they cannot imagine that he has spoken in any vital way to millions upon millions of aspiring souls of the earth through any other channels than the Jewish scriptures and the New Testament. They believe it is dangerous to study comparative theology; they fear they may offend the Almighty and imperil their own souls by opening their eyes to the new heaven and the new earth which the panorama of our century has unfolded before their vision. Their timidity, however, is no more striking than their fear lest the triumph of the new thought may prove fatal to religion. Ah! they little know the human soul, which in all climes and under all conditions has loved and aspired—the savage and civilized alike—for untold ages has from the contemplation of the wayside flower, turned to the limitless ether above, with a question and a prayer.

The conflict so deeply stirring the religious world is the result of facts which time has revealed to mankind. Toleration will prevail, or rather liberty and justice, for the golden rule will be the living rule of conduct. The one dark shadow which superstition has cast over the world is found rooted in the spirit of dogmatic bigotry, which led sincere men to fancy they were carrying out God's command when persecuting all who failed to see the truth from their point of view. This curse of creed and dogma, which has blighted all theology dependent on belief rather than on conduct, is directly responsible for the frightful persecution of the past which has racked, tortured, burned and buried alive, men, women and children. It compelled Calvin to flee from France for his life. It drove the Pilgrims from England and in turn led them to banish Roger Williams. It has been this baleful spirit of intolerance and persecution which has driven scores of the noblest and most human souls of the Christian centuries into atheism. They loved their fellow man too much to be able to worship a Deity of wrath. But with a more liberal conception which the new thought is ushering in, the spirit of persecution will disappear and though various forms and beliefs remain, the conditions will be much more foreshadowed than in "Utopia;" liberty and fraternity will prevail because man's conception of God will be higher and more human, and, following this, a more exalted and divine religion will come, a gradual union in spirit of all who earnestly seek the truth and the creed of mankind will be "The world is my country and to do good my religion."

The Evils of Ignorance.

BY EDDIE BOYD.

The faculties of knowledge, reason, judgment and voluntary determination distinguish us from the beasts which perish and constitute the true dignity of our nature. God, our Maker, hath made us to know more than the beasts of the field and to be wiser than the fowls of Heaven; but faculties and powers are of but little value till they are brought into exercise and directed to their proper objects. They are like seeds, which, though they possess the germs of growth and development will, of themselves, remain forever useless; unless they be buried in the earth by the husbandman, moistened by the rains and invigorated by the life-giving rays of the sun, they can never yield their increase or answer the purpose designed by God.

So it is with man. Instruction fits him for this life just as culture does the plant; and when deprived of this aid his powers are wholly inactive, or, like the produce of the uncultivated field, worthless. The conduct, which should have resulted from judgment and prudence, is directed by the senses; and he whose powers, had they been rightly improved, would have stamped upon his nature the image of his Creator, becomes little superior to the lower animals, the subject of instinct and the slave of passion.

Ignorance, more than anything else, destroys the usefulness of man. Knowledge constitutes the whole difference between savage and civilized society, for to the improvement of the mind, all nations have owed the improvement of their condition. Therefore, "Knowledge is power;" the philosopher's stone which turns everything it touches into gold; the sceptre that gives us dominion over nature; and, last of all, the key that unlocks the storehouse of creation and opens to us the treasures of the Universe. It was knowledge that obtained for Franklin the highest honors his country had to bestow. It was knowledge that gave Simpson a place among the first mathematicians and Herschel a station among the leading astronomers. It is knowledge that forms the principal difference between men of our own day, as they appear in the same society. The public mind is awake, and society in general is fast rising in the scale of improvement. He who has talents will be known and estimated and rise in the respect and confidence of his fellow man.

What is negative of everything good and useful? Ignorance. It is the darkness of night in which man slumbers away an unprofitable and miserable life, a darkness which the rays of knowledge must disperse before he will awake to exercise and rise into improvement.

But ignorance not only renders the members of a community useless to each other, but opposes and frequently triumphs over all the endeavors of enlightened understanding. How often have the salutary measures of the patriotic statesman, the discoveries of the sagacious philosopher, the improvements of the distinguished philanthropist, been rendered abortive and useless by popular ignorance and prejudice. The despotism of ignorance is of the most imperious nature. Its possession of the human mind at the age of maturity is firm and resisting and it is only by a kind of force that knowledge gains admission.

Ignorance is the destroyer of virtue. As defined by Jonson, "True virtue is the secured policy we have to make our sense our slave." In proportion, therefore, as ignorance prevails in society, virtue is destroyed, and though we cannot say, on the contrary, that in proportion as knowledge is disseminated, virtue will prevail, for there may be knowledge without virtue, yet when the doctrines of religious science are generally known, the elements and materials of virtue are proportionately distributed. And by zeal and earnestness, accompanied by the blessing of God, virtue may be produced. In this case we labor in hope, but ignorance presents us with nothing but despair. The ignorant man is but a slave and he never can rise to as high a position in life as his educated neighbor. Ignorant men may possibly be enthusiasts; they may be made superstitious; but before they can be made rational, steady and consistent members of society, they must be enlightened. It has been said that all other motives are but shapes of this all-prevailing influence. There is a pleasure in knowledge of a kind more pure and elevated than can possibly be found in any of the gratifications of sense and for which the latter are but unworthy substitutes. Never for a moment admit that any millionare or king can surpass you in the possession of that peace of mind and joy in existence which we call happiness; here you are equal to the highest. Let no yearning for riches, or office, or for any form of vain display, destroy or impede the stream of contentment which the Creator designed should flow through the soul. As the sunshine of the Almighty will shine through a simple vine as richly as upon the velvet of a king, or upon the gilded dome of a temple, so happiness falls with equal fulness upon all whose minds are at peace and in whose hearts dwell the good thoughts. Ignorance is a state, cold and cheerless, in which the finer feelings of the human heart are locked up and man is deprived of the enjoyment which results from their exercise and perfection. All the pleasures of the uninformed, if pleasures they may be called, arise only from outward objects and when they are satisfied with these or deprived of the opportunity of resorting to them, having no mental resources, no power of producing enjoyment from their own thoughts and reflections, they sink into a vacancy and torpor little superior to idiocy itself. But if we have minds which are capable of endless progression in knowledge, of endless approximation to the Supreme intelligence; if in the midst of unremitting success, objects of new interest are forever opening before you, oh! what prospects are presented to the view of man, what strong inducements to cultivate his mind and heart, and to enter upon that course of improvement here which is to run on, brightening in glory and in bliss, ages without end.

History and Prophecy.

BY GUY POCKLINGTON.

The History of a nation or people has usually been considered a narrative of the great deeds and heroic lives of its subjects. I greatly fear that were I to confine myself to the great deeds and heroic lives of the members of the class of '95 its history would as yet be unwritten. Yet in coming years childhood days and school days having vanished in the dim vista of the past, our thoughts will revert with fond yearnings to the many pleasant recollections connected with our history, e'en though it be not filled with deeds of noble daring. After what is equal to ten long years of persevering the class of '95, though small in numbers, have gained one object for which we have been laboring. While many have fallen out by the wayside, we three, Fern, Gertrude and your historian, have attained the point thus far in our course which we have been striving to reach. We have climbed over what seemed to us unsurmountable difficulties, yet in looking back we can but realize that had we not crossed the Alps there would have been for us no Italy. And we have learned, as the quotation goes, that "There are difficulties in everything except eating pancakes. Nobody ought to be expected to untie all the knots in a net. He is the greatest fool of all who pretends to explain everything and says that he will not believe what he cannot understand."

Fern has spent a greater number of years here than anyother member of the class, having acquired nearly her entire education in this district. Gertrude entered the school here five years ago, her earlier school days being spent in district number 7, about five miles north. Your historian entered the school at about the same time, his earliest ideas of school life having been formed in district number five which has since divided and ceased to exist. As I have not the privilege of recording any illustrious exploits connected with the early life of the members of the class our history must of necessity be somewhat short, yet we cannot close without thus publicly expressing our gratitude to our instructors who planned for us more wisely than we knew. Thus endeth the history of the class of '95.

So exhausted had I become in writing this history that ere I was aware of it the spell of dreams had bound me, and from slumber deep I awoke with a start only to find to my wonder and amazement that I had taken a Rip Van Winkle nap, and found myself along in the second quarter of the 20th century. And taking the first steamer on the white star line for Liverpool, crossing the channel to France I find myself comparatively a stranger in a strange and unknown land. As no engagements were pressing me to duty, I allowed myself to be carried on with the struggling masses supposing I was being led to some popular place of amusement, but instead I found myself in a court of law listening to a plea before a jury for the acquittal of a prisoner. In oratorical ability our speaker lacked nothing, and during one of her gestures, imagine my consternation to notice upon the third finger of the left hand the emblematic ring of the class of '95, and after careful study I recognized in those careworn features, Fern of old. Of course I wondered not at her plea for acquittal, when upon further inquiry I found the prisoner possessed of a double portion of this world's goods and no one to bear with him the trials and perplexities of life. As all romances end so ended this one.

Over in Switzerland a small academy rears its stately tower. Attracted by the beauty of the surroundings and having plenty of leisure time, I determined to visit this structure. After being shown over the buildings and grounds by the Principal, I, upon his urgent invitation accompanied him to his home a short distance away, and upon being ushered into the presence of the mistress of the mansion, I immediately recognized my old friend and class-mate, Gertrude. And if I had had the least doubt of her identity it would have been immediately put to flight by a hasty glance at the third finger of the left hand where I saw the well worn ring of the class of '95.

Upon returning to my native town from my trip abroad, I found the junior class holding their annual reunion, all being present except one, who was persuaded years ago, by a low musical voice, to begin life anew some two and one-half miles south-east, she being unable to attend, as the duties of a farmer's wife were so pressing as to require her whole attention. While they regretted her absence, yet Ella was always so true to duty they knew that it could not be avoided. Engaging in conversation with the other members of the class, I learned that Ben, for several years, followed the profession so much longed for in his younger days, that of a school teacher, but at present had retired from the stage of action and settled along Massachusetts bay, where he was busily engaged assisting his wife to salt down cod fish. Ray used to dream of joining the theological profession and becoming a noted divine. But he was unfortunate in securing for a companion one of those delightful beings who was forever advocating woman's rights. The public requiring so much of his attention, thoughts of higher attainment for him have long since ceased to engage him and he is quietly contented tending the baby and scolding the cook. I noticed sitting in the corner upon the hassock, a little leather case bearing the initials J. A. M. I inquired at once as to its meaning and was informed that it was loaded with pill boxes and quinine powders, and belonged to our worthy physician, Dr. Murphy, who was at that time administering to the wants of a colony of sick cats. For some time after leaving school, Carroll led the life of a farmer. He then entered college from which he graduated with highest honors, and now occupies an exalted position in life. With this we must close:

"So loath we part from all we love,
From all the ties that bind us;
So turn our hearts as on we move
To those we've left behind us."

"Though time, which steals our years away
Will steal our pleasures too;
The memories of the past will stay,
And half our joys renew."

Clinton Column.

CLINTON, MICH., JUNE 21, 1895.

C. S. Burroughs was a Toledo visitor Monday.

Mrs. Peter Kishpaugh was visiting in Dundee this week.

Ida Alexander and Mrs. Burrell are visiting in Detroit.

Maude St. John returned to her home in Chicago Saturday.

Wm. Teisen, the tailor, was in Saline and Ann Arbor Monday.

Miss Tina Jones spent a few days of last week in Manchester.

The town is being written up by a traveling boomer this week.

Steve Huntington, of Chicago, is visiting his uncle, A. C. Huntington.

Misses Nellie and Grace Whittlesey are visiting in Ypsilanti this week.

Miss Laura Haggart is home from the University for her summer vacation.

Mr. and Mrs. Holmes, of Norvell, are visiting at her sister's, Mrs. Calhoun's.

The high school are enjoying their annual picnic at Wampler's Lake today.

Misses Minnie Carroll and Lucy Kirk, were in Manchester Saturday and Sunday.

Misses Minnie Humphrey and Maggie Ebbitt were in Tecumseh Tuesday morning.

Geo. Freese took in Grosvenor and Adrian on his wheel the first of the week.

H. A. Lee, an eastern wool buyer, is looking up the staple in these parts this week.

W. S. Kimball is taking in wool at Owosso, St. Johns and other northern points this week.

Mrs. Green and granddaughter, Lizzie, of Pains Hollow, N. Y., are visiting Mrs. Geo. Freeze.

Mrs. Lena Marriott, of Detroit, who has been visiting friends here, returned to Detroit Friday.

Rev. W. R. Blachford will hold Episcopal service in the Evans Lake school house next Sabbath at 3 p. m.

Willie Calahan, who has been visiting his aunt the past two weeks, returned to his home in Chicago Monday.

Clark Bailey started Saturday morning for a bicycle trip through Jackson, Charlotte, Grand Rapids and other Michigan cities.

Henry Sproul attended the reunion of ex-students of the Flint deaf and dumb school. He received most of his education at that institution.

C. D. Keyes, who is holding down a position in Lowry's grocery and crockery store in Tecumseh during the proprietor's absence in Europe, was in town Tuesday afternoon.

Do not forget the social to be given at Town Hall Saturday evening, June 29th, for the benefit of St. Dominic's church. A fine musical program will be rendered and the refreshments are bound to be first class.

A donation was recently given by members of the M. E. church and others to M. E. Lane and family. The gifts were made mostly in the line of necessities, which were greatly appreciated, as Mr. Lane has been ill for some time.

Mrs. Susan M. Hicks, who came a few weeks ago to spend the summer with her sister, Mrs. Allen Dillingham, died at her residence Monday evening. Mrs. Hicks was a sufferer from consumption. The remains were taken to Adrian.

Messrs Earl Chase, Homer Palmer, Charlie Younghans, Gus Schultz, Sidney Case, Elmer Silkworth, Fred Herman, Herbert Rushton and the Misses Thompson and Dora Schultz, of Manchester, attended the commencement exercises Thursday evening.

Frank Lancaster and wife and Ed. Smith and wife spent Saturday at their cottage at Wampler's. The cottage was prepared for occupancy shortly before. It is situated in the willow grove near Hardcastle's, an excellent location, and is one of the finest resorts on the lakes.

A singular and exciting, though short, runaway, occurred on our streets Monday evening. Messrs. Lancaster and McClure had just returned from Tecumseh with the former's team, and were near McClure's bakery when the team suddenly became frightened at a wheelbarrow. The horses, which are spirited animals, dashed onto the sidewalk by Schmitt's saloon, where the occupants were thrown out, thence across the road into Geo. VanGiesen's horse and buggy which was standing to a post. They knocked over the horse and broke the buggy, going on each side, around, on top, under, over and through the whole rig at one and the same time. The team seemed determined to run down Tom Roper at one time, pursuing him along the side walk at a furious pace, and it is probably safe to say that Tommy never made quicker moves since the war than he did when that team was after him. The team when stopped, did not seem much frightened, and nearly all the damage done was to the buggies.

GOOD MISSIONARY WORK.

It may not be generally known that the Ladies' Foreign Missionary Society of the M. E. church in Clinton have taken upon themselves to clothe and educate an orphan girl in Aligarh, India. She is ten years old and they have named her Faith Elizabeth Clinton. It costs but $15 a year to clothe, board and school her. Several of the ladies, having each taken upon herself the payment of a dollar a year towards this work, and to earn this dollar in any way profitable, a meeting was held last Saturday afternoon at the home of Mrs. James Haliday, at which they were to pay their dollars and relate their experiences. The occasion called together a large number of ladies and quite a sprinkling of gentlemen. After the opening of the meeting in regular form by singing, Scripture reading and prayer, Mrs. T. VanGieson gave a very interesting report of the W. F. M. S. of Detroit Conference in convention last week at Detroit, which she attended as a delegate from the Clinton Auxiliary. Mrs. Wolf then read a carefully prepared paper setting forth in a very lucid manner our missionary work in and about Aligarh and the establishment of the school whose main patron is Mrs. Souls of Stockbridge, Mich. Mrs. S. L. Ramsdell then read a letter from Miss Green, the superintendent of the school where the girl is being taught. This letter was written to Mrs. D. H. Ramsdell in answer to inquiries about the girl. Then came the dollars and the varied experiences.

One had earned her money by baking and selling fried cakes. She did not tell just how she baked them, but it is undoubtedly a new process in the way of cooking. Another had earned a nickle by getting up and building the fire on a cold morning while her liege lord lay in bed and snored. Another had washed the dishes when it was her husband's turn, and so got a nickle. But the greatest hardship which any one related was by one who, for a nickle, kept her mouth shut for a short space of time. The ladies seemed to look upon her as the hero of the hour in the line of sacrifice and the stifled words were uttered from mouth to mouth, "How could she? How could any woman do it?" In short there was baking and selling of bread, quilting, and even sorting onions. This last brought forth tears, not from the audience, but from the woman while doing the sorting. One lady hired as cleck for a short time and another, kept her husband's shop at intervals. Mrs. George Freese told her experience in a poetical effusion, which fairly sparkled with wit and brought down the house. Among other things that she did was this: she undertook to shave her husband and so got the money the barber should have had. She started in bravely but her husband, not desiring to take up lodging in the cemetery just yet, hired her to quit, and that brought in quite a sum. Another asked her husband for the dollar and he told her yes, he would gladly give it if she would go to the Missionary meeting, and so she came with her dollar. Mrs. S. L. Ramsdell told about her vigorous efforts to collect pay for cutting her husband's hair in the years gone by, in a pleasing humorous rhyme, which somewhat excited the risibilities of these dignified Methodist ladies.

In this work the ladies are doing a vast amount of good and no one is made the poorer. It is far better to take a child and train her in the right way from youth, than to break up idolatrous practices, incrusted by years of habit. To conclude, after "the feast of reason and the flow of soul" the outlay was bountifully supplied. The results footed up $26 and there's more to come.

ONSTED ODDS.

Farmers very busy with the cultivator.

That new girl at Lewis Church's takes the cake at present.

Friends from Adrian visited at Geo. Howard's last Saturday and Sunday.

Children's day services will be held at the church here next Sunday forenoon.

The members of the Masonic lodge and the Eastern Star chapter will picnic at Sand Lake on Saturday.

Skinner & Hines have a new awning in front of their store, which cools their place of business very much.

One of the main features of the races here last Saturday was the agricultural parade headed by the Tipton band.

The wife of S. P. Marlatte departed this life Monday morning, after being in poor health for a long time.

Regular review of Tent and Hive came off on Tuesday evening of this week. Regular Grange meeting on Saturday evening.

The first matinee of the season held here came off last Saturday afternoon and the town was filled chuck full of people. Some good speed was shown by the horses in the races.

The Maccabees indulged in an ice cream festival and celebration on Tuesday evening of last week. A good program was carried out and twenty-two gallons of cream disposed of.

We had the pleasure of listening to a sermon delivered by Editor Kempton of the Addison Courier, at Devils Lake last Sunday, and if any one can drive the namesake of the lake from this earthly ball he will, as he can get there with both feet in the sermon line as well as in the editorial line

Children's day services were intended to be held at the Springville church a Sunday or two ago, but having a Debs among their number perhaps, the children struck and would not perform their parts, therefore the services were dispensed with and regular Sunday services were gone through with. Low wages and the policy of the present administration must have been the cause of the strike.

TIPTON TOPICS.

J. B. Kemp is laid up with a stitch in his back.

C. E. Hampton from Fowler, Ind., is visiting in town.

A. C. Chase was called to Ohio last week by the death of a relative.

To Carry on an Almost Helpless Fight. —At Last the Fight is Over.

(From the Battle Creek Moon.)

Our representative called at 26 Battle Creek Avenue, the residence of S. I. Robbins, and in an interview with him brought out the following facts: Mr. Robbins tells of his wife's experience in a manner that carries conviction with his words. He says: "I am sorry my wife is not at home this P. M., but no one knows better than I how she has suffered during past years. For twenty years she has been afflicted with the various forms of kidney complaint, and an enlargement of the liver. She was often confined to her bed for more than two weeks at a time suffering untold agony. She has doctored constantly, and I have paid out in doctors' bills for her alone as much as $900.00, and then her relief was only such that she would be able to be around for a spell. Some time ago she felt the symptoms of another attack coming on, such as a pain in through the kidneys and back. I hardly know what induced me to get a box of Doan's Kidney Pills, instead of sending for the family physician; however, I got some and she commenced their use. It was a surprise to us both to see their action; the attack was warded off, and she continued taking them with marked improvement each day of their use. She is better now than she has been in years, the pain in the back and others in the kidneys have entirely gone. Hardly a day goes by that we do not mention the great good Doan's Kidney Pills have done her. I was always opposed to patent medicines, but confess that my wife's experience with Doan's Kidney Pills has done much to change my opinions. If it were not for those pills she would not have been able to be out this afternoon.

Doan's Kidney Pills for sale by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

It is no excuse for neglecting your duty that it hasn't thus far turned out just as you expected it to.

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891: "Clinic Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself, am able to testify to its merits. My face to-day is a living picture of health, and Clinic Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities. The Most Thorough Purifier of the Blood Yet Discovered.

It purifies the Blood.
It invigorates the Liver.
It regulates the Bowels.
It strengthens the stomach.
It gives vivacity in place of lassitude; cheerfulness in place of gloom, and robust vigor in place of debility.

Dyspepsia, Biliousness, Disordered Liver, Constipation, Nervous Affections, General Debility. In short all the numerous diseases and discomforts caused by impure blood are speedily conquered by this powerful corrector, the chief and sovereign of all ancient or modern medical discoveries—KING OF THE BLOOD.

Its name is its best description as it is a royal dispenser of the blessings of health and vanquishes the foes that lurk in the blood.

It banishes PIMPLES, SALT RHEUM, SCALY ERUPTIONS, ULCERS, SCALD HEAD, FEVER SORES and all SCROFULOUS DISORDERS.

It checks CONSUMPTION in its early stages. has frequently cured it when advanced.

It disperses TUMORS and CANCERS without the Surgeon's knife.

It cures DROPSY, general or partial.
It cures FEMALE WEAKNESS and DISEASE.
It reduces in a safe and effectual manner all swellings, external or internal.
It eradicates the effects of Venerial Disease and Mineral Poisons and establishes a sound constitution

Many certificates, much further information and full directions for using will be found in the pamphlet, "Treatise on Diseases of the Blood," in which each bottle is enclosed.

Price $1 per bottle containing 1½ ounces, or 50 doses. Sold by dealers in medicine.

If your druggist does not happen to have it on hand, request him to order a supply of it for you, will be cheaper than for you to order direct of us, and less trouble.

The ceremony of laying the corner stone of the new Reformed church was performed Tuesday last with appropriate exercises. A large and enthusiastic crowd was present and, we understand, considerable funds were raised to finish the basement of building. The stone itself was properly placed in its final resting place as it was in too wet a condition to hold the mortar.

Last Tuesday evening was the regular meeting of the K. O. T. M. lodge. The work was hard; the way was long; the weather hot, dry and dusty. But the labors of the evening left the boys tired and thirsty. About this time Mrs. Wm. Britton appeared with cream and cake for the whole lodge. By the way those weary brothers relished and disposed of that ice cream would make one want to join the Knights right then and there. The supper was excellent being especially suitable at the time, and Mrs. Britton has the thanks of the lodge.

The Britton Giants did the intellectual giants from Adrian College, Saturday, by a score of 15 to 6. However, the game was very pleasant and interesting. The college boys are gentlemen and played it the grounds of another for the purpose of having a hearty time. The batteries were Biggs and Taylor for Britton, Albright and Hall for the college. The particulars follows: Hits off Albright, 6; errors, 11. Errors, Britton 6; Runs, Britton 15; Adrian 6. Britton played a good, steady game throughout form, giving a good support to their battery which handled the ball nely. Of course a few errors were made throughout the game for the purpose of encouraging the visitors and to create an interest in the contest.

A Valuable Find.

For years of study and labor, there has just been discovered a sure and unfailing remedy. It has been tested in patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive cure in all cases of chronic and acute inflammatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœa and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks relieved in from one to three days and a positive cure effected in from three to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

It's a Secret

that many women owe their beauty to Dr. Pierce's Favorite Prescription. The reason-beauty of form and face, as well as grace, radiate from the common center-health. The best bodily condition results from good food, fresh air, and exercise, coupled with the judicious use of the "Prescription." In maidenhood, womanhood, and motherhood, it's a supporting tonic that's peculiarly adapted to her needs, regulating, strengthening, and curing, the derangements of the sex.

If there be headache, pain in the back, bearing-down sensations, or general debility, or if there be nervous disturbances, nervous prostration, and sleeplessness, the "Prescription" reaches the origin of the trouble and corrects it. It dispels aches and pains, corrects displacements and cures catarrhal inflammation of the lining membranes. Once used, it is always in favor.

THE BOYS IN BLUE AT BRITTON.

The Annual Reunion of Company F, 26th Michigan Infantry.

June 13th is the gala day of the whole year for the old vets, who were members of Co. F of the 26th Michigan Infantry. This year their reunion was held at the home of John Britton, in the village of Britton. The morning opened clear and beautiful, although somewhat sultry, and early in the forenoon the boys in blue, with their families and invited friends, began to gather at Mr. Britton's hospitable home. The big old apple trees on the lawn furnished abundant shade to accommodate a large crowd. The tables were spread beneath them and a platform for the speakers was also fixed up under one of the orchard trees. The forenoon was spent very pleasantly in renewing old acquaintances, and noon had arrived before the company were aware of it. A basket picnic was then on the program and a bountiful repast was served to about one hundred guests in attendance. Full justice was done to this part of the exercises. The tree trunks were covered with the national colors and there was a fine display of bunting and flags about the lawn, so that when the tables were filled with a merry company the scene was a delightful one.

After dinner was disposed of the literary portion of the exercises was opened with the roll call. Lieut. Jehiel Davidson got out the old company muster roll, that was faded and wrinkled with age, read over the list of names it contained, and the old vets who were present responded. There were twenty-nine who responded to their names, several being present for the first time since the reunions began. All the vets in this vicinity were there, of course, while Tecumseh, Cone, Dundee, Deerfield and Blissfield were all represented and Palmer Hamilton was there from Elkhart. Below is a full list of the members present:

Davidson, Jehiel, Tecumseh.
Dunbar, John H, Deerfield.
Ward, Jared, Whitefordd.
Ackley, Norman H., Britton.
Ball, Henry, Dundee.
Brewer, Philoman, Dundee.
Brimley, Henry, Springville.
Biggs, Michael, Geneva.
Beneway, George, Tecumseh.
Covill, Warren, Britton.
Ebbitt, James, Hudson.
Exelby, John W., Britton.
Howes, C. J. F., Adrian.
Hause, Lyman, Britton.
Hadley, Marques, Whitford.
Osterhout, J. B. Britton.
Osterhout, Lyman, North Adams.
Reynolds, Henry, Britton.
Smalledge, Wm., Tecumseh.
Secor, John W., Onsted.
Sperry, Frank A., Blissfield.
Tappan, Richard, Deerfield.
Thackery, Joseph, Britton.
Willas, Charles, Dundee.
Crane, James K., Blissfield.
Britton, John, Jr., Britton.
Linn, Chester, Britton.
Hamilton, Palmer, Elkhart.
McCarbery, Henry, Britton.

A big wind storm then arose and the crowd took to shelter instanter. As a heavy shower seemed to be impending, the chairs on the lawn were conveyed to the G. A. R. Hall across the road and the audience adjourned without further ceremony to that room. The hall was soon filled with a fine assemblage and the exercises proceeded.

The program was opened with singing by the choir. Prayer by Rev. S. Rederus followed. The choir then gave another selection. The choir consisted of a quartette: W. R. Osgood, LaVern Gripton, Mrs. Jas. Haight and Miss Ella Exelby, with Mrs. Chas. Gorham as organist. Their singing was excellent and was one of the leading features of the program. S. C. Stacy then made a brief address, in which he claimed to be a member of Co. F and promised to inflict his presence upon their future gatherings with the regularity of a veteran.

A number of letters were then read from absentees, which were very interesting, among them the following, which came from Taymouth, Saginaw county, written by S. Hosmer:

THE BOYS OF MANY YEARS AGO.

I am thinking of the time, boys,
How fast the years have past,
Since we were called together
By Harley's trumpet blast.
I am thinking of the time, boys,
When we left our home to go
And join the Union army,
So many years ago.

We were young and active then, boys,
We were loyal, brave and true,
As we marched beneath the Union flag
That waved o'er me and you.
But time hath wrought a change, boys,
Our step is getting slow;
But our will is just the same, boys,
As many years ago.

Our strength is falling fast, boys,
Our hair is getting gray;
We do not look the same, boys,
As when we marched away.
But when we see the dear old flag
And our comrades sit below,
It stirs the same old fire
Of many years ago.

But now the war is over
Its horrors all are past;
No more we are called together
By the bugle's trumpet blast.
And our race is nearly run,—
We to the grave must go;
But we'll near forget our comrades
Of many years ago.

The friendship of the past, boys,
Will ripen into love,
When we leave this world of sorrow
For a better one above.
So let us stand together
And deal each wrong a blow,
And soon we'll join our comrades
Of many years ago.

The choir gave another selection and a song followed by Mr. Bragg, which elicited a hearty encore.

The official reports from the Secretary, Treasurer and Historian were then presented, and the election of officers for the ensuing year resulted as follows:

President—F. A. Sperry.
Secretary—J. K. Crane.
Treasurer—N. H. Ackley.
Historian—R. Tappan.

Blissfield was chosen for the next meeting.

The exercises closed with another song by the choir.

The threatened shower had blown over by this time and the crowd returned to Mr. Britton's lawn, where Photographer Welling took a group picture of the old vets and their friends. Mr. Welling got a good negative which will doubtless develope into a fine print.

The crowd then began to scatter and all returned home, feeling that a most enjoyable reunion had been added to the list.

CHILDREN'S SUNDAY.

Last Sabbath, the three churches, which did not observe Children's Day one week before, had services appropriate to the anniversary. The day was more generally and more elaborately observed this year than ever before and we are glad that this beautiful custom is finding a permanent place in the Calendar of all our churches.

The exercises at the M. E. Church on Sunday forenoon were well worthy of a more extended notice than we have space to give to them. As Rev. Varner pertinently remarked at the opening, it being children's day, the work was to be done by them, the children, and by the younger members of the school at that. After an impressive Baptismal Ceremony and a brief appropriate prayer by the pastor, and a fine voluntary by the school choir, the exercises proceeded under the charge of Barzillai Hurry, their excellent and efficient Superintendent, and there were in all some 20 brief recitations, interspersed with music by the choir; also, a very finely rendered solo by Miss Ella Fowler. The day was a perfect one, and though when everything was so well done it would almost seem invidious to notice any one in particular, we cannot forbear to speak of the masterly manner in which Mrs. Fred Rosacrans, teacher of the Infant class, managed them, and caused them to perform their part, nor of the masterly manner in which little Carl Varner rendered "The burial of Moses," by Mrs. Cecil Frances Alexander, one of the finest poems in our language, with a power, pathos and appreciation, well worthy an older head.

A special service was held at St. Peter's church at four o'clock in the afternoon. The service was conducted by the Rector, Rev. W. R. Blachford, in presence of a good congregation. The beautiful baptismal service was read from the Episcopal ritual, during which three children received the right of infant baptism. At the close of this service, the Rector gave a brief but very fine address enforcing the lessons conveyed by the baptismal rite, and giving parents a word of kindly admonition on the duties they owe to their children. In addition to the regular members of the Sabbath School, a number from other congregations were present. The services from first to last were very impressive and interesting.

At the Friend's church special services were held at the regular Sunday School hour. The program consisted of recitations and music given mostly by the children. Rev. Hageman gave a short address also, pertinent to the time and occasion. Flowers, many and beautiful, graced the platform and other portions of the auditorium and a good congregation listened with much interest to the exercises.

BRITTON PUBLIC SCHOOLS.

A Class of Four Graduates Receive Their Diplomas.

One would be sadly at fault to measure the progression and enthusiasm of the Britton schools, or the interest taken in the cause of education by the community, entire by the number of graduates, or the size of the building. Although this is but the third annual commencement and only four graduates claimed diplomas on last Friday night, the same interest was exhibited and the same efforts put forth as is customary in our larger centers of learning. The exercises took place in Exelby hall which was barely large enough to admit those who wished to witness the exercises which graduated the four plucky girls of '95. The stage was properly decorated to match the pretty toilets of the class, and about 8:30 the Britton orchestra opened the program with a well rendered piece, followed by the invocation by Rev. Rederus and music by the Elsa quartette. The essays, with well chosen subjects, careful and studious preparation, were delivered with force and distinctness, which commanded the close attention of the audience. We give a brief synopsis of each as follows:

ONWARD AND UPWARD.—MISS LIZZIE DUBOIS.

In looking over the experiences of the past, we recall many golden moments lost to us forever and by the past must we improve the future. But we must now look forward, not backward, and begin to climb the ladder of life at the bottom round and by slow but steady advancement, round by round, at last gain the lofty summit of our ambitions. No one, however gifted, can climb more than one ladder at a time, and as often as we change so often must we begin again at the the bottom round. In this age, men excel in special lines. Find your line of thought and work, aim high and persevere and you are sure to reach the top. We should remember that Heaven is not reached at a bound. We must have earnest convictions of thought and the qualities of trust. Honor and virtuousness are as needful to-day as in the time of Moses. No one should feel that he has no aim in life. God gives everyone energy and a mission and every soul is under the obligation to have the courage to carry out his work in life. The triumphs of the past prove that God is on our side. We are now about to be equipped for real life and to assume its responsibilities. In determining our plans it must be remembered that we can never attain to a position higher than the mark which we set now. With a high aim and God at the helm our voyage is bound to be successful.

THE FOOTPRINTS OF HISTORY.—MISS LETTA GIFFORD.

When we look back over the pages of history and realize the benefits which the genius of great men has bestowed on the human race, it seems almost impossible that they can again be equaled in the future. But let us pause for comparison. Napoleon, whose name is a synonym for greatness, never had a true friend, nor did he deserve one; and, after plunging Europe into useless bloody wars, died an unlamented exile. Alexander the Great conquered the world for selfish ends and perished shamefully by intemperance. So much for those great names of the past. And now we come to the shores of America with the Pilgrim Fathers, who braved the unknown seas that they might live among savages rather than in the chains of bondage, and set for the world the example of religious and civil liberty. Longfellow illumines the pages of modern history with a name than which none have been more loved. Longfellow sings of common life and his verse will stir the hearts and form the wills of mankind when hollow titles are forgotten. Frances Willard has labored in the vineyard to root out the weeds and tares of intemperance. Her name stands for temperance and morality. Lincoln, educated in the woods, has made an impress on the world which will never be effaced. Thus, in the broader enlightment of today, the heroes of past generations are dwarfed, in comparison with noble lives of modern history, and the chance still remains to eclipse them all.

"Lives of great men oft remind us
We can live a life sublime,
And departing leave behind us
Footprints on the sands of time."

THE OLD WORLD AND THE NEW.—MISS BERTHA KNIFFIN.

No one can look over the pages of ancient history without wishing to know more of that interesting subject. Let us begin with Egypt, which arose in the dawn of history from barbarism to a civilization which left much of art and architecture to the world. Assyria, Babylonia and other nations of the East follow with a similar record, but all blackened by a pall of sin and darkness which forever hangs over their fame. Rome stands out as a wonderful and characteristic example of ancient greatness. She arose through a series of wonderful achievements to be mistress of the world, with triumphs in letters and art which still remain monuments to her greatness. Still the pall of darkness is not lifted, and still we can never blot from her pages the stains of crime, of human slavery and of selfish glory. Socrates, a great and noble life, was compelled by the customs of his time to drink the poisoned cup. But through this dark veil of ignorance and crime has dawned the light of modern intelligence and liberty. We now can compare with this record the sublime lives of such men as Washington and Lincoln and rejoice that we today live in an age far outshining the past. Still it is our duty to endeavor to make the world still better for those who follow us.

Miss Maud Lee made a slight diversion in the program by reciting in excellent form the well known selection from Byron, "The Prisoner of Chillon."

The music furnished by the Britton orchestra and the Elsa quartette was excellent and highly appreciated. Rev. Mudge made some timely points in his address to the class. Mr. Collins said a few parting words, the diplomas were presented, the benediction pronounced and the Class of '95 had graduated.

CLINTON COMMENCEMENT.

A Brilliant Program Given by a Large Class of Graduates.

As announced to the friends and patrons of the Clinton High School some weeks ago by beautiful invitations, the commencement exercises here came on the evening of the 18th, and the whole performance was well in keeping with the neat, complete and tasty messenger which heralded its coming. If any particular thing arouses the generous public spirit of Clinton more than another it is the welfare of her schools. This spirit was evinced last week when the town hall was found much too small to accommodate those who wished to hear the Class of '95 make their graceful debut into the world of life. The old hall had previously received its lining of hunting and flowers, to make its walls respond with fitting lustre to the beauty and grace which held sway within and no more appropriate surroundings could have ushered in a class than the pretty settings of the room and the good wishes of an audience whose every impulse beat in unison with the hopes and aspirations of the 'chosen twelve. The strong individuality of the dozen was distinctly shown by the prominent position given to the class emblems. The stage was elaborately draped with its colors,—pink, green and white. "Press forward. He conquers who will," the motto, was given a conspicuous place directly over the stage, while at each end of this was arranged a clump of violets, the class flower, emphasizing with their hope and purity the meaning of the well chosen motto.

The Maccabee band played a very pretty overture, after which, to the strains of the march, the twelve took their way to the stage, the ten fair ones leading and covered in the rear by the two gallants of sterner mould. It is safe to say that just then many a youth was awful sorry he did not stick to it, complete the course and graduate with those ten, even if he had never thought so before. Inasmuch as the class day exercises, which in some schools are held separately, were here incorporated into the program, the occasion was rendered doubly interesting on that account. As the HERALD was unable to obtain the text of the essays the program is inserted. The productions were original, able and scholarly, being rendered in a manner which showed a careful attention to elocution and special preparation. It is generally thought necessary to give particular mention to some efforts, but suffice it to say that it would indeed be a critic who could select the numbers on this occasion for such comment, and so the praise and distinction generally given to some is hereby accorded to all, without stint or favor.

Benediction.	

All in all, the commencement of '95 was an unqualified success, speaking in the highest praise of the industry of the class, the perseverance of our teachers and the support of citizens. No class ever took its place in the alumni whose coming was more warmly welcomed; no class has gone forth more steadfast in its motto, "Press Forward. He Conquers Who Will."

The Alumni Reunion.

The Alumni Association of the Clinton School held their annual program last Friday evening at the Town Hall. A comfortably filled hall gathered to listen to the exercises and altogether the meeting was enthusiastic and successful.

Misses Tessie Carroll and Winnie Waterhouse pleasantly opened the program by an instrumental duet.

Miss Carrie Alvord distinctly read a poem, it being a chronicle of the class of '94 since their graduation, of which she was a member.

Miss Tessie Carroll read an essay, "Stepping Stones," in which she endeavored to show the necessity of the gradual development in all lines of work and the need of heeding minor affairs.

Miss Minnie Humphrey in a very pleasing manner sang a vocal solo.

Mr. George Taylor delivered an oration, "The Dying Race." It was finely written and delivered, an eloquent appeal in behalf of the American Indian and the wrongs imposed upon him.

Mrs. C. F. Clark recited very beautifully and touchingly a pathetic poem, "Tired Mothers."

Misses Clyde Marstellar and Lizzie Tate skillfully rendered an instrumental duet.

Mrs. W. D. VanTuyle read a well written and interesting history of the members of the Alumni since their graduation.

A vocal duet was sung by Misses Nellie Martin and Minnie Humphrey, their voices blending very harmoniously.

An address of welcome to the class of '95 was delivered by John L. Tuttle, Jr., in his pleasant and gifted manner,

An appreciative response was given by Mr. Claude M. Hause, Pres. of the Class of '95.

The program closed with a chorus—"America."

The audience then dispersed, the members of the Alumni remaining to enjoy the banquet served by M. F. McClure, consisting of ice cream, cake and fruits. The members were then called to order by the Pres., Mr. Geo. Tag, and the following appointments were made for the next year:

Pres.—Mr. Clare L. Kimball.
Vice Pres.—Miss Tessie Carroll.
Sec. & Treas.—Miss Lizzie Tate.
Poem—Ella Swift.
Alternate—Grace G. Collins.
Essay—Mrs. John Noone.
Alternate—Miss Maude King.
Prophecy—Miss Amelia Tag.
Recitation—J. Dwight Hause.
Alternate—Florence A. Greene.

After the business meeting, a number enjoyed a short dance and the Alumni of '95 was another pleasant memory.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

Hay has gone up to $12 a ton, and it is said that a great deal of the meadow land will not produce over a ton of hay to the acre. Some farmers are talking of sowing alfalfa for fodder.

Bert Baker leaves home this week to accept his situation in Toledo. We regret to have him leave Tecumseh but wish him the best of good luck wherever his lot may be cast.

The graduating class of the Tecumseh High School gave a fine program last evening to an audience that filled the opera house to overflowing. A formal report will appear next week.

Robert Moir took possession of his new purchase, the Van Antwerp restaurant, last Monday morning. Both Mr. Moir and his wife will give their attention to the business and will doubtless succeed.

Rev. J. P. Varner delivered the baccalaureate sermon before the Class of '95 last Sunday evening at the M. E. church. It was a masterly discourse, which the large congregation present thoroughly appreciated.

R. V. Wilson, who is now clerking for Allen and Parkhurst of Toledo came up on his wheel the first of the week. He is taking a respite of two weeks from work and will visit Adrian, Lansing and other towns before his return.

The Adrian Times of Saturday says: "It is sixty-seven years ago today since Abel Whitney first came to Adrian. Then there were only two frame and a few log houses. The building now used as a barn, standing in the rear of the Masonic temple, and the house on West Railroad street, between Dr. Owen's residence and the river, are the two frame houses. The one stood where the Wells block, on West Maumee street, now is, and the other where Metcalf's store is."

Out of Town is the title of a beautifully illustrated series of papers to be published in Harper's Bazar, beginning in June. Cold Dishes in Hot Weather is another and a most strictly practical series which will soon begin in the Bazar. It is from the pen of a gifted Spanish-American woman, Madame E. De La Torre Bueno. Among the Fashion features for the first and second weeks of June will be out-door costumes, bicycle and mountain, and beach toilettes in variety; also summer silks and pretty gowns for evening.

Subject in the Universalist church Sunday morning, "Our Relations." Y. P. C. U. at 6:30 p. m., Topic, "The effects of Anger." Immediately after the morning service a meeting of the board of trustees is requested to consider a matter of special interest. Sunday evening the sermon for Company C at the Armory, will be Upward Steps of Seventy Years. Ladies social next week Friday in the church.

H. L. Crane has been spending the week in town. Mrs. Crane is improving.

Rev. H. A. Smith preached last Sabbath from the Baptist pulpit in Bay City.

Mrs. W. A. Satterlee of Kansas City Mo. arrived in town last week and will remain a few weeks with her father's family, Dr. E. Hause.

The Bills race track has been put into excellent shape for the races next week and arrangements are being made for a first class Matinee on the 29th.

The Christian Endeavor society will have charge of the regular evening service at the Friends church next Sabbath. Missionary topic. Everybody invited.

Mrs. J. B. Rue of Battle Creek and Mrs. Nellie Fleming of Vermontville are guests of Mrs. Abbie Fisher, where they expect to remain during the heated term.

Fires have been raging east of Britton on account of the protracted drouth, having done much damage to wood, fences etc. It is to be hoped that the rain of Wednesday has put a stop to their ravages.

Co. C has been ordered to hold a special election on Saturday evening to fill the vacancy caused by the resignation of Capt. Hayden, and such other vacancies as may occur. It is hoped every member will be present.

Mrs. Josie Grayson moved her household goods to Chicago last Tuesday. The Grayson family left last night for the windy city which they will make their future home. Miss Dora will return in the fall to resume her work in the schools here.

The Owosso team has been strengthened in its management and playing force and has defeated the famous Page Fence Giants in three hotly contested games this week. Yesterday they held Adrian down to six runs and will give them a hot game today.

The Woman's Home Missionary society will give a ten cent supper in the M. E. church parlors, Tuesday, June 25. The Ridgeway society have accepted an invitation to join us in a social visit. Tea will be served from 5:30 to 6:30, after which Rev. J. Frazer, of Monroe, will deliver an address in the audience room, in the interests of home missions. A cordial invitation is given to the public to attend both supper and lecture. No admission charged, but a collection will be taken at the close of the meeting.

News received at the headquarters of the Cotton States and International Exposition indicates that the editorial associations of nearly all the states will make excursions to Atlanta during the fall to attend the Exposition. Some time ago the Exposition management issued invitations to the editorial associations of every state in the Union, inviting them to visit the Exposition in October. Favorable answers have been received from a dozen or more and advices from those who have not yet held their annual meetings indicate that Atlanta will be the Mecca of the editorial excursions next fall.

The resignation of W. H. Hayden as captain of Co. C has been accepted by the Adjutant General of the M. N. G. and the Captain steps out of service after being at the head of the company for nearly five years. His commission dates from Feb. 3, 1891, making him the senior captain of the regiment, while only one captain in the brigade outranked him in seniority. It is unnecessary to speak here of Capt. Hayden's personal exertions in securing the new armory or his untiring endeavors to keep the company in a condition which would merit the confidence and esteem of our citizens. Considering the tender spot which he occupies in the hearts of his men and the value which was placed upon his services by his superior officers they alone can testify. Co. C will have to perform a few evolutions in double time to make good this loss.

Deafness Cannot be Cured

by local applications, as they cannot reach the deceased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies Deafness is caused by inflamed condition of mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but the inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any cases of Deafness (caused by catarrh.) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products, to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

THEIR HOMES SAFE.

Settlers on Flint & Pere Marquette Lands Have No Cause for Alarm.

SAGINAW, June 17.—William L. Webber was land commissioner of the Flint & Pere Marquette Railroad company in 1861, when 1,751 acres of land in Isabella county, for which the government has now set up a claim in the courts, were certified to the state by the federal government. In an interview Mr. Webber says that the secretary of the interior in that year decided that these lands were within the land grant made to the state for the railroad company, and expresses the opinion that if the attorney general of the United States would present himself of the facts he would hold that the government's claim was without merit. Over 19,500 acres of the land were sold before the passage of the act of [illegible] innocent purchasers, and he advises the present owners of the lands not to make any sacrifice by reason of the government's claim and not to indulge in any uneasiness concerning the ultimate outcome of the case.

Fire in Saginaw.

SAGINAW, June 18.—Fire Monday afternoon destroyed the whole interior of a block in the heart of the residence portion of the city, every barn and outbuilding being destroyed totally. The high school was damaged and several residences scorched. F. E. Talmage was the heaviest loser. He had thirteen horses in his stable and four were burned, among them the famous stallion Panama (2:24½), by Jay Gould, who was the sire of Pixley. Panama was the sire of Panama Maid (2:20½). The total loss is estimated at $15,000.

Takes an Appeal.

LANSING, June 18.—A matter is presented to the supreme court in the form of an application for a mandamus by Judge Kelley, circuit judge, compelling the state board of auditors to reinstate and allow his claim for traveling and other expenses incurred by him while out of his county on official business. If successful, it will establish an expensive precedent, which will apply to the judges in all of the thirty-six judicial circuits. The claim was rejected upon constitutional grounds.

Land Decision Against Michigan.

WASHINGTON, D. C., June 14.—Secretary Hoke Smith has denied the appeal of the state of Michigan from a land office decision where the state claims certain alledged swamps lands were rejected. The lands in question were settled by the state and approved by the secretary of the interior, but before being patented it was shown the original survey was erroneous and the lands were not swamp and consequently not subject to the state's grant.

May Get His Money Back.

ANN ARBOR, June 14.—Edward M. Walsh, president of the senior law class, had $20,000 worth of bonds stolen from him in 1889, when he was in New York city. He has received a telegram from the chief of police in New York, saying that a man had been apprehended for the theft, and asking Walsh to come on and identify him. Walsh will go. He was formerly a sugar planter in Hawaii, and has been studying law for the past two years.

Crop Conditions.

LANSING, June 19. — The weekly bulletin of the Michigan weather bureau issued Tuesday night says:

"Over the upper peninsula and the northern end of the lower peninsula the rainfall has been plentiful and all crops are doing fairly well. Over the remainder of the state the spring drought has continued with great severity and all crops except corn are suffering greatly. Hay will be a short crop in all sections of the state. Cutworms and insects are generally reported. Corn is doing well."

Salvationists Jubilate.

BENTON HARBOR, June 17.—A large union meeting, including all Christian denominations in the city, was held at the Salvation Army barracks here Sunday. It was in honor of Staff Capt. Pebbles, general secretary of the army for the states of Indiana, Michigan and Wisconsin, and Ensign Harron, secretary of this division, of Chicago, who were in attendance.

DETROIT, June 19.—The State Dental associations of Indiana, Ohio and Michigan are this year trying the experiment of holding their annual state meetings in conjunction, and the opening session of the convention was held Tuesday at the Detroit college of medicine. The convention lasts three days.

Michigan Legislature Expensive.

LANSING, June 15. — The total expenses of the Michigan legislature of 1893, as computed by Auditor General Turner, amount to $123,975.52, which is $8,000 in excess of the legislature expenses two years ago. The members drew $123,975 for per diem and mileage and $9,589 for incidental expenses.

Boycotted by Preachers.

BENTON HARBOR, June 16.—The Sunday Morning News receives discouragement by five pastors of the leading orthodox churches publicly declining to furnish it with church announcements or reports of church services of any sort, they agreeing to furnish to none but weekday publications.

Graduated in Music.

ADRIAN, June 18.—The annual recital by the musical department of Adrian college took place at the chapel Monday evening. The graduating class, all of whom take the degree of bachelor of music, consists of Misses, Grace Bryant, Jennie Haverly, Maud Judge and Clarissa Wagner.

To Jail for Kissing a Woman.

HASTINGS, June 18.—Rev. Lewis G. Archer, charged with kissing Mrs. John Waters, of Battle Creek, pleaded guilty and was fined $35 or sixty days in jail. He went to jail.

Goes to the Supreme Court.

WASHINGTON, June 18.—The court of appeals has allowed an appeal to the United States supreme court of the pension case of Judge Charles D. Long, of Michigan.

RAILWAY BRIDGE FALLS.

Several People Hurt on the Chicago & West Michigan.

GRAND RAPIDS, Mich., June 17.—Saturday while a crowd of people and several railway employes were on the east end of the old Chicago & West Michigan railway bridge, which is now no longer used for regular railway traffic, the foot-passenger part gave way and fifteen or twenty people were precipitated to rocks below, a distance of 15 feet. No one was killed, but a number were injured, as follows:

Michael Devos, 68 years, cut over right eye and injured internally; John Devos, right ankle sprained; Frank White, right knee cap broken; Henry Wylie, brakeman, right wrist broken and right hip sprained; Henry Hurdorn, 7 years old, chest injured; Jacob Quint, 7 years, right foot broken.

BIG FREIGHT BOAT ORDERED.

Wheeler & Co. Will Build a Great Steel Steamer.

BAY CITY, June 19.—Wheeler & Co., shipbuilders, have closed a contract with David Whitney, of Detroit, for a steel freight steamer, to be 358 feet over all, 10½ beam, and 20½ depth of hold. The Wheeler company has also ordered material for a steamer which will be similar to the Whitney boat, and which will be built on stock account. With these two boats the shipyard will have seven vessels in course of construction, the entire work aggregating over $1,000,000 in value.

BIG CROP OF PEACHES.

Michigan Growers Will Supply All the Markets Can Possibly Handle.

BENTON HARBOR, Mich., June 18.—The peach crop in this vicinity is going to be full and fine this year. Peaches are dropping off in some localities, but in this vicinity there will be all the peaches the market can stand. Some growers are compelled to go over their orchards with shears and cut off large quantities of peaches to prevent limbs from breaking down. The strawberry crop was small, but the peach crop will be large.

Peddlers' License Law Void.

LANSING, June 15.—The law passed at the last session controlling the business of hawking and peddling has been found to be defective. An attempt was made to amend the law of 1889, placing the matter of licenses and fees under control of township boards instead of the state treasurer in the upper peninsula, so as to apply to the entire state, but the title was not amended, the act fails, and hawkers and peddlers in the lower peninsula will get their license from the state treasurer as heretofore.

Mackinac Island Reservation.

LANSING, June 19.—As soon after July 1 as the governor of Michigan and the state legislature make a demand on the United States for the possession of Mackinac Island military reservation the greater part of that summer resort will become a public park of the state of Michigan. The act of congress ceding the island will go into effect the date named and will require only the concurrent acceptance by the Michigan executive and legislature to ratify the transfer.

Racing at Detroit.

DETROIT, June 19.—The four days' meeting of the Gentlemen's Driving club of Highland Park opened Tuesday afternoon. There was a good crowd in attendance. The winners: Three-minute class, trotting, purse, $500—Basil Wilkes; best time, 2:30¾. Two-twenty class, pacing, purse, $400—Nicol R.; best time, 2:17¼. Two-thirty-five class, trotting, purse, $300—Noral; best time, 2:26¾.

First Use of the Michigan.

WASHINGTON, D. C., June 18.—Michigan's naval militia contingent will probably get the first chance at the warship Michigan for training purposes at the beginning of the fiscal year, July 1. At present the Michigan is doing survey work off Cleveland, and Detroit will be the next stopping place, where the Michigan reserve will go aboard for a summer practice cruise.

Postmaster Resigns.

GALLEN, June 17.—J. P. Jones, who enjoyed the distinction of being the youngest postmaster in the state at his appointment, and who has enjoyed the unusual privilege of being the only republican postmaster in Berrien county left in office by the present administration, has resigned. He is compelled to vacate the office on account of ill health.

Killed by Lightning.

RAVENNA, June 18.—Mrs. Edward Burleson, of Wayland, Allegan county, who was attending the Free Methodist camp meeting half a mile east of the village, was struck by lightning and instantly killed. Her sister, Mrs. Gregory, who was occupying the same tent, was severely shocked but will recover.

PAINLESS CHILDBIRTH.

MRS. HUNT.

Mrs. FRED HUNT, of *Glenville, N. Y.*, says: "I read about Dr. Pierce's Favorite Prescription being so good for a woman with child, so I got two bottles last September, and December 13th I had a twelve pound baby girl. When I was confined *I was not sick in any way.* I did not suffer any pain, and when the child was born I walked into another room and went to bed. I keep your Extract of Smart-Weed on hand all the time. It was very cold weather and our room was very cold but I did not take any cold, and never had any after-pain or any other pain. It was all due to God and Dr. Pierce's Favorite Prescription and Compound Extract of Smart-Weed. This is the eighth living child and the largest of them all. I suffered everything that flesh could suffer with the other babies. I always had a doctor and then he could not help me very much, but this time my mother and my husband were alone with me. My baby was only seven days old when I got up and dressed and left my room and stayed up all day."

Do you ever wash your hair brush? This is the best way: —Put one teaspoonful of Pearline into a basin of warm water; wash brush thoroughly in it; rinse in clean water, and set it bristles down, to dry. It is only one—a small one of the numberless uses to which you can put Pearline. Once you have it in the house, you will find something new for it to do, every day. It makes your washing and cleaning better than soap. Try it for anything for which you've been using soap, and see.

Beware Peddlers and some unscrupulous grocers will tell you, "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, do the honest thing—send it back. 537 JAMES PYLE, New York.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 23. Comment by Rev. W. J. Yates, A. M. Topic, The Ways of the Wicked and Their End.

SCRIPTURE READING.—Job xxiv. 1-25.

This lesson is from one of Job's speeches in answer to Eliphaz. Vivid as had been the description of the wicked and their destruction given by the friends of Job, no one of them uttered anything so deeply thoughtful and full of insight into the truth as this passage. He concludes that the wicked are not really prosperous and successful, though for a time they may have power and plenty. In the end they are swallowed up by the grave and forgotten and their wickedness is broken.

Fruits of the Meeting.

No better refutation of the criticisms passed upon the conventions of the League and Endeavor societies, as immoral in tendency, can be asked than the manifest results to the churches from these great gatherings. There is wonderful inspiration in numbers, but the value of these councils is not in the numbers called together. Lifelong attachments will undoubtedly be formed. Marriages may result from acquaintance made at these assemblies.

Where is the evil of this? What better place for Christian young men and women to meet each other and begin friendships of greater or less intimacy? Yet the best results are seen in other things. They will be visible in a deepened spirit of devotion when these young people return to the home churches and live out in daily activity the new thoughts and aspirations first awakened in convention services. Ten thousand churches, scattered from the far north to the far south, from Atlantic to Pacific waters, will feel new pulse throbs of spiritual life as the story of the inspiring hours is retold. Social ties will be strengthened. Literary taste will be purified and ennobled. Relief work will take on new phases, and deeper sympathy will result in closer search for work needing willing hands. Purity of spirit and more earnest devotion of talents to the work of Christ, deeper loyalty to the church and higher patriotism and love of country will inevitably result from all this counseling together.

Lift Up.

This part of the League motto has many applications. No sooner does one become a Christian and conscious of sins forgiven than he begins to desire the conversion of others and sets to work to lift them up. True piety manifests itself in striving after better social, physical and mental conditions.

As soon as the war was over and the slaves liberated, what multitudes desired a better education! This wish was largely so that they might read the Bible and know more of God's will. In every land it is the same. Preaching the gospel compels the building of schools, the opening of hospitals, the education in industrial arts and domestic economy. The Christian religion lifts the whole man and elevates every part of society. It is making these earthly days and toils bring in the kingdom of God.

Piety and Patriotism.

The two go well together. Without the first the second is short lived. One of the most notable and encouraging features of Christian Endeavor work is the emphasis placed upon education in duties of citizenship and loyalty to the nation.

The Epworth League has not made the observance of national holidays and the study of their lessons so prominent a feature of their work as is perhaps advisable, yet there is the recognition of the principles involved, and greater emphasis will be given to these matters in coming time.

Devotion to God, personal culture, church loyalty and love of country are aims which elevate our young people and give promise of stability and righteousness in the days ahead.

Catholic Summer School.

Whatever Father Phelan of St. Louis may think and write in opposition to assemblies of young people it is evident that the great mass of the people have never seen nor heard of the terrible things he fears. The Catholic church has recognized the tendency of the times by establishing a summer school under the charge of some of her most devoted and talented members, clerical and lay. The first session was held in New London, Conn., two years since. Lectures in history, philosophy, theology and literature were given by men of eminent attainments. The second session was held in Plattsburg, N. Y. It is expected that this assembly will be in a small way to that church what Chautauqua has proved to be to Protestantism.

Convention Week.

This week, the long talked of and prepared for convention in Chattanooga will become an accomplished fact. Many from all parts of the land have been arranging to take an earlier vacation than usual in order to attend the sessions of the second International League convention. The hotels and houses of the city have been made ready for the influx of a multitude. Large and well organized committees have had every essential detail under careful advisement, and on Wednesday evening the city will be filled with strangers all ready for the opening session the following morning.

All who are unable to attend should watch the secular and religious papers for reports of the proceedings.

Our National Anniversary.

Every chapter should make some recognition of our nation's birthday. An essay, several short reading extracts, prose and poetical; musical selections and prayer for national prosperity, with thanksgiving to God for national blessings, will make an attractive programme for an evening with the League, to which the public can be very appropriately invited.

16 Years in Detroit. 200,000 Cured.

Young or Middle Aged Man. You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. *Self abuse or later excesses* have broken down your system. *Mentally, physically and sexually* you are not the man you need to be or should be. Lustful practices reap rich harvest. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy strength and ambition. Our New Method Treatment will positively cure you. It will make a man of you and life will open anew. *We guarantee to cure you or refund all money paid.* ☞ No names used without written consent. $1,000 paid for any case we take and cannot cure.

SNATCHED FROM THE GRAVE—A Warning From the Living.

Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit; I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children." C. W. LEWIS, Saginaw, Mich.

Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, dreams and losses at night, no ambition. The "Golden Monitor" opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks." I. L. PETERSON, Ionia, Mich.

Syphilis Cured. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of *Gleet* and *Stricture* by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years." W. P. M., Jackson, Mich.

A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have sent many victims of this lustful habit to Drs. Kennedy & Kergan for treatment. I can heartily endorse their *New Method Treatment* which cured them when all else failed."

A Doctor Recommends it. "I know nothing in medical science so efficient for the cure of *Syphilis* and *Sexual Diseases* as the *New Method Treatment* of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact." T. E. ALLISON, M. D.

Reader Have you been guilty? Has your *Blood* been diseased? Are you weak? Do you desire to be a *man?* Are you contemplating marriage? Our *New Method Treatment* will positively cure you. BASE BALL BATS.

ADRIAN VS. LANSING.

The Demons were done up. It seems that no club can keep in such form that they will always win and the Senators had an easy job. The teams drove over from Adrian in the afternoon accompanied by a very large number of 'fans' from the city. Robinson took the box for Lansing and pitched an easy game, that is, easy for himself but rather hard for the batters who touched him for few safe hits, while Lansing struck Derrick for 18. Adrian took first turn with Smith at bat who went out first, Justice flew to 2d, while Mulhern went out on a fly to Stines. For Lansing, Sholta after two strikes made a liner to Mulhorn who muffed it. Stines took a base on balls, McKeritt hit to center bringing in Sholta, the first score. Stines got in on a throw to 2nd while Daly made a long hit to left bringing in McKeritt. Ferguson put up a balloon to center and both Crafts misjudged the ball. Morrisey flew out to Justice ending the inning with 6 scores for Lansing, only 3 being earned. Rank errors on the part of Adrian in this inning started Lansing in the lead which they kept to the end of the game, though good hits by Lynch, Derrick and Wilson and a 3-bagger allowed Adrian to run up 5 scores in the 2d. A somewhat rank decision on a foul and several errors let Lansing get four more scores in their half which practically decided the game. In the 7th, Mulhern and P. Kraft tried to get the same fly. Kraft got the ball while Mulhern got a closed eye which retired him for the game. A lively scrap enlivened the game at one point and proved the ring has superior attractions to the diamond. Lansing put up a good even game, doing excellent outfielding while Elton behind the bat made fine throws to 2d and held the ball well. Adrian's poor infielding, several misjudged balls and errors on bases were very costly. Derrick was hit rather hard but must be given the credit of always playing his best ball, no matter how the game goes, which can hardly be said of all his associates. The score is given below:

Innings	1	2	3	4	5	6	7	8	9	
Lansing	6	5	1	0	3	0	0	0	*	—15
Adrian	0	5	0	0	0	1	0	2	0	—8

Earned runs—Lansing, 1; Adrian, 2. Two-base hits—Dailey, Graham. Three-base hit—D. Kraft. Passed balls—Graham 1. Base on balls—Robinson 5 Derrick 3. Struck out—by Robinson 1, by Derrick 2. Left on bases—Lansing 11, Adrian 4. Double play Graham to P. Kraft. Time—2:00. Umpire—Burnett. Attendance—525.

COLTS VS. GIANTS.

It is with fear and trembling that we take in hand the soft lead pencil to chronicle a game in which such long-seated strife and animosity exists that a word of unmerited praise or censure would bring upon the defenceless scribe the wrath of giants and the treachery of unbroken colts. But the public must be informed and, blindfolded, we let justice guide the graphic graphite No. 2. String Dove, a promising 2-year-old, took the box for the Colts, while the Giants imported a brawny stranger to the Titan brood, and Spaulding twirled the ball for them. The celebrated war horse, Hi, sustained his rep behind the bat, though disabled by a sprained thumb. Floy Heesen and Purdy held the ball for the Teutons—that is, sometimes they held it and sometimes it passed. Of course everyone expected to see the Colts, under the coaching of such experienced old wheel horses as Hi, Mac, Patsy and Cliff, make easy work of the sluggish Goliaths. But luck was against the equines, and play and coach as they would, those untamed, frisky yearlings would muff, throw wild and fall down whenever a good play was needed. Some of those steeds are good hitters, too, but the strange giant queered them. The complacency of that paper-maker is a wonder. No howling or wildest coaching rattles his sleepy self composure, which is quite exasperating to his opponents. However, Patsy lost the ball for him once, making a home run. The bulky chief of the moulders played in excellent form, being everywhere present with his imposing, gigantic stature to inspire and encourage. Although the score was high on both sides, the batting was not hard and the runs were made by a glorious record of the most brilliant errors ever witnessed. Hold on! Amid all the confusion and muffs and balls, one Colt shines through the muddy fog without an error, and that, too, on 1st, where balls came thick and fast. A wonderful record for an unbroken 10-year-old.

The Giants claim they can do it any day and say they have just as good a pitcher of their own. The Colts kick over the traces and say they can't do it again with their own men. The fans of Tecumseh demand another game and we are assured it will be arranged for at no distant date.

The Haynes-Hamilton Reunion.

This family gathering, which has become one of the prominent social events in this section, took place at the residence of W. J. Ide, in this village, on Saturday last, June 15th. Covers were laid for forty-eight in all. The company comprised, besides the grandfather and grandmother, Mr. and Mrs. Archie Hamilton, who have reached the age of 94 and 78 respectively, their children, grandchildren and great grandchildren. After a bountiful repast was served a fine program was presented by the younger members of the company, and the afternoon was pleasantly passed in social converse and pastimes. The meeting for 1896 will be held at H. A. Stewart's, in Dundee. The following persons were in attendance last Saturday: Mr. and Mrs. Archie Hamilton, Mr. and Mrs. Barlow Buckley, Mr. and Mrs. Sanford Buckley, Raisin; Mr. and Mrs. C. A. Haynes, Miss Maggie Boyd, Adrian; Mr. and Mrs. H. A. Stewart, Dr. J. B. Haynes and family, Dundee; Arthur Curtis and family, Britton; Walter Haynes, Ypsilanti; Mrs. S. A. Carson, E. L. COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any [illegible] know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Pass in your orders.

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M.D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1880 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of Mary Ann Norcross, deceased.

The undersigned having been appointed by the probate court of said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the office of Charles Burridge, in the village of Tecumseh, Lenawee County, Michigan, on the 29th day of June, 1895, and on the 29th day of November, 1895, at ten o'clock in the forenoon of each of said days.

And that six months from the 29th day of May, A. D. 1895, are allowed by said Probate Court for the creditors of said estate to present their claims to us for examination and allowance.

Dated, May 31, 1895.

BRONSON C. KNAPP,
SEATON W. ANDERSON,
Commissioners.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the probate office, in the City of Adrian, on Monday the 17th day of June, in the year one thousand eight hundred and ninety-five.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the Estate of Alexander Patterson, deceased.

On reading and filing the petition of John Linton, executor of the last will and testament and upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of administration thus far incurred have been fully paid, and that he is now ready to close said estate and to render his final administration account, and praying that said account may be allowed, and that the residue of said estate may be assigned and distributed according to the provisions of said will, and that he may be discharged and his bond cancelled, and for such other order and decree as to this court shall seem proper.

It is Ordered, That Monday, the 15th day of July next, at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased and all other persons interested in said estate are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Adrian, and show cause, if any there be, why the prayer of said petitioner should not be granted;

And it is Further Ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee; for three successive weeks previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.

ENERGY WINS THE WAY

Commencement Exercises of Tecumseh High School.

A FINE PROGRAM PRESENTED.

Ten Graduates Cross the Threshold From School Days Into the Active Duties of Life.

The school commencement possesses attractions for both old and young. The young look upon it with a feeling akin to awe, regarding it as the goal of their own ambition, wondering whether they can ever attain the coveted position, and resolving to press onward and redouble their efforts to equal or surpass those who have gone before. There is a stimulus about such a gathering, to a bright intellect, that nothing else possesses. True, some geniuses have achieved greatness with but little school training in their youth. But these few exceptional cases only emphasize the general rule, that both men and women who become famous in the professions, in literature, and even in business, lay the foundations in school and college for the fame that awaits them in maturer years. The boys and girls of today, who possess the mental aptitude to excel, are drawn to the commencement exercises as naturally as the needle is drawn to the pole. Here they drink in the inspiration, which moulds their resolves, which stimulates their ambition and which spurs them on to achieve a name and fame in life. And older heads take delight in the commencement season no less than the young. Here they renew their youth, for a brief time, live over again their own school days. Here they note with a keen relish those who will become the scholars of the future, and select in mental vision the favored few whom they mark for future greatness. Hence the commencement season is the same old story and yet it is ever new.

The Class of '95 will rank as one of the best that ever received their diplomas from the Tecumseh High School. It contains ten members, equally divided between the sexes, all of whom have arrived at mature years. Tecumseh, Franklin, Raisin and Clinton are represented in the list. The ability of the members, with their extensive circle of acquaintances, combined to draw a larger gathering than usual and the opera house was crowded to overflowing with a brilliant audience. The stage setting was very tasty and not overdone and the gallery front was trimmed with festoons of bunting. The weather clerk was in a very gracious mood, as the evening was cool and delightful, while the audience was a sympathetic one, as commencement audiences always are. The class motto, "Energy Wins the Way," stamped its impress upon the exercises from the first to the last number. It was a superior program, given to an audience that could appreciate its excellence.

Promptly at eight o'clock the first selection was announced and the exercises proceeded in the following order:

Music—Song	Wellington Grayson
Invocation	Rev. C. M. Brown
Music	Miss Anderson's Orchestra
Salutatory	Pauline R. Wilson
Oration—The Influences of Virgil	Francis M. Stead
Essay—Professional Education of Women	Alice J. Temple
Music	The Grayson Family
Oration—No Stephenson in America	Thomas E. Caldwell
Oration—Noble Discontent	Howard Whelan
Essay—Language	Mattie E. Caldwell
Music—Chorus	Grammar Grade Pupils
Essay—Science	Ora B. Gillespie
Class Prophecy—Time, 1915.	Henry C. Calhoun, Alice L. Cutting
Valedictory	Clarence B. Hurry
Music	Male Quartette
Presentation of Diplomas	P. S. McKinnon
Benediction	Rev. C. M. Brown

The essays were all of superior merit, and they were delivered in a manner which disclosed both intellectual brightness and thorough school training. The prophecy was a very happy innovation, being in the form of a colloquy between two members of the class. It struck a responsive chord in the hearts of the audience, however, and was the most prominent feature of the program. The music, too, was fully in harmony with the essays and orations. The vocal selections were in charge of Miss Dora Grayson, which is sufficient eulogy to bestow upon them. The selection by Miss Anderson's orchestra, composed of adults and juveniles, was a brilliant performance, which elicited a hearty round of applause. In presenting the diplomas, Mr. McKinnon, the moderator of the board, gave the class a few words of excellent advice and admonition, which should be cherished in kind remembrance as they start upon the journey of active life.

The gift tables in front of the stage were laden with flowers and the collection comprised many mementoes of value, such as books, jewelry and other articles. A synopsis of the essays is appended, which will show their character. Lack of space alone, not lack of merit, prevents their publication entire.

Salutatory.

BY PAULINE R. WILSON.

In behalf of the class of '95 it is my pleasant duty to welcome here tonight not only our friends but all who are interested in the welfare of the Tecumseh schools. The welcome I extend to you is more than a mere formality, for this is an occasion of more than usual importance to us. And we shall strive to do our best tonight and keep the record up to its usual high standard. Our four years in the high school have been only preparatory work and the real work and study of life is about to begin. Nearly forty of us started as proud, happy freshmen in 1891. As reckless and jolly sophomores we numbered twenty-six and we grew into a sober, industrious junior class of sixteen. About Thanksgiving time of that year we resolved to distinguish ourselves in some way and hit upon an old time exhibition, with a Shakespearian play as a climax. A junior was known in those days by the pocket edition of Shakespeare which he produced at every opportunity. The 20th of February was the eventful day, and when the curtain fell on the last act we realized what a success our junior exhibition was. Then followed our pleasant receptions and banquets at the close of the year and we became ten dignified seniors. The four years of our high school course have been very pleasant ones. They have brought us much of sunshine and a few shadows. We only hope that the value of the lessons and duties they have taught us may be as great as the efforts they have cost us. Again thanking you for your presence with us this evening, I will leave it with my associates to further entertain you.

Influences of Virgil.

BY FRANCIS M. STEAD.

In these modern days, we note with satisfaction, that in the minds of all who love the literature of ancient Rome, the bard who basked in the sunshine of a Caesar's favor, still holds the supreme place among the writers of Latin origin. We are glad of this and hope that Virgil's fame may never decrease. We rejoice at it, not only because we honor the greatness of the intellect that could conceive an epic worthy to be a sequel to Homer's Illiad, not only because we wonder at the perseverance of the man who devoted eleven years of his life to its composition, not only because his memory has been cherished by the masters of thought who have followed him, but also because we wish to see Virgil read and honored by every boy and girl student of this nineteenth century, and chiefly because he has exerted, directly and indirectly, a marked influence upon the growth of Christianity. The life of Virgil was a revelation to the degenerate Romans of his day, for it was to them a constant reminder of what Christian virtue ought to be. It is said that even the voluptuous satirist Horace could not speak of his friend Virgil, but that his voice would hush into a tone of tender reverence. Born in an age when truth and morality existed only in name, when Roman civilization itself was tottering on its very foundations, Virgil could and did maintain a life of spotless character. The highest tribute that can be paid to his virtues lies in the esteem in which he was held by all. The influence of his poetry upon all literature is shown everywhere. They have entered more largely than is generally supposed into the composition of the master pieces of all languages. Milton was susceptible to them, especially in his Paradise Lost, which is considered by many the grandest epic in existence. Dante owed a large part of his inspiration for the Divine Comedy to Virgil. We might multiply instances of great minds feeding upon Virgil. But the greatest influence he exerted was upon Christianity by the hymn entitled Pollio, the most famous of his pastoral songs. Many regard it as a direct prophecy, foretelling the birth of Christ. Probably this influence was the chief cause of the Emperor Constantine's conversion. If Virgil had not written his Pollio, we might not have had Constantine's Edict of Toleration, and the entire course of the world's history might have been changed.

Professional Education of Women.

BY ALICE J. TEMPLE.

The history of the past few decades is largely concerned in the history of womankind and the improvement that has taken place in the condition of women as workers. Many arts, trades and branches of business, which have hitherto been carried on by men only, are invaded more and more by women. As the demand is growing louder and the necessity more imperious, it is desirable that women should find such labor as they are naturally well fitted for. A woman may engage in any work for which her physical powers fit her, provided she is otherwise capable of maintaining her position in the place which she elects to occupy. But there is a general lack of serious preparation among women for occupations of every kind. A girl may throw herself heartily into a profession for two or three years, but then she has choose between business and a domestic life. But should not woman be thoroughly trained in some direction, prepare herself for life's vicissitudes; in short, master some subject in all its details and thus make herself a far better woman, even in a domestic capacity? Girls, however, do not often view the subject in this way. They do not realize the length of life's road, and that though it may seemed to be fulfilled when one enters the gate of marriage, yet one-third of a woman's life is usually passed after her children are grown; that the education and use of the early part of life determine the aspect of this latter third. A capable and educated woman will find these latter days full of enthusiasm and enjoyment. The number of women in the three learned professions of theology law and medicine is constantly increasing. There are 2500 women in the United States practicing medicine, 275 preaching the gospel and the number of women lawyers is constantly growing larger. Next to these, the greatest profession is that of teaching, and in this women largely outnumber the men. Life is a service, and the question is: Whom shall we serve? Mr. Parker answers this query when he says, that the greatest work of women is to teach children. There are thirteen millions of children enrolled in the public schools of this country, and two-thirds of our teachers, or nearly three hundred thousand, are women. Woman should take up this work with a relish for she is peculiarly adapted to it. Another art which is receiving more attention recently, is that of Cooking. Owing to the influence of Domestic Science, this subject is now receiving proper consideration. Women are pressing their way into almost every field of action, so that now the question is not: "What may a woman do?" but rather: "What may a woman not do?"

No Stephenson In America.

BY THOMAS E. CALDWELL.

On the 3d day of December, 1894, the famous novelist, Robert Louis Stephenson, died. His death was the greatest loss the literary world has sustained in years. He has been likened to Shakespeare in originality and depth. America united with Europe in mourning his death, who invalid that he was, had made life merrier and happier for the people of two continents. But as certain as death comes to a great man, so certain is the question asked: "Who can fill his place?" Its no easy task to find a successor to Stephenson. The public first turned to Scotland, the home of Stephenson, and they were not entirely disappointed. They then turned to America, the land of abundant promise, but the list of American writers was searched in vain. America has plenty of authors who can write for present popularity, but none whose works would be admired by posterity. Is there no explanation of this? Why can not America, so rich and powerful, so far as gold can make it so, take her place with the foremost in literary achievements? Is it because America has time only to get rich? Greece and Rome passed through the same struggle. It was not until after Greece had been shorn of her power that literature and art shone forth in all their glory. It was only after the love of conquest had departed and Rome had become impoverished that the masterpieces of art and literature were produced. Shall America follow the example set centuries ago, or shall she take her merited place among modern nations whose writers find recognition and homage among the great names of other countries? Shall some Augustus or Elizabeth have to take the reins in America before the literature of this country takes its place with the masterpieces of the world? Will the American people realize that they possess the knowledge and power to place themselves on a par with any nation, however old and cultured it may be?

Noble Discontent.

BY HOWARD WHELAN.

The late Prof. David Swing said: "Man should be contented, but never satisfied;" that is, he should be contented with his present lot, but filled with that untiring energy which arouses men to noble deeds. What an amount of human wisdom is embodied in those words, "Contented, but never satisfied." We should be contented with the life we now enjoy, but still we should not be drones. Abraham Lincoln started in life a poor boy. He was not satisfied to perform his day's labor and then sit down in idleness. It is the persistent working at some definite plan that causes a man to steadily rise. We must not expect fortune to come to us. Fortune has fleet wings and if we do not grasp her as she passes, our opportunity is lost. A man must put heart and soul into his business to achieve success. That time honored motto, "There is always room at the top," is a true one. Some of the most learned men the world has ever known are living today. Sidney Smith says: "Have the courage to be ignorant of a great many things, that you may avoid the calamity of being ignorant of all things." We should not take too wide a scope for our future, but limit ourselves to a narrow range. This is a large world and it takes constant work on the part of the most learned men to be among the first; but is this any reason why we lesser ones should become discouraged? A certain amount of difficulty doubtless strengthens the resolution, invigorates the will and toughens the chords and sinews of both mind and heart. It has been clearly demonstrated that it is not in the sheltered garden or the hot house, but on the rugged Alpine cliffs, where the storms beat most violently, that the hardiest plants are reared. A certain amount of misfortune and hardship in early life seems to be essential to ultimate success. Determination, courage, ability and will are elements that seem to have led others to success. They have been self-reliant, but not conceited. They have not trusted too much to themselves, but have listened to the warnings of experience. They have been contented, but never satisfied. May this be the ideal of the Class of '95.

Language.

BY MATTIE E. CALDWELL.

Language, in its general sense is any means of communicating thought. This is accomplished by the use of spoken words, or characters representing them, Hence language is "Human Speech." How and when language originated is not known. One thing is quite certain, that it did originate. It is not an inborn faculty; otherwise we would inherit it as we do our senses. The two most popular theories regarding its origin are these; That of divine inspiration to our first parents, and that of invention by man in the earliest era of the world's history. The latter theory is the one generally accepted at present. Any divine faculty or power bestowed upon one man cannot be imparted to another. But an invention can be learned and understood by study. The sign or gesture language was the earliest form of communication. Take the savage as a specimen of primitive man. He knows but the mere rudiments of spoken language, but he can tell a whole history in a few simple gestures. Notice the first attempts of a child to master the spoken language. Why did not the gesture language suffice since it is so easily attained? It would be useless at night. And this proves the truth of the old saying: "Necessity is the mother of invention." Thus in the moment of necessity the spoken language was begun. The connection of language with words and thought is very close. Words form our language. They are the combinations of sound by which we express ourselves. Thought is that revolution of the mind which produces language. Language has been called the record of thought. Through it is recorded for our benefit the whole history of the world from its foundation. Of what use would be thought, if there was no language to impart it to the world. The beautiful conceptions of the poet would be useless if they could not be shared by others. The names of Homer, Milton and Shakespeare would express nothing to us. Even the Bible, the source of all light and truth could not have been written. Language then is one of the greatest blessings the world possesses. Written language followed the spoken, then the telegraph and telephone. What will the next stage be?

Science.

BY ORA B. GILLESPIE.

In geometry we learn that a straight path is the shortest distance between two points. In science it is not always so; we must build our knowledge piece by piece along a zigzag path. The term science comes from the Latin word Scientia and means a classified knowledge of principles and causes, ascertained truths or facts. Science discovers and classifies, but can neither create nor destroy. Hence we say: "Science is classified knowledge; it is certainty; truth found out." A knowledge of science is not gained in a single day. It involves industry and continuance. A great violinist gave this as his secret of success: "Twelve hours a day for twenty years." Noah Webster was thirty-six years in completing his dictionary. He began the work in 1807. Finding difficulties in etymology, he devoted ten years to this study, then completed the dictionary. He then revised and enlarged it and published it in 1846. Wm. Harvey, the great physician, labored eight years before he discovered the circulation of the blood. James Watt worked eight years on his condensing engine. Many other scientists were as long in preparing their work. Science has been the means of perfecting electricity. Electricity has always existed, but only recently has it come into practical use. The development of the means for using electrical force has been very slow. We are anxiously waiting for the wizard of Menlo Park, or some other electrician, to develope the means whereby every house may be both lighted and heated by this mysterious force. Botany teaches us of all that treats of the vegetable kingdom. Everything relating to plants is included in this science. The study of science, says Prof. Woodhull, is valuable for the purpose of developing a constructive imagination. It begets a desire to examine the evidences of everything. It furnishes a foundation for religion. Science prospers in the same proportion as religion does. The light of science is from God and no one can afford to brush it aside. Its aims are noble, inspiring and spiritually elevating. To be sure, we have not yet reached the scientific ideal, but judging from its growth in the past few years, who dare prophecy its future?

Valedictory.

BY CLARENCE B. HURRY.

Nearly every intelligent young person has his day dreams. It appears so easy and yet how few either attain anything like their ideal. Not less than 250,000,000 of people have lived and died in the U. S. since the discovery of America. Yet out of this vast number the experts who compiled the encyclopedia of American Biography could find, after the most careful research, only 15142 names considered worthy of mention. What a comment on human vanity and weakness that for every 16000 persons who live only one achieves sufficient honor to warrant the historian in recording his name. This fact should arouse serious thought. Every young man should ask himself, "Shall I be one of that great horde of bending reeds, driven hither and thither by public opinion, or shall I resolve to rise above the common throng and live a life which shall be a credit to myself and to the nation in which we live? Youth is the seed time of life and whatsoever ye sow that shall ye also reap. This is an intensely practical age, and our young people are beginning to realize the practical necessity of a college education. To-day, whatever business or profession we enter, we are obliged to compete with men of classical learning. Can we hope to succeed unless we fit ourselves to stand on an equality with them? "There is always room at the top" but the top is much higher now than it was fifty years ago. Our course of study in the High School would compare favorably with that of any college in 1840. The standard of learning advances with the progress of civilization and unless we gain the highest education now, we will find ourselves below the level. To the friends and patrons of the Tecumseh schools we wish to express our obligations. To your kindness and liberality do we owe the fact that we have been permitted to enjoy the privilege of a free school. Notwithstanding the late financial depression, it has steadily advanced its standard. And in behalf of the class of '95 we wish to extend to our teachers, who have labored so faithfully for our advancement, our heart felt thanks. Fellow members of the class, Let us resolve tonight to work harder than ever before, constantly pushing onward and upward, never resting satisfied until we reach the goal of our highest ambition. Remember that "energy wins the way."

Clinton Column.

CLINTON, MICH., JUNE 28, 1895.

Jno. Hazlett, the Tecumseh tailor, was in town last week.

James Ferrick rides a new Columbia purchased of Demuth.

Robert Lake, the Jackson contractor, was on our streets Monday.

Neal H. Williams is visiting his friend Howard Hause, at Ann Arbor.

Little Florence Niblack was taken quite ill with convulsions Monday.

Mrs. Hendrick, of Detroit, was the guest of Mrs. Sullivan over Sunday.

Miss Louise Krames and Oscar Blum, of Manchester, spent Sunday at Chas. Kidd's.

Photographers from Findlay, Ohio, were taking snap shots of the village Monday.

Chas. Ellis was off duty the last of last week, suffering from a slight indisposition.

Miss Mame Bradner went to Britton Monday. She is spending the week in that vicinity.

The mother and sister of M. C. Reeves are over from Ann Arbor making the Doctor a visit.

Sun Bros. exhibit their only own show here tomorrow. Just keep your eye on the good people.

Mr. and Mrs. Ed. Breese left Tuesday for a visit with relatives at Grand Rapids and surrounding towns.

Mrs. McConnell, of Franklin street, is making some repairs to her house which are a decided improvement.

Miss Louise VanDeMark went to Tecumseh Tuesday to spend the remainder of the week with friends there.

Miss Winifred Dodge, who was the guest of Miss Alice Halliday last week, returned to her home in Hudson last Friday.

W. R. Keyser has disposed of his meat market and general provision store to Chas. Bosteedor, who took possession Monday.

Steve Huntington, who has been railroading in Wisconsin since last February, commenced weaving in the mill again this week.

Miss Belle Thomas, of New York City, is visiting at Mrs. Peter Kishpaugh's. Miss Thomas contemplates attending the University next year.

Henry and Geo. Lancaster and Andrew McDerMott drove to Britton Tuesday to take the Wabash into Detroit for the purpose of witnessing the Derby races.

Frank Ice arrived from Mt. Summit Tuesday. He returns the last of the week. Mrs. Ice, who has been spending some time here with relatives and friends, and Miss Ollive Mills will accompany him.

Miss Rachael Smith left for Chatanooga, Tenn., Tuesday, as a delegate to the Epworth League convention to be held in that city. A. C. Huntington and daughter, Sadie, and Miss Bertha Shugars accompanied the delegate.

Last Monday the steel girders, which are to support the brick work in the front wall of the new buildings on the corner, were put in place. The work of laying up the front, which had been delayed for some time, has since been rapidly pushed along.

The Masons of Clinton observed St. John's day in a very appropriate manner. A committee of the Eastern Star furnished flowers and the graves of departed members were decorated. In the evening a banquet was held with a short and interesting program.

Mr. & Mrs. Fred Allen went to Ann Arbor Thursday. They will witness the graduation of the class of which Flavius Knight is a member. Mr. Knight will be a made an M. D. He will probably take kindly to a profession whose practice requires so much labor after sundown.

Clinton and vicinity with the rest of the country hereabouts, are suffering beyond expression from the drouth. The crop of hay is hardly worth cutting while wheat and oats are perhaps the poorest ever known. Pasturage is being rapidly dryed up. This sounds something like a chronic kick, but a short ride in the country will convince us that it is a serious, cold pickled fact, without a line of romonce or poetry about it.

Ice cream, sandwiches and coffee will be served at the social held in the town hall tomorrow night. Refreshments will begin at 3 p. m. The following program will be given in the evening:

Instrumental Duet—Tessie Carroll, Minnie Humphrey.
Vocal Solo—Rev. Fr. Heidenreich.
Recitation—P. C. Ryan.
Piano Solo—Miss Julia Heidenreich.
Violin Solo—Miss Katherine Noone.
Vocal Duet—Lizzie Sullivan, Minnie Humphrey.
Violin Solo—Rev. Fr. Heidenreich.
Recitation—Tessie Carroll.
Vocal Duet—Minnie Hnmphrey, S. B. Renshaw.

CAMBRIDGE CHATTER.

Farmers have commenced haying and report a light crop.

Very dry, no rain for two weeks; weavel in the wheat doing much damage; 10 per cent falling by their work, or more.

Chas. Dewey and Bert Case went to Toledo Sunday on the excursion. They took their wheels and we expect they canvassed the city.

The ice cream social at Andrew Billmeyer's, Tuesday evening, for the benefit of the Episcopal church, was largely attended. Receipts for ice cream, $8.

The exercises of Children's Day, which occurred on the evening of June 16th, at the Episcopal church, was a very pleasant event. The exercises consisted of music, recitations, essays and select readings, which were rendered very nicely and show that the Sunday school is still alive.

4th of July Rates.

July 3d and 4th, the Lake Shore & Mich. Sou. R'y will sell reduced rate excursion tickets to points within 200 miles of stations, good to return until July 5th. 2w

DISTRICT NO. 5, CLINTON.

The school in District No. 5, Clinton, closed the year's work with exercises and a picnic in B. J. Rector's woods, Thursday afternoon, June 13th. Shortly after noon clouds began to gather and soon rain fell, and the children were fearful lest their anticipated pleasure was to end in disappointment, but soon the clouds passed over and the sun shone brightly, drying the grass, and the children's spirits were soon as bright as the sunshine. The people of the district arrived in due time at the picnic grounds, where Mr. Rector had erected a stage and prepared seats and tables. The exercises were necessarily late in beginning, but the little people were thoroughly prepared to please the patrons of the school with songs, instrumental music, essays, recitations and comic dialogues, which were thoroughly enjoyed, or would have been had not the wind blown so hard as to interfere with hearing plainly. At the close of the exercises two little girls stepped forward and presented the teacher, Miss Halsted, with a book of poems, as a token of love and esteem. Miss Halsted was taken by surprise and could only respond with a broken, tearful "Thank you." She distributed the certificates of promotion, after which all repaired to the tables where a delicious supper was served, also plenty of ice cream and cake. After supper, the good byes were spoken, for Miss Halsted was to start the next morning for her home in New York, and the people and pupils wended their way homeward, well pleased with the entertainment and very much gratified with the work done in the school the past year. Miss Halsted is a thorough teacher and the district would be very glad to retain her another year.

GORMAN GOSSIP.

Wm. Raymond's people visited friends in Tecumseh last Sunday.

A. N. Baker and wife are in Lyons, O., this week calling on friends.

Farmers are in the midst of their haying, but the job will be a very light one.

Our new bridge is completed and the township has put a good railing on the same.

Several of our farmers are plowing up their poor meadows and sowing them to fodder corn.

N. Gleason was called away to the bedside of sick friends at Lyons, O., last evening.

Mrs. Charles Potts, Mrs. F. G. Alcock and Mrs. John McPhail are reported no better at this writing.

Daniel Bateman is confined to the house with a very severe attack of siatic rheumatism.

Our neighbors all around us have been blessed with refreshing showers of late, but yet we have not been remembered.

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœr and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

4th of July Excursion Rates.

The C., J. & M. R'y will, as usual, sell special excursion tickets, at rate of one fare for the round trip, between all points, including Cincinnati and points on connecting lines. Two Lives Saved.

Mrs. Pheobe Thomas, of Junction City, Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 189 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without result every thing else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in coughs and colds. Free trial bottles at Orr & Temple's drug store. Regular size 50c. and $1.00. 5

WE WANT TO TELL YOU

Why Your Back is Lame—Why it Aches and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment won't do it; for, while it may give temporary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore you must correct their action if you would be cured. Read the following from D. D. Cook, whose address is No. 18 Michigan Street, Grand Rapids. He says:—

"I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Doan's Kidney Pills and wondered if they could make an almost lame man well. I got some, and soon after taking them began to feel their good effects. I used them for some time, my lameness all left me and I have not felt it since. Doan's Kidney Pills have done me an inestimable amount of good."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

Just a Moment, Please.

To the interchangable Milage ticket issued by the Ohio Central lines, already the best in the market, has been added the entire B. & O. system west of Pittsburgh, including the Pittsburgh & Western railroad, making it incomparably the best mileage ticket issued by any line. If you want a ticket that includes the B. & O. system as well as Big Four, such tickets are issued by Ohio Central agents only.

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891: "Clinic Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself, am able to testify to its merits. My face to-day is a living picture of health, and Clinic Kidney Cure has made it such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities. The Most Thorough Purifier of the Blood Yet Discovered.

It purifies the Blood.
It invigorates the Liver.
It regulates the Bowels.
It strengthens the stomach.
It gives vivacity in place of lassitude; cheerfulness in place of gloom, and robust vigor in place of debility.

Dyspepsia, Biliousness, Disordered Liver, Constipation, Nervous Affections, General Debility, in short all the numerous diseases and discomforts caused by impure blood are speedily conquered by this powerful corrector, the chief and sovereign of all ancient or modern medical discoveries—KING OF THE BLOOD.

Its name is its best description as it is a royal dispenser of the blessings of health and vanquishes the foes that lurk in the blood.

It banishes PIMPLES, SALT RHEUM, SCALY ERUPTIONS, ULCERS, SCALD HEAD, FEVER SORES and all SCROFULOUS DISORDERS.

It checks CONSUMPTION in its early stages. has frequently cured it when advanced.

It disperses TUMORS and CANCERS without the Surgeon's knife.

It cures DROPSY, general or partial.

It cures FEMALE WEAKNESS and DISEASE.

It reduces in a safe and effectual manner all swellings, external or internal.

It eradicates the effects of Venerial Disease and Mineral Poisons and establishes a sound constitution.

Many certificates, much further information and full directions for using will be found in the pamphlet, "Treatise on Diseases of the Blood," in which each bottle is enclosed.

Price $1 per bottle containing 1½ ounces, or 50 doses. Sold by dealers in medicine.

If your druggist does not happen to have it on hand, request him to order a supply of it for you. It will be cheaper than for you to order direct of us, and less trouble.

BRITTON BUDGET.

Miss Mame Bradner, of Clinton, is in town this week.

Miss Lizzie McCarbery was a Tecumseh visitor last week.

The boiler for Kniffin's brick and tile has arrived Tuesday.

The new addition to the elevator is rapidly being completed.

Miss Eva Welling visited her brother Harvey and friends here this week.

Mrs. W. Lenardson visited friends in Toledo and Sylvania the first of the week.

Mrs. Rice and son Will, of Clio, are visiting at her sister's, Mrs. Neal Ex-ley's.

Mrs. W. C. Babcock is taking in the commencement exercises at Ypsilanti this week.

Rev. Edward Palmer, of Covert, has been visiting his parents in this vicinity this week.

Clyme Hause and daughter Emma, and E. F. Sink and Miss Myrtle Searle of Adrian visitors Friday.

We are glad to note the improvement in health of Miss Lizzie DuBois, who has been ill for some time.

Many mechanics from town attended the barn raising at A. Easlick's Wednesday afternoon. They raised the barn, nothing else.

C. M. Bright, of Battle Creek, has taken the place of Will Allen in the C., S. & M. ticket office during the latter's vacation this week.

Mrs. W. F. Clark returned from La-Porte, Ind., Saturday and reports her mother as much better, her condition now enabling her to sit up most of the time.

Geo. Smith was slightly overcome by the severe heat of Tuesday, but soon recovered. However, Geo. will have to wait a little cool on such days for a while.

Will Underwood has just struck a vein of water in his well which flows to the surface. Sam Boyd did the work and will now do a similar job for Wes Hulf.

Britton is a town with very acute civic instincts. For this reason we understood, as soon as the schools are out a large number of very learned experts.

Station Agent W. E. Allen and wife are visiting in commencement week at Ann Arbor this week. Mrs. Allen's brother, Will Hancock, graduates this year from the college.

The mother's meeting will be held next Thursday afternoon at the home of Mrs. W. R. Osgood. All ladies interested in this branch of social purity are invited to attend.

Ed. Lenardson and wife, of Blissfield, and Miss Pearl Bennett of Shelby, were the guests of C. S. and E. W. Wilson a part of last week. The latter returned to Blissfield Sunday.

The ball game was played last Saturday on the second nine of Britton and Lime Cone. The score was 31 to 21. We do not ascertain which side had 31, but the other was not quite shut out which makes no difference.

The Britton Giants play the Ypsilanti Underwear Makers at the grounds this afternoon today. We predict the Ypsi's will have to spend the rest of the season practicing a new line of their favorite excuses after the Giants get through with them.

Mr. Hudson, of Deerfield, has been in town recently canvassing the prospects for starting in a saloon in the village. Some people will probably have soon to decide whether to have a saloon or not and the sooner they make up their minds the better.

Britton has been served by the highway commissioner on property holders who voted that a meeting will be held at Mrs. Osgood's, Tuesday, July 2d., for the purpose of considering the question of laying out a street through the Wabash depot yards. The street would be somewhat expensive, and as its opening would doubtless be opposed by the Wabash people, the project will probably meet with some opposition.

Last Tuesday evening a party of about twelve jolly Brittonites, both old and young, assembled at the hospitable home of Mr. and Mrs. Sam Underwood. The occasion was a party given by the latter in honor of their guests, Mrs. Wm. Boyd and Miss May Holcomb, of Williams, who have been visiting here since Saturday and returned Wednesday. A very pleasant social time was enjoyed by all and the entertaining powers of the hosts fully appreciated. Mr. and Mrs. Frank Davidson, of Ridgeway were also present.

The game played here last Saturday between Clinton and Britton, was quite close and interesting, notwithstanding the fact that slugging was the prominent feature. Harris was a dead easy mark for the Giants, while the weavers Biggs and Easlick for a good share of safe hits. The wind also helped things along. Kelley's home run in the 7th was made on the longest hit ever made on the grounds. Score:

	1	2	3	4	5	6	7	8	9	
Britton	2	7	1	2	1	3	0	4	*	—20
Clinton	2	5	0	0	0	4	6	1	0	—18

Batteries, Biggs, Easlick and Lowe. Struck off Harris, 22; off Biggs, 8; off Easlick, 6.

Umpires, Britton 11, Clinton 13.

—NOTICE.—

Those who have subscribed for the building fund of the Reformed Church of Britton are kindly requested to pay their subscriptions, in full, by July 1st. The money can be handed either to Rev. Rederus or Dr. P. B. Hardy, of this place. By order of building committee.

RIDGEWAY RAMBLES.

Farmers are haying and the cut is very light.

Mrs. C. L. Lowe is under the doctor's care at this writing.

Grandma Rappleye, of Ypsilanti, is here visiting old friends.

Miss Spaulding, of Clinton, was the guest of Erwin Palmer over Sunday.

Miss Mary Osgood is in Ypsilanti this week with her sister, Mrs. Fred Gorton.

Mrs. A. J. Sutton went to Toledo Monday, for a week's visit with friends.

V. G. Burdeck, of Augusta, visited Agent B. Beedle and family over Sunday.

G. W. Jackson and wife, of Tecumseh, spent Sunday with Dr. D. W. Loree and family.

Mrs. David Allison and children, of Stony Creek, visited her brother, Daniel Linn, Sunday.

Rev. S. L. Ramsdall, of Clinton, will occupy the pulpit next Sunday, morning and evening.

Several from here attended the Farmers' Club picnic held in M. Davidson's grove last Friday.

David Coryell and wife and Grandma Smith, of Newburg, were calling on relatives here Sunday.

Prof. and Mrs. E. A. Wilson, of Benton Harbor, are here for their vacation with Mr. Wilson's parents.

John Houseman and wife, of Essex, Clinton county, visited relatives here a few days, returning Monday.

Miss Emma Miller and Mrs. DeWitt Martin visited friends in Ypsilanti Monday, Tuesday and Wednesday.

Quite a number attended the township Sunday-school institute held in South Macon church last week Wednesday.

Miss Kittie Clark went to Ypsilanti for a week's visit with the Rappleye sisters and to attend the Normal commencement.

Mrs. Catherine Cox, who has been visiting relatives at Pittsford and Malory Lake for several weeks, returned home Saturday.

MACON MUSIC.

Little Florence Niblack, of Clinton, is reported very sick.

Miss Elva Richart returned home from Chicago last Saturday.

Children's day services at the Reformed church, Sunday, drew the usual full house.

Mrs. Martha Betzer and children returned last Saturday from their long stay at Mason.

Two aid societies this week, one at the home of Mrs. Eliza Hendershot, and one at Mrs. James Boises.

On Tuesday, June 25th, the funeral services of Mrs. Frank Whiting of Lake Ridge, were held at their home.

Two new iron bridges are being built, one crossing the Macon by the saw mill, and one by Wesley Pennington's place.

Saturday closes Mrs. Denykes long term as mail carrier, and Mr. Sarver commences his duties the Monday following.

Several couples from Macon went to the lakes last week. The trouble is that when once the fatal habit is started, it is so catching.

Joseph Howell, who graduated last Wednesday from the Normal, has accepted the position of principal of the Gladwin schools with four assistant teachers.

Much needed repairs are being put on the school grounds. The roof-shaped finish to the new fence will effectually keep the small boy from using it as a promenade.

So many of our citizens were compelled to attend the Dorrell-Miller suit at Adrian this week, that Macon was not so well represented as usual at the Ypsilanti Normal Commencement.

The ladies of the W. C. T. U. mean to show their patriotism and celebrate the Fourth by an entertainment and ice cream social on the school grounds that evening. The following program has been prepared:

Invocation—Rev. J. I. Gulic.
Music—Ladies' Quartette.
Recitation—Bertha O'Hara.
Cornet Solo—Clare Camburn.
Song—Florence Camburn.
Violin and Organ—Mrs. Fred Camburn and Lewis Skinner.
Recitation—Charles Skinner.
Song—Male Quartette.
Recitation—Nellie Gooding.
Duet—Mamie Pratt and Mabel Allen.
Guitar, Mandolin and Organ—Mrs. Harrington Delia and Jennie Mills.
Oration—Rev. Hageman.
Song—Isaiah Hendershot and Wm. Richart.
Ten minute speeches.
Song—Star Spangled Banner.

Dropping in Your Throat.

Hawking and spitting is one of the most disagreeable parts of catarrh. We have patients using Mayers' Magnetic Catarrh Cure to report complete relief from this within ten days of its use.

CATARRH OF LONG STANDING will be cured by the use of Mayers' Catarrh Cure. Catarrh may be well called a great scourge in this country, nearly every person has it in a greater or less degree. Mayers' Magnetic Catarrh Cure, if used promptly will cure this terrible disease. No cure no pay. For a cold in the head accompanied by frontal headache, can be cured by one or two applications. Remember one bottle lasts 3 months and is guaranteed to cure or money refunded by agents.

A RAISIN SOCIAL IN TECUMSEH.

On Saturday afternoon, June 7th, the Ladies' Aid Society of the Raisin Presbyterian church held a social at the home of Mrs. A. Richard in this village. A large number attended and filled the house to overflowing. After part of the company had arrived, Mr. Richard was informed that, in order to carry out the program that had been previously arranged for the occasion he must deliver an address of welcome. Owing to the short notice, he left out the address and, in a few brief words, welcomed his old friends and neighbors of Raisin to his home. He said it was hardly necessary for him to do this, as many similar gatherings at his old home in Raisin must have assured the good people of Raisin that they are always welcome. There is a little green valley in the center of the heart in which is enshrined many pleasant memories, and dearest of all are those of the labors of love and joyous social occasions with the people of the Raisin Presbyterian church. He hoped this would not be the last gathering of the kind and assured those present that they would always find the latch string out and warm hearts and kind hands ready to greet them. Mrs. W. E. Doty, in reply, read a poem written for the occasion, after which the regular business of the society was attended to. Supper and a general good time occupied the rest of the afternoon.

We thank you very kindly, for we were glad to come
To have a social meeting in your happy, cosey home.
We come with generous feelings—good appetites, likewise—
For you will find us mortals, not angels in disguise.

We remember quite distinctly your good and friendly cheer,
That always so refreshed us when you were living near;
Your kind and cheerful greetings, your quiet, cordial way;
So with happy feelings we come to you today.

While we are here together we will simply tell to you
Our aim and our object, what we intend to do.
Our object is sweet charity; our aim, though very slow,
Is to pay the church debt that oppress the members so.

When we need a shepard to guard this little band
And preach to us of heaven, he is made to understand.
That small must be his salary—we cannot pay him more—
Because this heavy church debt rests on our shoulders sore.

To help remove this burden and money matters mend,
To the wheel we put our shoulders and give an onward send.
We'll work with willing spirits, and hoping for the best,
Using our one small talent, will leave to God the rest.

We likewise do our duty and in the cause are strong,
We give unto the missions to help them move along.
But still we think it duty our money to save some
To help benighted heathens we have here at home.

Don't think us selfconceited because in the present day
The talk of women franchise o'er country has its sway.
Now we are very lenient and know we never can
Begin to raise this money without the aid of man.

Now, in this pleasant meeting, we hope we shall renew
The old and friendly feelings that in bygone days were true,
When we would meet together with loved ones gone before,
Who having passed the river rest on the shining shore.

Your father, how we miss him, a pillar good and strong,
Now with his life companion he is singing his new song.
But when he went and left us we think his mantle fell
Upon his only grandson, who wears that mantle well.

As past, so in the future, our friendship we'll renew,
And along life's pathway bright memories we'll strew.
And when our labor is ended we'll enter, one by one,
Into the "Golden City" and receive the words, "well done."

HEART DISEASE!

Fluttering, No Appetite, Could Not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought that every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without resting. My husband induced me to try

Dr. Miles' Heart Cure

and am happy to say it has cured me. I now have a splendid appetite and sleep well. Its effect was truly marvelous."

Prophecy.

ALICE CUTTING AND HENRY CALHOUN.

Place—in Detroit. Rapping at door.

H. Is this Miss Cutting?

A. It is.

H. Do you not recognize me?

A. No Sir.

H. Do you remember a classmate—Henry Calhoun?

A. Of course I do. Walk in and sit down. I think this is quite an eventful day for me. You are the second one of our class that I have seen today for the first time since we left school. I saw Pauline this morning. I presume you saw by the bills down town that she is to speak in the Auditorium tonight?

H. Yes. I heard at Monroe that she was to speak here.

A. How do you happen to be here today? Let's see, it has been about 20 years, has it not, since we graduated? What have you been doing since then?

H. I took a degree as LL D. at Ann Arbor after I left Tecumseh and later located at Elkhart, Ind., where I have since resided. Legal business and other matters of interest induced me to come to Detroit today, and when I was told that you were here, I resolved to call and renew my old acquaintanceship. Your residence here in the city is significant that you are engaged in some occupation, is it not?

A. Yes; I have been here now nearly 15 years. I only went away to school a very short time and soon obtained this position as stenographer for the Evening Post. I am obliged to be on the road most of the time but make this my headquarters. I enjoy the work very much as it gives me the opportunity of hearing some of the best lecturers. I presume your business relations have brought you in contact with some of the members of the class have they not?

H. Yes. I have seen several and heard of others. Not long ago I was traveling in Iowa and during a strike was obliged to spend several days in Des Moines. On Sunday evening, as I was strolling down the street, I came to a large, brick church that, by its broad entrance and magnificent appearance, together with a peculiar presentiment that came over me, caused me to enter. Within it was adorned with costly tapestry and had all the touches of the modern artist, and was capable of seating about 2,500. I had not been in the church long before a tall gentleman, with dark hair and smiling countenance and of very striking appearance, entered and at once took his seat in the pulpit. I inquired of a man sitting beside me who the pastor was and was amazed to hear that it was Frank Stead, the great pulpit orator and platform Demosthenes of the West. His charming manner and deep learning had gained him a position among the first pastors of that district and as I listened to his eloquent address that evening, my thoughts wandered back to our schooldays, passed together in Tecumseh, and I could see now the result of such zealous and untiring application to his studies.

A. I am glad one of our class is so happy and I am sure another is enjoying life just as much.

H. Then you have heard of another classmate?

A. Yes. I must tell you how I happened to know. During the fall of 1905 my health failed me and the physician said that I must seek a warmer climate, and rest through the winter, so I decided to go to Mobile. While at Louisville, Ky., waiting for my train, I noticed a couple that looked familiar. The lady was slender, had dark hair and wore glasses. The gentleman was of light complexion and very stately carriage and dignified mein.

H. Ha, ha, your description is sufficient, you need not name the couple. I remember how thoroughly Cupid had them ensnared and with what frequency occurred their committee meetings and moonlight promenades. So she writes Mrs. Whelan now instead of Miss Osborne. How are they situated?

A. Before we left the depot I found that this couple was Howard and Hattie and that they were going to the same city. We had a long, pleasant journey together and when I said that I was going to spend the winter there they were determined to entertain me.

H. I presume Howard is practicing law is he not? He told me that was his chosen profession.

A. Yes; he has a very large practice in Mobile for he is considered the best lawyer in the city. He is also greatly interested in politics. I heard him make several political speeches while there. His business is so great that he is at home very little.

One day during my stay with them, I received a letter from Alice Temple. It was so pleasant to hear from her, especially as I knew that Howard and Hattie were both interested in her too.

H. Alice Temple! Where is she located and in what is she engaged? I have not seen her for years.

A. Neither have I, but we have always corresponded since we left Tecumseh. You saw her occasionally while she was in Ypsilanti did you not?

H. Yes, I saw her quite often but never since then. Time always seemed to hang heavily upon her hands as one more Day was alloted to her each week than to the rest of us.

A. Well, after she finished college she taught school in several places during which time she was preparing herself for a foreign missionary. I had not heard from her for over a year when I received the letter at Mobile. In that she told of her work in Greenland, where she is laboring at the present time. She said that they were doing a grand work there. They had established six mission stations in the southern part and two farther north. I wonder where Clarence Hurry is?

H. About a year ago I was called to my old home in Clinton by the death of a relative and a very tall, stately gentleman had charge of the funeral arrangements. His general demeaner reminded me of some one that I had known and it dawned upon me that this was Clarence Hurry. He manifested great skill and taste in conducting the services and I found later how this came about. The former undertaker of Clinton had a daughter who, by her winning ways, had gained the respect and admiration of our [illegible] turned to the same business which her father followed, an alliance was easily and satisfactorily formed and after Clarence had gained a college education he immediately married this lady of his choice and became a partner with her father. Later, as the business increased and the [illegible] retired, Mr. Hurry became sole repositor of departed souls. I learned that he takes great interest in politics and reform movements and had twice been honored as mayor of the city. Such a Hurry—cane in politics seldom passes public notice and honor.

A. That is nearly always so and I hope he is satisfied with his reward. He ought to consider it a great honor to be maror of such a progressive city as Clinton. I intend making a visit there before long and I must not fail to call on them. I presume music is an especial feature of their home?

H. Oh yes. They are both good singers and Mrs. Hurry plays very finely.

A. I remember that she used to play and she showed considerable talent in that accomplishment. There are so many more opportunities now of studying music than when we were young. Don't you think so?

H. Yes, I do. It seems to be the universal desire of late years to be well versed in this fine art. One seldom finds a school now in which music is not taught, instrumental as well as vocal.

A. Why you know that is what Ora Gillespie is doing. She is teaching music in the largest school in Minneapolis, and she also has a large private class. Last winter while visiting there I attended one of her recitals. It was perfectly grand! Some of the pupils were so young it must have taken a great deal of patience to teach them to render such long pieces in a faultless manner. I don't know when I have enjoyed anything so much. Do you know what profession Thomas Caldwell is engaged in?

H. Yes. Haven't you heard of his success of late years?

A. No, I have heard nothing of him.

H. He first graduated in the literary department at the U. of M. in 1901 and while in college was engaged on the staff of the Courier and showed signs of great talent in that line. Later he removed to Saginaw and bought a paper, and in a very few years made a marvelous success of it, converting a mere local paper into an interesting state journal. He disposed of the paper at Saginaw for a handsome sum and invested it as a partner in the "Cleveland Herald."

A. What rapid progress he made! Have you heard anything of him since then?

H. Yes, has served two terms as alderman and in 1900 was elected to the state senate. His efficiency in politics proved even more marvelous than his success in journalism and as a recognition of his untiring efforts to maintain pure local government, he was nominated and elected to the lower house of Congress. His service here was of the same characteristic nature as in his other offices and again last fall he was returned to Congress with an overwhelming majority and he is now serving on the committee of war, possibly on account of his successful use of the Knapp-sack when yet a youth—. vertheless he is serving his country nobly and is the recognized leader of the Ohio delegation although a junior member.

A. I heard some years ago that Mattie was also in Cleveland. Is she living with Tom?

H. Yes, she lived with him till about a year ago. In the meantime she was taking instruction in painting and music. But in the midst of her studies she received word from abroad that a rich uncle had died and left her a large portion of his wealth. This enabled her to complete her much desired education in a foreign land and after speedy preparation she sailed for Italy. Under the instruction of one of the most able teachers of Florence, she made great advancement in her studies. Last summer she completed her course and returned home. Not long afterward her ability was recognized from the several public appearances which she made and an offer was extended her from the Conservatory of Music, in Chicago, to become one of its teachers, and the last I heard of her she had accepted the position and was meeting with flattering approbation.

H. (Taking out his watch.) It is about time for the lecture to begin and if we intend to hear Pauline Wilson tonight we must start before long. What is her subject?

A. "Women and Social Reform."

H. Then she is a Woman's Suffrage advocate?

A. O yes, one of the strongest kind. This reform wholly absorbs her attention, and she contributes many articles to the leading magazines.

H. Do you know as to her success as a lecturer?

A. I read an account of one of her lectures not long ago and it spoke very highly of her.

H. I have the greatest confidence in her success in her present capacity. If she has lost none of her youthful vim she will lead her party on to victory and precipitate her political enemies in an equal fate as befell the fallen angels.

RAISIN VALLEY SEMINARY.

A Class of Nine Graduates Receive Their Diplomas and Step Out Into the World.

The week of commencement is a stirring and hearty season in the life of the Raisin Valley Seminary, even more so, perhaps, than elsewhere among the schools of this section. The quiet situation, sheltered as it is in the beautiful valley of the Raisin and surrounded by the homes and firesides of the founders and supporters of the institution, seems to hold and conserve, in an unwonted degree, the strong ties of association and friendship which bind together the friends and alumni of the Seminary. In no institution is the fraternal spirit of school days engendered by a loyal reverence for a common alma mater, so exemplified by a never-ending interest in her welfare and in the efforts and success of those who yearly go forth as members of her family.

On Friday last this spirit was evinced by the usual large number who had driven from the surrounding country to witness the debut of the Class of '95, and in that number were representatives of nearly every school year and class since the founding of the institution 46 years ago. The stage was tastily and elaborately decorated with bunting, ferns and lillies to welcome the crowded hall, which was filled at an early hour. Jackson's orchestra opened the exercises with a pleasing selection and the Class of '95, consisting of six young gentlemen and three ladies, took their places on the rostrum. Aunt Laura Haviland, whose very presence is an inspiration to all who know her and especially to those connected with this institution of the Friends, invoked the Divine blessing and asked that the Teacher of Teachers might give knowledge to all who walked from those doors. The program was given as below, except that the second and eighth essays changed places in the order given here.

Benediction.

The productions were carefully written and delivered in a way which showed much attention to elocution and a thorough preparation for the occasion. The various themes disclosed the proclivities of their authors for poetry, history, literature, practical utility and science, as well as the studious zeal with which each one had gleaned and arranged their ideas on their chosen subject. A short synopsis of each is given.

PAST AND FUTURE.—RALPH G. WESTGATE.

In looking into the past we see that Egypt built up an empire of strength for a time and attained to considerable knowledge, but only left to us the principle of the inclined plane in the way of inventions. Rome progressed far in education, but then retarded. The early Brittons were isolated and unknown for many generations, for no inventions made their life practical as a social unity. The savages of this country could not profit by education or invention and melted rapidly before their advances. In the past time, before inventions had revolutionized the civilization of the world, great advancement was made in learning and great nations were founded. But this was not power for the people and the principle that might made right ruled all. The knowledge and privileges secured to the people through means of modern inventions has changed this condition. The inventions of the alphabet, the press, the application of steam and electricity were cited and their various influences on life of today clearly shown. It was facetiously shown how a man would soon be able to put on his hat, button up his coat, step into a tube and be blown across the continent in no time.

UNITY IN DIVERSITY.—MABLE F. GRAVES.

Diversity is the law of nature and unity is its truest maxim. In the great firmament which we see about us, God has computed the irregularities of the spherical evolutions and evolved from them movements of regularity and precision. From these vast bodies we come to trivial and ordinary objects and we find that no two are alike; the flowers, the seasons, all are different, and yet they blend into the harmonious combinations which form the perfect, beautiful whole. Things change. The granite crumbles to decay. Life springs up. Death follows, only to give way to life anew. Countless millions of rain drops fall, not two alike. They all flow down different rivulets to old ocean where they make the vast eternal sea. Land, atmosphere and water, so different, and yet all connected and working together, accomplish the will and plan of the Divine Creator.

THE MAID OF ORLEANS.—CHARLES A. COFFIN.

In this age it is difficult to comprehend the usages in vogue when the dark pall of superstition hung about the beliefs and customs of a people. In comparison to the degree of darkness so shines out the light when some noble uplifted soul parts the dark cloud and casts a gleam of daring truth down across the dark pages of that history. A graphic synopsis of the life and works of Joan of Arc was then given, not forgetting to point out the lessons of beauty and trust which were taught in the life work of such a character, the simple, pious life of the Maid of Orleans. The summons which came from her bleeding country, her devotion, bravery and forbearance, and finally her conviction and burning at the stake by an ungrateful country, by which act the last remnant of the chivalry of France was forever lost.

FOOTSTEPS ECHOING THROUGH THE CORRIDORS OF TIME.—VALENTINE H. SLEE.

It is not alone from the scroll of philosophical or religious narrative that the land marks of history are handed down to us, but also by the deeds of men, which as footsteps, will forever echo through the corridors of time. The work of life is done as it were on an aeolian harp, and through the careless refrain may be discerned some sharp thrilling notes which never cease to be heard and recognized. Men die but to live again. We should pause as we hear the reverberations of these footsteps, and so live that future generations may not hear a discord as the intonations of our work mingle in the universal harmony of life. We should so live that when the echoes of our footsteps fall on some careless ear it shall be an influence for truth and right.

INFLUENCE OF LITERATURE.—A. BLANCH COFFIN.

As we begin at the spring to trace the course of a river, so must we begin at the fountain head to trace the course of literature and we find the smallest beginnings have finally formed those great rivers of literary thought which so influence the world. Literature above all preserves for others the thought and works of great minds. The loss of the Latin literature made it possible for the dark ages to engulf Europe in ignorance. Now we have the best of all ages preserved for our guidance. Even light literature has weight, but the influence of such men as Carlyle, Emerson and Ruskin cannot be estimated. There is danger that the importance of literature may be overlooked from its very abundance. The greatest influence wielded by literature has been effected by the Bible which combines within its pages the highest types of prose and poetry. The obstacles of literature are many, but as sure as the water from the spring shall reach the sea so shall the influences of literature combine in an irresistable ocean of moral and intellectual force.

THE TRIUMPH OF PEACE.—J. EMERSON BEAL.

Man was given the highest place in the scale of creation. Despite this fact, from the earliest history till within a few years, his history has been a tale of strife and war. Man has always lived and studied to kill his fellowman. However, the principle of christianity is love, and hence its dispensation is gradually ridding the world of this awful crime. The speaker then depicted the horrors, as well as the cost and irreparable sacrifices which wars entail and the check which their practice puts on the advancement of civilization and progress. Arbitration was cited as the modern substitute for war, as the differences arising between nations had been most successfully settled in this manner. He very patriotically alluded to the important part which the United States has taken in the use of arbitration and expressed the belief that this country would soon become the arbitrator of the world.

BEYOND THE ALPS LIES ITALY.—HALSEY C. SAYRS.

As an example of what invincible determination can accomplish in overcoming seemingly impossible obstacles, the wonderful exploit of crossing the Alps with an army in the time of Hannibal, stands without a parallel in history. When this great leader undertook the task it seemed beyond the range of possibilities, and his men refused to go. It was then that the great leader told his followers that what one man could do an army could do, and his words not only encouraged his men to success but have inspired many a faltering heart since that time. Italy is the goal of our hopes and ambition, and the Alps are the barriers with which nature has surrounded every great and noble attainment. But he who will, can climb up step by step. Heaven is not reached by a bound. Nor did Hannibal climb the Alps by dreaming of the pleasures beyond.

THE LOOM OF LIFE.—E. ROSE LADD.

Miss Ladd treated this subject with well chosen language and in a very pretty and poetical vein of thought. The human life is a mystery with all its diversity of contrast and similarity. The mysterious weaver throws the shuttle to and fro, making checkerwork and figures, which have their meaning though they may not be understood. However, the figures are in most part only reflected light from heaven, since God is the master weaver who shapes our destinies. Life is largely made up of sentiments and illusions, and who can tell but what they are as potent as real objects in shaping the great fabric for the loom. The insignificant is often the momentous. If a thread is broken in the loom it must be traced back to the careless weaver. So we will be held responsible for all our careless weaving and every broken thread in our life must be accounted for. Let us all endeavor to weave in our lives all the bright, beautiful designs which it is possible for us to do.

THE INTENSITY OF THE AGE.—W. FRANK HILL.

Progress consists in change. In the cycle of change and advancement there is always left ample opportunities for others to improve. Freedom and the removal of restrictions from the natural efforts of man has created a spirit of competition which prompts the most earnest and intense efforts of which the human race is capable. The gradual growth of rivalry and competition from savagery to the present time was cleverly drawn out by the speaker. The interests and demands which characterize our age necessitate a careful special training and afterward the most intense efforts of which we are capable. If you would be thoroughly in sympathy with aggressiveness of the age, you must put yourself in touch with the dynamic energy of humanity. We are building near the apex where the finest stones are needed. The last stone will be laid when all knowledge has been made perfect through Christ.

The address given by Prof. B. Binford, of Haviland, Kan., who has been an assistant in the schools for the past year, was very carefully written with a view of impressing the class with the power of thought. Thought is the power behind the throne, without which all efforts in art, literature and science are lifeless. The object of an education is to learn how to think. The effort certainly did impress the class and spectators both by the thought contained and by its eloquent and forcible delivery.

A very pretty class song followed and the diplomas were presented with appropriate remarks by Prof. White. Another selection from the orchestra, the benediction by Mr. Green, and the Class of '95 were numbered with the alumni of Raisin Valley Seminary.

The village council let the contracts for constructing the new iron bridge and stone abutments to be erected near the paper mill, last Wednesday evening. The contract for the bridge work was awarded to The Columbus Bridge Co., of Columbus, O., at $1360. The stone work was given to Lowry & Mitchell at $1300. Nine bids were submitted on the bridge work, of which the one above was selected as the cheapest for the work required. The figures for the stone work may seem rather expensive, but it must be borne in mind that this is much the largest and most important feature of the work, and in that particular place it must be done rightly to be permanent.

Miss Blanche Bigelow, daughter of Rev. A. J. Bigelow, a former pastor of the M. E. church here, was a member of the graduating class of the Flint High School, last week.

Misses Rosa Wilson and Genevieve Cross, who have been the guests of the Misses Iva and Eva Elliott during the past week, returned to their home in Ypsilanti, Wednesday.

Mrs. Gertie Mann (Spalding) and two children, who have been enjoying a few weeks with relatives and friends, returned to their home in Chicago, last Wednesday morning.

The Michigan Press Association will hold their summer meeting at Benton Harbor, July 9th and 10th, to be followed by a trip to St. Paul, Duluth, and home via Lake Superior to Port Huron.

The Britton Journal has changed hands again. It will be published at Deerfield hereafter with a Britton department, managed by Harvey Welling. Here's success to the new arrangement.

Next Sunday morning, Rev. D. H. Ramsdall, of Clinton, and Rev. J. P. Varner, of this place, will exchange pulpits. In the evening the subject at the Methodist church will be, "The Mount of Transfiguration."

Entries for the races tomorrow on Bills' driving track have been coming in very satisfactorily and a most successful matinee is looked for. The best horses and riders in these parts, besides many from away, will take part.

Mrs. Thos. Hanley is now canvassing for the book entitled, The Veteran's Bride. As Mr. Hanley has been compelled to cease work for a time on account of his eyes, the care of the family now devolves upon her, and she has met the issue bravely by starting out at once to earn a living. Mrs. Hanley has always taken much interest in the W. R. C. and flag raising movement. The old soldiers can now return the compliment by giving her needed assistance.

The general council of Philadelphia, at its session last Thursday, decided by a unanimous vote to send the Liberty bell to Atlanta. Some months ago the management of the Exposition asked for the bell but the request was refused. The matter has been put to the Philadelphia council in a new light since the legislature of Pennsylvania decided to make a State exhibit at the Cotton States and International Exhibition, and the unanimous action of the council in favor of taking the Liberty bell to Atlanta was the result.

The following young people are enjoying a week's outing at Sand Lake. Viola McGlashan, of Buffalo; Charlotte Bissell of Toledo; Viola Shull, Inez Thorpe, Lena Hardenburgh, Edyth May Corey, Florence Lulu Brewer, Jule Wood, Winifred DeWolf, Magdalena Arnold, Jule Hicks, Raynor Brewer, Ed. Corey, Lester Heesen, Leon Burlingame, Harry Spaulding, Ralph Bidwell, Vern Smith and Fay Anderson. Mrs. Corey Mrs. Anderson and Mrs. Bidwell have undertaken the duties of chaperones. They have secured the double-decker of Mrs. Baker, of Adrian, one of the finest cottages on the south side, and are putting in the week to the best advantage.

Last Wednesday Mr. and Mrs. Thomas Hanley revisited Prof. Carrow, of Ann Arbor college and after another thorough examination of Mr. Hanley's eyes, revealed the true fact, that Tom has lost the entire use of his right eye and unless the disease is staid it is only a matter of time until the other one will go too. The doctor has forbid Tom performing any more manual labor and use the best of care and treatment, with only the slightest hopes of his recovery. This will be a serious circumstance, as he has always worked hard and supported his family by days' work, having only a small pension. For two years Tom has been too troubled to read, and five weeks ago he went to Ann Arbor to have his eyes fitted to glasses, when, to their surprise, these facts were revealed. It will be hard for the public to believe such to be the case, but it is much harder for Tom and his family. Everything will be done to give him a chance to retain what sight remains in his left eye. The days will seem long because being deprived of reading. May all his friends speak words of cheer and try to make life still a pleasure for him.

Prof. Frank Potter is home from Aurora, Ill.

The Farmers' Social club held their annual picnic at Wampler's lake last Saturday. They confined their attention to eating and enjoying the day in the grove and on the lake. There was a liberal attendance and all present had a splendid time.

Tecumseh girls can do most anything, but three of them were unable to drive one horse through the water at Wampler's lake recently. However, they had the pluck to get right out in the waves and unhitch, and they didn't have their bathing suits on either.

John R. Clarke will give four lectures this season at the Bay View Assembly. We are glad to know that our old friend is marching right along. He takes rank now among the best platform lecturers of the land, and he has earned his reputation by years of faithful service.

TECUMSEH, MICH., June 13, 1895,

I have read with interest the book entitled the 'Veteran's Bride'. It is spoken of very highly by all because it is a real story. I gladly recommend it to the public as an interesting and useful work. J. E. HAGEMAN,
Pastor Friend's Church.

Among the graduates of the University this year we note the name of Garland R. Gillespie, who also graduated from our high school three years ago. Mr. Gillespie studied in a Detroit office one year and attended a course of lectures in the Detroit Law School and entered the University last October. He was admitted to the bar in both Circuit and Supreme courts early this month, and this week will receive the degree L. L. B.

Dr. and Mrs. E. B. Hause, of St. Paul, Minn., spent the first part of their honeymoon with the parents of the groom, in Tecumseh, coming directly here after the ceremony Tuesday. The Doctor is a well-known Tecumseh boy. The bride was recently Miss Lizzie Shiell, of Detroit. The announcements dated the wedding for Thursday, June 27th, at Detroit, which was one of Bert's practical jokes. However all of his friends here tumbled and gave the pair a right royal welcome Tuesday evening, with fire-works and music.

The friends of Mrs. Frank Whiting and family have watched with deep interest and sympathy, her condition since the operation which she sustained six weeks ago at Ann Arbor, trusting that the hard battle for life would be successful. Such was not to be, however, and the sufferer passed away last Sunday morning at the hospital. The funeral was held at the home Tuesday, Rev. Mr. Sunderland, of Ann Arbor, officiating. Mrs. Whiting was a sister of Mrs. John C. Mills, of Macon, and of Cub Berdan, of Detroit. The deceased leaves her husband and three children, Mrs. Chas. Booth, of Moreville, W. W. Whiting, of Tecumseh, and Roy Whiting.

Deafness Cannot be Cured

by local applications, as they cannot reach the deceased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but the inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any cases of Deafness (caused by catarrh.) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

UP TO DATE!

THE FREE PRESS APPEALS TO ITS THOUSANDS OF READERS.

That Family Journal May Now be Read at Breakfast.

STATE READERS DELIGHTED WITH THE FAST NEWS-PAPER TRAIN.

Michigan's Favorite Paper Enjoying a New Era of Prosperity.

The announcement in The Free Press of the new special fast newspaper train was gladly received by the business community throughout a large section of the state and by the public generally and the results of the quick run have fully justified all that was promised. The benefits that accrue to readers have been many and the response from the state has shown the wisdom of the enterprise. The people wanted their state newspaper to read at the breakfast table and The Free Press realized this fact and bent every effort for the improvement of the mail service, so that Uncle Sam could deliver the favorite home journal at various places at a seasonable hour, where heretofore it had been impossible to reach its readers at a timely period of the day. To print a large morning newspaper in the eastern part of the state and to deliver it in the extreme western portion at breakfast time was no small task, yet The Free Press determined to accomplish it. Accordingly it urged the authorities at Washington to better the mail service, giving cogent reasons, in behalf of its constituents, for such improved service. The co-operation of the authorities resulted in the desired manner and now, as the citizens are well aware, the newspaper car has been pressed into active service for The Free Press and the residents almost all over the state can have their paper at practically the same hour as Detroiters themselves.

To show how Free Press readers are benefited, a few comparisons are necessary. Formerly by the 3:25 special, The Free Press was delivered at Albion at 7:30 a. m.; now it is delivered at 4:30. At Kalamazoo, formerly at 8:45 a. m.; now 5:50 a. m. At Lansing, formerly 6:45 a. m.; now 5:50 a. m. At Grand Rapids, formerly 11:45 a. m.; now 7:20 a. m. At Muskegon, formerly 2:10 p. m., now 8:50 a. m. All points on the Chicago & West Michigan Railroad are touched. For example, formerly The Free Press did not reach Petoskey and Bay View until 11:25 a. m.; now 3:30 p. m. Pentwater, formerly 11:10 p. m., now 11:50 a. m., or a gain of nearly twelve hours.

And what a paper is left at the door at this seasonable hour! The latest news, with an admirable telegraphic service; matters of interest from every part of the state, gathered by an indefatigable corps of correspondents; its sporting news away ahead of any paper in this part of the country; nothing lacking in its marine news; its commercial reports, relied on by farmer and merchant; special subjects treated by experts; local matters, fully elaborated; foreign topics, presented in a bright, breezy way; original humorous paragraphs and light sketchy articles, prepared by the Free Press special writers for its literary department, the old favorite, "M. Quad," Luke Sharp and others; interesting stories, exclusively published in this journal; a department for the little ones; the people's letter box; dramatic, art and musical subjects, seriously and ably considered, and a host of other good things, too numerous to mention, but of a delectable quality and liberal quantity that have for years made this newspaper the leading journal in Michigan, and given it a name and reputation that are world-wide.

A word or two more as to the state news service of The Free Press, always conceded to be by far the best maintained by any newspaper in Detroit or Michigan. The news of one's own state naturally is of first interest, and to serve it to the public in such that, while extended enough to cover all details, it is still sufficiently concise for the business man who must read his newspaper in the shortest possible time, is a task little understood by most readers. To do this it is necessary to maintain a large staff of special correspondents, covering every section of the state, and always on the alert that the readers of the best newspaper in Michigan may never look for the report of any important event within the borders of the state and be disappointed by not finding it. To see that this feature of The Free Press' superiority over all competitors is appreciated, it is only necessary to ask any newspaper reader in the state to name his favorite paper for the chronicles of Michigan happenings.

With its new facilities for reaching its friends in its own state, The Free Press begins a new era of prosperity, adding to the popularity it has enjoyed for generations. Clean, fresh and breezy, it will continue to be the paper of the fireside and will gladden thousands of hearts.

ANN ARBOR'S LAW DAY.

A Class of 308 to Graduate—Two of Its Members Women.

ANN ARBOR, June 25.—Monday was the Laws' day at the university. Their class-day exercises were held this morning before a large audience in University hall. The exercises opened by an address by the class president, Edward M. Walsh. The class history was delivered by John William Ferrier, of Council Bluffs, Ia. The class numbers 308, two of whom are women. These are Miss Agnes F. Watson, of Allegheny, Pa., and Mrs. Annie Balfour Butler, of Newton, Kan. George William Dayton, of Florida, gave the prophecy and Lindley Grant Long, of Ohio, the oration. Sanford G. Barker, of Ohio, read the class poem, the subject of which was "Reason, Law and Justice." The valedictory was delivered by Philo G. Burnham, of Ohio.

The second annual promenade of commencement week occurred Monday night. This feature was introduced by the class of '94, and it is simply a huge lawn party and band concert. Thousands of Chinese lanterns lined the State street walk for a quarter of a mile, also the other walks leading from it and on the main building. The affair is for the public and there were about 4,000 persons present Monday night.

ANN ARBOR, June 26.—Tuesday belonged to the literary department. They held their class day exercises under Tappan oak in the afternoon. Tappan oak is a venerable tree in the midst of a pretty grove between the library and main building. From time immemorial the "lits" have held their class-day exercises here. The programme opened with the class history by Robert O. Austin of Michigan.

The class oration was by James S. Handy, of Ann Arbor. The class poem was read by Frank P. Daniels, of Michigan. Miss Belle Colton, of Ohio, read the class prophecy in verse. The last speaker on the class-day programme proper was President R. R. Lyman. He spoke mainly of the duty of the class to the university.

Next came the unveiling of the bust of President Angell. This bust is about the same in cost and style as the Cooley bust presented in May by the senior law class. Miss Ann L. Richards, of Michigan, made the presentation speech and Regent G. O. Crocker accepted the bust on the part of the university.

SENT TO JAIL FOR CONTEMPT.

Detroit Judge Punishes an Assessor Who Refused to Answer a Question.

DETROIT, June 24.—In court Saturday Col. Fred E. Farnsworth, one of the city assessors, refused to divulge the name of the man who told him that for $1,000 the council would confirm his nomination and was sentenced by Judge Sellers to thirty days in the county jail for contempt. The colonel was taken to jail. His attorney secured a writ of habeas corpus in the afternoon and released his client. The supreme court will be asked to pass upon the constitutionality of the law under which the justice acts. The council hung Farnsworth's nomination up for one session, but confirmed him at the next. He is not suspected of using money.

A HAY FAMINE.

The Crop Is Short and Prices Are Advancing.

JACKSON, June 20.—Hay has advanced on the Jackson market $2 to $3 per ton in the last three days. Good timothy and mixed hay sells readily at $12 to $15 per ton, and the indications are that another advance will take place soon. There is little clover hay in this section for sale, and marsh hay and wheat and rye straw bring $6 to $7 per ton. A gentleman who watches the hay market and who has been about the state recently says the outlook for the hay crop in Michigan is the worst it has been for years.

TO COMBAT FREE SILVER.

Democrats of Grand Rapids Form a Sound Money League.

GRAND RAPIDS, June 24.—A democratic sound money league has been organized in this city, the purpose of which is to combat the free silver fallacy, which has gained such a hold upon the Michigan democracy. The officers are: President, Judge John W. Champlin; vice presidents, George W. Thayer, Dr. G. K. Johnson, Thomas Hefferan; secretary, J. C. Holt; treasurer, Dudley E. Waters. The league is the first organized in the state. It is proposed to organize in all the cities in the state and to raise funds for carrying on a vigorous campaign.

Boodling Charged.

DETROIT, June 25.—Prosecuting Attorney Frazer will apply to the circuit court for the summoning of a grand jury to investigate the charges of boodle and corruption in office in the city council and other rumors of irregularities in and about the city hall. He asserts that the present investigation of boodle charges by a council committee is slow and ineffective. He desires to have a county grand jury appointed as a permanent adjunct to the Wayne circuit courts.

Crop Conditions in Michigan.

LANSING, June 26.—The weekly crop bulletin of the Michigan weather service says:

The average temperature for the last week was 1.8 degrees above the normal, while the rainfall was much below normal; the sunshine, 71 per cent. Over the upper peninsula the crops are in generally good condition, but over the greater part of the lower peninsula all vegetation is suffering for rain. Hay is a light crop. Wheat is thin and short; its harvest will begin next week. Oats indicate a light drop. Corn and potatoes, however, are still doing generally well.

Killed Himself in Virginia.

NORFOLK, Va., June 24.—Charles M. Finch, who came to Norfolk from Saginaw, Mich., committed suicide by taking morphine Saturday night. He is a young man 25 years old and has been in Norfolk only a few days. His parents reside in New York state and are wealthy. It is said that a love affair in Michigan was the cause.

SALARIES CHANGED.

Some Michigan Postmasters to Get More Pay, Some Less.

WASHINGTON, D. VICTIMS OF A POOR BOILER.

Two Men Killed by an Explosion in a Michigan Sawmill.

GRAND RAPIDS, Mich., June 24.—The boiler in A. H. Crocker's small sawmill, 2 miles east of Byron Center, Kent county, exploded at 7:30 o'clock Saturday morning, entirely demolishing the mill and a brick barn across the road. Martin Skinner, aged 35, married, and Arthur Barney, aged 19, single, were killed instantly, their bodies being nearly blown to pieces by the shock. Avery Crocker, aged 19, a son of the proprietor, was badly mangled and cannot live. The boiler was new, and the cause of the explosion is unknown. Barney and Skinner were in front of the mill when the explosion occurred. They were carried across the road along with the boiler, and their bodies were found mixed up in the debris of the barn.

GREATEST FRUIT YEAR.

Railroad Company Obliged to Increase Its Service This Season.

GRAND RAPIDS, June 25.—C. E. Fink, car accountant of the Chicago & West Michigan railroad, has just made a trip through the Michigan fruit belt to ascertain the needs of the peach growers in the matter of transportation facilities. He interviewed the growers in all parts of the district from St. Joseph to Hart, and the conclusion reached is that more cars will be needed to carry the peaches to market this year than ever before. In some localities damage was done by frosts, but these localities are exceptional and the amount of damage done was in most instances merely nominal.

MRS. SPRANGER DIES.

Woman Accused of Poisoning Her First Husband Expires in California.

SAN FRANCISCO, June 21.—Mrs. Spranger, who, with her second husband, was accused of murdering her first husband by slow poison, died at a resort in Santa Cruz mountains Thursday of diabetes. The mother of the woman's first husband made the accusation.

Mrs. Spranger was married to her present husband, Dr. F. X. Spranger, of Detroit, one year ago. She had previously been the wife of H. B. Darling, a musician of some note who died at Mount Clemens two years ago, and whose mother charged the doctor and Mrs. Darling with poisoning him. Mrs. Spranger was a woman of rare beauty and some three years ago inherited a fortune of $500,000 from relatives in Washington.

RISKS HER PATRIMONY.

Flora Whitney, of Detroit, Marries a Foreigner, Her Father Objecting.

DETROIT, June 26.—Putting her share of the $10,000,000 estate of her father in jeopardy, Miss Flora Ann Whitney was married Tuesday to Rudolph Alfred Demme, of Berne, Switzerland. The bride is the second daughter of David Whitney, Jr., and is the wealthiest young woman of Detroit. The groom comes from one of the oldest and most aristocratic families of Switzerland. The match between Miss Whitney and Mr. Demme was opposed. Mr. Whitney had no objections to Mr. Demme personally, but he has a strong antipathy to foreigners.

A TOO MODEST WOMAN!

Is such a thing possible?

It is.

Many a woman suffers month after month, whole years, because she shrinks from talking about her complaints.

Foolish do you say?

No, it is simply due to a natural, commendable modesty. Still she owes it to herself either to consult a good Physician or else to get the Zoa-Phora Medical Book on Diseases of Women and Children, and, after satisfying herself that Zoa-Phora is what she needs, obtain a bottle or a box of it and use it faithfully. Both the book and medicine may be obtained either direct from the Zoa-Phora Medicine Co., at Kalamazoo, Mich. or through your druggist. All correspondence is kept strictly confidential.

Zoa-Phora sold and books given away by C. A. WRIGHT and BAKER & HALL, Druggists.

SPEND YOUR VACATION ON THE GREAT LAKES.

Visit picturesque Mackinac Island. It will only cost you about $13 from Detroit or $18 from Cleveland for the round trip including meals and berths. The attractions of a trip to the Mackinac region are unsurpassed. The island itself is a romantic spot; its climate is most delightful. Save your money by taking the steamer between Detroit and Cleveland via the D. & C. Line. Fare, $2 25. This steamer is equipped with two new steamers, "City of Detroit" and "City of Cleveland," famous as the largest and most magnificent on fresh water. Leave every evening, arriving the following morning in time for morning trains. Palace steamers, three trips per week between Detroit, Mackinac, Petoskey, the "Soo" and Marquette. Send for illustrated pamphlet.

In Our Great Grandfather's Time

big bulky pills were in general use. Like "blunderbuss" that decade were big and awkward, but inefficient. To this day of ex... ernment, we have Dr. Pierce's Pleasant Pellets, cure all disorders of the stomach, liver and bowel de... ments in the most effectual way.

Assist Nature a little now and then, with a gentle cleansing laxative, thereby removing offending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistulas and kindred maladies too numerous to mention.

If people would pay more attention to properly regulating the action of the bowels, they would have less frequent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequaled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other pills. Hence, their great popularity with sufferers from habitual constipation, piles and indigestion.

A free sample of the "Pellets," (4 doses) *on trial*, is mailed to any address, post-paid, on receipt of name and address on postal card.

It is a purely vegetable preparation by a regular physician of eminence, and its success has been marvellous in the most obstinate cases. Druggists and Dealers at 25 and 50 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural temperature of the skin and equalize the circulation of the blood. By this means a controlling power is given which penetrates to every portion of the human frame, reaching the most malignant forms of disease. It searches every bone, muscle, vein, nerve and ligament, searched out and made sensible to its powerful and healing influence. Hence it cures more quickly with internal as well as external diseases.

Over 40 Years

This Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have not room here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this paper who have ever used this Ointment, to write and state their experience with it, to inquiring friends. If but one in a hundred would do this we would be perfectly satisfied with the result. Full directions for use will be found on pamphlet around each bottle.

Prices 25 and 50 cents per bottle. Sold by all dealers in medicine.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 30. Comment by Rev. W. J. Yates, A. M. Topic, Result of the Divine Remonstrance.

SCRIPTURE READING.—Job xlii, 1-17.

After Elihu has finished his speech, the narrative represents God as answering Job out of the great desert whirlwind. In all literature there is no more sublime specimen of writing than the thirty-eighth chapter of Job, in which God's wonderful works in the world of nature are described. In the succeeding chapters the same elevated tone is maintained in the description of God's providential care over the animal creation. Through it all runs the thought that man cannot understand how God made and preserves all these lower forms of creation. Nor can man, with all his boasted superiority to them, subdue and make them obedient to his will. How, then, can man expect to understand all the ways God deals with him in the moral world? The result is not an explanation of the reason why God permits men to suffer, nor is there any attempt to justify his dealings with men. It is simply a demonstration of man's inability to master easier knowledge and the consequent unreasonableness of demanding of God an explanation of deeper truths.

All this has the desired effect on Job. He no longer asserts his innocence and desire to plead his cause with Deity that justice may be done him. He has before this only heard of God as words came to his ear, but now he sees God as He is, and before that divine presence abhors himself and repents in dust and ashes. The sight of the infinite greatness and goodness and tenderness of God in caring for all His creatures so sets the nature of God before him that he knows God would do nothing unjust, and all his own complaints come up before him and fill him with shame and self contempt.

The lesson of the whole book is seen in this. The cultivation of a right spirit and attitude toward God is the work of man and not the vain attempt to fathom all God's designs.

A Leader In the League.

The president of the First General District League is pastor of the Winthrop street church, Boston, one of our largest and best churches in the east. He was

REV. E. M. TAYLOR.

first called to this position in the League by the unanimous and hearty choice of the district cabinet on the resignation of Rev. F. H. Knight, who went abroad to study. At the annual convention last October he was elected to the same position for the present year. He is a graduate of Boston university school of theology; has been pastor of some of the largest churches in both the New England and also in the New England southern conferences.

He is a good presiding officer, a magnetic and forcible speaker, a natural leader among men. He is abundant in labors among the chapters and deservedly popular. Long may his bow abide in strength!

Progress In Fraternity.

A great deal has been written and spoken recently regarding organic unity in the Christian church. Whatever one may think of the advisability or possibility of this, one thing is certain, the various denominations are drawing nearer together in spirit. The Young People's societies are aiding forward this good work. The undenominational Christian Endeavor movement appears to give much aid in this direction. The Epworth League, while a strictly denominational concern, has less appearance of assisting in this direction, but a little investigation of its workings will show that no more efficient agency is today at work for this much desired end.

There is no special advertising of liberality, but we have never yet heard of a case where the true spirit of Christian courtesy has been lacking in the attitude of the Epworth Leagues of Methodism toward the sister societies of other denominations.

Dr. Steel, secretary of the League of the Methodist Episcopal church south, was recently at the Michigan state convention in Detroit of the Epworth League and received as hearty a welcome as was ever tendered him in his own southland.

Dr. Withrow of Canada and our own Dr. Schell are equally at home on both sides of the invisible boundaries between the states and the Dominion.

The practical exercise of brotherhood is making grand progress. If theorists will take a vacation, all will go well.

The Secret of Power.

Oh, ye who sigh and languish
And mourn your lack of power,
Heed ye His gentle whisper,
"Could ye not watch one hour!"
To fruitfulness and blessing
There is no royal road.
The power for holy service
Comes from intercourse with God.

He will be there to meet thee
Where'er thy trysting place.
He will be there to bless thee;
Lift up to Him thy face.
The sweetness of that blessing
Is more than words can show,
But He Himself will teach thee
If thou wilt have it so.

SINFUL HABITS IN YOUTH
LATER EXCESSES IN MANHOOD
MAKE NERVOUS, DISEASED MEN
THE RESULT of ignorance and folly in youth, overexertion of mind and body induced by lust and exposure are constantly wrecking the lives and future happiness of thousand of promising young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life—The farm, the office, the workshop, the pulpit, the trades and the professions.

Wm. A. Walker of 16th Street says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

WOMEN'S BIG CONGRESS.

W. C. T. U. Convention Opens Friday in London. Gathering Such as the World Never Saw.

At the present moment hundreds of women are traveling by land and sea toward the city of London, everyone of whom is a delegate, representing in some cases 50 members of her sex and in others 5,000. Their objective point is a quaint and ugly church edifice, known as Memorial Hall, Farrington street, London, and they are going to the biennial congress of the World's Woman's Christian Temperance Union and the British Woman's Temperance association.

Besides these two wonderful organizations, a large number of associations which are affiliated or are on friendly terms with either or both, will be represented. There have been previous conventions of both bodies, but never before was there one so large, so composite, or so remarkable as the one which will meet in Memorial Hall on Friday, June 14. If every organization associated with the two societies is represented the proceedings will be conducted in thirty-two different languages. The members will represent every civilized country on the globe and a corporal's guard of so-called semi-civilized and barbarious lands.

The dream of the British statesman of a confederation of all the English-speaking nations of the world, is insignificant alongside of this woman's parliament. Such a gathering has never been known in history. It would have been impossible 50 years ago—50 years ago, even 10 years ago—for its existence depends upon transcontinental railroads, ocean greyhounds, the telegraph, and, above all, the new woman. Though held in England, it is an American idea and an American creation.

The congres is called for tomorrow. Both that day and the next will be used by the executive committee for the reception and reading of reports, the making up of the roll, the completion of the program and other formal parliamentary business. On Sunday, June 16th the World's organization proposes to startle London. In the afternoon and evening it will hold devotional exercises in more than 200 churches, chapels, and halls, all of which are already engaged for the purpose. The largest meeting will be in the city temple, on Holborn viaduct, a great building nearly as large as the Metropolitan opera house. The exercises will be conducted by picked women from the four English speaking organizations. More than 800 women are available as speakers, and the executive committee will make their selection from among them. In order to interest the public, foreign talent will receive the first consideration, and more especially that which Uncle Sam has supplied. There is much curiosity in London to hear Miss Willard and her colleagues. So much has been written about them in the newspapers and other publications, and so much said about them at the numberless meetings of the various societies, that there are already many applications for seats at the meetings where they are expected to speak. On Monday and Tuesday there will be meetings of the British Woman's Temperance association under the title of the National Council of women. They will be held at the city temple, and will afford a good opportunity to the visiting delegations of getting a correct idea of the oratorical ideal of the British leaders.

On Tuesday evening there will be a mass meeting in Queen's hall. Wednesday will be devoted to the World's W. C. T. U. There will be three sessions, at each one of which not less than 10 speakers will make addresses. On Thursday evening there will be a grand demonstration and monster mass meeting at Albert hall, Kensington. This edifice is the largest in Great Britain, if not in Europe, and nearly equals in size the Madison Square Garden. The demonstration will be very picturesque—in fact, almost spectacular. After the audience is seated, there will be a procession of the various elements which compose the convention. A large military band will supply the instrumental music. A uniform choir of 500 boys will march in, singing one of the new songs of the order. There will then be a white ribbon choir composed of 400 young women in dark blue suits, with white ribbons. Then will come the various delegations, according to nationalities. The American delegation will be received with The Star Spangled Banner, the French with La Marsellaise, the Germans with Die Wacht Am Rhein, the Russians with their national hymn and the other delegations each with its own national air. After the delegations will come the friendly and affiliated societies in regalia. Then will come the British delegation, and the band will play "God Save the Queen," which will be sung by all present.

On Friday there will be committee meetings and a great reception at Ryegate, given by Lady Henry Somerset to all the members of the congress, several thousand in number. The spacious grounds about her residence will be open all day to visitors, and refreshments will be served both within the house and out in the open air. On Saturday the convention will break up and and a large number of the Canadian and American delegates will start for home.

BASE BALL BATS.

ADRIAN VS. OWOSSO.

Last Friday the second game of the series which had been arranged between league teams to be played at Tecumseh, came off between Adrian and Owosso. The contest was interesting. Adrian putting up a much better game than has been their wont of late, making only two errors. The colts, however, did not do the work the public expects to see performed by professionals, and again there were many disappointed fans in the crowd. Nevins, the new pitcher for Adrian, did excellent work throughout, as did Haynes, who occupied the box for Owosso, though the latter had much poorer support, the short, especially, making numerous and costly errors for the colts. In the second, Lynch, while waiting for a good ball, was struck fairly on the head by a hot wild pitch, and felled senseless to the ground. Considerable excitement followed, but the Captain, with commendable grit, came to and took his base. There was also some exciting playing in this inning, which resulted in four scores for the Demons, which practically decided the game in their favor. Smith and Derrick each made safe hits which each brought in two men. Mulhern made a neat double play all by himself in the fourth. In the eighth Owosso got one by Bloomingston making a three bagger and scoring after a high fly from Shields had been fielded. In the last half of the ninth the colts came to bat with the score 7 to 3 against them. After one score had been made Bloomingston cut the third base with a hot grounder which rolled outside the flag, letting in two men, he stealing second in the meantime. However, the strike was ruled out and the scorers returned to their bases. If this strike had been left, with Shields to bat, Adrian would undoubtedly have been tied, if not beaten. The crowd which was so badly disappointed by the playing the week before, only numbered 275, which, however, though small, is a better comparative showing than Adrian turns out to her own games. The Telegram states that "owing to the small appreciation shown by Tecumseh for a good game, there will likely be no more league games played there." It is very evident that neither Tecumseh, Clinton, Britton or Ridgeway are far enough advanced in the principles of the great national game to appreciate such excellent playing as was put up for their edification in the first game and the work done then was the only basis on which such an unappreciative crowd could make calculations for last Friday. Even those very appreciative 200(?) fans from Adrian could hardly gather enough enthusiasm to return to the second game, and it has been even intimated that, in that city, the great base ball center, appreciation for some unaccountable cause, has been a little shy of late. People can appreciate almost any old game when they are looking for it, but when they pay to see a good game between professional teams they don't seem to have the sense to appreciate anything short of that. The verdict here was that the Demons put up a "good game" Friday, but we are hardly appreciative enough to accord that record to the Colts. It is to be regretted that the management had not been aware of this great lack in time to educate the unsophisticated fans of this section when they put on the first game here.

MERCHANT TAILORING.

To the Dressy Public of Tecumseh and Surrounding Country.

I would respectfully call your attention to the fact that I have just opened another first-class tailoring establishment in the east side of J. Burtis' new barber shop, next door to Orr & Temple's drug store, where I shall continually carry a fine line of choice foreign and domestic cloths and trimmings, which can be bought at close prices. I shall also have a full line of samples for Suitings, Overcoats, Trouserings &c. from the best manufacturers, both at home and abroad. I would respectfully request all who contemplate purchasing anything in the above line to call before buying and examine my goods and get prices, which will be within the reach of all. Those who have been compelled to wear ready made clothes on account of hard times, will have occasion to do so no longer, as I shall be in a position to supply you with an elegant tailor made suit at a price that will surprise the closest buyers. But, notwithstanding our prices being cheap, there will be no cheep, trashy work turned out, but everything will be done in a neat and artistic manner. Ten years' experience on fine trade in a number of the leading shops of England, Canada and United States places me in a position to know my business thoroughly, which will be proven to the satisfaction of all who favor me with their patronage. I use nothing but the latest and most improved systems of cutting that have been put to the test and have given entire satisfaction to all admirers of stylish and easy fitting garments. My motto is to have but one price, to buy for cash, to sell for cash and give my customers the benefit of the discount. Call and see me. No trouble to answer questions and show goods, which will be on exhibition after July 1st.

Yours Truly,
J. S. STARLING.

THE FARMERS' UNION PICNIC.

The second annual picnic of the Farmers' Union was held in Minor Davidson's grove last Friday. It was a splendid place for such a gathering. The trees are plentiful enough to furnish sufficient shade, and the grounds are clean and dry. They had been fully prepared beforehand to accommodate a good crowd and the crowd was on hand to enjoy them. Tables were built in the rear part of the grove on the north side, and near the street a nice platform was erected, with plenty of seats for a large audience. Flags and bunting were scattered about the grove, so that it presented a gala day appearance—a passer by would infer a big Fourth of July celebration was in progress.

A basket dinner was served at noon, and all present were fully satisfied. Ice cream was a part of the menu and all the substantials that farmers' wives know so well how to prepare, were furnished in abundance.

At 2 o'clock, Mr. John Boice, president of the club, called the assemblage to order and announced the program in the following order:

Music, Soldiers' Chorus—By the Union Choir.
Prayer—Rev. C. M. Brown.
Music, Duette—Iva and Eva Elliott.
Recitation, The Grumbling Woman—Leora Boyd.
Music, Old Mother Hubbard—The Union Choir.
Essay, Woman's Dress—Fern DePuy.
Recitation—Mabell Ager.
Recitation—Floyd Ager and Eva Murphy.
Address—Lon O'Mealey.
Essay, Dress Reform—Loana Davidson.
Music—By Raisin Choir.
Recitation—Bertha Smeltzer.
Music—By Raisin Juveniles.

The program was well selected and arranged, and it gave excellent satisfaction. The essays by Misses DePuy and Davidson were of superior merit and set the people to thinking. They both deserve to appear in print. Mr. O'Mealey's address hit the mark, as all of his addresses do. It was a happy mixture of humor and good sense, which kept the audience good natured and gave them a little advice and instruction also. The music was all good and of sufficient variety. In short, it was a tip-top program from first to last and would well repay one for coming many miles to hear.

Most of the crowd tarried two or three hours to enjoy themselves and finally left for home, with the determination to meet again next June for another picnic reunion.

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

BUSTLING BRITTON,

Short Sketch of Her Business Houses and Factories.

AN ENTERPRISING VILLAGE.

The Present Status and Future Prospects of the Town on the Wabash And Mackinaw Roads.

The Village of Britton is comparatively a new candidate for public favor, that is, measured in years. A village was started there upon the opening of the Wabash road, and when the Mackinaw made that an intersection point, the place took a boom that has been running ever since. Considering the competition of Tecumseh on one side and Dundee on the other, with the hard times of the last few years, Britton has achieved a growth and business position that she may well be proud of. The village contains a fine 2-story building, in which Prof. Collins and Miss Marvin conducted a first-class school during the past year. The Christian church, of which Rev. E. Mudge is pastor, is in a flourishing condition. The Reformed church is also thriving, having erected a new church edifice this summer which will be ready for dedication in a few weeks. The Maccabees are well represented here. There is Hendershot Tent No. 467, with W. J. Clark, Com., and Will Britton, Record Keeper. Also Ivy Leaf Hive, No. 506, with Mrs. W. C. Babcock, Lady Com. and Mrs. Frank Brown, Lady R. K. Both lodges have a large membership and are in a growing condition. Labo Babcock is the present efficient postmaster. He took possession of the office October 1, 1893. He has filled the position before and knows all the ropes. Will J. Clark, the genial agent of the Wabash, began work at the station the first day it was opened, Aug. 15, 1881, and has been right there ever since. During most of that time he acted as agent for both the Wabash and Mackinaw roads. He is also agent of the Pacific Express Co. Nov. 16, '93, W. E. Allen took the place as Mackinaw agent and is now holding down that chair very efficiently. We append a short personal sketch of the leading business houses and firms of the village.

LEE BROTHERS.

This is a new firm, but the boys are getting right to the front. They bought out L. Brown & Son and took possession in August 1893, nearly two years ago, and since then their trade has expanded in a very creditable manner. They carry a full line of staple and fancy groceries and also a good stock of ready made clothing and boots and shoes. They buy eggs and butter and ship the same in large quantities. The partners are both young men of good business qualifications and hustlers, and their trade has had a healthy growth since they took the helm. They have evidently embarked in trade, not as a temporary makeshift, but with the intention of becoming permanent citizens, and they are entitled to their full share of the public patronage.

ANDREW GOGOLIN.

This name has the merited distinction of representing the largest manufacturing industry of Britton. In March 1893 he purchased the Sam Kniffen saw mill and has been the sole proprietor and manager ever since. The mill is rigged with the latest pattern of buzz-saw and other modern improvements. There is also a planing department connected with the mill, which contains a planer and other machinery for finishing lumber, and this part of the business has a good patronage. There was a big run of sawing last winter, and a large lot of logs yet remains in the yard to be dressed out before next winter's season begins. When the mill is running to its full capacity, it keeps from eight to ten hands in constant employment. This is one of the solid establishments of Britton.

P. B. HARDY, M. D.

Doctor Hardy opened an office and hung out his shingle in Britton in August 1892, and during the intervening period from that date to the present he has acquired a fine practice. He had an excellent preparation for his profession to begin with. During the summer of 1891 he served as undergraduate in the Presbyterian Hospital, N. Y., one of the largest in that city, serving in the surgical wards. He graduated from the Long Island College, at Brooklyn, in March 1892. Before his removal to Michigan he studied and practised with Dr. F. E. Comstock of Andover, N. Y., a man of extended professional reputation. During the past spring the Doctor completed a course of surgical work at Emergency Hospital, Detroit. He has had much practice in nasal surgery recently, having removed six nasal tumors in one day. The Doctor has evidently come to stay.

THE WHITE PHARMACY.

This is one of the neatest and best conducted stores in Britton. Mr. Ben Pulver, the manager, is a recent addition to the business circles of the place, but he has already established himself as one of her most enterprising citizens. He keeps a very choice and well assorted drug stock, and also carries a nice line of notions and school supplies, confectionery and cigars. Mr. Pulver is a graduate pharmacist with four years experience in large drug stores, and is fully up-to-date in his peculiar calling. He purchased his present stock and began business Jan. 1st, 1895, and since that time his trade has experienced a healthy growth. Mr. Pulver is a gentleman himself and his store is conducted on business principles, and hence is bound to reap a merited reward in a growing and lucrative business.

THE EXCHANGE BANK.

Nothing helps the reputation of a country village more, or gives it more importance outside, than a good, responsible banking institution. The Exchange Bank was organized in January, 1892, as a stock company, several of Britton's leading citizens being among the stockholders. Mr. L. C. Hoagland was chosen as cashier of the bank and has acted in that capacity ever since. On the first of June, 1895, the other stockholders sold their holdings to T. V. & L. C. Hoagland, who now control the entire concern under the title "Exchange Bank of Hoagland & Co." Mr. L. C. Hoagland still acts as cashier and active manager of the bank, and no better man could have been found to fill that responsible place with credit. The bank has ample capital, is on a sound financial basis and is doing a good business.

L. C. HOAGLAND & CO.

Mr. Hoagland is not satisfied with running one business alone. He has plenty of leisure time outside of banking hours and plenty of ambition to put it to good use. And this fact gave rise to the above firm, that deals in agricultural implements, buggies and wagons, grain and seeds. This firm was organized in the summer of 1893 and has been running about two years. Mr. L. C. Hoagland is the active manager and has been from the start. They hold the agency for the Champion machines—mowers and reapers—and the celebrated Gale plows, rakes, etc. They hold the agency for a dozen different buggy manufacturers, among them the Elms buggy of Albion. They are pushing trade in this line for all it is worth, having sold 76 buggies and wagons in the ye... 1894 and 43 in the first six months of 1895. May Mont's shadow never grow less.

JAMES HAIGHT.

No man in Britton is enjoying a better trade or is better liked personally than the proprietor of the hardware store. Haight & Calkins purchased the store of Osgood Bros. Dec. 10, 1890, and this firm ran the business about two years, when Mr. Haight bought his partner's interest and has paddled his own canoe since that time. Although brought up on a farm, he takes to trade as a duck does to water and has made a fine success of it. He carries a good stock of shelf hardware, tinware of all kinds, small implements and tools, stoves and ranges. He keeps a good assortment of the celebrated Peninsular stoves on hand. A tin-shop is connected with the store. Mr. Haight has proven himself to be a first-class business man, an enterprising citizen and an excellent neighbor. He can be regarded as one of the fixtures of Britton.

KNIFFEN, HENDERSHOT & CO.

This is the title of another new firm, which is likely to become quite prominent during the next few years. They control the Britton Brick and Tile Factory, which is located one mile northeast of the village on C. A. Kniffen's farm. A brick yard has to be built where the clay can be found, and here is located a very superior deposit of clay, which makes excellent brick and tile. A few thousand brick were burned last fall, enough to test the quality of the clay, which was found to be an extra good sample. They are now putting in a larger engine, and preparing to push business on an extensive scale. The expectation is to start up next week. Mr. Samuel Kniffen, Dr. Hendershot and C. A. Kniffen are partners in the concern and they possess the ability and push to make the enterprise a successful one.

WILLIS J. HELM.

Mr. Helm started a harness shop in Britton five years ago next August. Although he hasn't got rich enough to buy a farm, he has no reason to complain of the patronage he receives. He turns out nothing but first-class work, both in new harness and in repairs, and hence the people of this vicinity accord him their custom. He went into his present rooms January 1, 1895. He is also the agent of the American Express Co., which adds a nice slice to his receipts each year.

WM. R. OSGOOD.

Mr. Osgood is one of the "old guard" among Britton's business men and no man within the confines of the village is more highly respected. He came to Britton twelve years ago, when it was a very small burg, and started a feed mill. Afterwards he built an addition to the mill and went into the sorghum and cider business. A portion of this time he was in partnership with his brothers and the firm of Osgood Bros. also conducted the hardware store now owned by James Haight. During the whole period, however, W. R. Osgood was the manager of the mill. He has gone out of the sorghum business and has a good sorghum mill for sale. He will run the cider department stronger than ever this fall; that is, if the apple crop pans out. He has lately put in a new rig for grinding plow points. Mr. Osgood is also a practical undertaker and the active partner in the firm of Osgood, Linn & Co.

CURTIS & LINN.

This is one of the youngest firms in Britton, figuring the time it has been in existence, having been organized the last week in May, 1895. They purchased the stock of E. R. Wells & Co. at that time and took immediate possession, and they have already demonstrated their capacity to conduct a first-class country store. They carry a well selected stock of dry goods, groceries, boots and shoes and ready-made clothing. They buy butter and eggs and will pay the top of the market price therefor. We predict that this firm will prove a valuable acquisition to the business circles of Britton. They are both young men and hustlers, possessed of good health and a willingness to work. They have gone into this venture with a determination to win and hence they are bound to succeed.

LUKE BANNISTER.

But few men can make a successful landlord, but Mr. Bannister is built that way. Seven years ago he run the Exelby House one year and then retired. On the first of April, 1895, he leased the property for one year and again took possession. He has a valuable assistant in his better half, who sets an excellent table. The house has a fine patronage now, both transient and regular boarders. It is one of the best managed country hotels in this section.

JOHN B. BEASLEY.

Mr. Beasley opened a furniture store in his present location when the block was first built, ten years ago, and he has hung on through thick and thin ever since. He manufactures most of his furniture, as he owns a good shop for that purpose, and thus has been able to tide over the hard times, which always hurt the furniture business. His family occupies the rear part of the store and he keeps a good stock of bakery goods on hand. Mr. Beasley may be said to belong to the old guard.

FRANK M. LINK.

Any town the size of Britton needs a first-class painter and paper hanger, and in this direction Mr. Link fills the bill exactly. He has a good shop over Rinn's blacksmith shop. He does house and carriage painting, paper-hanging and sign-writing, makes prices to suit the times and guarantees satisfaction. If Britton doesn't keep well painted up hereafter it will not be Mr. Link's fault. Although a recent comer, he is working up a good custom.

HARVEY WELLING.

Britton has long needed a good photograph gallery, and the one recently started by Mr. Welling fills the bill to a dot. He opened the gallery on the 15th day of May last, and has good reason to be satisfied with the patronage he has received since then. Two weeks ago he assumed the local management of the Times-Journal and now has that business also to take care of. He will have his hands full now, sure enough.

JAMES WRIGHT.

Farmers are giving much more attention than formerly to the improvement of their stock, and especially to their horses. "Glendale Farm," located south of the old Kniffen mill site, has four high-bred stock horses, which will enable the farmers of this section to gratify their ambition right at home. These are Glenwood, Chief of Banas, Prince of Fenwick, and King of the West. They represent all styles, from the draft horse to the fast trotter. Mr. Wright has had a fine patronage this season.

LUE L. WOOD.

Mr. Wood bought out Spitzer's meat market Oct. 1st., 1894, and has extended the business considerably since he took possession. He has a large and well arranged refrigerator, which enables him to keep a good assortment of meats in both hot and cold weather. He also keeps a good supply of soft drinks on hand, where a man can get a refreshing glass at any time. Although young in business, his success is fully assured.

MRS. EZRA SINK.

Mrs. Sink makes no lofty pretensions, but she is doing a very nice, lucrative business, just the same. She has conducted a millinery store in Britton for six years, having occupied the present cosy corner for the past two years. She has good quarters and keeps a fine line of millinery goods. Her long residence in Britton enables her to cater to the tastes of the ladies of that town exactly, and hence she holds a good trade.

HENRY BACHMAN.

Henry Bachman has been conducting a blacksmith and wagon shop in Britton for the past seven years, having been in his present location about two years and a half. He is a first-class mechanic in both lines and enjoys a good custom. Most of the time he has to hire additional help. He builds wagon racks and does all kinds of wagon repairing in addition to his regular blacksmithing business.

EDWARD BACHMAN.

"Ed" is another honorable representative of the Bachman family. He fills a niche, that must be well filled in every growing town, that of contractor and builder. He began the business here in 1888 and during the past seven years he has erected the brick block on the south side and many of the finest residences in Britton. He now has the contract for the new Reformed church and the addition to the big elevator.

E. F. SINK.

Mr. Sink began painting sixteen years ago, when painters had to mix their own paint, and consequently he learned his trade properly. He worked for a time in Macon and for the past six years has been a resident of Britton. House painting and decorating is his specialty and his skill is attested by the fact that he always has work, even in dull times. He frequently employs other help to enable him to meet his engagements promptly.

THE FIRST MATINEE.

The Fast Horses and Fast Wheelmen Combine to Make a Fine Day of Sport.

The matinee races which came off last Saturday were exceedingly well filled and drew a crowd which was very flattering, considering the busy season and that this was the first of the series. There being 21 entries in the 3 minute class it was found necessary to put on an extra race to accommodate the horses. The races were good, especially the two bicycle events, and everything passed off smoothly with no accidents or dissatisfaction. The track was in excellent shape. The next of the series will come off on the 20th of this month, with the additional feature of a ladies' bicycle race. The old favorite, Banker Rothchilds, now owned by John Gibson, was called for by the crowd and trotted an exhibition half mile in excellent form, which showed that he is still in the ring and ready to do business. Following are the summaries:

A HORRIBLE MURDER.

A Former Tecumseh Girl the Victim of a Husband's Brutality.

A horrible murder has just come to light in Toledo which explains the mysterious disappearance of Mrs. John E. Mundy, formerly Miss Lillian Morrison, of Tecumseh.

It seems that several days ago, a boy playing under the house at 1114 Wisconsin street, Toledo, discoved the partially decomposed body of a woman, which was subsequently identified as that of Mrs. John Mundy, who disappeared some two years ago. It was supposed she had left the city with her husband. Mrs. Mundy had her husband arrested in 1893 for abusing her and threatening her life, and he went through the ordeal of a trial in police court. Their life appears to have been a very unhappy one, and it is reported that he threatened to kill her on several occasions.

When Mundy left Toledo he announced that his wife had gone on a visit, and the matter gradually dropped out of the minds of Toledo people. It is probable that the self confessed murderer who now lies in a cell at the central police station would never have been brought to justice but for the accidental finding of the body. This led to an investigation. The police authorities began to search for Mundy. It was learned that he had gone to Detroit, and that city was throughly scoured in search of him. He had changed his residence three or four times, and finally left the city, it was learned, for St. Louis. To the Mound City Chief Ben Raitz and Detective Joe Nichter went at once and commenced search in which they were greatly aided by the police of that city. Mundy's home was at last located. Chief Raitz and Detective Nichter finally started with him for Toledo, and on the way home the Toledo chief went at him in such a shape that he finally confessed to the crime and related in broken accents and anguish all the horrible details, which were substantially as follows:

"Yes, I killed her," said the prisoner, choking with emotion. "The deed was done in January, 1893. We did not live happily together, and she had me arrested and fined in police court the month before. I was angry and had been drinking. The devil must have been in me that awful night.

"The children had all gone to bed. We had words and I knocked her down. I thought she was dead; she lay so still and did not breathe. Then the demon got into me. I choked her until she was black in the face. I know she was dead, but I was still crazy.

"I took the butt end of a butcher knife that had a metal handle and was sharp pointed, and jabbed it into her neck. That is what made the hole there. I did not use a revolver. Then I wrapped her up in a rug, thrust her body into a closet and locked the door.

"I kept it there two days and did not know what to do with it. I told the children that their mother had run away. We had two children both boys by my first wife, and a three year old girl by this one. The second night I took up a cleat across the closet door, sawed the floor and pushed her body under the house. The ground was frozen. A joist prevented the body from settling right, so I got a rope, tied her hands together, got under the house myself and dragged the corpse six feet away from the hole in the floor.

"The next day, which was Saturday, I went to Detroit myself and have not been in Toledo since. I told relatives in Detroit that Lillie had deserted me, and that I had broken up house-keeping. They believed the story. To others, I told different stories, and as time wore on I began to feel safe. A year ago I moved to St. Louis, where I have been since.

The murdered woman was formerly Miss Lillie Morrison, and lived with her widowed mother at Tecumseh. She was about 22 years of age at the time she was murdered, and had been married to Mundy three years.

The murdered woman left a mother Mrs. E. J. Morrison, of Tecumseh, a brother at home and married sisters as follows: Mrs. Fred Ney, who lives near the asylum in Toledo; Mrs. W. E. Warner, a school teacher in Detroit; Mrs. Katie Crego, of Sandusky, her husband being a brother of Mrs. Vinnie Dean, of Toledo; and Mrs. Minnie Orendorf, of Kensington, Ill., near Chicago. A peculiar thing is how Mundy kept the fact of his wife's disappearance from her relatives.

John E. Mundy is a Canadian about 38 years of age. He is a carpenter by occupation and worked for different contractors while in Toledo.

A Story In a Few Words.

John—How did you come out last year on your rented farm?

Tom—Barely made enough to pay the rent

John—What rent did you pay?

Tom—I was paying $5 per acre.

John—Will you rent a farm this year?

Tom—No, I am going to buy a farm for the price that I have paid yearly for rent.

John—Where are you going to buy it?

Tom—Why, have you not seen the offer of The C. S. Graves Land Co., 56 5th Ave., Chicago, have an advertisement in our paper?

Above is a sample of conversation heard between a great many farmers in the thickly populated counties of several states. 1w

Equal and Exact Justice Obtained.

Have you a claim against the General Government, either for a pension, for land under the various acts of congress, for damage done by Federal troops during the late civil war, or do you want a patent upon a practical invention which, though simple, may be the means of making a fortune for you, and perhaps revolutionizing some important branch of industry. If so, write at once to the Press Claims Company, lock box No. 588, or 618 F Street N. W., Washington, D. C., and they will tell you all about it, besides sending you without cost, if you are a reader of this paper and mention this fact, a very interesting litte booklet containing the history of some important inventions, and how to proceed to obtain a patent. Address all communications to Phillip W. Avirett, Managing Attorney, Press Claims Company, Lock Drawer 588, Washington, D. C.

"Papa, do lawyers tell the truth?" "Certainly, my boy; they will do anything to win their case."

AN ACCIDENT.

Mr. Quintus Hummel, of 118 Michigan Ave., Detroit, tells a War Story of his own Experience, and the Result.

(From Detroit News.)

Our representative called at 118 Michigan Avenue, the residence of Mr. Quintus Hummel. Mr. Hummel is a veteran of the late war, and received, in the campaign, an injury which has given him much pain and suffering since. He belonged to a Michigan cavalry regiment and his horse becoming frightened one day reared up, throwing him backward. In falling he struck his spine on a sharp stone, inflicting a deep cut over five inches long. The injury affected the kidneys. About two years ago the left kidney started to bleed, and has been doing so ever since. Mr. Hummel, in a few pointed sentences, gave our representative the following account:

"The accident of my 'war days' left me in bad shape; pain in my back and spine rendered me almost useless, and I was compelled to give up work entirely. I could not turn over in bed without assistance. I have spent hundreds of dollars in various ways trying to find relief. Physicians have told me my spine was honeycombed for 13 inches. I had given up in despair, never hoping for relief, when a friend told me about Doan's Kidney Pills, and they have done me a world of good. The pains have disappeared from my back, and the bleeding of my kidney has almost entirely stopped. I know I can never be entirely cured, as I would have to be 'a new man,' but Doan's Kidney Pills have done more to make me feel like 'a new man' than all the other things I have tried during past years. I have not had any recurrence of the pain or bleeding since taking them."

Doan's Kidney Pills for sale by all dealers. Price 50 cents, by mail, from Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, *Doan's*, and take no other.

She: "You mustn't forget that we are engaged." He: There's no danger. I havn't paid for the ring yet."

A Valuable Find.

After years of study and labor, there has at last been discovered a sure and never-failing remedy. It has been tested on patients who have despaired of ever being cured, the results have been, in every case, wonderful. Groff's Rheumatic Cure is unequalled as a positive remedy in all cases of chronic and acute inflamatory rheumatism, gout, lumbago, sciatica, neuralgia; especially ovarian neuralgia, dysmenorrhœr and all kindred affections. It is also a valuable blood purifier, being especially useful in eczema, psoriasis, scrofula, all glandular enlargements and diseases of the liver and kidneys. It is absolutely free from all narcotics. Severe attacks are relieved in from one to three days and a positive cure effected in from five to eighteen days. For sale by Orr & Temple, Tecumseh, Mich.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. THE STATE UNIVERSITY.

The Commencement Exercises at Ann Arbor Last Week Thursday.

We had the pleasure of attending the commencement exercises at the University last Thursday, and to say that the visit was enjoyed with a keen relish would be expressing the fact very mildly. Aside from the University, Ann Arbor is a beautiful city for a home, but the associations formed during a few months of school life there make it doubly attractive to an old student.

We went to Dundee the evening before and took an early train on the T. & A. A. road, Thursday, arriving in the city about nine o'clock. Taking a street car we went at once to the campus and found the grounds and buildings alive with students at that early hour. But what a wonderful change has taken place on the campus since war times. The central part of the main building, containing the big auditorium, has been constructed since then; also a large addition to the law building, the electrical and mechanical laboratories, Tappan Hall, the library building, the museum building, the dental building, the hospital, and lastly the Waterman gymnasium. A graduate of twenty-five years ago, who would return today for the first time, would hardly know the institution.

At ten o'clock the procession, which contained the graduates, members of the faculties and distinguished guests, formed near the law building, and marching around the west side, entered the front portal of University Hall and took possession of the auditorium. The faculties occupied the stage and the students the central seats on the lower floor. As soon as they entered, the great hall was rapidly filled with spectators until every available seat and every foot of standing room was occupied. It was a magnificent audience.

After music by the Chequamagon Orchestra and an eloquent invocation by President Angell, the commencement oration was delivered by James Hulme Canfield, D.D., Chancellor of Nebraska University. His topic was Individuality. It was an able production and held the strictest attention of the vast audience for over an hour. Mr. Canfield is a perfect specimen of a "sound mind in a sound body," and his oration was tersely written and splendidly delivered. At its close he was greeted with a rousing ovation. Prof. A. A. Stanley then gave the audience a treat with a selection on the big Columbian organ, which was enthusiastically received. The conferring of degrees followed. During this ceremony the President was kept busy for nearly one hour passing out the rolls of parchment, which are known in student parlance as sheepskins. Each class was called up by itself and after listening to a brief recital from the President, the graduates marched across the stage in single file and each one received his diploma from Proxy's hands. The total number was 692. The largest class was the lawyers, numbering 296, and the smallest was one lone graduate from the Homoeopathic school and one electrical engineer. The degrees bestowed were as follows:

Bachelor of letters, 43.
Bachelor of science—In Biology, 7.
In Chemistry, 4.
In Electrical Engineering, 16.
In Mechanical Engineering, 11.
In Civil Engineering, 20.
In Science, 17.
Bachelor of Philosophy, 53.
Bachelor of Arts, 63.
Electrical Engineer, 1.
Master of Letters, 3.
Master of Science, 8.
Master of Philosophy, 3.
Master of Arts, 6.
Doctor of Philosophy, 1.
Doctor of Medicine, 64.
Bachelor of Laws, 296.
Master of Laws, 9.
Homeopathic College—Doctor of Medicine, 1.
Doctor of Dental Surgery, 45.
Doctor of Dental Science, 2.
Pharmaceutical Chemistry, 19.

At the close of this ceremony the crowd slowly vacated the hall and scattered about the grounds. A large number of those present, including many distinguished visitors and older members of the Alumni, wended their way to the gymnasium to partake of the Commencement dinner. Nearly five hundred guests sat down to the tables and an elegant repast was served by caterer Hangsterfer. At two o'clock President Angell, officiating as toastmaster, called the assemblege to order and several toasts followed. Among those who responded were Gov. Rich President C. K. Adams of Wisconsin University, an old Alumnus of Ann Arbor, and others. Edmund Fish, the oldest graduate living, and the sole survivor except Rev. Cooper of the first commencement, which took place just fifty years ago in June 1845, was present and responded briefly. President Angell read a letter from Rev. D. M. Cooper, now a resident of Detroit, relating many incidents connected with the first commencement. The design then was to have a burial ground on the site of the gymnasium. The hands on the dial marked four o'clock, when the audience [illegible] and departed.

The remainder of the day was very enjoyably passed in calling upon old acquaintances. Judge T. M. Cooley was "at home" in more than one sense. The latch string is always out at his hospitable mansion, and the Judge himself is the same kind-hearted genial man, as of yore. A couple of hours were passed very pleasantly at Judge Cheever's, where we took supper and met some old graduates and friends of the family. Our worthy citizen, B. L. Baxter, happened to be there at the same time. A call was made at the Argus office, but Prof. Hammond happened to be out at the time. A call at S. W. Clarkson's found him sitting on the front porch, taking in the breeze and chatting with some student friends, who were paying their farewell respects. His family are all well at present. Judge Kinne was found in the same cozy home he has occupied so many years, the old Dr. Denton place on Huron street. His present position of Circuit Judge is evidently a congenial one for him, as time sits lightly upon his shoulders; he looks no older than he did twenty-five years ago. The hours passed all to quickly, and we reluctantly took our departure for the train at nine o'clock that evening.

MERCHANT TAILORING.

To the Dressy Public of Tecumseh and Surrounding Country.

I would respectfully call your attention to the fact that I have just opened another first-class tailoring establishment in the east side of J. Burtis' new barber shop, next door to Orr & Temple's drug store, where I shall continually carry a fine line of choice foreign and domestic cloths and trimmings, which can be bought at close prices. I shall also have a full line of samples for Suitings, Overcoats, Trouserings &c. from the best manufacturers, both at home and abroad. I would respectfully request all who contemplate purchasing anything in the above line to call before buying and examine my goods and get prices, which will be within the reach of all. Those who have been compelled to wear ready made clothes on account of hard times, will have occasion to do so no longer, as I shall be in a position to supply you with an elegant tailor made suit at a price that will surprise the closest buyers. But, notwithstanding our prices being cheap, there will be no cheep, trashy work turned out, but everything will be done in a neat and artistic manner. Ten years' experience on fine trade in a number of the leading shops of England, Canada and United States places me in a position to know my business thoroughly, which will be proven to the satisfaction of all who favor me with their patronage. I use nothing but the latest and most improved systems of cutting that have been put to the test and have given entire satisfaction to all admirers of stylish and easy fitting garments. My motto is to have but one price, to buy for cash, to sell for cash and give my customers the benefit of the discount. Call and see me. No trouble to answer questions and show goods, which will be on exhibition after July 1st.

Yours Truly,
J. S. STARLING.

The Newest Fad.

Our people fairly dote on originality, but they rave over originality in their amusements, especially when it is allied to real merit. The latest fad is "Black America," a gigantic entertainment. This exhibition is composed of nearly half a hundred real Southern negroes, principally from Virginia, North and South Carolina and Georgia. There are no whites in it at all. The performance they provide is unique and interesting beyond anything ever seen on this continent. The singing portion of the program is the grandest thing ever heard. All the old plantation melodies, so infinitely sweet and simple to the musical ear, are rendered in a way to enthuse and electrify the audience. The buck and wing dancing, the drills, marches and all else are wonderful to behold. There is a real cotton field, cotton press and gin in full operation. The above company will give one performance only in Tecumseh. At opera house, Tuesday evening, July 9.

LaPearl's Big 10 and 20 cent Railroad Show has a troupe of performing goats, a troupe of performing monkeys, the best troupe of performing ponies, the best troupe of performing dogs. Will exhibit at Tecumseh July 10th.

Tecumseh in June.

Prof. Swing used to say that "it took eleven months to make a June," but the compensation for this is, that when it does come at last, it is June.

As Tecumseh, with its quaint old Indian name, its broad streets lined with maples, its four school houses, its six churches, its close shaven lawns, its beautiful cemetery, its electric lights, and ample water works, is the most beautiful rural village in Southern Michigan, so also in this first month of summer, is it at its best.

True it has not the beautiful hills on either side, which make Battle Creek picturesque, and the little village of Augusta twelve miles further west still more so, nor Kalamazoo which so long claimed to be the finest village of the west. But with its broad Chicago street, one hundred feet wide, and over a mile long, falling beautifully by a gentle, natural grade from the center to the River Raisin on the east, and to Evans Creek on the west, flanked on the south by Pottawattamie and Kilbuck streets, and on the north by Logan and Shawnee streets, and intersected by Evans and Union streets running north and south, over one and a half miles long; they too flanked by Oneida and Maumee streets on the east and Adrian on the west; this "loveliest village of the plain" is the admiration of accidental and transient visitors, as well as the tired denizens of our surrounding cities, who come year by year to enjoy its cool shade, and drink in its pure air and water, during their summer vacation. Its clean streets, its fine system of electric lights, and ample water supply, are a just tribute of praise to the good taste and efficiency of Board of Village Trustees, its Village Marshal, its Street Commissioner and Board of water works.

We did not set out to praise Old Tecumseh, for it does not need it at our hands, nor at the hands of any one, as it speaks for itself; but with a just village pride, simply to call attention to its rural beauties and unusual attractions as a healthful and pleasant resort for a summer outing. B.

Sad End of a Lovely Life.

On Monday, June 24th, the community was shocked by hearing that the body of a murdered woman had been found under the house 1144 Wisconsin street, Toledo. A few days later it was learned that the victim was a former resident of Tecumseh, whose family still belong here. She was the daughter of Mrs. E. Morrison, was born here, and when about 13 years old went to live with some relatives in Philadelphia. She returned after about 5 years, having grown up a pretty winsome young lady. She remained in Tecumseh only a few weeks when she obtained a situation in Detroit, and there met and married John E. Mundy, a young man of good family and comfortable circumstances. In the fall of '92 Mundy and his family moved from Detroit to Toledo. In January or February '93, Mrs. Mundy's mother called at her daughter's house. She was not at home, and her husband said she had gone to stay a day or two with a woman belonging to their church, who was sick and too poor to hire help, and as Mrs. Mundy was exceedingly kind and charitable, the story seemed plausible. Calling again in a day or two, and still finding her daughter from home, Mundy informed Mrs. Morrison that she had just gone to Detroit to find a house, as they had decided to return to that city, which they did in a few days. This explanation satisfied Mrs. Mundy's relatives with the exception of her mother, who is a lady of more than ordinary shrewdness and intelligence. Suspecting something wrong, she obtained the key of the house they had just vacated, and with incredible nerve and courage searched the house alone. She discovered nothing suspicious, although at one point in her search she must have been within a few inches of the body. Not wishing to give publicity to the affair by placing it in the hands of the authorities, Mrs. Morrison continued her investigation by the more expensive and less efficient means of private skill. No trace of the missing lady could be found though the husband was located until a few months ago, when he moved to St. Louis, Mo., where all trace of him was lost.

With the details of the terrible crime all are familiar. The finding of the body by a little boy who crawled thro' a breech in the foundation wall in search of his dog, the almost unparaleled efforts and success of chief of police Raits and detective Nichter in securing the murderer in St. Louis, the wretched man's confession of how he choked his wife till she appeared dead and then drove a knife into her heart, have all been published.

Mrs. Mundy was about 25 years old and left a little girl who will be given to her mother. In early life she made a profession of religion and joined the Baptist church in Philadelphia, and subsequently by letter united with the Clinton Ave. Baptist church in Detroit, her pastor being the Rev. C. E. Conley, formerly of Tecumseh. She was an active, earnest christian, aiding to the extent of her means and capabilities in missionary and charitable work. As soon as arrangements can be made the remains of the once beautiful and amiable girl will be laid by those of her father, in the Tecumseh cemetery "till the day break and the shadows flee away."

Mrs. Whittaker, of Detroit, is sojourning at Mrs. Tiffany's during the hot weather.

Mrs. Ed. Newburn came up from Cleveland Wednesday to spend a vacation in Tecumseh.

Miss Jones, who has been with Mrs. Mosher for some months, returns to her home in St. Clair tomorrow.

Miss Cooper, of Chicago, is the guest of Miss Edith Woodward who is home from that city for her vacation.

A. O. Hall and D. T. Hall attended the funeral of Mrs. Thos. F. Moore in Madison last Monday. The deceased was an aunt of D. T. Hall's.

After services last Sunday morning a unanimous call was extended to B. S. Hudson to accept the pastorate of the Baptist Church. He will fill the pulpit again next Sunday and in the meantime has taken the call into advisement.

Runaways seem to be a necessary pastime to the equine race. Ben Garlinghouse has so trained his steed that he can now indulge in this dangerous diversion with innocent pleasure to himself and credit to his master. The first practice heat was given Monday morning over the Lake Shore track up across the trestle bridge by Bidwell's farm. This was done without the slightest injury to horse or buggy.

BIFF! BOOM!! BANG!!!

That is the way the meeting of the Bicycle Association was punctuated, when, on last Monday evening the boys came together in committee of the whole to discuss the ways and means of the coming races. There wasn't one who wasn't enthusiastic, who wasn't willing to put forth every effort to make the meet a success and who was'nt willing to 'pungle' the hard coin of the realm to make the races of 1895 eclipse any previous festal event.

A grand, free and intensely exciting road race, a brilliant exhibition of fancy evolutions on the silent steed, an illuminated ascension of one of the most modern of air ships and the music of two splendid bands will add to the charms of the occasion. Here are the committees, and the populace can judge for itself whether the affair will be a 'hummer' or whether it will fall by the wayside.

Executive—P. W. A. Fitzsimmons, B. J. Garlinghouse, E. N. Satterthwaite, John Anderson.

Soliciting & Collecting—W. H. Hayden, Fred Rosacrans, E. F. Kirchgessner, H. T. Richter.

Track—J. J. Freeman, T. R. Kyle, B. A. Garlinghouse.

Premiums & Events same as executive committee.

Advertising—P. W. A. Fitzsimmons, J. L. Anderson, Chas Patterson, W. W. Whiting, Geo. Field.

Reception—W. C. Burridge, T. C. Harris, Bert Lawrence, Cliff Millis, W. R Caldwell, W. B. Odion, G. J. Davidson.

—COAL! COAL! COAL!—

Bay View Announcements Out.

The Bay View summer announcements are out and are of public interest. They fill sixty pages of magazine size and are beautiful with a hundred half-tone views of scenery and life at this great Northern Michigan resort and summer educational center. The Assembly four weeks' program is strikingly attractive and the Summer University with its forty-five instructors from leading institutions, offers unsurpassed advantages. It embraces eight throughly equipped schools: College and school of methods, Bible school, conservatory, schools of art, oratory, physical culture, and for writers. The enrollment a year ago was very nearly 800. It is given out at headquarters that this is going to be the largest and finest of all the Bay View Years. The University opens on July 10th, the Assembly July 17th, both closing August 14th. All Michigan railroads will sell half-fare tickets there, daily, from July 8th to 17th inclusive, return limit August 15th. Round trip tickets from Tecumseh will be $9.14. The public will be supplied with the summer announcement, giving also full information about expenses, etc., by addressing a card to J. M. Hall, Flint, Mich. Call for the June Bay View Magazine.

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

The best minstrel troupe that ever visited Tecumseh will be here next Thursday.

Miss Mary Burridge arrived home from Ann Arbor last week for the summer vacation.

At the Methodist church next Sunday night, Rev. J. P. Varner will have for his subject, "Mount Calvary."

Prof. Kellogg and Editor Field went to Adrian Monday to start their "Summer Normal" at the college.

A. W. Haight, who has been enjoying a respite from work in Tecumseh, returned to Columbus last Saturday.

Fred Osborn, who is attending the university at Ann Arbor, is spending a few days with his uncle, J. H. Osborn.

Rev. E. C. Andrus left town Monday for a month's vacation. He will spend most of the time at his old home in Grand Rapids.

The Al. G. Field's troupe is the best minstrel organization that ever visited Tecumseh. Next Tuesday evening at the opera house.

LaPearl's Big 10 and 20 cent Railroad Show, three times larger than before, ten times better than ever, will exhibit at Tecumseh July 10th.

Ed Hollister, of Norwalk, Ohio, was in town two or three days last week. He is getting his celery plantation down there nicely started.

Will Anderson, of Devils Lake, was in town a part of last week. He is looking hale and hearty. Dairy farming evidently agrees with him.

Next Monday Rev. J. P. Varner will go north with his family for a month's vacation. Rev. Walter Burnett will supply the pulpit in his absence.

Frank Whiting, of Lake Ridge, was a HERALD caller Tuesday. Frank has the sympathy of all in his recent bereavment, for his wife was a most estimable woman.

The bicycle meet to be held here July 25th will cap the climax. There will be elaborate programs, forenoon afternoon and evening, including a ten mile race and fireworks.

Miss Naomi Gamble and her sisters, Saida and Marian, visited their Grandma Gregg last week. Mrs. Robert Service, their auntie, returned to their home in Wheatland with them.

George Hanford has bought a new 5 1-2-horse power gas engine of the Springfield make and a centrifugal pump to use on his celery farm for irrigation. The outfit will be just what is needed in a dry season.

B. L. Baxter attended the commencement at Ann Arbor last week and had a very pleasant visit there. He was the guest of Judge Cooley and Judge Cheever and also called upon Ex-Governor Felch. Mr. Baxter was regent of the university during war times and hence enjoys quite an extended personal acquaintance in Ann Arbor. He made a three days' trip of it, visiting friends in Ypsilanti on Friday.

Bicycle Day July 25th.

Will Baker is in Toledo this week.

Bert Day is spending his vacation in Chicago.

Tecumseh's big day will come on July 25th this year.

Raynor Anderson arrived home from Buffalo Saturday for a short vacation. He will soon take a position in Detroit.

Walter Burnett got home last week from Albion College and expects to spend most of his vacation in Tecumseh.

Mr. and Mrs. D. L. McGlashan, of Windsor, Ont., and daughter Olive spent the 4th with Dr. Woodward's family.

Mrs. Thos. Hanley is meeting with good success thus far in canvassing for her book. She deserves the assistance of everyone and will doubtless work up a good list of subscribers here.

Two splendid bands will discourse music during the morning, afternoon and evening of July 25th. Ten mile crackajack road race in the morning. Amateur and professional track races in the afternoon.

You can see an exciting ten mile road race, a splendid exhibition of fancy and trick bicycle riding and the ascension of an illuminated air ship absolutely free of charge if you will come to Tecumseh on Thursday, July 25th.

Tecumseh was almost deserted yesterday. The afternoon resembled a Sunday, as all stores were closed. Most of our citizens who left town, went to Adrian to celebrate, although a good many went to the lakes.

The Electric Light company have contracted for a new boiler and compound condensing engine of 125 horse power each, and several new arc lights will be erected at once. The new outfit and additional lamps will be in running order by August 1.

Prof. J. W. Cupples and family of Lapeer are spending a couple of weeks with his father, Wm. Cupples. Prof. Cupples has been engaged as Superintendent of the Lapeer schools for another year, which is a sure indication that he is succeeding there.

Mr. H. H. Chapin is in town this week with an assistant correcting the canvass which was made last fall for his directory in order that it will be fully up to date. The directory will be out next month, the work in Hudson and Adrian being already completed.

J. W. Crane, of Elmhurst, Ill., with his family, is spending a few days with Tecumseh friends. Mr. Crane is President of the new Tipton Cheese Co., so he is now able to combine business with pleasure in his Tecumseh trips. His new venture at Tipton is running very nicely thus far.

C. H. Reed has shipped his goods to Belding where he has taken an interest in the Belding Star. Mr. Reed and family expect to go this week. Belding is a hustling little town and Charlie is a hustling good printer, and though his many friends regret his departure they all wish him every success.

The greatest bicycle meet in Southern Michigan will take place in Tecumseh on Thursday, July 25. Prizes to the value of seven hundred and fifty dollars have already been guaranteed and it is even expected to increase this amount. Riders from all sections of the country will compete and the Tecumseh Bicycle Association assures the community of the biggest big-day in the history of our fair village.

This week Wm. Arnold has been moving his family into one of the finest residences in Tecumseh, his new house on Logan street. The house not only represents a beautiful and tasty appearance suggestive of comfort and commodious rooms, but from cellar to roof is put up in the best manner that good material and skillful workmanship could produce. A peninsular furnace heats the rooms. The house is connected with the water works, is furnished with porches, mantles, bath room and all modern conveniences. The first floor is finished in quartered oak and the second in Georgia pine, making a beautiful effect throughout. Henry Mensing made the plans and superintended the building while James Mitchell did the mason work and both are to be complimented on the thoroughness and excellence of their work.

Bicycle Day July 25th.

Where did you celebrate?

Roy DeWolf spent the 4th in Tecumseh.

Chas. Van Antwerp preached in Homer last Sunday.

Miss Ella Chilson is now organist at the Baptist church.

Ralph Webb, of Minneapolis, called upon old friends here Saturday.

Geo. Newberry, of Jackson, visited at his uncle's, B. L. Baxter's, over Sunday.

Fred Guyt formerly with Erskine, is now employed in Burtis' barber shop.

Wait for the Big Bicycle Races. Thursday, July 25th. $750 in prizes.

Barnum and Bailey's show will exhibit at Adrian next week Saturday July 13th.

Two first-class barbers and everything clean at Burtis' new shop. Give them a call.

Leon and Harry Rosacrans take a trip to Chicago on their wheels next week.

Miss Iva Elliott spent several days of last week with Miss Julia Gilmore, of Macon.

LaPearl's greatest of the great 10 and 20 cent shows will exhibit at Tecumseh July 10th.

Norman Allen, of Cleveland, Ohio, is making his nephew, Peter Welling, a few days' visit.

The Misses Jessie Case and Minnie Reeves celebrated the 4th, or rather the 3rd, in Dundee.

Dr. E. W. Gamble is visiting old friends and celebrating the 4th in Tecumseh this week.

Misses Emma Clarke and Nettie Taylor, of Manchester, took dinner with Mrs. Peter Welling Sunday.

Misses Mae and Mabel Sisson, of Detroit, spent the 4th with relatives and friends in Tecumseh and vicinity.

Rev. W. R. Blachford will leave home next Monday for a short vacation at Hamilton, Ont. His family will accompany him.

Gus Cummins is something of a rider too. He came in Monday on his wheel from Chicago, having been just 12 hours on the road, a distance of 220 miles.

Henry Mc Clure celebrated yesterday in red, white and blue. That boy, who arrived at his home yesterday morning, will be a patriotic citizen, or all signs will fail.

The Tecumseh Bicycle Association gave a splendid race meeting last year but the meet of 1895 will outshine the meet of 1894 as the arc light does the candle. Don't forget the date,—all day Thursday, July 25th.

A. W. and Chester Slayton, of Grand Rapids, cousins of A. W. and C. A. Slayton, stopped off here Tuesday and Wednesday to make a short visit. They are on their way to Massachusetts to visit relatives.

On our trip to Ann Arbor last week, we stopped over night at the Pocklington Hotel, and got first class accomodations as we always do at that house. When in Dundee, patronize the Pocklington Hotel and you will be happy.

Mrs. James Elliott and little daughter, Toozy, went to Homer Wednesday for a few days' visit with her parents, Mr. and Mrs. Thos. Rainey. Mrs. Elliott returns Friday while her little daughter will spend her vacation with an aunt, Mrs. T. C. Cook, of Quincy, Mich.

The Tecumseh souvenirs are completed and are being delivered this week. The job is a very neat one, both typographically and editorially, and reflects credit upon the compilers, J. H. Smith and C. H. Reed. It makes a fine showing of Tecumseh and her business interests.

The calendar for the current year of the University School of Music is at hand. This school has met with a wonderful success under the superintendence of Prof. Stanley and has become one of the permanent fixtures of the university. In the roll of students for last year we note the name of Camilla Mead of Tecumseh.

The verdict of $1500 found in the Ford vs Cheever case in the Lenawee circuit court was carried to the supreme court and there reversed last Tuesday. Watts, Bean & Smith and W. C. Burridge were counsel for Cheever while J. W. Wightman and Jake Winnie represented Mrs. Ford's interests. Isaac Wolcott also won his case of Globe Casket Co. vs Wolcott at Lansing. W. C. Burridge made the arguments in both of these cases for the successful litigants and has thus added to his successful practice before the supreme court.

Wm. Herrick, an old pensioner, who has been living with his brother-in-law, W. H. Smith, for the past fifteen years, died last Monday at the age of 64 years. He was born in Ireland, but had lived in this country from early manhood and served in the late war with much credit as a cavalry soldier. He died of heart failure. The funeral services were held at the home of W. H. Smith on Tuesday afternoon, Beers Post G. A. R. conducting the services, and Chaplain L. Barnes officiating. The deceased was a quiet unassuming man but a warm hearted friend and neighbor, who will be missed by those who knew him best.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The man who live better than others and enjoy life more, with less expenditure, by more promptly the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and if you are well informed, you will not accept any substitute if offered.

MICHIGAN FARMERS.

Report of the Secretary of State Presents Interesting Statistics.

LANSING, July 1.—The advance sheets of what is probably the most important census bulletin yet issued by Secretary of State Gardner, as the result of the compilation of the state census of last year, have been given out. The total area of the state is 36,443,346.40 acres. The total area of the southern four tiers of counties is 11,145,881.66 acres. Compared with 1884 there is in the southern counties an increase of 506,610 acres in the area of improved land, and a decrease of 613,701 acres in the area of unimproved land. The value of farms, including land, fences and buildings in the state, is shown to be $528,249,503, as compared with $571,443,463 in 1884, a decrease of $43,193,959. There is a loss in the southern counties of $61,690,047, making the total loss in the state $43,193,959.

in the state in 1884 was $38.48, and in 1894 $34.54; the average value in the southern counties in 1884 was $46.94, and in 1894 $41.23. The average decrease per acre in the state is $3.94, or 10.24 per cent., and in the southern counties $5.71, or 12.16 per cent.

Farm implements in the state are valued at $21,134,616, a decrease compared with 1894 of $762,870. The value of implements in the southern counties is $14,575,204, or $2,963,567 less than in 1884. Live stock in the state is valued at $53,150,113, as compared with $70,626,248 in 1884, a decrease of $18,476,135. In the southern counties there is a loss of $19,061,373. In the southern counties the amount paid for outdoor labor was $7,825,891, a decrease of $1,289,507, and for indoor labor $881,571, a decrease of $438,728 compared with 1883. In the southern counties the value is stated at $58,676,696, a decrease of $6,217,237.

SEAMAN JURY DISAGREES.

Detroit Physician Is to Be Given Another Trial at Once.

DETROIT, July 1.—The jury in the trial of Dr. Dennis J. Seaman, the physician who is charged with responsibility for Emily Hall's death on account of a criminal operation, came into court at 9 o'clock Saturday morning and announced a disagreement. The jury was discharged and another trial of the case will be begun this afternoon. It is understood that the jurors stood eight for conviction, four for acquittal. They were locked up for eighteen hours.

DETROIT, July 2.—When the recorder's court opened Monday afternoon Prosecuting Attorney Frazer moved that the case against Dr. J. B. Seaman, who is accused of having caused the death of Emily Hall, the English girl who died in a lying-in hospital here last February, be immediately proceeded with. Fred H. Warren, attorney for the defense, objected, saying that his associate and himself were not ready to proceed with the case. He had no good reason to offer, however, and Judge Chapin ordered that the case be proceeded with, and drawing for jurors began.

DETROIT SMALLPOX EXPENSIVE.

A Hotel Proprietor Secures Damages in a Test Case.

DETROIT, July 1.—The first of the cases against the city for damages growing out of the incompetency of the health board in the recent epidemic of smallpox was decided Saturday afternoon in favor of the plaintiff, M. S. Safford. Safford is proprietor of the Merchants' hotel, where the first case of smallpox developed. He charged that the board of health failed to give prompt attention to the case, which necessitated the hotel being placed in quarantine and the destruction of property and loss of business, and sued for damages. The jury gave a verdict for $850. Other similar suits will now be brought against the city.

Green-Goods Men Guilty.

DETROIT, June 30.—In the United States court the jury brought in a verdict of guilty against John S. Treadwell and William Derry, the green-goods men who were captured at Hillsdale a couple of months ago, and who were charged with using the United States mails in operating a green-goods swindle. Sentence was not pronounced. Four others were discharged.

Census of the Pottawattomies.

NILES, July 2.—A census is being taken by Indian Agent J. W. Cadman of the Pottawattomie tribe of Indians who live near Dowagiac, for the purpose of establishing their individual claims to $150,000 shortly to be paid them by the government. There are 250 members of the tribe living.

Earnings of Michigan Roads.

LANSING, Mich., June 29.—The earnings of Michigan railroads for the month of April were $2,507,974, an increase of $253,382 over the same month of 1894. The total earnings from January 1 to May 1 were $8,920,191, an increase of $367,987, or 4.34 per cent. over the same period in 1894.

Minister Killed by the Cars.

BLISSFIELD, Mich., July 2.—Rev. H. N. Brown, a retired M. E. clergyman who has held pastorates in prominent churches in Detroit and other Michigan cities for forty years, was struck and instantly killed by a locomotive while walking on the Lake Shore railroad track Monday evening.

Aged Man Burned to Death.

MOUNT PLEASANT, Mich., July 2.—William J. Kennedy, aged 79, was burned to death Sunday night in his house. His family escaped. Incendiarism is suspected.

Gets a New Trial.

LANSING, July 1.—William H. Thacher, of Benzie county, convicted of poisoning his wife and sentenced to prison for life, was granted a new trial by the Michigan supreme court.

Sawmill Burned.

PIERPONT, July 1.—Representative Perry's saw and grist mill burned late Saturday night. The loss is $10,000; no insurance.

EPWORTH LEAGUE.

Preparations for the Second Annual Training Assembly.

LUDINGTON, July 1.—Arrangements are almost completed for holding at this place the second annual training assembly of the Epworth league. The institution located at Ludington was the first of the kind ever undertaken by the league, which to-day is an organization of 2,800,000 members. The prime object of the training assembly is to provide a summer school, combining intellectual and spiritual development and having special regard to the recent great movement among Christian young men and women. The programme is so arranged as to allow during a three weeks' sojourn ample opportunity for amusement and recreation on one of the prettiest beaches on Lake Michigan. Any member of the league may attend the assembly, where, in a large auditorium, is given during a three [illegible] instruction touching on League, Endeavor, Bible study and Sunday-school work, conference work for young preachers, evangelistic effort, and Christian citizenship. The programme for this year includes the time from July 9 to 28. Well-known religious instructors from Chicago, Detroit, Boston, Chattanooga, and many other points will be present.

A BIG CLASS.

Graduating Honors Conferred on 692 Students at Ann Arbor.

ANN ARBOR, Mich., June 29.—Commencement week at the state university closed Thursday with the graduating exercises proper, followed by the usual banquet in Watterman gymnasium. Five thousand persons witnessed the graduating exercises. The number of degrees conferred was 692, which is the largest number conferred on any class in America this year. Degrees were conferred as follows:

Bachelor of letters, 43; bachelor of science, 76; bachelor of philosophy, 58; bachelor of arts, 63; masters' degrees, 30; doctor of philosophy, Frank Haigh Dixon, Ph. B.; doctor of medicine, 64; bachelor of law, 296; master of law, 9; pharmaceutical chemist, 19; doctor of medicine, homeopathy, William Hodgins Atterbury; doctor of dental surgery, 45; doctor of dental science, 2.

The following honorary degrees were conferred:

Master of arts: Andrew J. Poppleton, undergraduate of 1847 and 1850, of Omaha; Maj. Willis Cranson, 1848, of Saginaw; Rev. William Frackelton, of Sydney, Australia, and professor of Greek at Wellesley. Doctor of law: Alfred Noble, 1870, United States commissioner on the Nicaragua canal; Henry Mills Hurd, 1863, superintendent of Johns Hopkins hospital and dean of the faculty. Master of laws: Robert H. McMurdy, 1890, of the Chicago Alumni association.

HEIR TO $225,000.

Inmate of a Prison Informed of His Luck on the Expiration of His Sentence.

IONIA, Mich., July 2.—Two years ago August Dahner was sent to the Ionia prison for two years for whipping a man who refused to pay him his wages. Dahner served his time and was released Monday. When he stepped out of prison he was met at the door by attorneys who informed him that a fortune of $225,000 was his when he chose to claim it. It appears that Dahner's uncle was one of the original forty-niners and struck pay dirt in the Calico mining district of San Bernardino county, Cal., years ago, and had increased his wealth. When he died about eighteen months ago he had six living heirs, one of whom is Dahner. Dahner will go back to his home and then to California to claim the fortune. When he was sentenced to state's prison he had the sympathy of the neighborhood. Dahner is young and unmarried.

Recovered Her Daughter.

KALAMAZOO, June 29.—At the residence of Phillip Buckhout in West Oshtemo lives Meta Moore, a supposed orphan. Sunday evening a poorly-clad and tired-looking woman appeared at the house, asked for the girl and recognized her immediately as her daughter whom she had become separated from in some unaccountable manner ten years ago. The mother was supposed to have died years ago. Mrs. Moore is poor and had traveled many miles on foot in search of her child.

Reds with the Supreme Court.

LANSING, June 30.—The case of the state of Michigan vs. Bay county, involving the claim of the state for delinquent taxes aggregating about $106,000, has been submitted to the supreme court. An opinion is not looked for for some weeks. On the result of the case hangs the right of the state to recover from a number of other counties in which a similar state of affairs exists.

The Plot Failed.

BATTLE CREEK, June 29.—Deputy Sheriff King unearthed a plot to send Amelia Henzleman, an important witness against the alleged train wreckers here, to Germany and to capture the witness in Detroit on her way to New York, whence she was to sail for her home. She claims that she was given her transportation and $100 to leave the country.

Robbed by Tramps.

BUFFALO, N. Y., July 2.—George R. Culp, the 13-year-old son of a Methodist clergyman at Battle Creek, Mich., was found by a policeman Sunday morning in North Buffalo. The boy ate as if he had been days without food. He had fallen in with tramps who had robbed him. The policeman wins a reward of $50 offered by the boy's father.

In Jail Again.

LANSING, July 2.—John Bodewig and George Johnson, two of the men charged with train-wrecking at Battle Creek during the railroad strike last year, are in jail here. They were rearrested last week upon a charge of obstructing the United States mails.

Albion College to Get $25,000.

ALBION, June 27.—At the Alumni association meeting of Albion college it was announced that $25,000 had been pledged for the alumni professorship of the English Bible. The chair will be fully equipped at once.

St. Joseph County Crops Suffer for Want of Rain.

THREE RIVERS, July 1.—The average farmer of southwestern Michigan is deeply discouraged on account of the effect upon crops of the exceedingly dry weather and late frosts. The late frost nearly destroyed the entire mint crop, which generally is very large, and also injured the wheat. The hay crop is almost nothing and hay is worth here from $18 to $20. The wheat crop which is being harvested is very light and will average about one-half a crop. Corn, potatoes and oats are in a fair condition, and should we have summer rains will result in fair crops. The fruit crop in St. Joseph county is fair, but much has fallen off on account of dryness. Peaches will be nearly a full crop. The rain of about 3 inches last Wednesday was the heaviest since last fall, and the total amount of precipitation since January 1, '95, in St. Joseph county has been only about 10 inches. Many wells are dry and the manufacturing establishments cannot run a full capacity on account of the lowness of the streams, which are the lowest now they have been in sixteen years.

HONORED BY THE GOVERNOR.

Recent Important Appointments to the State's Service.

LANSING, June 28.—Gen. James H. Kidd, of Ionia, ex-inspector-general of the Michigan national guard and ex-commander of the Michigan department Grand Army of the Republic, has been appointed by Gov. Rich quartermaster-general, to succeed George M. Devlin deceased. Gen. Kidd was colonel of the Michigan cavalry and was brevetted brigadier-general of volunteers for gallant and meritorious services. Col. Charles V. Deland was selected by the governor to fill the office of state statistician, which was established by the last legislature.

Racing at Grand Rapids.

GRAND RAPIDS, July 2.—The first of the meetings to comprise the "Big Four" circuit, which includes Grand Rapids, Lansing, Saginaw and Detroit races, opened Monday afternoon with good attendance, fine weather and track in good condition. Three events were completed as scheduled. The winners were as follows: Trotting, 2-year-olds, 2:50 class, purse, $500—Emeer; best time, 2:33. Pacing, 2:28 class, purse, $1,000—Queen Lil; best time, 2:18. Trotting, 2:30 class, purse, $1,000—Roelta Soap; best time, 2:22.

PHYSICAL STRENGTH,
cheerful spirits and the ability to fully enjoy life, come only with a [illegible]

body and mind. The young man who suffers from nervous debility, impaired memory, low spirits, irritable temper, and the thousand and one derangements of mind and body that result from unnatural, pernicious habits usually contracted in youth, through ignorance, is thereby incapacitated to thoroughly enjoy life. He feels tired, spiritless and drowsy; his sleep is disturbed and does not refresh him as it should; the will power is weakened, morbid fears haunt him and may result in confirmed hypochondria, or melancholia and, finally, in softing of the brain, epilepsy, ("fits"); paralysis, locomotor ataxia and even in dread insanity.
To reach, reclaim and restore such unfortunates to health and happiness is the aim of the publishers of a book of 136 pages, written in plain but chaste language, on the nature, symptoms and curability, by home-treatment, of such diseases. This book will be sent sealed, in plain envelope, on receipt of this notice with ten cents in stamps, for postage. Address, World's Dispensary Medical Association, Buffalo, N. Y.
For more than a quarter of a century physicians connected with this widely celebrated Institution have made the treatment of the diseases above hinted at their specialty. Thousands have consulted them by letter and received advice and medicines which have resulted in permanent cures.
Sufferers from premature old age, or loss of power, will find much of interest in the book above mentioned.

EPWORTH LEAGUE.

Lesson For the Week Beginning July 7. Comment by Rev. W. J. Yates, A. M. Topic, Turning Water Into Wine.

Scripture Reading.—John ii, 1-11.

The book of Job contained the lessons of the preceding three months. For the present quarter the topics are selected from the four gospels and are all related to the miracles of Christ.

The general subject of the whole three months is, "Greater things than these shall ye do." Careful thought upon the various themes suggested in the lessons will show in clear light the glory of Jesus. The work He came to earth to accomplish and the work He left for His followers to do and their glory in faithful performance of duty.

The miracle at Cana of Galilee is the subject for study this week. One of the best ways to consider this topic is to read the account of the baptism of Jesus as given in the different gospels, and then the temptation in the wilderness. Following this comes the episode recorded by John in the first chapter of his gospel, where the disciples of John are made acquainted with Jesus and become His disciples. All this naturally leads up to the marriage feast at Cana, the account of which should then be carefully read.

It is worth while to think on this matter carefully, and after fixing in mind the succession of events, the persons engaged in the transactions and vividly picturing the oriental scenes, to then critically sift out the principles underlying and controlling all the actions. A still further exercise of much interest will be found in the theoretical application of the principles discovered to the affairs of one's own everyday life.

Such study of the topics of the present quarter will yield most valuable results by increasing one's knowledge of the Bible teachings, developing powers of careful attention and analysis, revealing weak places in personal faith and defects in practice and bringing closer communion with God and correction of life.

From Another View Point.

Considerable stir was made in the city of St. Louis in April last by an article by Father Phelan of the Roman Catholic church, printed in his paper, The Western Watchman, in which he reflected severely upon the conventions of the Epworth league and Christian Endeavor societies. He said, "The corrupting tendency of such heterogeneous gatherings of young people cannot be overestimated, and for downright viciousness and depravity they have never been equaled since the horrid saturnalia of Greece and Rome." Oh!

Other parts of the article are even stronger in statement. He seems to think the end and aim of these gatherings is matrimonial when not criminally vicious. He says: "These young people are very much in each other's company. They are actively engaged in courting when not most actively busy in singing and praying."

The unwarranted slander of the article is equaled only by its unparalleled stupidity. The world in which his mind has evidently been trained has an orbit outside that in which the League and Endeavor societies move. He has no more idea of the purity of their spirit and earnestness of their devotion than of the magnitude of their membership. He credits each organization with over 100,000 members. The League alone has over 1,000,000 in membership. Such an article does more execution at the breech than at the muzzle. Its recoil on the author was severe but well deserved.

Summer Assemblies.

Chautauqua was a delightful spot in 1874, when for the first time it gathered from all over the States the young people for Bible study. Lewis Miller, Esq., and Rev. John H. Vincent, D. D., were the life of the whole movement. How wonderfully it has developed since, and how many copies of it on a smaller scale have been made in the different parts of the land! Even the Roman Catholic church has caught the Chautauqua idea and spirit. English enterprise in the person of Dr. H. S. Lunn has carried the scheme into the Swiss mountains, so that Grindelwald and the glaciers have become familiar ground to European students after the Chautauqua style. The original spot in western New York state has now become a city in proportions and accommodations. The assembly has become indeed a university. Yet we doubt if any class will ever assemble there which will more thoroughly enjoy the work or get more profit from it than did that first class in the opening year. The Park of Palestine was well worth all the expense of the trip. It gave help of great value to many who can never walk the hills of the Holy Land. Good speed to all the summer assemblies! Attend one if you can. Take in what you need. Don't cram or overwork, but enjoy and assimilate and grow while resting from accustomed work.

Wesley Guild.

The Wesleyan Methodists of England have been for several years debating the wisdom of forming their young people into some sort of a league. The committee appointed at the conference at Birmingham last summer will report to the conference which meets this season at Plymouth recommending the formation of a society with the name of "Wesley Guild." It would have pleased many if the name of Epworth League had been chosen, thus giving the Methodists throughout the world the same name. But even if sentiment fails of full gratification fraternity will still march on with increasing power. Welcome, Wesley guilders!

No Short Cut.

One of the most experienced workers among the city slums says: "The longer a fellow works among the poorest poor the weaker his faith gets in any short cut to the millennium by legislature or anything else. They will have to be saved just exactly as the rest of us are—one at a time."

16 Years in Detroit. 200,000 Cured.

Young or Middle Aged Man. You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. *Self abuse or later excesses* have broken down your system. *Mentally, physically and sexually* you are not the man you used to be or should be. Lustful practices reap rich harvest. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy strength and ambition. Our New Method Treatment will positively cure you. It will make a man of you and life will open anew. *We guarantee to cure you or refund all money paid.* ☞No names used without written consent. $1,000 paid for any case we take and cannot cure.

SNATCHED FROM THE GRAVE—A Warning From the Living.

Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit; I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children." C. W. LEWIS, Saginaw, Mich.

Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, dreams and losses at night, no ambition. The "Golden Monitor" opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks." I. L. PETERSON, Iopia, Mich.

Syphilis Cured. "This terrible blood disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of *Gleet* and *Stricture* by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years." W. P. M., Jackson, Mich.

A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have sent many victims of this lustful habit to Drs. Kennedy & Kergan for treatment. I can heartily endorse their *New Method Treatment* which cured them when all else failed."

A Doctor Recommends. "I know nothing in medical science so efficient for the cure of *Syphilis* and *Sexual Diseases* as the *New Method Treatment* of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact." T. E. ALLISON, M. D.

A Woman's Logic.

A STORY IN FOUR CHAPTERS.

"Maria, I do wish you would quit your talking to me about prohibition. If men want drink they are going to have it, and all your prohibition laws in the world ain't agoing to stop them from getting it."

"But see here, Joshua, don't you know—?"

"Yes, I do know considerable more about it than you women do. Why, only yesterday, that lightning rod man told me that he could get all the liquor he wanted to in Maine and Iowa. I am in favor of repealing all prohibitory laws, so long as they are violated in that manner. Maria, the only way to deal with this question is to persuade the drinkers to quit—sign the pledge. Moral suasion will do more good in one day than prohibition that does not prohibit will do in a year. Then make the rum-sellers pay a high license. That's what I call practical temperance."

II.

"Maria, this 'ere stealing from my orchard has got to stop or, there will be a few dead thieves around here pretty soon. I won't stand it any longer."

"Joshua, is n't there a pretty strong prohibitory law against stealing, in this state?"

"Yes, sir, there is; and I am going to see it enforced. I will get a first-class gun and hire some man, to watch the thieves and shoot them on the spot."

"Say, Joshua, what's the use of trying to enforce that law? It is violated every day, and wouldn't it be better to repeal all laws against stealing until public sentiment is ready to enforce them?"

"Public sentiment be hanged! That shows how much you women know about practical matters."

"But, Joshua, you can't make men honest by law, you know, and the only way you can settle this thieving question is to persuade the thieves not to steal—get them to sign the pledge, you know, and—"

"Maria, are you going crazy?"

"No, Joshua. I am getting to be a little 'practical,' don't you see? As I was saying, get the thieves to sign the pledge never to steal again, and make those who refuse, pay a high license for stealing. That's what I call practical work."

"Maria, what a legislature you would make! Under the magnificent schemes of your fertile brain, all great problems would be solved in two weeks. Now, I propose to show you that the law against stealing can be enforced."

III.

"Well, Maria, I have been to town, bought a gun, have hired Bill Sykes to handle it and keep a sharp lookout for the thieves and bang away at the first one that shows his head over the fence."

"Well, Joshua, you know that prohibition doesn't prohibit, and here you have gone and spent $20 or $30 for a gun that will do no good. If men want to steal they are going to, and all your prohibition laws in the world won't stop them."

"Maria, stop your nonsense. Wait a few weeks and we'll see if the thieves can be squelched or not."

VI.

"Well, Joshua, six weeks have gone by and the thieving goes on just the same. Now, what are you going to do about it."

"You just wait and see."

"That's exactly what I have been doing. Prohibition doesn't prohibit, does it?"

"Not yet, but just you wait.

"Is the gun all right?"

"Yes, the gun is first class."

"Gun loaded?"

"Yes, the gun has been properly loaded all the time."

"And the stealing has been going on right along?"

"Maria, you are enough to drive any man crazy, but if you'll let up a few minutes, I'll tell you why the thieving has not stopped. I have just discovered that Bill Sykes is one of the thieves."

"Oh! that's it, is it? well, since you are one of these non-partisan temperance men, your next move will be to get up a petition addressed to Bill Sykes, begging him to do the work he was hired to do. Or, perhaps, you will organize a law and order league to force Bill Sykes to enforce the law.'

"Maria, I am not a fool, and I want you to understand it. I have discharged Bill Sykes and hired a man in his place who has no sympathy with thieving or thieves. Now, I expect that prohibition will prohibit."

"Joshua, learn a lesson from this. You complain that prohibition of the liquor traffic does not prohibit and that the liquor men violate every law passed for the protection of society. Yet you and the rest of your party vote into office men like Bill Sykes, who are part of a gang of law breakers. Instead of voting to discharge these men and put prohibitionists into offices, you re-elect the same old crowd and then whine that 'prohibition does not prohibit,' and 'you cannot make men good by law,' and such cowardly nonsense. Joshua, vote to discharge forever all the Bill Sykes's and place the prohibition guns in the hands of prohibitionists, who have no sympathy with rum-selling or rum-sellers."

"Oh, these women! these women!

COUNCIL PROCEEDINGS.

Village of Tecumseh, Mich.
Council Chamber, June 17th, 1895.

Regular session. Entire council present. Minutes of last meeting read and approved.

PETITIONS AND APPLICATIONS.

Petition of E. Snedicor, asking permission to erect a coal shed in rear of Anderson & Co's dry goods store, presented. Permission granted.

NEW BUSINESS.

The following bills were reported by the clerk and referred to the finance committee: Labor: Wm. Mellon, $17.50; Charles Dixon, $13.13; E. Vandergriff, $.63; John Alexander, $1.00; A. Hyde, $20.00; W. J. Ingersoll, postage, $1.70; S. P. Hosmer, assessor, $16.00; C. A. Wright, purchasing agent, supplies, $114.70; A. Park, labor, $7.50. Finance committee reporting favorably on above bills, clerk was instructed to draw his orders for said sums.

A proposition was received from C. F. Field, for printing the council proceedings, reports, notices, etc., excepting ordinances, in the TECUMSEH NEWS and Tecumseh Herald, for one year, for the sum of $75.00. Moved and supported that above proposition be accepted. Carried.

Dr. George Howell appeared before the council and presented an oral remonstrance as to some of the rules and regulations of the board of water commissioners and requested the council to modify the same. No action was taken thereon by the council.

The committee on electric lighting reported that there had been prepared a contract which was satisfactory to the committee and Electric company, said contract reading as follows:

This agreement, made and entered into this day of A. D. 1895, by and between the Tecumseh Electric company, a corporation, party of the first part, and the village of Tecumseh, party of the second part, both of the village of Tecumseh, County of Lehawee, and State of Michigan.

WITNESSETH:—Said party of the first part hereby undertakes, promises and agrees to furnish party of the second part, under the directions of the common council thereof, (under and by virtue of the provisions, conditions and regulations of an ordinance granted by said council, January 18th, 1892, to the Thompson-Houston Electric company, under which said party of the first part are, at the time of executing these presents, organized and operating) thirty-five (35) arc lamps of 1,200 candle power of the Thompson-Houston system, for lighting the streets of said village of Tecumseh; said arc lamps to be located, maintained and operated as located by party of the second part. Said arc lamps are to be lighted each and every night from and after the first day of August, A. D. 1895, until the first day of August, A. D. 1898. Said arc lamps are to be lighted at the hour of dark of each and every day during the continuance of this contract, and to be kept continuously lighted until the hour of daylight of each succeeding day. Party of the second part, the village of Tecumseh, by the council thereof, hereby reserves the right, with the full power to exercise the same, of appointing a member of said council who shall be vested with full power and authority to determine and declare at what hour of each and every day during the continuance of this contract, said arc lamps are to be lighted and extinguished. Such member of said council so appointed shall have power to determine what hour shall constitute the "hour of dark" and the "hour of daylight" and said party of the first part hereby agrees to abide by such determination and to light and extingnish said arc lamps according to such determination.

Party of the first part also agrees to furnish and light ten sixteen candle power incandescent lamps for lighting the several apartments of the council building of said party of the second part, also one thirty-two candle power incandescent lamp to be suspended over the front doors of that part of said council building used and occupied by the fire department of said village, said party of the first part to furnish and do all wiring therein without cost to party of the second party also to supply without cost all necessary incandescent lamps to replace worn out or broken ones. The above mentioned ten sixteen candle power incanescentd lamps to be lighted at such times and all times as may be deemed necessary by said party of the second part or of its officers or agents in charge of said council building, said thirty-two candle power incandescent lamp to be lighted at the same and all times that the street lamps above mentioned shall be lighted and to burn each and every night during the existence of this contract, from the hour of dark until the hour of daylight.

Party of the first part hereby expressly agrees, and the same is a part of the consideration for the granting of this contract to party of the first part by party of the second part, that said party of the first part shall and said party of the first part does hereby agree to furnish, from and after the first day of August, A. D. 1895, and during the existence of this contract commercial lighting in the places of business and residences of the citizens of said village of Tecumseh, at the following rates per month, per lamp: One arc lamp, until ten o'clock, p. m. of each night, per lamp, per month, $4.50; two or more arc lamps, until ten o'clock p. m. of each night, per lamp, per month, $4.00. Incandescent lighting: One, two, three or four incandescent lamps of sixteen candle power, to burn until ten o'clock p. m. of each night, per month, per lamp, sixty cents; five or more sixteen candle power incandescent lamps, per lamp hour, three-fourths cents, same to be measured by meter or by the hour at option of consumer, meters to be furnished with five or more lamps at at option of purchaser, at a yearly rental of $3.00.

Wiring of residences to be done at the expense of the owner thereof, by party of the first part, at an advance of five per cent, of actual cost thereof; said wiring when completed, to be the property of the owner of said residences.

Party of the first part also agree to operate and run their system of incan descent lighting, during the existence of this contract, so that residence lights may be burned any hour of the night or all night.

If, at any time during the existence of this contract, said party of the first part shall fail to furnish and supply the lights herein contracted for or any number thereof, for the whole period or any part thereof, exceeding one hour, a corresponding and proportionate deduction shall be made in the monthly bills hereinafter mentioned; if said party of the first part shall wholly fail to furnish lights by and from any one or more arc lamps for one or more nights said first party shall forfeit to said party of the second part the sum of one dollar per night for each and every lamp that shall not be lighted and for each and every night said lamp or lamps shall so remain unlighted; provided, however, if such failure to furnish lights shall be due to breakage of machinery, rendering it impossible to manufacture lights, then and in such event the said forfeiture of one dollar shall not be enforced or collected. Any such forfeiture incurred as above by said first party said second party is hereby authorized to deduct the amount thereof from any sum that shall be due said first party under this contract.

Party of the first part hereby agrees to set and operate such number of additional arc lamps, in excess of said thirty-five, for lighting the streets of said village, as the council shall require, and light the same from the hour of dark until the hour of daylight each and every night, as herein provided; party of the first part receiving the sum of sixty-five dollars per year for each additional lamp from and after the time said additional arc lamps shall be first lighted until the expiration of this contract.

The said thirty five arc lamps herein contracted for shall be installed and lighted for continuous use on the first day of August, A. D. 1895, all additional arc lamps ordered and required by party of the second part, together with arc and incandescent lamps for commercial and resident lighting as soon after application therefor is made to party of the first part as is possible without any undue or unnecessary delay on the part of party of the first part.

Party of the first part agrees that said arc lamps operated for street lighting shall be so operated and maintained as to develop their fullest lighting capacity and said arc lamps shall be kept in such condition and repair as shall be conducive to furnishing lights of 1,200 candle power each.

Party of the first part further agrees to save and keep harmless party of the second part from any and all claims, judgments, damages, costs and expenses, which said second party may incur or become liable to pay by reason of the negligence of party of the first part, its agents, employees or servants, in the construction, erection, operation or maintainance of the poles, lines, machinery, etc., in any of its various branches whatsoever; and if, at any time, said party of the second part, shall be compelled or obliged to pay any judgment or claim upon any cause of action or suit that may arise by the neglect of said party of the first part, its servants, employees or agents, upon notification thereof party of the first part hereby agrees to pay the same to party of the second part within thirty days from the date of such notice. Said first party hereby undertakes and agrees to undertake and make, at its own expense, the defense to any action that may be brought against said second party by reason of said neglect, as above stated, upon notification thereof.

In consideration of the foregoing promises, undertaking and agreements upon the part of the said Tecumseh Electric company, party of the first part, and in consideration of their faithful performance thereof during the continuance of this contract, the said second party, the village of Tecumseh, hereby agrees to pay unto said first party the sum of (two thousand [illegible] five dollars ($2,275.00) per year for the term of three years from and after the first day of August, A. D. 1895, payable in equal monthly installments at the end of each calendar month during said term of three years for the said thirty-five arc lamps and the incandescent lamps in and about said council building, also the further sum of sixty-five dollars per year for each and every additional arc lamp in excess of said thirty-five, that may be ordered by said council, from and after the date said additional arc lamps may be lighted and until the expiration of this contract. All payment shall be due upon the presentation of the bill of party of the first part to the council of said village and the allowance thereof by said council.

In witness wherof the parties hereto set their hands and execute this contract in duplicate, the day and year first above written, at the village of Tecumseh, Lenawee county, State of Michigan, the party of the first part by its president and secretary, duly authorized so to do, said second party by its president and clerk, duly authorized so to do by resolution of said council passed at a meeting thereof held May 20th, 1895, and each of said parties have hereunto set their corporate seals.

Moved that above contract be approved by the council and that same be executed by the president and clerk, and that same take effect August 1st, 1895. Supported.

Yeas: Trustees Boyd, Satterthwaite, Heesen, Hall, Smith, Wright. Declared adopted, approved and passed.

Moved that five additional arc lamps, in excess of said thirty-five contracted for, be ordered and that said lamps be located by committee in charge of electric lighting. Supported. Carried.

Moved that a committee consisting of President Smith, Trustees Heesen and Hall, be appointed to have charge of construction of Brownville bridge, to open bids, etc. Supported. Carried.

Moved that marshal serve notice on Harvey Wood to build a sidewalk within ten days from date of notice. Supported. Carried.

Moved that marshal be instructed to enforce ordinance prohibiting playing of ball on the public streets. Supported. Carried.

Moved that the following amendment to ordinance be adopted and passed:

The Common Council of the Village of Tecumseh ordains That Chapter II of the compiled ordinances of said Village, entitled, "Relative to the Office of Treasurer," be and the same hereby is amended by adding thereto two new sections, to stand as Sections 5 and 6.

SEC. 5. The treasurer shall add the sum of two per cent. for collection fees, to all village taxes voluntarily paid to him on or before the expiration of his warrant and after said warrant shall have been extended, by order of the Council; the sum of four per cent. shall be added thereto as such collection fees.

SEC. 6. Said treasurer shall not receive any compensation for his services other than said collection fees mentioned in the preceding section.

This ordinance shall take immediate effect.

Passed June 17, 1895.

J. H. SMITH, Village President.
W. J. INGERSOLL, Village Clerk.

Above motion supported. Yeas: Trustees Boyd, Satterthwaite, Heesen, Hall, Smith, Wright. Declared passed.

Council then adjourned.

W. J. INGERSOLL, Clerk.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send circulars and testimonials. Address.

FOR WOMEN.

There are facts which every woman should know and should teach her daughters, but which many never learn because they have no trustworthy teacher and don't know where to find one. To supply this want the Zoa-Phora Medicine Company, at Kalamazoo, Mich., publishes a book on Diseases of Women and Children, well illustrated, easily understood. Every woman, or girl above 15 years, should read it. For the purpose of advertising they will, on receipt of 10 cts. to cover cost of mailing, send a pamphlet edition, in sealed envelope to any lady (and to ladies only) who desires it.

These books given away by C. A. Wright and Baker & Hall, druggists.

A BRAND NEW SHOW

At the Opera House, Tuesday Evening, July 9.

In the Southern States there are a number of crack colored military companies. Savannah, Ga., has three of them, one infantry company, a cavalry troup and the Hussars. These companies give jointly an outing annually. They camp for at least a week. The negroes for miles wend their way to Savannah, and many of them camp near the quarters of the soldiers. The games, dances and antics indulged in are a revelation to those who have not seen the negro as he is, at home in the south. Al. G. Field spent an entire week at one of these outings, and this led to his formation of Black America, the new show he is organizing. All the people engaged in it are genuine negroes, and are direct from Southern Georgia. A brass band and orchestra comes from Raleigh, N. C, and a colony of camp meeting shouters from Charleston, S. C.

A CASE CITED IN OCEANA CO.

A Further Case Cited by the Jackson Patriot, in which Rheumatism, Resulting from Same Cause, was Cured in the Same Way.

From the Muskegon, Mich., News.

Oceana County, Michigan, is widely known as one of the finest fruit-growing sections in the country, and especially for its fine and luscious peaches. But all the peaches grown on trees are not to be placed in comparison with the peach bloom which has again returned to the cheeks of one of the best known ladies in Hart, the county seat of Oceana county. How this wonderful and beautiful effect was obtained, and the history of the illness preceding the cure, has been known long since to residents of Hart and others throughout the county, but to a *News* reporter of Muskegon, who was in Hart at the fair, the following interesting and joyful tale was unfolded recently by Mrs. W. S. Eggleston, the person who once was a helpless invalid. To-day a more happy woman can nowhere be found.

"In 1891," said Mrs. Eggleston, "I resided in Cass county, at which time I in common with nearly everybody in the county suffered a severe attack of the grippe, only it left me with a still more serious trouble. The greatest part of my trouble then was in my stomach. I had no appetite and wasted away until I lost twenty-four pounds. Of course I was doctoring, but nothing reached my case. I moved up to Hart in June, 1892, and my ill health continued, although I tried two resident physicians. I grew disgusted finally and quit doctoring, as it seemed it would take our all, and yet I grew no better and looked like a skeleton. My husband read in a paper of a medicine called Dr. Williams' Pink Pills, and he immediately got some for me. I had no hope hardly and was not enthusiastic over the new pills, but I am now.

"It is a solemn fact that I began to get better the very first day and kept on improving. In a short time my stomach had a better feeling; my appetite picked up and I could eat everything I wanted to. I had a second trouble, however, which I did not expect the pills would reach, but they did, and the result is that a swelling in my right side, caused by some ovarian trouble, is almost entirely gone. I can lie on my right side now with comfort, and this is not all the relief I obtained.

"Formerly in wet weather my bones would ache terribly. Now I do not notice any bad effects whatever. I am able to walk three miles at a stretch now, for I did that last week in going to visit a friend. I tell every one of my wonderful cure, and many of my afflicted friends are using the Pink Pills now with good effect. I now weigh 132 pounds, a gain of twenty-one pounds."

Mrs. Eggleston's husband was present during the narration of his wife's troubles and triumphs, and he willingly corroborated the statements made by her.

A neighbor, Mrs. Brown, who happened to drop in, stated that Mrs. Eggleston did not look like the same woman who came to Hart a year ago.

RHEUMATISM'S VICTIM.

How He Was Attacked—How He Was Treated—How He Was Cured.

From the Jackson, Mich., Patriot.

How often are seen people a little past the meridian of life who, but for the lingering effects of some ailment of an unusually stubborn nature, might still be enjoying robust health, but who on account of the lack of a remedy to assist nature in throwing off the disease are broken down and worn out long before the allotted time.

Marcus S. Lyon, of 1071 Francis Street, Jackson, Michigan, is one of the unfortunates. A year and a half ago Mr. Lyon was a physical wreck, hardly able to leave his bed, and his friends had no idea that he could survive more than a few months longer at best. He is however to-day a well man. During the course of a recent conversation with a reporter, he gave a history of his case and the cause of his recovery, as follows:

"About two and a half years ago I had a severe attack of influenza which proved very bad in its effects, and would not yield to ordinary treatment. Some four months later I had another attack which was fully as persistent as the first. After being treated by the family physician for some time I thought the disease had run into rheumatism, and I treated for the same several months, all the time getting worse. I kept getting weaker in the muscles of my legs, feet and hands which were quite sore and tender. My feet and the lower part of my legs, and my hands were badly bloated and dropsical and had a numb or paralyzed feeling, and I could stand on my feet but a few minutes at a time. I became restless and nervous, and would awaken twelve or fifteen times in the night, and my legs would shake for a few seconds, similar to shaking ague—but not cold. With all the rest, my limbs had stiffened and I had not been able to dress myself for several months, and some of my friends thought I would not live but a few weeks. I was looking so bad and pale and still had taken what the doctor had ordered all the time. I went to another doctor for his opinion in my case. He, judging from the dropsical condition of my limbs, said I had Bright's disease. I disputed this and another doctor said I had no indication of it whatever of which I was confident. Dr. N. H. Williams finally concluded my blood was out of order and asked him for a remedy for my bad blood. This was in February, 1893. He said about all that could be done was to exercise out doors, get my strength when the weather got warm. At last he said he had gone into my case as far as he could and I dropped him and his medicine and began to take Dr. Williams' Pink Pills for Pale People about the 15th of March, 1893, and in ten days after taking the pills the dropsical condition and weakness began to leave my feet and legs. In a comparatively short time I was nearly cured, and I gained strength so that I could walk a mile and back. I then went to work at my trade as a joiner and stair builder, and have worked almost every day since. My recovery is been a wonder to my friends. I am sixty-five years old this month, and my general health has never been better than it is at present. I can recommend Dr. Williams' Pink Pills for Pale People as a great blood builder and for general debility. A dozen or more of my friends have been using Pink Pills on their merits in my case with very beneficial results. I can say the Pink Pills have been a life-saving remedy for me, and have given me at least a few more years of health and vigor."

MARCUS S. LYON.

HAPPY HOLLOWAY.

A Few Facts About the Business Status and Future Prospects of Our Raisin Neighbor.

One of the neatest in general appearance and one of the most thriving villages in this county is Holloway, which is located on the Wabash road between Adrian and Britton. When the Wabash was built from Detroit to Butler, Ind., a station was planted here and a settlement started. The place was named after Butler Holloway, one of the oldest pioneers and best men who ever lived in the town of Raisin. Having good railway accommodations and good shipping facilities, it began at once to put on business airs and it has enjoyed a steady and healthy growth for the past twelve years. The Presbyterian church, although not in the village, properly belongs to Holloway and is now in a thriving condition under the pastoral charge of Rev. A. J. Stead. There is also a flourishing Free Methodist church here, of which Rev. J. N. Boyer is pastor. The Maccabees have a flourishing tent and hive—Holloway Tent, of which James Ash is Commander and Albert Carpenter is Record Keeper; and Osgood Hive, of which Mrs. Lucy M. Lewis is Lady Commander and Miss Agnes Still is R. K. There is a good public hall in the village, which is used for political meetings and other public gatherings. The postoffice is efficiently managed by F. G. Florence, who began handling Uncle Sam's mail on the 1st day of July, 1893. Will Holt is now the Wabash agent at the depot and he is also agent of the Pacific Express Co. The town is a very congenial place for a residence. The society is first class, the people are intelligent and hospitable, the farmers are enterprising, while the farms themselves are productive and well supplied with buildings. It is one of the best neighborhoods in the "banner county" of Michigan. Below is a brief sketch of the business firms.

ROTHFUSS & BROWN.

This is comparatively a new firm in Holloway, but they have settled down as a permanent fixture. They bought out Mr. Osgood, June 1st, 1893, and hence have conducted the business a little over two years. They are both men of business experience, having formerly run a store in Blissfield. Their stock consists of dry goods, groceries, boots and shoes and crockery, with some hardware and other articles, their aim being to fully supply the farmers' needs. They have a large, commodious store and a large assortment of goods for the size of the place. Mr. Brown's family live in the building, which is a very convenient arrangement. The partners give their personal attention to the business, their expenses are small, they buy for cash, and hence their patrons get the benefit of hard times prices. Although new comers, they have, by their gentleman'y demeanor and square business dealings, worked up a lucrative trade, which they can easily hold permanently

H. A. HARTMAN.

Mr. Hartman has stitched leather and made harness for the past seventeen years and what he doesn't know about horse gear is hardly worth knowing. He opened a shop in Holloway in November, 1893, and has filled a "long felt want" ever since. His shop is well supplied with light and heavy harness and other horse goods and he is prepared to make anything in the harness line to order on short notice. He also sells ice cream in the hot season. Harness and ice cream make rather a peculiar combination, but he makes it work like a charm and his cream has gained the reputation of being excellent in quality. He makes cream every Friday and keeps it on sale at his rooms on Saturday and Sunday of each week. Mr. Hartman has planted his stakes in Holloway with the intention of growing up with the town, and he is evidently a stayer. May Harvey's shadow never grow less.

L. C. WINSHIP.

Every new and growing town needs a good saw mill and Mr. Winship supplies this want to perfection. He has had thirty-two years experience at the business and hence knows "where he is at," having run the old saw mill plant near Raisin Center for many years. He erected his present mill in the summer of 1891 and began work in August of that year. Afterwards he put in cider and sorghum machinery and in December, 1893, he put in a feed mill. He saws lumber for the farmers of that section; also ships in logs on the Wabash road and sells the sawed product at wholesale in Detroit. He intends to move his sorghum apparatus this fall to Ogden Center, but the cider press will be run here, whenever Providence will furnish the apples. The feed mill is run regularly every Friday and oftener when necessary. Mr. Winship is one of the main spokes in Holloway's business wheel.

F. G. FLORENCE.

Mr. Florence embarked in business in Holloway about Thanksgiving time in the year 1889. He started on a modest scale and has been gradually extending his lines ever since. He keeps a good stock of groceries and drugs, confectionery and cigars. Also runs a barber's chair, and can sell you a Relay bicycle, if you are inclined that way. He is also in company with Geo. Holloway in the sale of agricultural implements, of which they keep a good supply on hand. Mr. Florence is also postmaster and gives the people of Holloway excellent satisfaction in that capacity. Floyd is a young man and a hustler, of good business tact and industrious, temperate habits. His success, therefore, is not at all problematical, for he has already acquired a position among the leading business men of Holloway.

CLOVER LEAF CREAMERY CO.

This name represents an establishment that Holloway has good reason to be proud of. The creamery building was erected in the fall of 1892 and the first churning was turned out on the 3d day of November of that year, and it has run every day since, including holidays, not being shut down even one day for repairs during the interval from that time to the present. The output has gradually increased every year. At present the factory absorbs about 6000 pounds of milk and turns out about 250 pounds of butter daily. The butter of the "Clover Leaf" brand has already acquired a gilt edged reputation and every pound is sold in Detroit as fast as manufactured, commanding the highest market price. Mr. C. T. Ratts, the present foreman, has had ten years experience and is a superior butter maker. Geo. Holloway as business manager fills the bill equally as well. Under their efficient management the Clover Leaf Creamery will keep forging ahead.

MRS. C. E. BROWN.

In these days every wide-awake village needs a good millinery store. Mrs. Brown has had six years experience in fixing and trimming ladies' head gear and hence she is well qualified for the task she has undertaken. She opened millinery rooms here in June, 1893, and has enjoyed a good trade from that day to this. She keeps a gold stock of ribbons, hats and millinery goods of all kinds on hand and is enjoying a fine trade such as her merits deserve.

THOMAS HARTMAN.

Mr. Hartman has started a new enterprise which bids fair to become a paying institution. Last Christmas he opened rooms in the store formerly occupied by Maurice Nay, where he keeps a supply of small groceries, confectionery, cigars, soft drinks, etc. He also furnishes meals to transients and keeps regular boarders. As Holloway has no hotel, this establishment is much needed and Mr. Hartman supplies the need in first class style. He is deserving of a liberal patronage.

ALBERT LEWIS.

Mr. Lewis runs the village wagon shop, and what is more to the point, he runs it right up to the handle. He has a good custom in repairing wagons and buggies and also keeps a general repair shop where people can get most any kind of "tinkering" done to good advantage. Mr. Lewis owns the house he occupies and also the shop, and hence is well fixed. He has been located here five years and expects to keep right on indefinitely. He has lately added bicycle repairing to his business.

O. E. CARPENTER & SON.

Mr. Carpenter, senior, began pounding out shoe nails and tiring wagon wheels just forty-five years ago. Think of it! For almost fifty years he has been pounding the anvil. The present firm opened their shop October 1st, 1887, eight years ago, and have enjoyed a good business ever since. They make a specialty of horse shoeing and do a general blacksmithing business in all its branches. They are excellent mechanics and exemplary citizens and hence they are reaping a first class patronage.

The Cotton States Exposition.

The ladies of Cobb county, Georgia, will have at the Cotton States and International Exposition, the famous "battle-scarred cabin" from the battlefield of Kennesaw Mountain, which is situated in Cobb county. This was a plain log cabin about twenty feet square, which was situated just behind the Confederate breastworks. It was the center of fire from some of Sherman's batteries, but strange to say, did not burn up. There are over thirty holes in the cabin made by the Federal shells, and innumerable bullets are buried in the logs. The battle cabin will be taken down and exactly replaced on the Exposition grounds. Inside will be sold relics of the battlefield, of which a great many have been collected in the way of shells, old gun barrels, bullets and battlefield relics of like character.

MUSICAL MACON.

The Northeast Corner Town of Old Lenawee Still on Deck.

Monday was a very hot, dry and dusty day, even more so than usual in this hot, dry and dusty summer, and the day was an awful windy one, also. It was not an ideal day, by any means, for a pleasure trip through the country, but nevertheless the afternoon was put to good advantage in interviewing the business men of Macon village. Upon arriving there, shortly after noon, we were somewhat startled at finding the Reformed church off its foundations and traveling eastward into the next lot. A "bee" had been fixed for Monday morning and a large gang of men assembled to move the old church, preparatory to beginning work on the new. Before night the old site had been vacated and work will begin at once on the new edifice. It will be a very neat structure, modeled somewhat after the Friends' church in Tecumseh, and will cost in the neighborhood of $2400. Rev. J. I. Gulick is pastor and his excellent work here for the past three or four years has culminated in this new church. The M. E. church is also in a thriving condition, Rev. D. H. Ramsdell being the pastor. This church and the one at Clinton belong to the same charge. The village has a fine school, of which Edward Miller was teacher during the past year. Sylvester Travis is postmaster, who has an able assistant in Miss Sadie Jackson. The Maccabees are also represented here with a tent and hive, Morden Tent and Glenn Hive. Of the tent, Sam Hatch is commander and Maynard Hatch record keeper. Mrs. Rose Hatch is Lady Commander of the hive and Mrs Ellen Richart R. K. Below is a short sketch of the business firms.

W. P. COTTON.

Mr. Cotton embarked in business here away back in 1875 and has been growing up with the country ever since. He can justly be called the pioneer merchant of Macon. He keeps a stock of general merchandise suitable for a country store, although he makes a specialty of drugs and groceries. He is a registered pharmacist and hence is well qualified to handle drugs and medicines. Mr. Cotton also manufactures cigars quite extensively. His principal brand is the "Little Duke," which is a first class five-center and is having an extensive sale. Mr. Cotton is a young man yet, is a hustler and is one of the business fixtures of Macon. Although Cotton, he is still "all wool and a yard wide."

MILAN SAGE.

Mr. Sage can justly be called one of the business wheel horses of Lenawee Co. although his domicile happens to be in Macon and hence that town gets the credit of his residence. He started business in the saw mill twenty seven years ago, and has always enjoy a large lumber trade, both wholesale and retail. A few years thereafter he began the manufacture of brick and tile, as a fine clay bank is located near the mill, and under his efficient management, the business soon grew to large proportions. He has the most extensive brick and tile plant in Southern Michigan, without an exception, and his tile are scattered over a dozen different counties in this part of the state. About twenty years ago he added a feed mill, which is run regularly on Tuesdays and Saturdays, and is a great convenience to the farmers. He frequently keeps as many as fifteen hands in his employ when the concern is running to its full capacity.

BURLESON & CO.

This firm, composed of Dill Burleson and Elmer Hunter, is a new candidate for public favor, but the boys are getting to the front at a lively pace. They began business about one year ago in the room occupied by the postoffice; but their trade soon outgrew their accommodations there and they moved into their present quarters, the first of last April, where they have fitted up a very fine, tasty, and commodious store. They keep a large and well selected stock of fancy and staple groceries, and expect to add other departments in the future. They now keep a nice stock of cigars and confectionery. The members of this firm are both young men and hustlers, possessed of good business capacity and they are bound to succeed. We violate no confidence in saying that Mr. Burleson is still unmarried.

GEORGE FROST.

Mr. Frost is not so cold blooded as his name would indicate, but is a most jolly man and neighbor. He began pounding out horse shoe nails in his father's shop just twenty-four years ago this summer, and he claims to be a young man yet. He is a good mechanic of course, for he learned his trade under John Frost, and worked in the same shop for about seventeen years, but for the past seven years he has paddled his own canoe. He makes a specialty of horseshoeing, but does all kinds of general blacksmithing besides.

H. S. SCUDDER.

Mr. Scudder embarked in trade in his store on the south side in the summer of 1883 and has been selling goods to the good people of Macon, in sunshine and storm, through summer and winter, for the past twelve years. In the summer of 1890 he erected a second brick store, adjoining his former one, and now has a fine double store, which is well filled with a large stock of goods. The west store is devoted to groceries and drugs and small hardware, while the east one is given up to dry goods, boots and shoes and furnishings. He also carries a line of bakery goods; fresh bread and cakes are kept constantly on hand. Mr. Scudder has a good trade in cigars of his own manufacture. He makes the "Home Comfort" and "Little Dot," both of which are good five-centers and popular brands. Mr. Scudder's honorable business methods have built up a lucrative trade, which he can keep as long as he wants to stay.

W. S. MORDEN, M. D.

No sketch of Macon would be complete that did not include the popular village physician. Dr. Morden graduated from the Medical Department of the State University in June 1880. Immediately thereafter he came to Macon, hung out his shingle and began the practice of his profession. His thorough school training and his natural aptitude for the work, combined to make an excellent doctor, and his success was assured from the outset. He now owns the place where he resides. Dr. Morden is not simply a good physician, but a most genial gentleman and a public spirited citizen as well.

HELP FROM ABROAD.

Expressions of Good Will from Manufacturers and Dealers.

Many of the most prominent firms in the country have liberally contributed to the prize list offered by the Tecumseh Bicycle Association at their second annual race meeting, to be held Thursday, July 25th. We append a list complete to date, although each mail and express adds new and valuable articles!

Acme Puncture Proof Co., Chicago—One pair Puncture Proof Strips.

Palmer Pneumatic Tire Co. Chicago—One pair Palmer Pneumatic Tires.

M. E. Griswold & Co., Chicago—One set mud Guards, and Griswold repair outfit.

Bean & Lang, Fon du Lac, Wis.—One gold plated U. S. Cyclometer.

Pittsburg Tire Protector Co., Pittsburg.—Two sets Hoffman's Tire Protectors.

Eagle Bicycle Co., Torrington, Conn, One pair Eagle Aluminum Rims.

Morgan & Wright, Chicago,—One set "M & W" tires.

Ames Sword Co., Chicopee, Mass.,—One bicycle lock and chain.

Hartford Rubber Works, Hartford, Conn.,—One pair racing tires, repair outfit and Pump.

Bicycle Chain Lightning Co., New York.—Four dozen "Chain Lightning."

Diamond Rubber Co., Akron, O.,—One pair Racing Tires, Pump and Repair Outfit.

Butler & Ward, Newark, N. J.,—One "B & W" saddle.

New Departure Bell Co. Bristol, Conn.—Gold plated bell.

Bridgeport Brass Co., Bridgeport, Conn.,—Search light lantern and Grand Stand tickets.

N. Y. Standard Watch Co., N. Y.—Standard Cyclometer.

Boston Woven Hose & Rubber Co.—One pair either 'Vim' or 'Vici' tire; also special prizes of solid gold bricks to winner of first prize in either road race, mile open or half mile open. Certain conditions to be complied with.

Bearings' Publishing Co., 1000 lithographed entrance tickets.

Bridgeport Gun Implement Company, Bridgeport, Conn.—One Bridgeport Cyclometer.

Punnett Cycle Mfg Co., Rochester, N. Y.—One cap and pair bicycle trousers.

In the above list the Cycle fraternity will find firms of national reputation who have given us a financial demonstration of their interest and good will toward the sport we enjoy.

Moral: Call for the goods of these firms whenever in need of anything in their respective lines.

Besides the above named firms both Wright & Ditson, The Yost Mfg. Co., and The Pneumatic Cycle Co. have signified their intention of contributing articles.

LaPearl's Circus.

The LaPearl show was indeed a good circus in every respect, and this is saying much of a 10 and 20 cent exhibition. One prominent feature, which most strongly commends an aggregation of this kind to the public and which is conspicuously absent in many tent shows, was the fact that LaPearl Bros. allow no confidence men, fakirs, peanut or lemonade venders or loafers to hang about their company, to annoy and swindle their patrons. The proprietors are extremely courteous to the public and their example is followed by every member down to the laborers. The performing was excellent, holding the closest attention of a large tent full of spectators from start to finish. The specialties of rope dancing, trained ponies and clown work were exceptionally fine and pronounced by many as the best ever seen. The LaPearls will visit Tecumseh next year and it is safe to predict for them even greater success than they enjoyed last Wednesday.

Clinton Column.

CLINTON, MICH., JULY 19, 1895.

Bicycle day at Tecumseh, July 25.

Ed. Parker's little child has been sick this week.

George Kies makes a short trip on the road this week.

J. S. Hunt, of Tecumseh, was on our streets Tuesday.

O. W. Crane moved his family to Toledo on the 4th.

Miss Julia Hough, of Tecumseh, was in Clinton Saturday.

Miss Ella Tuttle went to Flint Tuesday for a visit with relatives.

Mesdames Boyd and Whiting of Tecumseh, were in Clinton Tuesday.

Dr. Conklin and Attorney Freeman, of Manchester, were in town Tuesday.

F. D. Lancaster has been drilling for a drive well at his residence this week.

Stewart VanDeMark rode over from Detroit on his wheel the first of the week.

Miss Eva Schimman visited her [illegible] week.

Miss Ada Case, of Manchester, was the guest of Miss Nellie Kishpaugh on the 4th.

Mrs. Martin and daughter, of Detroit, were the guests of Mrs. Felton part of last week.

Miss May Hillock, from northern Michigan, is making a visit with her brother James.

Frankie and Herman Rupp, of Detroit, are visiting their grandfather, Frank Kirchgessner.

E. D. Newcomb and wife, of Brooklyn, visited his mother, Mrs. P. M. Newcomb, the first of the week.

Misses Celia Brewster and Maud King and Leon Hunter are attending the summer normal at Adrian.

Mrs. Chas. Lewis, who has been visiting in Baraboo, Wis., for the past six weeks, returned Tuesday.

Miss Allie Chandler, of Saline, is visiting her grandmother, Mrs. J. N. Kies. She will doubtless spend most of the summer vacation here.

The fierce and wiley sprinkling wagon team ran away Monday. That is, they didn't exactly run away but rather ran to town. A very well trained team.

Clark Bailey, who has been taking a bicycle tour through Saginaw, Grand Rapids, Muskegon, etc., arrived home Monday, much pleased with his trip.

Mrs. Hill, of Franklon, Mich., who has been visiting her sister, Mrs. Geo. Wilcox, returned home Tuesday by way of Ann Arbor, where she will make a short visit.

Mrs. P. M. Newcomb departed the first of the week for Blissfield, on her way to Tuckaberry, Mass. when she will visit her daughter, Dr. Libbie Newcomb this summer.

The work of reseating and otherwise repairing the Episcopal church was begun last Tuesday. Service of all kinds will be suspended during the prosecution of the work.

A very pleasant lawn fete was given by Miss Nellie Kishpaugh to a number of her friends last week. Miss Thomas and Mrs. Linisley were guests in attendance from abroad.

The Misses Sadie and Bertha Taylor started for Bay View, Tuesday, with the intention of spending a month at that popular resort. Miss Sadie will attend the summer school while there.

Miss May Morey, who has been teaching at Brooklyn for the past year, has been visiting at Mrs. Tuttle's during the fore part of the week. Miss Morey left Wednesday morning for Baraboo, Wis., where she will visit her mother and sisters during the summer.

Entries for the bicycle meet at Tecumseh on July 25 are coming right along. Seven hundred and fifty dollars, actual value, has been hung up in prizes and this will be a great event to wheelmen and those interested in the sport. The enterprise shown in getting up a first class meet should be heartily supported.

GORMAN GOSSIP.

All kinds of crops are suffering terribly for want of rain.

Mrs. F. G. Alcock is said to be improving again this week.

Charles Gater visited his parents, Mr. and Mrs. L. H. Gater, last Saturday.

Mrs. Charles Potts died last night of consumption. She had been a great sufferer for a long time.

There was no meeting held at the church here on Sunday evening last as several of our churchgoing people attended the tent meetings being held near Weston.

IMPORTANT ANNOUNCEMENT.

"M. Quad," the Famous Humorist, Takes his Old Place on The Free Press.

We find great pleasure in announcing to our readers that Chas. B. Lewis, the famous "M. Quad," has resumed his former place upon The Detroit Free Press. Since his retirement from The Free Press four years ago Mr. Lewis has been writing for one of the leading syndicates. His preference for direct newspaper work, however, led him to abandon that connection, and hereafter his popular writings will appear only in The Free Press. Mr. and Mrs. Bowser, Brother Gardner, Arizona Kicker, Zeb Whipple, Abe Cruffoot, Mrs. Gallup, and many new characters will appear regularly.

The publishers are making a special four months' trial offer of the Semi-Weekly Free Press for 25 cents to introduce their paper to new readers, and we would advise those looking for a great bargain to send in their subscription at once. The offer is good only until August 1.

You can see an exciting ten mile road race, a splendid exhibition of fancy and trick bicycle riding and the ascension of an illuminated air ship absolutely free of charge if you will come to Tecumseh on Thursday, July 25th.

Woman's Dependence on Man.

Wonderful, that knowledge comes, wisdom lingers. Wonderful that women have suffered so long to win, once won they should cease to prize; that education should not teach women that man was by nature very far removed from the gentle domestic animal she knows to-day. However the modern woman may swagger about her individuality, way talk of her "spiritual needs," and deplore the stupid tyranny of man who demands sacrifices from her in return for his tenderness, protection and support, the fact is not changed, that however she may be man's intellectual equal, or spiritual superior, the exigencies of motherhood put her at his mercy. She can not be entirely self dependent except at the cost of the welfare of the offspring. The Factory Acts are a recognition of the right of the child to its mother's health and vitality. Woman may not simply eat her cake and have it too. Using all her energies for her own needs she can not give vigor to her children. If she employ for her own ends her store of life she robs the child. To adequately supply the new generation with health, brains and nerve force she must husband her resources and yield herself to the generosity and tenderness of the man and trust to his care. That he has not always been generous and tender, that he is not always so even now, does not alter the general fact.—From "The Modern Woman and Marriage," by Elizabeth Bisland, in North American review for June.

Tecumseh's big day will come on July 25th this year.

Bay View Announcements Out.

The Bay View summer announcements are out and are of public interest. They fill sixty pages of magazine size and are beautiful with a hundred half-tone views of scenery and life at this great Northern Michigan resort and summer educational center. The Assembly four weeks' program is strikingly attractive and the Summer University with its forty-five instructors from leading institutions, offers unsurpassed advantages. It embraces eight throughly equipped schools: College and school of methods, Bible school, conservatory, schools of art, oratory, physical culture, and for writers. The enrollment a year ago was very nearly 800. It is given out at headquarters that this is going to be the largest and finest of all the Bay View Years. The University opens on July 10th, the Assembly July 17th, both closing August 14th. All Michigan railroads will sell half-fare tickets there, daily, from July 8th to 17th inclusive, return limit August 15th. Round trip tickets from Tecumseh will be $9.14. The public will be supplied with the summer announcement, giving also full information about expenses, etc., by addressing a card to J. M. Hall, Flint, Mich. Call for the June Bay View Magazine.

The Mileage Par Excellence.

Is now the Ohio Central Lines' Interchangeable 1,000 Mile Ticket. Covering the B. & O. System West of Pittsburgh, including the Pittsburgh & Western, the Big Four and other systems, it's a book that no person who travels can afford to be without. It is recommended for investigation by our patrons.

Every Day.

Excursion rates to the Virginias and the Southeast are in effect upon the Ohio Central lines; through trains daily between Toledo and Charleston, W. Va., via Columbus. This is the shortest and most direct route. Consult agents O. C. Lines.

Just a Moment, Please.

To the Interchangable Milage ticket issued by the Ohio Central lines, already the best in the market, has been added the entire B. & O. system west of Pittsburgh, including the Pittsburgh & Western railroad, making it incomparably the best mileage ticket issued by any line. If you want a ticket that includes the B. & O. system as well as Big Four, such tickets are issued by Ohio Central agents only.

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Diamondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last for hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Orr & Temple's Drug Store. Regular size 50c. and $1.00. 1

A BACK BLOW.

The Weapon Small,—but None More Certain or Effective.

In these times when backs are lame, when almost every other one we meet has now and then, or all the time, a back that aches or pains—"a weak back," "a bad back," a back that makes their life a misery to bear—and still they go on day by day in pain and suffering. Now 'tis the easiest thing in the world to give this played out back "a blow" that will settle it, and put in its place a new one equal to any. It's just like this: hit at the cause; most backaches come from kidney disorders. Reach the kidneys, start their clogged-up fibres in operation; when this is done you can say good-bye to backache.

Here is a case from Battle Creek. Mr. Josiah M. Shoup lives at 51 Broad Street, he was a member of the Battle Creek police force for many years. As a member of the force he served the city well, but the rough weather he was often subjected to laid the foundation of kidney disorder, which has troubled him very much. Here is what he says about it:

"About three years ago, while on the police force, I contracted from exposure a kidney trouble, which has since given me no end of trouble. The pain was right through my kidneys and across the small of my back; if sitting down and I wanted to stand up, I had to arise very slowly and gently to avoid increasing the pain. I had such tired-out feelings all the time, and I was steadily getting worse. About two months ago, hearing of Doan's Kidney Pills, I got a box. Their action and effect was most complete, they removed the old aching pains for good. I can now get around as quickly as anybody. Doan's Kidney Pills are certainly as represented."

For sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

LET US SPRAY OUR TREES

And Have a Good Crop of Apples.
What More Desirable and Profitable?

From late experiments it has been proven that it can be done. E. Tindall has been appointed agent for the selling of the best and most approved apparatus for the spraying of all kinds of fruit trees, vines, etc., including twenty different styles, from the small, cheap hand pumps to horse power machine for large orchards. All having the most perfect Nozzle. The pumps are made of brass and copper which can neither rust nor corrode, and are furnished with 4 to 8 feet of hose (or longer, if desired) and the Excelsior nozzle; also an air chamber, whereby a constant pressure is obtained so that a continuous force of from 50 to 100 pounds on the nozzle is secured with very ordinary exertion, and not affected by the movements of the plunger, throwing a stream 50 to 80 feet high. Also, peculiar to these outfits, hose are attached by which a small part of the liquid is re-discharged at the bottom of the reservoir with great force, which keeps the poison and water well mixed, which is very essential as not to hurt the foliage. Reservoirs up to [illegible] gallons, of copper or galvanized iron, are furnished with these pumps for hand use. For orchards or larger uses a second hand oil or tight barrel may be used, on which these pumps can be placed and moved about on a wagon as desired. A complete and exhaustive [illegible] and directions on "How, When and What to Spray, and the Ingredients Best for Our Fruits, Vines, Etc.," found in printed [illegible] furnished with these outfits. Please call on C. A. SLAYTON'S warehouse, Tecumseh, Mich., for inspection, further information, and purchase of these outfits.

TRASK'S Magnetic Ointment

The worst Sores, Bruises, Cuts, Burns, Sprains, Skin Disorders, Sore Throat, Rheumatism, Lameness, Piles, and all external affections characterized by PAIN, INFLAMMATION, yield to its influence as if by magic. It is a purely vegetable preparation by a regular physician of eminency, and its success has been marvellous in the most obstinate cases. Sold by Druggists and Dealers at 25 and 40 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural functions of the skin and equalize the circulation of the blood. By this means a controlling power is gained over the most malignant forms of disease. It penetrates to every portion of the human frame, every bone, muscle, vein, nerve and ligament is searched out and made sensible to its soothing and healing influence. Hence it copes successfully with internal as well as external diseases.

Over 40 Years.

This Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have no space here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this paper who have ever used this Ointment, to truthfully state their experience with it to inquiring friends. If but one in a hundred would do this we would be perfectly satisfied with the results. Full directions for use will be found on pamphlet around each bottle.

Prices 25 and 40 cents per bottle. Sold by all dealers in medicine.

COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease.

"About one year ago I was afflicted with nervousness, sleeplessness, Creeping sensation in my legs, Slight palpitation of my heart, Distracting confusion of the mind, Serious loss or lapse of memory. Weighted down with care and worry. I completely lost appetite And felt my vitality wearing out, I was weak, irritable and tired, My weight was reduced to 160 lbs., In fact I was no good, on earth.

A friend brought me Dr. Miles' book, "New and Startling Facts," and I finally decided to try a bottle of DR. MILES' Restorative Nervine. Before I had taken one bottle I could sleep as well as a 10-yr.-old boy. My appetite returned greatly increased.

When I had taken the sixth bottle My weight increased to 176 lbs., The sensation in my legs was gone; My nerves steadied completely; My memory was fully restored. My brain seemed clearer than ever. I felt as good as any man on earth. Dr. Miles' Restorative Nervine is A great medicine, I assure you."

We may not be able to make art moral by act of Legislature; but there is a wholesome public sentiment which, acting through the agencies of commercial pressure, can do much to keep art respectable.

Last Sunday afternoon Mrs. Mahala Addis died at her home in this village. Mrs. Addis had been an invalid for years and for the last year and a half had been confined to her bed nearly all the time, being a great sufferer towards the last. The funeral was held Tuesday afternoon, in the Friends church, conducted by Mrs. Mary Wood. The deceased leaves her husband, Lewis Addis, but no children. Mrs. J. R. Hialey was an adopted daughter.

The friends and relatives of Mrs. Chas. Blood, were very much shocked to learn of her sudden death, which occurred about 6 o'clock Tuesday afternoon. Mrs. Blood had been suffering for about a week with neuralgia of the stomach, but was not considered in a dangerous condition until a very short time before death came. The funeral was held from the house yesterday afternoon, Rev. Ramsdell, of Clinton, officiating. Further obituary mention will appear hereafter.

The second matinee which takes place Saturday, July 20th, one week from tomorrow, will be up to the standard in interest and attendance. The horses will be better matched and closer races may be looked for. Two named races have been arranged, with a 2:40 trot or pace, and a free for all trot or pace. A ladies bicycle race has been added to the half mile heats, and the two mile dash given before. Good prizes are offered. Harris & Hiteshu donate a fine silk umbrella to winner of ladies' race.

Last Sunday morning John J. Orr's beautiful St. Bernard dog went the way of all flesh, having been poisoned by some rascal. The discovery was made too late to save him. Rover was nine years old, right in his prime and was valued at over $100; Mr. Orr had once refused $125 for him. He was registered in the American Kennel Club Stud book. No. 4,959, and was the sire of 40 young St. Bernards, which sold for figures ranging from $20 to $100 each. He was a great pet with the children in the neighborhood and they were greatly shocked and grieved over Rover's sudden death.

The Eastern Star Lodge entertained the Stars of Onsted last evening. About forty visiting members came down on the six o'clock train. They were met at the train by carriages and conveyed to the Masonic Temple, where a good supper was served to the guests and committees. A secret session of the Lodge came next when several candidates were initiated. Then followed refreshments of ice cream and cake. The Onsted friends went home on the fast freight about midnight, apparently well pleased with their visit. "Come again" was the parting word of the Tecumseh Stars, when the meeting adjourned.

HIGH SCHOOL ALUMNI.

Their Reunion on Commencement Week—A Fine Program and a Banquet.

The alumni reunion, which was held on Friday, June 21st, was a very enjoyable meeting. Nearly one hundred members and invited friends were present and it was nearly midnight when the festivities were ended. The session was held in the Lilley House dining room, which is an excellent place for such a gathering. The regular program was announced by Thos. H. Temple, president of the society. First came the welcome to the Class of '95, by the president himself; then a re[illegible] by Clarence Hurry; a poem by Grace Gillespie; an oration by Dr. Geo. Howell; a history of the Class of '87 by Will Finch. They were all fully up to the proper standard of excellence. The history consisted of letters from the members of the class. They were usually interesting and are given in full below.

The banquet came next on the program and this was up to the standard also. Then came the toasts and responses as follows, L. M. Waldron acting as toastmaster:

A Story Without an End—Abner Wilson.
Bright Spots—Miss Lucy Train.
Progress—Dr. L. G. North.
Future of Class of '95—Howard Whelan.

And these responses were all up to the standard, too.

At intervals during the evening the Social Concert orchestra furnished some fine music.

The following list of officers was announced for the coming year, and they were duly elected:

Pres.—C. A. Slayton.
1st Vice Pres.—Ellen R. Fisher.
2d Vice Pres.—Ella M. Primrose.
Secy.—Alice Cutting.
Treas.—J. R. Hosmer.
Orator—P. W. A. Fitzsimmons.
Alternate—S. C. Stacy.
Poet—Lucy Train.
Alt.—Edna McClue.
Historian—Mamie Osborn.
Alt.—Abner Wilson.
Executive Com.—Will H. Hayden, Howard Whelan, W. C. Burridge.

THE HISTORY.

Below are the letters read by Willis Finch, all the graduates of '87 being represented, except Helena Adams, deceased:

TECUMSEH, MICH., June 20, '95.

Dear Friend:—You ask for a sketch of my life for the past eight years. It has been very uneventful, indeed, and I have left it to the other members of the class to be the "bright and shining lights." The first year after graduation was spent at home, after which the desire to be once again in the school room led me to accept the position as teacher of the school known as the "Section," which position I held for a year and a half. The next three years were spent in study at Olivet College and the University. The past two years I have been teaching in Sterling, Ill.

Very sincerely,
IDA B. RECTOR.

WASHINGTON, D. C., June 15, 1895.

MR. W. E. FINCH, Tecumseh, Mich.

Dear Sir:—In response to your letter, I send you the following brief sketch of myself since leaving the high school. The two succeeding years after my graduation were spent in teaching school in Lenawee county. In March, 1889, I took the civil service examination and in November of the same year received an appointment to a clerkship in the War Department, which position I still hold. Since coming here my time has been fully occupied in work and study. In February following my arrival I entered the Spencerian Business College and was graduated from that institution in May, 1890. Since that time I have been in Georgetown University studying law. In June, 1893, I received my diploma as Bachelor of Laws and on the tenth of the present month took my degree of Master of Laws. Please remember me to the alumni of the T. H. S. and tell them I am sorry I cannot be with them.

Yours,
ARTHUR H. HALL.

Since leaving school, June 23, '87, my life has been an uneventful one. In the following September I entered my father's store as clerk and book-keeper. Here I continued to sell diamond rings and watch chains for brothers until the winter of '92, when I came home to assist in the home duties. With the exception of three weeks and one day, the past three years have been devoid of any item of interest to the alumni. The three weeks and one day of which I speak was an experience not soon to be forgotten, because for that space of time I was a school teacher and realized, as one never can fully realize until they try it, a teacher's life, its trials and duties. I may say I taught six weeks and two days, for I held night school as well, but for the latter I was not paid.

Yours truly,
ASENATH HOSMER.

WEST BAY CITY, MICH., June 13, '95.

Dear Sir and Friend:—Yours of June 11th at hand and agreeably to your request I hasten to make reply. A sketch of my personal history since my graduation in 1887 must, although eight years have elasped, of necessity be brief and uninteresting. Immediately after leaving school I entered the drug store of A. S. Doty, since deceased. Six months later the store was transferred to J. J. Orr, with whom I served my apprenticeship and to whom I owe a debt of gratitude for his kindly assistance and sympathy in those, the hardest years of a boy's life, when he is settling to business. With him I remained four years and in January, 1892, having been offered a position with G. L. Lusk of this city, I accepted. The store has changed owners since then, but I still remain in the same place. May 31, 1893, I was married to Miss Carrie Keyser, of Tecumseh, and since that event have been a resident at 211 So. Fremont street, this city.

Wishing that I could be with you at the meeting of the alumni, and with regards to all, I remain

Sincerely yours,
E. W. GOFF.

TECUMSEH, June 20, '95.

Eight years close the record of a commonplace life, one spent in filling the niches. It is so uninteresting to tell how the first year after graduation was spent in caring for a sick aunt, followed by a happy year at home; then three very pleasant years of school life in the Baptist College at Kalamazoo, where the hope of being thoroughly equipped intellectually came to strengthen me for my battle with the world. But the Heavenly father had other plans for me and I came home to fill, in my weak way, my mother's place whom God had taken to be with him. At commencement eight years ago the future was so full of hope and there was the opportunity to make life one grand, sweet song. We cannot tell what lies before us. If disappointment comes, our comfort is in knowing that whatever is is best.

Yours, with love for my Alma Mater,
ELLEN R. FISHER.

LEETONIA, OHIO, June 14, '95.

W. E. FINCH:—

Dear Sir and Friend—It affords me pleasure to greet Class '95 of our Alma Mater. My name appears on the register of every room of the East Branch and High School, from '78 to '87, covering a period of nine years. I can look back to many pleasant experiences under our various able instructors (in the art of shooting paper wads) during my passage from room to room, also to some very painful ones. There is one chapter among the painful ones, that associates Z. C. Spencer and some marbles, which a few of us boys insisted on playing on East Branch school grounds in spite of rules to the contrary. After our interview with the professor, we immediately concluded that further interviews of the kind were not exactly essential for our future good health or peace of mind. Hence we see the advantage of discipline. The Class of '87 was eight in number, five girls and three boys. Very smart class. It is hardly necessary to state that each of us, at the time, were sure we could conquer the world very quickly, that we could surmount all obstacles with the greatest ease. Each cloud had a gold lining instead of a silver one (as it should have had); each obstacle appeared as a snowbank in the middle of April. I guess we each found our errors later, but I would not have it different at this late day. I entered in the studies of my profession in the spring of '88 and in the fall of the same year started in college at Cleveland, graduating in Cleveland two years later, third in a class of 37, at 93 per cent. After a short visit home in the spring of '90 I left for the place at which I am now located. Of course I am married and have a bald spot. I don't see why they should be associated, but they are, as is proven by my case. Professionally, my history and experience since entering medicine is the same as many hundred of young men. We make many mistakes and failures in seeking the top of the ladder, as experience can only be gained by hard work and unremitting study. The top of the ladder appears a long way off yet, but our class motto, "Eile Mit Weile, renews my courage for greater efforts and more thorough understanding. With best wishes I remain

Respectfully and fraternally,
C. C. TAYLOR, M. D.

TECUMSEH, MICH., June 19, 1895.

WORTHY HISTORIAN:—

The old saying that we pass from school life to life's school was not literally verified in my case. After graduating I spent my (first) vacation on the farm, where I planned to make myself supremely useful for an indefinite period. However, when September came I was back in Tecumseh, having been promoted during vacation to the primary department. Equipped with my first certificate and strengthened by a very high opinion of my own powers, I entered upon the work, feeling that I was thus bestowing a great blessing on the cause of education. I soon found myself confronted by more intricate problems than I ever found in any textbook. After months of discouragement, defeat and victory, I became accustomed to the work and soon derived satisfaction and pleasure therein. Now, after eight year's experience in dealing with the future men and women of our Republic, I can truthfully say, "There is nothing on earth half so holy as the innocent heart of a child." I have started on the broad highway of knowledge two hundred and ninety little individuals. The mental, moral and physical well being of fifty children every year has not deprived me of my mental balance. My mistakes have been many, my blunders more, yet I trust that the work has not been done in vain. One glorious October day in 1889 I experienced the first and greatest sorrow of my life, the sudden death of my mother. Seventeen months had scarcely marked this milestone when I was again summoned home to stand by the grave of both parents. The last home tie being thus severed, the following year I decided to pitch my tent in our fair village. In March, '93, my sister and myself concluded to swell the number of that unfortunate class who submit to taxation without representation. Accordingly we purchased a home on Maiden Lane, where we expect to spend our days in peace, if not in prosperity, and grow old gracefully. A limited purse has prevented me from making many journeys, never going farther north than Bay View and west than Chicago. In 1893 I completed the four years Chautauqua course. For several years I have studied the money question from an experimental, rather than a theoretical point of view. I am at present a strong advocate of free silver; the more of it the better for every hard working teacher.

With greetings to my classmates and best wishes for the prosperity of my Alma Mater, I remain

Most cordially,

TECUMSEH, MICH., JULY 12, 1895.

LOCAL AND PERSONAL.

Bicycle Day, July 25th.

Kennedy & Rogers have a change of ad this week.

Tecumseh will celebrate the 4th this year on the 25th.

W. S. Kimball, of Clinton, was in town Wednesday evening.

Dr. and Mrs. Gamble returned to Union Mills, Ind., Wednesday.

All indications point to a big crowd and some fine races on the 25th.

If the public will push the button the Bicycle Association will do the rest.

Spencer Lester and wife spent the Sabbath with A. P. Coddington's family.

The business houses, generally, will decorate with flags and bunting on the twenty-fifth.

Miss Nan Frazier went to Cleveland Monday for a visit with Mrs. Grace Riggs Martin.

Last Sunday was one of the hottest days of the season, the mercury marking 95 degrees in the afternoon.

L. M. Jones, Jr., returned from Ypsilanti this week, where he has been attending school the past year.

Rev. Chas. M. Brown goes to Boston this week to attend the National Convention of the Y. P. S. C. E.

Barnum has the same old show but Tecumseh always improves. The races this year are bigger and better than ever.

Mr. John Baker, of Detroit, and daughters Sena and Agnes, are making a week's visit with Mr. and Mrs. W. W. Whiting.

The bicycle manufacturers think the coming race meeting of sufficient importance to donate very liberally to the premium list.

Mrs. Jas. E. Pittman, of Detroit, is here for the summer. Mrs. Pittman will occupy the H. L. Stewart house during her stay.

Mrs. E. B. Strickland, of Lawrence, Kan., is visiting her sister, Mrs. M. E. Pickard this week. She will visit her daughter at London, Ohio. before returning home.

Rev. J. P. Varner and family left today with his family for Au Train, Michigan, to enjoy his annual vacation of about a month. Walter Burnett will occupy the Methodist pulpit during his absence.

Miss Mana Monaghan, who left here for commencement week to meet California friends in Ann Arbor, stopped over on her return for a short visit with friends and left Thursday for Marshall to visit her sister, Mrs. G. H. Sherwood.

The paths of glory lead but to the grave. We hope however, that this will not prove true of some of the committees who have the celebration in charge, for there is certainly more glory on their pay check than anything else. Encore the boys by taking a holiday, Thursday, the twenty-fifth.

While stopping at Dundee last week on the way to Ann Arbor, we called on Mr. J. B. Haynes and found him flourishing. He has begun the erection of a new residence, having sold the old one, which will be one of the finest houses in the village when completed. H. Gainsley was found at his store as smiling and good natured as ever. He seems to be tiding over the hard times better than most merchants, and is looking forward to a good fall's trade.

Chas. M. Walker, of Adrian, has invented the most complete pencil sharpener on the market. It is intended to be placed on a desk or table in an office and will be a valuable fixture. A stock company was organized yesterday to place this article on the market, called the Walker Manufacturing Co., of which C. M. Walker is president and Ed. Baker secretary and treasurer. An order for 1,000 has been placed and the sale of the article will be pushed.—Evening Telegram.

Grand Celebration and Bicycle Races at Tecumseh, Thursday, July 25th. $750 in prizes.

Bicycle Day, July 25th.

Sheriff E. G. Wilson was in town Saturday.

Tecumseh's big day will come on July 25th this year.

Anderson & Co. announce their special summer sale this week.

Miss Norris, of Boston, is the guest of her aunt, Mrs. J. N. Satterthwaite.

Prepare to come to town early in the morning on the day of the celebration, July 25th.

Hattie Montgomery has gone to Ypsilanti to take a six months' business course in the Cleary business college.

Fifteen special trains passed through Adrian this week conveying passengers to the Christian Endeavor Convention at Boston.

The "Bike" boys are working hard to make our celebration a success. Let every one turn out and show his appreciation of their efforts.

Frank Stead will enter the U. of M. next fall and take a full classical course. If he will take proper care of his health he will make his mark there.

J. C. Eccles has repapered his tailor shop, which greatly improves its appearance. He is better prepared than ever now to give the young men fits.

The Chenango Telegraph, published at Norwich, N. Y., issued a woman's edition on the 4th. Among the halftone pictures was a fine portrait of our old citizen, Dr. S. J. Fulton.

The camp at Island Lake will be laid out by Capt. Harry Devlin, of Jackson, this year. He has commenced work and tents will be shipped next week. One hundred more tents will be used this year than ever before.

Gov. Rich has bought a bicycle and is learning to ride. He says he needs exercise, and believes that the "bike" will "fill a long felt want." He will probably fill several long deep ditches before he masters the wheelman's art.

Prof. Kellogg and Editor Field of Tecumseh, assisted by Prof. Palmer of Adrian College, began a summer normal school at the college last week Monday morning. This faculty is a strong one and we bespeak for them a liberal attendance.

The horse is doomed, whether to total extinction or a life of comparative ease, is a question; but that he is doomed admits of no doubt. Come and see in vast and copious numbers, the successor of the quadruped. Free exhibition of every breed of the new beasts in Tecumseh, all day Thursday, July 25th.

A colored preacher in Indiana recently delivered a sermon against the present feminine fashion of wearing puffed sleeves, taking for his text, "Woe to the women that sew pillows to armholes." Some of his hearers doubted if he had a bona fide text, but were not a little astonished to find the words in Ezekiel 13-18.

Fred Eccles, a son of J. C. Eccles is stopping at the old home a week or two. Fred worked in the HERALD office at one time, went from here to Deadwood Dak., and for the last four years he has been in Chicago. He has not been here before since he left twelve years ago, and he has changed so one would hardly know him.

Harry Bice, who is living at Grand Ledge, had a peculiar experience on the 4th, which he will not care to repeat. The local paper thus describes it: "A spark from a firecracker ignited Bice & Sackett's stock of fireworks in their show window yesterday just before noon. Several heavy explosions followed and the glass in the window was shattered:—also the bottoms of Harry Bice's pantaloons, as he kicked the fire-works out of the house. Lots of excitement and smoke for a few moments—damage small."

In describing the production of Pain's "Lalla Rookh," which is to be given under the promotion of The Detroit Railway, at Boulevard Park, Detroit, the Brooklyn Times of June 30, 1894 said: "The wealth of color displayed is a treat for the artistic eye, and the fireworks which follow the brilliant pageant of the Orient are the sort to inspire the onlookers with all imaginable patriotic sentiment. Taking all in all, 'Lalla Rookh' is the most elaborate of all spectacles." As this Pyro-Spectacle is to be given at Boulevard Park in all the minutiae or details which marked its New York production, it can readily be seen that there is a treat in store for those who attend the inaugural carnival of The Detroit Railway.

Messrs. Everett & Pack, of the Detroit Railway, seemingly have no end of original plans for the improvement of street railway service in Detroit. Their latest original conception is that of having cars absolutely controlled and timed by a train dispatcher, the same as on a steam railroad. The departure of each car, from each terminus, will be accurately recorded and its movement reported to the train dispatcher every few blocks. By this method the officials can tell the approximate location of every car and absolutely control it. This will be of inestimable benefit where there are crowds to be handled or a delay on the line, as such delay would be instantly overcome. The new idea will probably be working successfully before The Detroit Railway's Boulevard Park is opened with Pain's "Lalla Rookh."

Grand Celebration and Bicycle Races at Tecumseh, Thursday, July 25th. $750 in prizes.

Bicycle Day, July 25th.

Don't forget the crackajacks, Thursday, July 25th.

Orr & Temple will soon open a branch drug store at Ridgeway.

Get ready for the big wheelman's tournament on July 25th.

Miss Hattie Conklin will take a position in the village schools the coming year.

Mrs. Howland has a fine painting class at Holloway, which now numbers twenty-one pupils. She goes down there every Tuesday.

Wm. B. Hatch, of Macon, received a post graduate diploma from the law department of the State University at the last commencement.

Prof. Romyne Miller, of Big Rapids, who has been visiting old friends in Ridgeway for a few days, paid his respects at the HERALD sanctum last Saturday.

Mitchell & Lowry began work on the Brownville village bridge last Monday. Twenty car loads of stone will be used on the abutments, and six of them have already arrived.

Ann Arbor led all the colleges this year in the number of her graduates, the total being 692. Harvard was a good second with 678, and Yale followed closely behind with 575.

Rev. B. S. Hudson has accepted the pastorate of the Baptist church. He is absent in Boston for a short time, after which his family will move to Tecumseh and Mr. Hudson will assume his duties.

The annual Spiritual camp meeting at Devils Lake will commence July 26 and close August 12th, extending over three Sundays, and two full weeks intervening. Services and medium tests will be held every day.

A Catalogue of the Fayette Normal University will be sent free on request of any reader of this paper. If you are interested in knowing more of one of our most popular schools, send for this catalogue. Address J. E. Dodd's, Fayette, O.

The Albion College year book is at hand, which shows that institution to be in a flourishing condition. In the roll of students we note the name of Walter Burnett in the Sophmore class. The total enrollment last year in all the departments was six hundred and thirty students.

Mrs. Morrison, mother-in-law of murderer Mundy, came here from Tecumseh, Mich., this morning. The object of her visit is to get an order from Mundy for possession of his child, Mamie. Mamie is the child of the murdered woman and grand-daughter of Mrs. Morrison.—Toledo Bee, July 2d.

The following startling piece of information is traveling around the country in the shape of a news dispatch from Hudson: "Owing to the excessively dry weather Devils lake, this city's summer resort, has sunk five feet and is no longer navigable. The steamer City of Hudson is stranded high and dry."

Prof. L. R. Taft, is at Adrian, Kalamazoo and Tecumseh, Mich., visiting the various irrigation plants at those places for the purpose of getting material for a bulletin on irrigation soon to be issued by the experiment station. He will also visit the college sub-station at Grand Haven.—Lansing Republican.

The Y. M. C. A. of Battle Creek are getting up a unique exposition. It will consist of an exhibition of art, science, industry, curios and relics. It will begin Sept. 2d. and close October 5th. Mr. Frank J. Kellogg, a brother of Prof. Kellogg, is the general manager of the affair, and he is already pushing the preliminary work to insure its success.

The new cement walk which is being constructed down on the lower corner is a daisy. It will extend nearly half a block, reaching around the corner adjacent to Cheever's block, and thence along Teeple's, Harry Lee's lot and Miss Hough's Millinery store. The action of the council will stimulate the building of a good many cement walks.

If any one thing more than another should receive the hearty support of our citizens it is enterprise, and especially public enterprise. This sort of enterprise is sometimes a little shy, but just now it is rampant in Tecumseh. The particular case which we have in view is the enterprise evinced by the Tecumseh Bicycle Association in arranging for and pushing to a successful issue a bicycle meet which will be second to none ever held in this state, which has been fully and generously supported by the hard cash of our enterprising business men. Now this is the kind of enterprise which merits and demands support. The wheelmen and business men can and will get up a magnificent day's sport, but they can't do all the celebrating. A great many of our people have wheels and they will celebrate anyway. We all have little wheels in our heads, which turn with sympathetic delight and profit when we see a good rider ride a good wheel. Save up a car wheel and go. Write about it, go to it and everybody will be there.

KNOWLEDGE

Brings comfort and improvement and leads to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

AN IMPRESSIVE CEREMONY.

Berrien County Courthouse Cornerstone Laid Under Masonic Auspices.

ST. JOSEPH, July 5.—The cornerstone to Berrien county's new courthouse was laid Thursday with impressive ceremonies conducted by the grand lodge of Free and Accepted Masons of Michigan. It is estimated that 10,000 people were present. The weather was all that could be desired. At 9:30 o'clock the procession formed, there being represented in the line several bands, the grand army, odd fellows, Knights of Maccabees,

THE NEW COURTHOUSE.

Modern Woodmen, Knights Templar, Master Masons, Grand Lodge, board of supervisors, county officials and citizens in carriages, who paraded the main thoroughfares to the courthouse, where the exercises took place. After raising the new flag and music by the quartette, Grand Master Edwin L. Bowring conducted the masonic ceremonies. Then Rev. Hardin W. Davis read an original poem by Nixon Waterman entitled: "A Song of Peace," and Orville W. Coolidge, judge of the Second judicial circuit, delivered an address.

FOREST FIRES IN MICHIGAN.

Timber and Grain Destroyed Near Mio—Helped by the Drought.

MIO, Mich., July 10.—Extensive forest fires are raging in this section and spreading rapidly on account of the drought. Information comes from Cummings township that Joseph Sullivan's farmhouse and buildings were consumed.

PITTSFIELD, Mich., July 10.—Forest fires have been raging along the Toledo & Ann Arbor road the last few days, and unless rain comes within twenty-four hours the damage will be great. Over 100 acres of wood land and wheat fields have already been burned. Smith's dairy farm is wiped out and miles of fences consumed.

MUSKEGON, Mich., July 10.—The city of North Muskegon and vicinity is in the throes of the greatest forest fire ever witnessed here, and hourly the danger becomes greater as the flames creep along with astonishing rapidity. Farmhouses and extensive crops are threatened on all sides, and the farmers have turned out in a body to check the headway. It will be almost fruitless, however, as already over 5 square miles are one mass of flames, and the dense smoke makes a battle with them almost impossible.

Word has reached the city of the burning of Albert Van Zandt's sawmill, a large quantity of logs, shingles and lumber, amounting to several thousand dollars. Several farmhouses cannot escape the flames, and it is reported that many acres of crops have already been reduced to ashes. Unless rain comes soon no one can tell what the damage will be.

MUST APOLOGIZE TO BOYNTON.

Decision in the Case of the Valley Tent of Maccabees.

GRAND RAPIDS, July 9.—Officers of Valley City Tent of Maccabees have received the decision of the executive commitee of the grand tent in relation to its alleged rebellious conduct toward the peremptory removal of Great Record Keeper Boughton. The tent is required to strike from its records all reference to the mass meeting at which resolutions were adopted condemning Commander Boynton, and is also required to apologize and pass resolutions expressing loyalty to the present officers.

Three-Cent Fares at Detroit.

DETROIT, July 9.—Mayor Pingree figured as motorman Monday on the first car which marked the inauguration of the Detroit railway's new car system in this city, and at the same time the introduction of a three-cent fare, for which the mayor has fought for several years. He was cheered enthusiastically along the entire route.

The Mob Relented.

MORENCI, July 9.—A band of masked men strung up Chester Strong by the neck until he confessed to mistreating little girls. Then he was let down, given a few cents and told to leave the state at once, on pain of being hanged for keeps. He started for Ohio on the run, followed by a shower of revolver bullets.

Wants a Divorce.

GLENDORA, July 9.—Mrs. Jacob Vandusen has begun divorce proceedings against her husband. The couple have been married sixty-five years. The trouble arose over their property, which the husband sold without his wife's consent.

He Wanted to Die.

OWOSSO, July 4.—John R. Rockwell, a prominent merchant of Jackson, turned on the gas in his room at the Newton house Tuesday night. When discovered he cut his throat with a jackknife. He will recover.

Drowned Himself.

BRUSSFIELD, July 9.—Robert Pollard, aged 83, and one of the oldest masons in southern Michigan, despondent through ill health, dropped from his window Sunday night, and drowned himself in the river.

Killed by a Hog.

OWOSSO, July 8.—The 2-year-old child of Edward Frost, of Venice township, was killed and eaten by a vicious hog. The mother did not notice its absence until too late.

Falls from a Boat and Is Drowned.

HOLLAND, July 7.—Gerrit Bontekoe, a 9-year-old lad, while playing in a boat tied to the shore fell into the water and was drowned.

DISCOURAGING CROP REPORT.

Michigan Wheat Yield Much Less Than for Many Years.

LANSING, July 9.—The following very discouraging crop report has been issued from the state department:

"For this report on wheat more than 1,100 returns have been received, representing all parts of the state. The correspondents estimate the yield per acre in bushels and not in percentage of previous or average crops. The average of the estimates for the state and each section is as follows: State, 9.88 bushels; southern counties, 8.14 bushels; central counties, 11.13 bushels; northern counties, 11.22 bushels, and upper peninsula, 14 bushels. The estimate for the state is the lowest ever made July 1. It is nearly 6 bushels lower than the estimate of July 1, 1894, and nearly 7 bushels lower than the average yield in the eighteen years, 1876-1893. The light crop is mainly because of the drought that has prevailed all the season and still continues, yet other causes have worked more or less injury. A correspondent well says: 'Light top last fall, freezing and thawing in spring, frosts in May and drought in April, May and June.' To these should be added extensive damages by insects. The number of bushels of wheat reported marketed in June is 822,311, and amount marketed in the eleven months, August-June, 10,599,809 bushels. The acreage planted to corn is slightly in excess of the average, and the condition is 91 per cent. of condition in average years. Oats are estimated at 61 per cent of [illegible] crop. The average for the southern counties is only 57 per cent. The acreage planted to potatoes is 6 per cent. in excess of average years, and in condition the crop promises 86 per cent of an average crop. Corn and potatoes seem to have stood the drought remarkably well. If an abundance of rain comes soon both crops may be expected to yield fairly well. Meadows and good pastures were probably never in poorer condition at this date, and the spring seeding to clover is nearly all lost. The outlook for apples and peaches is not encouraging. The former promises perhaps one-third and the latter five-eighths of an average crop."

AGED WOMAN MURDERED.

Her Young Daughter and Her Grandson Held for the Crime.

GRAND RAPIDS, July 10.—Mrs. Levi Pierce, aged 68, who lived 2 miles southwest of Berlin, Ottawa county, was murdered Monday morning, and her daughter, May Pierce, aged 13, and her grandson, George Keesbro, aged 18, are now in jail in Grand Haven awaiting examination. Mr. Pierce went to the field to work as usual, leaving his wife, and May and George at home. About noon May came running to him across the fields, yelling that her mother was dead. Pierce ran to the house and found a horrible state of affairs. On the floor beside the kitchen stove was Mrs. Pierce's dead body. The chin was horribly gashed, the teeth were knocked out, and the neck was black and bruised as if she had been choked to death. There were evidences of a terrible struggle. At the inquest, owing to the self-contradictory stories told by George Keesbro, and his evident desire to avert suspicion from himself and turn it toward a mythical tramp, Keesbro was arrested and taken to the Grand Haven jail Monday night. Tuesday further investigation led to the girl, May, also being taken to jail. It is believed that Keesbro did the killing, and the little girl knows all about it, and perhaps assisted in the murder.

EPWORTH LEAGUE SCHOOL.

Second Session of the Summer Gathering Opened at Ludington.

LUDINGTON, July 10.—The second annual session of the summer school of the Epworth league opened here Tuesday. This is a new departure in young people's church work, the idea originating at a camp-meeting two years ago. The people of Ludington and the Flint & Pere Marquette Railroad company donated 240 acres of land on the lake shore and $21,000 in cash to the league, and with this as a beginning buildings were erected and the work successfully inaugurated. The lecture courses which were begun Tuesday, will continue for three weeks, during which time instruction will be given in Bible study, Sunday-school work and the general work of the league.

BIG FURNITURE SALE.

Semi-Annual Event at Grand Rapids Attracts Many Buyers.

GRAND RAPIDS, Mich., July 9.—The semi-annual furniture sale opened Monday. An unusual number of buyers were present, mostly from local factories, whose output makes this city the furniture center of the world. One hundred factories of other cities have agents and sample rooms on the ground. It is the first time that the railroads have granted excursion rates to all buyers. The trade outlook is brighter than for three years previously. Prices rule firmer and factories are running full time.

Fifty Years in Office.

ANN ARBOR, July 6.—Ex-Sheriff Thomas F. Leonard died of heart disease Friday night. He was elected sheriff of the county in 1838 and made a splendid record during those trying times. Dr. PIERCE'S Golden Medical DISCOVERY

Cures Ninety-eight per cent. of cases of Consumption, in all Earlier Stages.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that in its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe ninety per cent. are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce severe bleedings from the lungs, severe paroxysms of cough with copious expectoration (containing tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of cases are reported to us as cured by "Golden Medical Discovery" were genuine cases of deep-seated and fatal disease? You can doubt it, but our word for it. They have, in many instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were at first strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over deep-seated fatal malady, all other medicines with which they are acquainted. Many of these had tried cod liver oil and its filthy "emulsions" and various mixtures, had been tried in nearly all of these cases and had either utterly failed to benefit a little, or had only seemed to benefit a little for a short time. Extract of malt with hypophosphites and various preparations of the hypophosphites had also been faithfully tried in many of these cases.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 168 pages which will be mailed to you, on receipt of address and six cents in stamps. Address for Book, World's Dispensary Medical Association, Buffalo, N. Y.

EPWORTH LEAGUE.

Lesson For the Week Beginning July 14. Comment by Rev. W. J. Yates, A. M. Topic, Miraculous Draft of Fishes.

SCRIPTURE READING.—Luke v, 1-11.

It is a noticeable fact that in many of the accounts of the marvelous works of Jesus which we call miracles that term is not used by the Bible. In the present instance the astonishment of the fishermen is noted, but that is all. No word is spoken by the Master or the others regarding any superhuman work in the affair. Yet all recognized the presence of one more than a mere man, and this work was regarded as a sign of his power.

Much controversy has arisen in past times about miracles. Considerable would have been gained by a careful examination of the Scriptures free from prejudice. With a good [illegible] and the Bible one quickly discovers that John uses the word miracle oftener than all the other New Testament writers put together. The Greek word he used, and which is usually translated mira[illegible] in the gospels, [illegible] Literally it means a sign and is so translated in several places in this gospel and is usually in the other parts of the New Testament so rendered. Once only in Luke is it called miracle.

Another word often used in the gospels and epistles in referring to these unusual works performed by Jesus and the apostles and sometimes translated by our English word miracles is dunamis. This actually means power. In Matthew the English expression given as its equivalent is usually "mighty works," or "power." Once in Mark this word is used and translated "miracle."

There is good reason for this careful selection of terms by the evangelists. Matthew intends to call special attention to the kingly character of Jesus and so lays great stress on power and mighty works. Mark and Luke also purpose each in his own way to emphasize the "virtue" or power exercised by the Messiah.

John deals with the superhuman more than all the others. His theme is the pre-existing Son of the Eternal God as incarnate in the Son of Man. The deeds of the Christ are not, then, so much to be considered in their elements of power as prodigies and wonders, as in their character as signs of the Messiahship, as proofs of the Deity of the worker. Perhaps it would be well to keep in mind this essential distinction in purpose so clearly evident in the different evangelists and so avoid the confusion arising from lack of uniformity in the translation of the Scripture terms.

His return to active League work will be welcomed by all Leaguers who have known him, and their number is great.

Efficient or Deficient.

At the annual session of the New England southern conference at Providence in April, the presiding bishop, J. M. Walden, requested that each preacher, as his name was called for the passage of his character, should not only report the amount collected by his charge during the year for missions and various other causes, but should also state if there was an Epworth League in the charge, and if it was helpful or otherwise.

The largest chapter was reported from Brockton, Mass., with a membership of 304. New London, Conn., was second, with 224 members. Most of the preachers reported Leagues organized. In the majority of cases they are helpful. In most of the churches they can easily be made more valuable. In a few cases only were they found detrimental to the interests of the church, and then only because of local difficulties, due to individuals and not to the nature of the organization.

The Curse of Alcohol.

How seductive and how fatal is the charm of the intoxicating glass!

Ten years ago Bettie Johnson was the belle in the parlors of the best families of Kentucky.

A short time since she was in the police court of Cincinnati as a common drunkard. Love for strong drink had landed her at the bottom. She is now an outcast of the lowest class. She was arrested in a dive "Over the Rhine," where she was employed as pianist. Total abstinence is the only safe treatment of intoxicants. Let it alone, and it will let you alone.

AN APPALLING HAVOC.

An Open Letter to Rev. J. Buckley, Editor of the Christian Advocate.

REV. AND DEAR SIR:—In looking over the columns of the Christian Advocate I find on the editorial page the following

APPALLING HAVOC.

The ravages of alcohol in Belgium are probably worse than in any other country in the world. A royal commission has been appointed to inquire into the causes thereof. This commission was rendered necessary by the following series of awful facts:

First, the licensing system has proved utterly inefficient.

Second, the suppression of 38,000 public houses has resulted only in the creation of an equal number of clandestine establishments.

Third, the sale of alcohol has increased in alarming proportions.

Fourth, the poisonous nature of the liquor sold, said by chemists to be seven times more deadly in its effects than pure spirits is an additional evil. Similar clandestine establishments exist in the United States, known as "Speakeasies," "Holes in the Wall," etc.

No license system in this country diminishes in any appreciable degree the opportunities or temptations of the people to debauch themselves with liquor and intoxicate themselves. Increased attention should be given to the sowing of total abstinence principles in the minds of children.

The above is clipped from the issue of June 6, 1895. I write not in the spirit of hate, for with such conditions there should be no hate with christians.

When I was an unbeliever in God's word I openly defended the liquor traffic. Everybody that knew me, knew where to find me at the ballot box: I was always on the side of rum. But thank God I got converted and joined the Methodist church, and naturally thought every Methodist ought to be against the liquor traffic with both prayer and ballot, but in my experience I find the vast majority of Methodist bishops, many presiding elders and preachers as well as a majority of laymen are on the side of the prohibition of the liquor traffic with their prayers but are on the side of the license dram shop with their ballots. This seems to me to be entirely wrong. Recognizing the fact that you stand at the head of Christian journalism and as a minister and journalist you are second to none in the advocacy of the right, I find your pen ever ready to espouse the side of the home against the saloon but am informed your ballot is not cast for a political party that declares for the home against the saloon. If this be true, why is it that your love of home is not strong enough to swing your ballot on the side of the home instead of throwing it for a party that is for a saloon. The "appalling havoc" you speak of is certainly great enough to induce every Christian man to vote against saloon parties.

If what you say in the above editorial is true and I do not believe you would say it were it not true, that is, "No license system in this country diminishes in any degree the opportunities, or temptations of the people to debauch themselves with liquor and intoxicate themselves." Now I concede this is true. Who is for the license system? The democrat and republican parties. You published in the same issue of the Christian Advocate from which I clipped the above quotation a very able article from the pen of Louis Albert Banks, D. D., in which he gives the following quotations which I give as sustaining your article on Appalling Havoc. Banks says, 'A barkeeper in Richmond, Va., hearing some talk of a reform movement in municipal politics, laughed it to scorn with these words, 'Any bar room in Richmond is a bigger man in politics than all the churches in Richmond put together.' If this be true is it not a sad commentary on the power of Christian ministers. Why should you, the ablest of them all, stand for a political party that stands for the saloon? The N. Y. Herald is quoted by Dr. Bank as saying, 'We must no longer be ruled by the graduates of the tombs and nurslings of the grog-shop.' This is as strong language as you generally used in the Advocate but the Herald man like yourself votes to continue the party in power that helps to fill the tombs schools with pupils to graduate to rule New York, and furnishes the nurslings to run your municipality. Another quotation made by Dr. Banks is as follows: 'Dr. Theodore L. Cuyler, speaking a few evenings ago in Huron Place M. E. church, Brooklyn, said that there is absolutely nothing to to expect in the way of opposition legislation to the liquor traffic under present conditions, from either of the leading political parties. That distinguished temperance reformer clearly called attention to the fact that we have had a democratic legislature in Albany and obtained no reform legislation against the liquor traffic from it and now that we have a republican legislature, we not only do not expect anything against the saloon from it, but are compelled to work tooth and nail to keep it from repealing the Sunday law and doing for us a great deal worse than their democratic predecessors.'

Do you believe that Dr. Cuyler tells the truth? If you do where ought you and the Dr. to stand politically as conscientious Christian men? The prohibition party stands for temperance, stands for the home, stands for God and stands against the accursed liquor traffic. Do you think you are doing right to stand for a party that will do no more than the democratic party against the 'appalling havoc' of the saloon. Again I quote from your editorial above. Your only remedy seems to be in this language, which closes the above quotation from your paper.

'Increasing attention should be given to the sowing of total abstinence principles in the minds of children.' Now my Rev. sir, that seems to be a very thin remedy when taken in connection with the fact that all the Sunday schools, all the churches, the Epworth League and prayer meetings of the M. E. church has been one hundred years 'sowing the seeds of total abstinance principles in the minds of children,' while such preachers and editors as you and a majority of our bishops have been sowing saloons in the midst of our children.'

Let us stop this nonsense and sow prohibition ballots against this "appaling havoc" and victory will come to the home against the saloon, and God will bless the M. E. church and its newspapers and editors, and our children will not need the sowing you speak of to dodge the sowing you do not do.

ZETTE.

Upon the posters which hung on the outside of the carriage she was styled "Mlle. Antonia, Somnambule Extraordinaire."

Her mother called her Zette—her real name was Suzanne.

She was a pretty girl, not very large, with fair complexion and long black hair that she let float about her during her consultations, though ordinarily she wore it in a loose coil upon the nape of a neck that was perfect.

Never having done much work, her hands were delicate and well shaped. She was enough of a coquette to wish to keep them so. She had a finely modeled form, and to have seen her simply dressed in some quiet color, with the gait of a wise little workwoman, one would never have suspected her strange calling.

Her mother, Mme. Floury was as little like others of her class as her daughter. About her there was nothing in common with the shrews who frequent fairs in red dresses and soiled skirts. She had the air of a little merchant who was good and proper, with a winning, honest smile, and people stopped before the carriage and even entered there (without thinking of the charlatanism on the posters) in order to see the interior of this small dwelling that smelled so sweet.

The vehicle was painted brown, with a thread of gold running the lengths of the plinths. There was a tiny balcony in front of it, and on this balcony convolvulus and nasturtium vines, planted in boxes, twined about wires up to the roof, where they clustered in bright hued bunches.

Along the route persons stared in amazement at this queer coach all covered with garlands of flowers.

The two women were always together, but associated very little with their neighbors. They were not proud, and having the best of hearts were the first to offer to care for a sick child or to give to others in distress. Indeed the foreigners who knew them well loved them sincerely, even though they did feel somewhat oppressed by what they termed "their grand manners."

There was, however, some one who was all devotion to Zette and her mother.

It was a young gymnast of two and twenty in a large traveling circus that had very nearly the same itinerary as Mme. Floury. His name was Jacques, but on the playbills they spelled it Jack. He was exceedingly handsome and of no common type. There was fire in his eyes and much intelligence in his smile. There was, too, much tenderness in this same smile, especially when he spoke to Zette. His love for this pretty brunette—so unlike any other woman he had seen about him in his wandering life—was very sincere.

Near her he felt himself quite another man to what he was in the circus. There was such an atmosphere of honesty surrounding Zette that his own manners, when with her, were altogether different from what they had been, and he was astonished at how well they became him.

Then, too, he had dreamed of being loved by this sweet girl and of never being separated from her. Their positions accorded admirably. His salary was good, and some day perhaps he might enter one of the great circuses of Lyons or Paris. It would be charming to find so sweet a little wife awaiting his coming after his work was done.

He had often spoken to Zette of these plans. He loved her so dearly that it could not be possible she did not love him at least a little.

Zette always listened silently, visibly touched by what she heard, and he thought each time she would say "Yes," but when he had finished by asking, with such pleading in his eyes, "Will you be my wife, Zette?" she replied very gravely, "No."

Then Jacques would be astonished. Why not? Could it be that she did not believe him when he said he loved her; that she had no confidence in him; that she did not love him?

"Yes, I love you," Zette answered sweetly, "but I do not wish to marry you."

And she would never say why.

One day, however, Mme. Floury blamed her for refusing the hand of this brave lad.

"Listen, mother," she said. "I adore Jacques, and I believe I shall always remain single because I do not wish to marry him. Do you remember the day when we went together to the circus? I saw as we entered how all the women who were there turned their lorgnettes toward him, and afterward they smiled and talked about him and tried to attract his attention by applauding him. I ought perhaps to have been proud to think that this man whom they all wanted loved me, and that I had only to say the word to be his wife. Ah, well, in my heart there was nothing but jealousy. I wanted to tear the lorgnettes away from those women. From what I suffered that evening I understood how much more I might suffer if we were married. No, that cannot be. He is too handsome. See? Suppose, some day, when he had grown tired of me, one of those women should take him from me. I would die surely. You know now, mother, why I cannot say yes."

But notwithstanding this obstinate refusal, which he could not explain, Jacques came every day. He no longer mentioned the subject to Zette, understanding that he was contending against a fixed resolve, except once when he said to her:

"You will not have me, Zette, and I do not wish any other woman. Some day, though, you may change your mind, and then you need only hold out your hand and say to me, 'Let us be married, and it will make me happy.'"

So after thus simply settling the affair Jacques was like a brother in the house. It was he who in the springtime planted the seeds in the boxes upon the little balcony. It was he who twined the tendrils about the wires, and it was he who at all seasons furnished the gilded porcelain vases that held the flowers.

These flowers were a great luxury to Zette.

This state of things did not long continue, however. The young girl was now 20 and Jacques 23. One evening he presented his friends with tickets to the circus. It was the last day of a long continued fair, and Zette and her mother had nothing to do. So they decked themselves in their best and went early.

Mme. Floury was much amused with the horses, the rope dancers, the clowns, the trained dogs. Zette thought only of Jacques, whose name on the programme occupied a line to itself, and whose apparatus was hanging up at the top of the high tent. The latter consisted of bars, with copper balls that shone, a maze of trapezes, ropes and pulleys, and the young girl, a little frightened, inquired if it all was secure.

At last the first part of the performance was over, and keeping time to a slow waltz Jacques appeared. He was as beautiful as a god in his silk tights, that displayed to advantage his superbly molded form, and for the rest, his costume consisted of a black satin calecon, spangled with gold.

After having responded by a bow to the applause of the crowd and by a smile to Zette's smile, he darted up a rope to his trapeze.

The preliminaries were gone through with amid prolonged bravos, for the handsome gymnast was a favorite, and it was truly a pleasure to see him act—the supple body so pliant, yet so marvelously exact in its movements.

Then there came silence—even the orchestra was still.

It was to be the hit of the evening and a new feat that was to give an added glory to the circus. He was to leap from one trapeze to another, with his face and head covered, then suddenly drop from this giddy height upon a net stretched below him. The two trapeze were swinging with a regular movement. Jacques, standing on a little board, his head enveloped in a black velvet bag, put forth his hand blindly. The crowd held its breath. The man was going to jump—he had jumped!

A piercing cry rent the air.

Missing the second trapeze, which had been badly regulated, Jacques fell to the net, but it proved too frail to support his weight, and striking upon the seats he rolled to the ground, where he lay motionless.

With a cry of horror, Zette sprang to her feet, rigid and pale, her eyes fixed upon the spot where the men were now carrying away the apparently lifeless body of her friend.

Then suddenly seizing her mother's arm, "Come," she said in a hollow voice.

Breaking through the crowd, the two women reached the stables, but were refused admission. For a long while they remained at the entrance, listening to what was said around them, but no one knew anything. Finally Mme. Floury saw a clown whom she recognized as one of Jacques' friends. He was just coming out of the refreshment room when she called him.

"The net broke the force of the fall," said the man, whose face looked troubled, even under the paint. "The doctor says he will be lame for life, and that this ends for him his profession as a gymnast. Poor fellow! But he has something laid up for a rainy day."

Mme. Floury looked at Zette. She was very pale, and her eyes were fixed upon the man as he spoke as though trying to find if he lied. At last she said, "Let us go."

And thanking the clown by a gesture she left the circus.

The two women did not speak as they traversed the grounds of the fair, and they were still silent as they ascended their own little stairway. But when Mme. Floury had lighted the candle she saw Zette sitting beside the bed, with a strange smile on her lips. She felt frightened for her and went to her.

"Of what are you thinking, little daughter?" she asked, trying to reassure herself.

Then Zette laid her head upon her mother's shoulder, with a childlike gesture.

"I think—that now I can marry Jacques," she told her.—From the French in Romance.

A Worthy Name, with Thread of Gold.

[Written for the Sauk Rapids Sentinel, by J. QUINCY A. WOOD.]

Inscribed to Hon. B. L. Baxter, of Lenawee county, Michigan, ex-Regent of the University of Michigan, a worthy and honored member of the legal profession of that state; once prominent as an able and eloquent champion of the Temperance cause and Social Reform; an accomplished scholar and poet, and for several years editor and proprietor of the TECUMSEH HERALD; but now, in declining years, retired from all activities, solitary in his beautiful home at Tecumseh.

There lives within my memory old
A worthy Name, revered by me;
His inner Life has never been told,
And I would tell it worthily.

A worthy Name in strife and peace,
Of lore and song and precept bold;
And ever his life and muse auresse,
I'll run through his a Thread of Gold.

He was my junior in the birth,
[illegible]
A man of finest moulded form,
With soul of eager soaring wings.

In song, he was my elder brother;
In precept, my discourser true;
The Muse—she was our common mother,
[illegible]

We sipped at Poesy's Chrystal fount,
Together toiled, together slept;
We saw Fame on his shining mount,
And turned our eyes away and wept.

No cloud obscured his youthful day,
No vapor chilled his tempered fire;
No song of bird or summer spray
Was sweeter than his tender lyre.

He loved all pure and lovely things,
And voiced them in his faultless strain,
He gave to Thought poetic wings,
Nor deemed such pastimes wholly vain.

His Muse was like the woodland spring;
Whose limpid currents flow unknown,
And to the silent shadow sing,
And to its fronded fountain lone.

He was heroic in his faith,
He spared no strength, nor pains, nor time;
The powers of Evil felt his scath—
For God and Truth he stood sublime.

In conflict, swift and eloquent
His tongue and pen bore equal sway;
And with a stubborn logic rent
The false conceptions of his day.

His Charity was large and free,
He tried professions by their deeds;
From no encounter did he flee
Where Truth and Human Rights had needs.

In peace, a gentle, loving soul;
In strife, a brave but generous foe;
He warred against th' Inebriate's Bowl,
And dealt it many a sturdy blow.

A worthy Name, revered by me,
Deep written on my memory old;
Than his, no finer Life could be
More worthy of a Thread of Gold.

RIDGEWAY ROLL-CALL.

A Bit of Local History and Prophecy About Our Enterprising Neighbor On the Ridge.

Whether the [illegible] dry and dusty, or cold, wet and stormy, our Ridgeway friends are always smiling, always take the world as it comes with a serene temper, and always hang the latch string out for the visiting guest. The society resembles that of a large village or city; they take much interest in temperance and church affairs, and the influence of their public Library has a marked effect upon the entire community. The M. E. church has a strong organization here; in fact it is considered one of the best charges in Adrian district. Rev. H. Cansfield the present pastor, is doing a fine work and he has able helpers in the Epworth League and other auxiliary societies. Jay A. Santus, P. M. took the helm July 1st., 1893, and fills that important position to the satisfaction of all. They have an excellent school here for the size of the place. Prof. J. C. Howell, the efficient principal last year, has already been engaged for the coming year, and he will have an assistant in the primary department. But the enterprise of a public character, which reflects the most credit upon Ridgeway, and which has given our neighbor on the Ridge a state reputation, is the Jonathan Hall Memorial Library, the gift of the late Rufus T. Bush of Brooklyn, N. Y. Mr. Bush, having a desire to bestow some gift of value upon the town where his wife had lived in her childhood days, conceived the project of this public library, which was carried to a successful completion in one year after its conception. The first informal meeting was held Dec. 28, 1886, and the building was dedicated Nov. 16, 1887, Mr. Bush himself taking part in the day's festivities. It was a gala day for Ridgeway and one that will always be cherished in fond remembrance by the oldest inhabitant. The structure is a beautiful brick building, containing a large circulating library and reading-room. It is a fitting monument to the memory of Jonathan Hall, one of the grandest men in the band of Lenawee pioneers, who made the Wolverine wilderness to blossom as the rose; and it has enshrined the name of the donor, Rufus T. Bush, in the local annals of Ridgeway for generations to come. The officers for this year are: President, Thos. H. Temple; Vice Pres., Chas. Culbertson; Secy., Emma Miller; Treasurer, W. L. Jones.

We append a sketch of the leading business firms:

J. O. Shepard.

Mr. Shepard occupies the old site on the northeast corner, where Geo. W. Clark opened a dry goods store away back in 1859, and the corner has been occupied for mercantile purposes ever since. The present occupant has had fourteen years experience in trade, and bought out H. J. Williams in December 1891, and has since conducted a hardware and grocery store. He keeps a good stock of shelf goods, heavy hardware and stoves, making an assortment that would do credit to a much larger town. Mr. Shepard is a careful, painstaking man, a good neighbor and genial citizen, hence he is personally popular, which helps his trade very materially. He now has the agency for the Wisconsin bicycle, so he is up-to-date in this direction. His expenses are small, as he gives his undivided attention to his business. The general impression is that he has come to stay.

Simon Gould.

Mr. Gould is a new comer in the business circles of Ridgeway, but he succeeds to an old established business. He occupies the same store first started by G. P. Waring, some eight or ten years ago. In July 1894, Chas. Gould bought an interest in it with A. J. Sutton. Jan. 1st he bought out Sutton, and on the first of May last Simon Gould came into possession, who now runs the establishment with the assistance of his son, Fay. He carries a well selected stock of dry goods, groceries and crockery, and one which meets the wants of the community. Mr. Gould buys for cash and keeps no clerk, hence his expenses are light and his customers get the benefit in reduced prices. He has been a successful farmer in Macon for many years, but he takes to trade like a duck to water, and his push and integrity will surely carry him to the front.

Ed. Harrison.

Mr. Harrison fills a niche which every well regulated town wants well filled. He started a meat market in Ridgeway seven years ago and has kept diligently at it ever since without the intermission of a single week. Fresh and salt meats are both kept on hand so that he can supply the wants of the community in the meat line. Ed. knows how to satisfy his customers, is a good judge of meats, and a genial man personally; consequently he can be regarded as a fixture in Ridgeway.

D. W. Loree, M. D.

But the old wheel horse of Ridgeway, the man who is accepted by all as the leading citizen of the place at present, is Dr. D. W. Loree. He graduated from the medical department of the State University at Ann Arbor in the spring of 1860, and began the practice of his profession at Petersburg, in Monroe county. In 1863 he became a citizen of Ridgeway, where he has been actively engaged in the practice of his profession ever since. His thorough school training and his natural aptitude for a physician's work soon brought him an extensive practice, which has kept up without a break until the present day. Before the advent of the Wabash and Mackinaw roads he enjoyed a very large buggy ride, probably larger than that of any other doctor in Lenawee county. In addition to his medical practice he has been quite an extensive farmer. Several years ago he invested in 240 acres of land on the "big prairie" and in a few years made a fine farm of it. One 20-acre lot on this farm yielded oats, wheat and hay, during five consecutive years, that sold for $2340. He still owns a tract of 170 acres which is let out for $4 an acre, money rent. The doctor is a most genial neighbor and an enterprising citizen as well. He believes in promoting all public schemes, having been one of the chief patrons and promotors of the Library, and spends his money liberally to improve the village of his residence. Last summer he rebuilt his dwelling, making almost an entire new structure of it, which is one of the finest homes in this section of the county. It is provided with a summer kitchen in the basement and all the modern conveniences for washing and kitchen purposes; also a fine office apartment. The general rooms on the first floor are large and connected by folding doors, and there are five beautiful chambers up stairs. The house is finished in modern style, both inside and out, and is an ornament to the village. The doctor says he might have been wealthy today, if he could have taken men by the throat and commanded payment, but his office ledger contains thousands of dollars in accounts that have long since been outlawed. He is well fixed, however, now and can enjoy the down hill side of life with every comfort and convenience possible. May he live many years to enjoy it.

Orr & Temple.

This firm has become synonymous with push and enterprise. The Tecumseh house, which has been doing a thriving business for the past two years, are already sighing, like Alexander, for other worlds to conquer and are just opening a branch store in Ridgeway. The old corner, so long the domicile of Peter Sharp and later occupied by Mr. F. J. Temple himself as a drug store, has been thoroughly renovated and painted and is opened to the public this week. The stock will consist of general drugs, patent medicines, toilet articles, confectionery and cigars, and will comprise a fine assortment in all these lines. Charles Culbertson will have charge of the Ridgeway store, who will be assisted by Dr. Loree. This arrangement is an excellent one and the store will fill a "long felt want" in the business circles of Ridgeway and be a great convenience to the public.

F. E. Pocklington.

Mr. Pocklington does not run a store, but he is one of Ridgeway's hustlers, just the same. He began working at the mason's trade at seventeen years of age and has been in the business for 26 successive years. There is no better mason in Lenawee county, as he is an expert in all branches of the trade. He built three of the brick stores in Britton, the Masonic Temple in Tecumseh and many of the finest residences in northern Lenawee. He is now at work on the two new Reformed churches, one at Britton and the other at Macon village.

S. P. Smith.

Mr. Smith makes no lofty pretensions, but he fills an important niche in Ridgeway, and fills it most worthily. In April, 1890, he bought out G. P. Waring and for two years conducted the business in partnership with David Coryell. For the past three years he has been sole proprietor, and manager. He keeps a good stock of furniture, but his specialty is undertaking, in which line he has been very successful. He keeps a large stock of caskets and trimmings and, as a funeral director, is excelled by no one in this section.

Samuel Helm.

"How long have you stitched harness?" was the first query put to Mr. Helm. His reply was: "I began at 17 years of age and I am now 68 years old." Just think of it! Fifty-one years at the bench. He ran a store in Tecumseh 21 years and has been located in Ridgeway for the past 13 years. He claims to be the best harnessmaker in the state, and it is doubtless true, for he has the reputation far and wide of being an expert workman. May he live long and continue to prosper.

A. M. Christensen.

The Ridgeway Creamery is an industry, in which the village can well take a pride. The concern is owned by a stock company, of which John Boyd is President and Thos. H. Temple Secretary, but the plant is rented to Mr. Christensen, who has the entire management of the business. He took possession April 1st, last and it has proved a very successful venture thus far. The factory is equipped with the most approved and modern machinery for butter making, and is turning out an excellent brand of butter. About 2000 pounds of milk are absorbed daily and the daily output of butter averages 85 pounds. Every pound of the product is sold in Detroit at the highest market price. Mr. Christensen is an expert workman, having learned his trade in Denmark, which is noted for its fine dairy establishments, and having worked seven years in the business, three in this country.

A BIG SCORCH AT HOLLOWAY.

The Store of Rothfuss and Brown Totally Consumed with All Its Contents.

About three o'clock last Tuesday afternoon fire was discovered in the large building occupied by Rothfuss & Brown as a store, and by Mr. Brown's family as a dwelling. Mrs. Brown also had millinery rooms in the same building. The structure was a large frame building sixty feet square, with an addition on the south for storage purposes. The origin of the fire is a mystery. Mrs. Brown started to go into the millinery room from the rear part of the house and discovered the ceiling in the sitting room to be on fire. She immediately ran into the bed room for her pocketbook, which was in the bureau drawer, but was driven out by the smoke, as the interior of the bed room was all ablaze. Within five minutes the entire building was enveloped in a mass of flames. It was useless to fight the fire and the few persons present gave their attention to saving the contents. But little was accomplished however, for the fire spread so rapidly only a few goods were saved, while Mr. Brown's family lost all their household goods, even to their clothing. The building was owned by H. H. Osgood and rented by the firm for a store and dwelling.

The drug store of Floyd Florence across the street narrowly escaped cremation as the wind at first was in that direction. The shifting of the wind, and the diligent work by the bucket brigade, saved that and the other stores east. It was a close call however, and at one time the entire village seemed doomed to destruction. When the fire first broke out, there were but few people about the stores. Dr. Nixon, Mr. Florence and Mr. Brown were down at the river bathing. The alarm soon brought a crowd from the village and country around and valiant hands were soon at work to save the surrounding property. It was the worst calamity that Holloway has ever sustained and will be a severe blow to the village. Whether the building will be rebuilt is not yet decided.

The stock, valued at between $5,000 and $6,000, was insured for $4,000. Mrs. Brown had $250 insurance on her millinery stock, and $500 was carried on the household furniture. The building was valued at $1,200 and insured for $500. All of the insurance was carried in Gilkey's agency.

BEAUTIFUL SAND LAKE.

A Few Items of Interest to the Patrons of Old Lenawee's Favorite Summer Resort

Among the numerous little lakes in the western portion of Lenawee county, there is none more delightful than Sand Lake. It lies on the boundary line between the townships of Franklin and Cambridge, extending into both towns. The lake is 14 miles from Adrian, 10 from Tecumseh and 9 from Clinton, with good wagon roads leading in all directions. It is two miles from Pentecost on the Mackinaw railroad. The water is clear as crystal, with gently sloping shores, the surrounding banks being mostly wooded hills, with here and there a golden field of grain or brown meadow exposed to view. It is about one and three-fourths miles long and one mile wide, with no marshes about the borders, and the water is deep enough to furnish excellent boating. Over forty cottages have been constructed about the lake and there are two commodious hotels there, one each on the north and south shores. The lake is a favorite resort for picnic parties, club and family reunions, and celebrations of various kinds. The cottages are owned by residents of Tecumseh, Clinton and Adrian, mostly, but Chicago, Toledo, Detroit and other cities are represented in the list. It is a beautiful pleasure resort for both old and young, furnishing rest for the weary toiler, comfort for the aged and pleasure for the children. It has both telegraph and telephone connection and a daily mail. It is secluded enough to escape unruly crowds from the cities, and yet convenient of access by wagon road and rail. These are advantages which but few of our inland lakes possess.

J. J. Putnam & Son.

At the south-east corner of the lake, on the road from Adrian and Tecumseh, is located the Putnam House, which has been established for 14 years and which has been constantly enlarged and improved to accommodate its always increasing trade. The Putnams know that good accommodations draw good trade. This spring a new steam force pump was put in, forcing the water to a 1000-barrel tank 60 feet above the lake, thus amply supplying the house, grounds, barn, etc., with water. The grounds have also been fitted up with a splendid ball ground, and will soon have a complete driving track for bicycles and horses. As to the hotel, it will accommodate 75 to 100 boarders, and it is often taxed to its utmost. The dining hall is one of the largest and pleasantest in the country, easily seating 125 guests, and on festive days it is filled and refilled at every meal. Putnam's Grove is the popular spot for picnics and Putnam can take care of all that come. Many farmers' clubs and societies hold their reunions here. The Knight Templar commandry of Adrian have held their best and most successful encampments at Putnam's. Although a great pleasure resort the hotel's special trade consists of summer boarders, from Toledo, Cincinnati, Chicago, Adrian and other cities, who find this location, in close proximity to the fine cottages of the south side, most congenial for a summer outing, and most complete with every adjunct for its full enjoyment. And still the Putnam House is to be improved, and another year will find new and more extensive accommodations for her ever increasing guests.

Kennedy Bros., North Side.

The old Adam's House which was so popular in days gone by was purchased in July of '94 by Kennedy Bros. of Chicago. The boys are young, active and practical hotel men. They bought the land and entire property, which shows that they mean business and have come to stay, and under their management the hotel is regaining all its old time patronage, beside a large new trade of regular summer boarders from the large cities, who seek the rest and recreation afforded here during the heated term. Stopping there recently, the writer met families from Kansas City, St. Louis, Chicago, Richmond, Ind., and other points. To accommodate this large trade Kennedy Bros. have greatly enlarged their accommodations by taking out the large dance hall and fitting up 20 new rooms. They also have an adequate system of waterworks and the largest ice house on the lakes. Since the advent of Kennedy Bros. on this side two large double and one single cottages have been put up here by Richmond parties. A. B. VanDeMark, of Clinton, also chose this spot for a beautiful lake house. The boys are hustlers in more ways than one. They have moved their barn to the front, painted it anew and rent the advertising space for $200 a year. You can there read the cards of the following business men: Anderson & Co., Anderson Bros., Satterthwaite Bros., A. Spayde, Tecumseh; A. B. VanDeMark & Co., B. O. Randall & Co., F. D. Lancaster, E. W. Freese & Son, Clinton; Taylor Bros., F. R. Stebbins & Sons, J. G. Gussenbauer, Geo. M. Tripp, G. C. Ner, W. F. Muck, J. S. Kane, G. W. Fuller, Onsted; Robinson & Koebbe, Manchester.

Clinton Column.

CLINTON, MICH., JULY 19, 1895.

Bicycle Day at Tecumseh, July 25th.

Big celebration in Tecumseh next Thursday.

E. R. Smith was an Adrian visitor last Monday.

E. F. Muir has gone to Eaton Rapids for a few days' stay.

Walter C. Burridge was in town Tuesday on legal business.

Mrs. S. Parker returned from South Bend the last of the week.

Everything and everybody goes to Tecumseh next Thursday.

Chas. Kleinrock in town Tuesday and will remain a few days.

Will Rhodes and wife, of Pittsfield, Sundayed at H. D. Niblack's.

W. J. Roundy, of Lansing, was in town Tuesday, trying to buy wool.

Mrs. Dr. Brown, of Chicago, Ill., is visiting friends in this village at present.

Mr. and Mrs. Chas. Parker, of Hillsdale, are visiting at Mrs. S. Parker's, this week.

Miss Margaret Clarkson, of Macon, is the guest of Miss Louise VanDeMark this week.

Go to Tecumseh next Thursday and hear our boys beat the drum and blow the cornet.

Mrs. L. H. Ames, of Ypsilanti, is the guest of her daughter, Mrs. Ham Niblack, this week.

F. D. Lancaster's drive well proved to be a failure and John Rogers is now digging an open one.

Mrs. C. C. Fisk and little son came Monday night for a visit with her parents, Mr. and Mrs. Jacob Nase.

Will Clark was on the sick list the first of the week and Burt Tate was taking his place in Demuth's store.

Mrs. Will Niblack and daughter Florence went to Macon last Saturday for a few day's visit with friends there.

James Riley has secured a position in a Rubber hose factory at Toledo, and will leave home for that city next week.

Miss Margaret Biggins, of New York City, and Catharine Biggins of Toledo, are visiting at their father's home this week.

Miss Louise VanDeMark went to Detroit yesterday to spend two or three weeks with friends in the City of the Straits.

"Dry, hot and dusty" is no name for the present weather. The protracted drought is injuring all kinds of crops very badly.

Mr. Marsteller is having lots of work this summer. He has just erected a fine monument for A. D. Hunt in the Franklin cemetery.

David S. Goodrich, who has been sick so long with spinal affliction, died yesterday morning. Further mention will be given next week.

Schmitt & Wallinger have settled their suit with the corporation by paying all costs and a license on their billiard tables of $5 each.

Mrs. C. A. Grinnell, of Detroit, and Mrs. Lucy Grinnell and two children of Vermontville, are visiting Mrs. Thos. Vanderson for a few days.

VanTuyle and Woodard find their new store "just the thing" for their business, and the wonder is that they hadn't have thought of it years before.

One hundred and ten tickets for Adrian were sold at this station last Saturday and many Clinton people drove over that day. Barnum's show always draws a crowd.

Eddie Sherwood met with a sad accident Monday. He fell from the fence in front of the Catholic church, breaking his right arm. He will have to forego play for some time.

Carlton Burton left home Monday for New York to resume his work as musical director in Wing's Opera Co. Carl is becoming an expert musician and is bound to make his mark in the profession.

Miss Grace Martin went to Jackson Wednesday to meet her sister Nellie, who has been visiting Miss Mav Pierce at Clyde, Michigan. They go from there to Homer, where they will make an extended visit.

The Lancaster house is booming right along now. Henry is always making some improvements, the conversion of the old bar room into a nice cozy barber shop, being the latest and best. Competition never phases him a particle.

Mr. and Mrs. C. S. Burroughs and Frank Lancaster and wife are spending the week at their Wampler's Lake cottage. We are glad to learn that Mrs. Burroughs is improving quite decidedly and the prospects are good for her full recovery to health.

Mr. A. G. Burton left home Tuesday morning for Angola, Ind., to attend the funeral of his grand-son, the only child of Geo. Burton. He was fifteen years old, and was drowned at that place while in swimming. His sad and untimely death was a great blow to the family.

Our city spinkler met with a sad mishap Saturday. We refer to the big tank on wheels, not to the owner, Albert Carruth, nor to the driver, John Koernig. When near the residence of Harry Davis, the concern lost its balance, from imbibing too freely of cold water probably, and capsized into the gutter. It is now in dry dock for repairs. In the meantime the merchants are dieting on dust until the sprinkling cart is ready to launch again.

The new block is rapidly approaching completion and will be a great ornament to the town. The plasterers are now at work and the fronts are being put in. The corner store will be a beauty. It is owned by Smith & Huntington and will be occupied by Frank Lancaster, with a Maccabee hall in the second story. The peculiar shape of the corner gives a fine ante-room at one side for the Maccabees and leaves windows for light and ventilation at both ends of the lodge room. The middle store is owned by M. F. McClure and will be used by himself for a bakery. A modern oven will be constructed in the rear. Fred Sherwood is the contractor and builder for both of these stores. The west store is owned by Will VanTuyle and D. M. Bainbridge, but it is not certain as yet what tenant will occupy it. Ed. Semark is doing the work on this store. All three stores are furnished in uniform style and form one block, which Clinton may well be proud of. Will Spaulding, of Tecumseh, is putting a tar roof on the entire block and also metal ceiling on the three stores below. He is using a new and very neat pattern of ceiling which will be a decided ornament to the store rooms. He is also furnishing and putting on the metal cornices.

MACON MUSIC.

Bicycle Day at Tecumseh, July 25th.

Milton Augustus was over from Ypsilanti Sunday.

Miss Maude Howell is spending a few days with friends in Ft. Wayne and vicinity.

Mrs. Denike and daughter ida returned Monday from a few day's visit at Ypsilanti.

Mr. W. B. Hatch is at home for a short vacation before commencing the practice of his profession.

The services of the Reformed church will be held in the Baptist church until the new one is completed.

We failed to see any notice of the Macon and Ridgeway ball game in the Ridgeway items of last week. How is that, Mr. Correspondent?

M. V. Sickly, our school director, deserves the gratitude of his fellow [illegible] for the improvements he has made in and around the school house.

Miss Edith Cotton is the first Macon girl to ride a wheel; we trust there will soon be others and that ere long bloomers will be as common as pneumatic sleeves.

Chas. Avery and Clate Ellis have added stackers to their threshing rigs. Everybody will want to work on the straw stack this year, but any invention is welcome if it will make threshing more agreeable.

Editor Stacy recently wrote up a description of our lively burg which all Macon people should read; the article spoke in glowing terms of merchants and business men, and will be found in last week's paper under the heading "Musical Macon." We fail to see what connection the heading has with the remainder of the article, but submit to the editor's judgment in the matter. There are many points of interest in our village which the editor didn't notice, we presume from lack of time, and many attractive features he did not describe, owing no doubt to his being a confirmed old bachelor; but these are only minor defects and the article, as a whole, is excellent.

The Corner Stone of the new Reformed church of Macon village will be laid with appropriate ceremony on Tuesday July 23d., 1895, at 2 p. m. After the service, ice cream and cake will be served by the ladies of the church at 10cts. per dish, the proceeds to go to the church fund. The following order of exercises will be observed:

Anthem by Choir.
Invocation and Salutation by Pastor.
Singing by Congregation.
Reading Scripture and prayer by Rev. Ramsdell of Clinton.
Singing by Choir, "Christ the foundation Stone."
Repeating, in unison, "The Apostles Creed" and the Laying of the Corner Stone.
Anthem by the Choir.
Address by Rev. C. M. Brown of Tecumseh.
Remarks.
Prayer by Rev. S. Redorus of Britton.
Singing "All hail the power of Jesus' Name."
Benediction.

The young people of South Macon will give an entertainment at the Grange Hall, Wednesday evening, July 24, '95. The following program will be presented:

A BIRTHDAY PARTY.

A very pleasant gathering of relatives and friends at the home of George B. Gray occurred July 11th, for the purpose of celebrating Mr. Gray's 60th birthday. As he had been kept in blissful ignorance of the gathering, the surprise was fairly complete until nearly a score of carriages had driven up and their occupants entered his gate; then he began to realize that something more than common was the order of the day.

Soon after our arrival the dinner hour came and we were invited into the sitting room, and ye scribe had the pleasure of presenting Mr. Gray a very fine rocker, a present from his family, and other presents from friends. We then were ushered into the dining room, and lo, we found the table spread and fairly groaning under its burden of good things, such as only farmers' wives and daughters can prepare, that tickleth the palate and maketh him strong for all his daily toil.

Dinner over, 63 partaking thereof, we gathered in the sitting room and under leafy shade, and story telling, music and song were the order of the hour. Many pleasant incidents of early farm life were related, Mr. Gray being the center of attraction, he possessing, in a rare degree, the faculty of [illegible] story in such a manner that it did not need one added to it to make it well told. Uncle Horace Gray, so well and widely known in Lenawee county, was present and enjoyed the pleasant greetings of the company.

Among those present were S. W. Anderson and wife and D. C. Larned, of Tecumseh; Martin Whelan and wife, Franklin; J. Wilson and wife, Ann Arbor; Oscar Stimpson and wife, Mrs. Wm. Gleason and family, Saline; Wm. Taylor and son, S. Gould, Ridgeway; Eber Bradley, Jesse Warner and wife, Stephen Smith and wife, York; B. S. Scudder and family, J. C. Mills and wife, J. F. Gilmore and family, DeWitt Martin and wife, E. J. Gould and wife, Macon; J. C. Cone and wife, Mrs. Ortis Bradley, Miss Ellen Richardson, Mrs. Ollie Curry, Milan.

The time passed all too quickly, for at 5 o'clock ice cream and cake were served and one by one we took leave of our host and his pleasant family, wishing for them many pleasant birthday anniversaries in the future, and we shall remember it ourselves as one of the most pleasant days of our lives.

The Discovery Saved His Life.

Mr. G. Cailloutte, Druggist, Beaversville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at Orr & Temple's drug store. 2

Murder will out.

Several years ago the rush of emigration was for the western prairie lands, where droughts, hot winds, cyclones and blizzards were plenty. No water; no fuel; low prices for products and high prices for everything a person had to buy. Times have changed and The C. S. Graves Land Company, 56, 5th Avenue Chicago have an advertisement in this paper offering land in Central Wisconsin well supplied with fuel and good water and centrally located for all the great markets North, South, East and West, with good school privileges. The best of farm land can be had at from $5 to $10 per acre and on easy terms. 1w

A WONDERFUL ESCAPE.

Related by a Keeper of the Michigan State Prison at Jackson.

(From the Jackson Citizen.)

Mr. A. E. Wing resides at 612 N. Jackson Street, Jackson, Mich. He is a keeper in the Michigan State Prison, a man of sterling integrity, and whose word is beyond dispute. He tells the following story of a wonderful escape, and the incidents connected with the dangerous position in which he was placed. He says, some months ago my attention was attracted by a swelling of my groins, which began to increase in size to such an extent that I was alarmed. It spread down my legs to my feet, and I was bloated from my waist down, so badly that I could not pull my pants, over my legs, and I had to open my shoes fully two inches before I could get them on. Even my face became puffed up; and my whole system seemed affected. I could hardly drag myself upstairs to unlock my men. I consulted a physician, one of the best in the city. He said the swelling was caused by an irritation of the kidneys, and I commenced treatment with him. But I seemed to be getting worse. I was strongly urged by a friend to try Doan's Kidney Pills, and I finally consented. After the first week I commenced to see a change, and felt much better. This was encouraging, and I continued their use. I took five boxes in all, with the happy result that I was completely cured. I have never heard of any medicine which had such a pronounced and radical effect, and yet not affect the system generally and leave it in such a good condition. I feel better now than I ever did. After the effect was once established the swelling gradually disappeared until it was entirely gone. I regard Doan's Kidney Pills as a most wonderful agent in the curing of any form of kidney disorder.

For sale by all dealers—price, 50 cents per box. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

A Model Husband—Friend Perrichon, accompanied by his wife, took a trip to the outskirts of Paris. Very tired and hungry they entered an eating-house. The proprietor declared that he had nothing but a chop to offer them. "Only one?" exclaimed Perrichon: "then what is my wife to have?"

FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderful remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

The old maids' Saturday night's ice Cream catch they have been holding at the Miller House for the past few weeks have ceased to exist. We have not learned whether they accomplished the desired object or not, but time will reveal the effect.

OBITUARY.

Mrs. Eldridge Lowe, who has been in poor health for twelve years and for the past few months been helpless, but had of late so far recovered as to be able to call on friends, was called to her final rest on Thursday afternoon of last week. She was helping prepare some cherries for canning during the morning, when she complained of feeling badly and slowly sank to that rest from which none ever return. She leaves a husband and daughter to mourn a wife and mother's departure for the other shore, where the frail bark has been so long drifting. The funeral services were held at the church Saturday morning, Rev. H. Cansfield speaking words of comfort and hope to the bereaved husband and daughter. The remains were laid at rest in Evergreen Cemetery to await the resurrection morn. The family have the heartfelt sympathy of their many friends and neighbors in this sad hour.

CARD OF THANKS.

We feel our inability to express our heartfelt appreciation to the neighbors and friends for the many acts of kindness bestowed upon our dear wife and mother, during her long sickness; also, for such valuable assistance rendered at the time of her death and funeral service and to the choir for their services. Respectfully.

ELDRIDGE L. LOWE AND DAUGHTER.

Just What's Needed.

Exclaims thousands of people who have taken Hood's Sarsaparilla at this season of the year, and who have noted the success of the medicine in giving relief from that tired feeling, waning appetite and state of extreme exhaustion after the close confinement of a long winter season, the busy time attendant upon a large and pressing business during the spring months and with vacation time yet some weeks distant. It is then that the building up powers of Hood's Sarsaparilla are fully appreciated. It seems perfectly adapted to overcome that prostrating caused by change of season, climate or life, and while it tones and sustains the system, it purifies and vitalizes the blood. 1w

HEART DISEASE,

like many other ailments when they have taken hold of the system, never gets better of its own accord, but ***Constantly grows worse.*** There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and ***Don't know what to take for it,*** as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I ***couldn't lie down*** nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking ***Dr. Miles' New Cure for the Heart*** and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I hav'nt lost a day since. I am 56 years old, 6 ft. 4½ inches and weigh 250lbs. ***I believe I am fully cured,*** and I am now only anxious that everyone shall know of your wonderful remedies."

Three Crops a Year

Can be grown on the same land in eastern Mississippi and southern Alabama along the line of the Mobile & Ohio railroad. The summers are cooler, the winters are milder, the death rate is lower than in the north. Improved farms $10 to $15 per acre, unimproved land $3 to $5 an acre near railway stations. It is the best portion for raising fruits and early vegetables, stock raising and general farm crops. Lands are advancing, now is the time to buy. Very low rate excursions monthly. The Mobile & Ohio has put on two through fast trains each way daily between St. Louis and Mobile. It is the shortest and quickest route to the south. An illustrated pamphlet telling all about our country will be sent free to all who wish it. Apply to F. W. Greene, General Agent, No. 198 North Broadway, St. Louis, Mo., or to E. E. Posey, General Passenger Agent, Mobile & Ohio railroad, Mobile, Ala.

It's a Curious Woman

who can't have confidence in Dr. Pierce's Favorite Prescription. Here is a tonic for tired out womenhood, a remedy for all its peculiar ills and ailments and if it don't help you, there's nothing to pay.

What more can you ask for in a medicine?

The "Prescription" will build up, strengthen, and invigorate the entire female system. It regulates and promotes all the proper functions, improves digestion, enriches the blood, dispels [illegible] sleep, and restores health and vigor. In "female complaints" of every kind and in all chronic weaknesses and derangements, its the surest remedy.

Nothing urged in its place by a dealer, though it may be better for him to sell, can be, "just as good" for you to buy. Send for a free pamphlet. Address World's Dispensary Medical Association, Buffalo, N. Y.

Dr. Pierce's Pellets cure constipation, piles, billousness, indigestion and headaches. 1w

Dobson, Jr. was making an evening call, when his adored one's little brother approached him and begged the loan of his whistle. "Whistle?" queried Mr. Dobson. "I have no whistle." "Well, papa says you have," said the little wingless angel, "and that you are always wettinghit."

Important Facts.

If you have dull and heavy pain across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied with headache; then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of William Anderson, deceased.

The undersigned having been appointed by the Probate Court of said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at Charles Burridge's office in the Village of Tecumseh, Lenawee County, Michigan, on the 10th day of August, 1895, and on the 28th day of December, 1895, at 1 o'clock in the afternoon of each of said days.

And that six months from the 29th day of June, A. D., 1895 are allowed by said Probate Court for the creditors of said estate to present their claims to us for examination and allowance.

Dated July 10, 1895.

CHARLES BURRIDGE,
JOSEPH RUSSELL,
Commissioners.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office, in the city of Adrian, on Tuesday, the 25th day of June, in the year one thousand eight hundred and ninety-five.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the estate of Jeremiah Root, deceased.

On reading and filing the petition, duly verified, of Mathew L. Root, a son of said deceased, praying that administration of the estate of said deceased may be granted to him, Petitioner, or to some other suitable person.

It is ordered, That Monday, the 22d day of July, next, at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs-at-law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate office, in the City of Adrian, and show cause, if any there be, why the prayer of said Petitioner should not be granted.

And it is further ordered, That said Petitioner give notice to the persons interested in said estate of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee for three successive weeks, previous to said day of hearing.

16 Years in Detroit. 200,000 Cured.

Young or Middle Aged Man. You have led a gay life or indulged in the vices of early youth. You feel the symptoms stealing over you. *Self abuse or later excesses* have broken down your system. *Mentally, physically and sexually* you are not the man you used to be or should be. Lustful practices reap rich harvest. Think of the future. Will you heed the danger signals? Are you nervous and weak; despondent and gloomy; specks before eyes; back weak and kidneys irritable; palpitation of heart; dreams and losses at night; sediment in urine; weakened manhood; pimples on face; eyes sunken and cheeks hollow; poor memory; careworn expression; Varicocele; tired in morning; lifeless; distrustful; lack energy strength and ambition. Our New Method Treatment will positively cure you. It will make a man of you and life will open anew. *We guarantee to cure you or refund all money paid.* No names used without written consent. $1,000 paid for any case we take and cannot cure.

SNATCHED FROM THE GRAVE—A Warning From the Living.

Emissions Cured. "At 15 I learned a bad habit. Had losses for seven years. Tried four doctors and nerve tonics by the score, without benefit; I became a nervous wreck. A friend who had been cured by Drs. Kennedy & Kergan of a similar disease, advised me to try them. I did so, and in two months was positively cured. This was eight years ago. I am now married and have two healthy children."

C. W. LEWIS, Saginaw, Mich.

Varicocele Cured. "Varicocele, the result of early vice, made life miserable. I was weak and nervous, eyes sunken, bashful in society, hair thin, dreams and losses at night, no ambition. The "Golden Monitor" opened my eyes. The New Method Treatment of Drs. Kennedy & Kergan cured me in a few weeks." I. L. PETERSON, Ionia, Mich.

Syphilis Cured. "This terrible blood-disease was in my system for eight years. Had taken mercury for two years, but the disease returned. Eyes red, pimples and blotches on the skin, ulcers in the mouth and on tongue, bone pains, falling out of hair, weakness, etc. My brother, who had been cured of *Gleet* and *Stricture* by Drs. Kennedy & Kergan, recommended them. They cured me in a few weeks, and I thank God I consulted them. No return of the disease in six years." W. P. M., Jackson, Mich.

A Minister Speaks. The Rev. W. E. Sparks, of Detroit, says: "I know of no disease so injurious to the mind, body and soul of young men as that of Self Abuse. I have sent many victims of this lustful habit to Drs. Kennedy & Kergan for treatment. I can heartily endorse their *New Method Treatment* which cured them when all else failed."

A Doctor Recommends "I know nothing in medical science so efficient for the cure of *Syphilis* and *Sexual Diseases* as the *New Method Treatment* of Drs. Kennedy & Kergan. Many cases which had baffled scores of physicians were cured in a few weeks. I have seen this with my own eyes and know it to be a fact." T. E. ALLISON, M. D.

BIG PROFITS ON Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful Speculation in Grain, Provisions and Stock.

$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation.

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success.

ON BOARD THE MAJESTIC.

A Daily Record of a Trip Across the Atlantic on an Ocean Greyhound.

From a letter sent to his family at home by James Lowry after his arrival at Queenstown we gather a few daily items, which might be called his "log book" of the voyage. They had some rough weather a part of the way:

R. M. S. MAJESTIC, Wednesday, June 19, '95.

We sailed exactly at 2 o'clock today. The weather was very fine. Had dinner at 5 o'clock; first meal on the boat; it was very good. After dinner we received May's letter, which we were very glad to get. Luella had me read it to her several times. She began to get sea sick about 6 o'clock. Your mama and myself are all right yet. A great many are getting sick, as there is a very bad motion to the boat. We had supper at 9 o'clock, but Luella could not eat anything. Mama and she went to bed at 10 o'clock; I stayed on deck until 12:30. The evening was very pleasant.

Thursday morning, 20th.—I got up at 6 o'clock; mama got up, too, but Luella was too sick to come to the table, nor could she eat anything. Mama and I are all right this morning. We have breakfast at exactly 7:30. The weather is very nice this morning, but the sea is quite rough. Not more than half the second cabin passengers are up to breakfast. We have dinner at 12 o'clock. Mama and I are all right yet, although the ship is quite heavy. We had a very good dinner. Weather is still fine, but Luella is sick yet. She wished once that she had stayed with Mrs. VanDeventer. She is so good and so patient; she never complains, and there are plenty of ladies who offer to do anything they can for her. We have a very fine doctor on board. He called to see her today and said she was a very sweet little darling, and she thought he was nice. He gave her some medicine that he said would make her all right in a day or two. We now go to supper, as we have it at 5 o'clock. Mama and I are still ready to eat our meals, which we find are very nice. We have every kind of meat, chicken and turkey, fruits, nuts, ice cream, lettuce, etc. We get a lunch at 9 in the evening, if we wish it. It is now 9.30; mama and Luella are in bed, but I will stay up till 10.30. It is very dark and foggy at this time.

Friday morning, 21st.—I just got up; it is 6 o'clock. I did not rest very good last night as they sounded the fog horn all night. It has cleared up, so it is quite nice this morning, but the air is cold. Mama is not feeling well this morning, she could not eat; Luella is still sick, and I have to go to the dining room alone. We just came in sight of the steamer City of Paris, that left New York three hours ahead of us. It is now dinner time. Your mama and Luella don't feel well enough to come to the dining room, so I shall have to go alone. We are gaining on the City of Paris and expect to pass her before night. We have seen quite a few sailing boats since we left New York. It is now 5 o'clock. We are just up with the City of Paris; shall be out of sight of her before morning. It is supper time. Mama is up to the table, but Luella is no better; she is in bed. The weather is quite cold tonight and the sea is getting rough. I am going to bed, but don't expect to sleep much, the ship is so rocky.

Saturday, 22d.—I got up at 5 o'clock. The weather is awful cold and the sea is tremendous rough. The ship heaves and pitches terribly. Nearly everyone is sick, there is scarcely a dozen on deck. Luella is still sick; mama is not very bad, but she don't want any breakfast, so I will have to go it alone. There are very few in the dining room. It is so rough the dishes slide from the table. The sailors tell us it will be so till Sunday noon. It is now time to go to dinner. It is still rough, the ship will sometimes dive down into the sea, with her stern up in the air, and one would think that she would never get right again, but soon she will come up all right to try it again. Mama has been up to dinner, but Luella has not eaten anything since Wednesday. It is still cold and wet, the spray from the waves as they dash back and forth is like rain. It is now supper time and it is still very stormy. It has been an awful day for this season of the year. It is now 8 o'clock and we have to go to our rooms, it is so rough, but don't think we will sleep much.

Sunday morning, 23d.—Six o'clock and just got up. I am sea sick for the first time; not as bad as most of them, but sick enough so I can't eat. Mama is better, she has been to breakfast. Luella can't eat yet. It is quite calm now and promises us a nice day. Mama and I attended church service at 10:30, in the dining room, conducted by one of the officers of the ship. After church we go to dinner. The weather is clear now and the sea is quite nice. Luella is better and has taken some beef tea which was very nice. We brought her up on deck at 10 o'clock, it is so nice she can sit outside. There is another ship very close and she delights to watch it, also the fish jumping up out of the water and a great many sea birds that are flying around now. After supper we attended a very nice concert in the dining room, consisting of church hymns and hymns composed for us at sea. We enjoyed it very much and it helped to pass the time. At 10 o'clock we all retired, feeling very well indeed.

Monday, 24th.—We all got up at 6 o'clock and all felt tip top. We had all rested well. It is now very smooth sailing. Luella is feeling good today; she has eaten a good breakfast. Everyone is feeling better. The sky is clear, and it is fairly warmer, so all can be out on deck. At dinner today the seats were all filled and the people seem to have found their appetites. We have had a lovely afternoon and now all three go to supper feeling good. After supper, from 8 to 10, we attended an entertainment in the dining room, gotten up by the passengers of the second cabin, [illegible] music, recitations, speeches and comic stories. It was as good as you could get at the opera house for fifty cents. We then spent a short time on deck, the evening being very pleasant, then we went to bed and had a fair night's rest.

Tuesday, 25th.—Up at 6 o'clock. The weather very nice and sea smooth. We took a walk of an hour before breakfast, just to give us a good appetite. We have spent all the forenoon on deck, the weather being so nice and the sea so calm. Luella is feeling like herself again; she is playing around on the deck with other little girls. It is [illegible] sailed: first day, 2 o'clock till 12 next day, 369 miles; from 12 Thursday to 12 Friday, 445 miles; 12 Friday to 12 Saturday, 444 miles; 12 Saturday to 12 Sunday, 426 miles; 12 Sunday to 12 Monday, 454 miles; 12 Monday to 12 Tuesday, 452 miles, and we have 301 miles yet to make to Queenstown, which the captain says we will make by 4 o'clock Wednesday morning, where we will land.

GONE TO REST.

MRS. HANNAH M. BLOOD.

Mrs. Blood who was well known in this community and greatly beloved by all who knew her, departed this life after a brief but very painful illness, July 9, 1895.

Her maiden name was Hannah M. Stearns, daughter of Alpheus and Susan Stearns. She was born in Tecumseh, Feb. 11th, 1841, and lived with her parents until united in marriage to Charles Blood, Oct. 25, 1865. Her father died July 4th, 1886, but her mother, though advanced in age and very feeble, survives, bereft of a loving and beloved daughter. After her marriage she went with her husband to the home in which they lived for 30 years, and in which she died. Their marriage was blessed with three children, Albert, Mrs. Ina Howland, and Howard, all of whom survive to mourn the death of their dear mother. Her only brother was a soldier in the late war, but like many other brave heroes of that war, gave his life in defense of his country. Mrs. M. E. Conklin, so highly esteemed in this place, was an only sister. They were so inseparable in their life that this separation by death is sad indeed. She was converted under the ministry of Rev. E. R. Hascall, and united with the M. E. church and was ever after devoted to its interests. Possessed of a generous nature she entered heartily into the benevolent work of the church. The members of the ladies aid society will always remember her as one of their most reliable and efficient coworkers. She was a member of the Bible class and always manifested a deep interest in the study of the Sacred Scriptures. The church of her choice truly mourn her loss. She was an active member of the W. C. T. U. of which she was Corresponding Secretary. In private life the sweetness of her disposition and her peculiarly genial manner, greatly endeared her, not only to her friends but to all her acquaintances. She was truly a good woman. So bright and cheerful that the sunshine of her life was the light of her home. In her death the community in which she lived so long, feel very deeply the loss of one so generous and kind as a neighbor and friend. But the family of which she was the bright center are the most deeply afflicted. Their bereavement would be too great for them to bear if not sustained by the christian's hope. They mourn but not without hope for when their solicitude could not longer retain her, the more protecting care of their Heavenly Father took her to a Heavenly Home. She was a true and loving wife and an affectionate mother. Her precious memory will ever be a most sacred legacy to the bereaved family, and may serve to temper this their great discipline of sorrow so as to be borne by them with calmer resignation, when their aching hearts might otherwise be rebellious. How inscrutable the Providence! That one so bright and helpful to others should so suddenly drop out of life. In our short sightedness we lament her death as untimely, but in the wisdom of God there are no untimely departures. There was a completeness in her life which leaves nothing incomplete. Her funeral was held from her home, and the services were conducted by Rev. D. H. Ramsdell of Clinton, whose words of consolation and noble tribute to her Christian character were greatly appreciated by the family. Her remains were deposited in the family burial ground in the Tecumseh cemetery in the presence of relatives and friends.

JULIA JANETTE M'RAY HARDING.

Julia Janette McRay, daughter of John S. and Sarah Ann McRay, was born in Raisin, June 5th, 1844. When a young woman she gave her heart to Christ and joined the M. E. church of Tecumseh. She married Abel W. Harding, Aug. 28, 1866, and the following year her husband joined the Detroit conference, in which they served several charges faithfully. To them were born three children, two of whom, Arthur and Anna, survive, the other being buried at Marysville, on the St. Clair river. After her husband's death she was again connected with the M. E. church here. She was devoted to the church of her choice and sought to advance all its interests, being a faithful Sunday school teacher and an earnest worker in the W. F. M. S. and other church societies. She was for many years recording secretary of the W. F. M. S. of Adrian District, which office she held at the time of her death, July 12th, 1895. Her only brother, Joseph McRay, visited her during her last illness, but was unable to be present at the funeral on account of sickness. Her step-son, Rev. W. F. Harding, and wife, of Terre Haute, Ind., were present among the mourners. The funeral services were conducted by the writer, assisted by Rev. W. Q. Burnett, at the home of her son, Arthur. She was buried in the Tecumseh cemetery by the side of her husband, with the glad hope of a blissful reunion in that bright world where "there remaineth a rest for the people of God." L. BARNES.

MAHALA PADDOCK ADDIS.

Another pioneer has gone to rest. Mahala Paddock was born in Sing Sing, N. Y. Oct. 16, 1816. She came with her father's family, numbering thirteen children, to Michigan in 1836 and settled near Adrian, where she lived [illegible] Sept. 1841, when she was married to Lewis R. Addis, the remainder part of her life being spent in Raisin and Tecumseh. No children came to bless her home, so on the death of one of her sisters, Mrs. Amos Porter, they adopted her two children, Darius and Mary Porter; only Mary survived her, she being the wife of J. R. Hally. Much might be said of her generosity, but suffice it to say that she had an undying love for children and all classes of weak humanity. No one was ever turned from her door who came there in want of charity, she dividing with others that which ought to have been kept for herself. For many years she was a great sufferer from disease, but about one year and a half ago she received a severe injury from a fall, which resulted in her death July 7, 1895. Much credit is due her faithful husband, who for sixteen months never left her bed-side for a day. M. A. H.

Resolutions of Respect.

The death of Mrs. Hannah Blood calls the Women's Christian Temperance Union to mourn the loss of another earnest worker, promoted to the Heavenly hights. Her cheery hopefulness, her ready willingness to lend a hand, combined with her generous warm-hearted impulses was an inspiration to us. Our memories of her will be ever precious and sweet. Her influence is with us still; she has only gone on ahead and will help us from the other shore.

RESOLVED: That the sympathy of the Union be extended to the bereaved family and friends whom we commend to Him who saith "I will not leave you comfortless.

MRS. DELIA JONES,
MRS. N. N. FOWLER,
Committee.

Card of Thanks.

We, the family of Mrs. J. J. Harding, wish hereby to express our sincere thanks to the many friends who have so kindly assisted us during the sickness in the family and the burial of our mother.

MR. & MRS. A. B. HARDING,
MISS ANNA M. HARDING.
MR. & MRS. WM. F. HARDING.

We wish to return heartfelt thanks to kind friends who sympathized with us during the sickness and burial of our beloved father.

Another sure defense against the pestilential mosquito: Lay in a stock of castor oil plants. In towns the young plants can always be had in pots and they can be placed about the house for a day or two. After that they must be put out into the air, for the plant loves the sun. But with two sets of pots, one for service within doors and the other recovering, the plan can be worked perfectly.

Henry C. Smith returned from Sand lake to-day for a much needed rest. He will suggest to the next state legislature that instead of a hanging law for murderers they be banished to Sand lake. While there he was obliged to ware white duck trousers rolled up at the bottoms, patent leather shoes, a blue reefer jacket, and a dude straw hat with a cord attached to it. He accidentally ran across a country client there and the first thing he did when he got back to his office was to scratch that man's name off his books.—Evening Telegram.

LOCAL AND PERSONAL.

Bicycle Day, July 25th.

Remember the trotting matinee tomorrow.

Eugene Brown has gone to Dundee to visit relatives.

This protracted drought is injuring all kinds of crops very badly.

A new side walk has been laid in front of Mrs. C. M. Tilton's residence.

The residence of D. A. Downer of Clinton was destroyed by fire last Monday.

W. W. Mills has engaged Mr. Caligan to put a cement walk in front of his business block.

Mrs. B. J. Bidwell is putting a new roof and making other improvements on her dwelling house.

C. B. Park of Adrian has a new card this week. It is short and sweet, but contains valuable information.

The Mackinaw is having a big run of passenger travel between Toledo and Devil's Lake this season.

About twenty delegates from Lenawee County attend the B. Y. P. U. convention at Baltimore this week.

The Jackson Patriot has lately introduced a Thorne type setting machine and it is said to work like a charm.

The Caligan Cement walks are all the rage now. Several parties are going to put it in front of their residences.

Will Odion and Cliff Millis took a bicycle cuit on their wheels Sunday, embracing Blissfield, Palmyra, Adrian and Tipton.

The wheat yield in this vicinity is not one half a full crop. But the quality is extra, much above the average.

Mrs. James Winans and her two daughters of Toledo are spending the present week with her father, Hon. B. Baxter.

The official prize list of the Bicycle meet, to come off July 25th, is published in full on another page. It is a good program of prizes.

The entries for the races tomorrow are coming in lively. The first race will be called promptly at one o'clock, as the program will be a lengthy one.

We take pleasure this week in presenting to our readers a section of Miss Lowry's first letter to friends at home, written on the steamship Majestic.

Mrs. F. J. Temple is spending the present week with her parents at La Salle. In the meantime Frank is putting in most of his time in Ridgeway arranging the goods in the new branch dry goods store of Orr & Temple.

The State Bicycle meet comes off at Battle Creek next week, July 23d and 24th. Many of the expert wheelmen of the country will attend that meet and come from there directly to our meet on the 25th.

Rev. H. A. Smith and family took their departure Tuesday for Bay City, their future home. Their many friends in Tecumseh will sincerely regret their departure. Mr. Smith's abilities as a pulpit orator will have a larger field in which to display themselves and he will doubtless make his mark in that thriving city.

The M. E. Church was filled to repletion last Sabbath morning with a congregation representing every church in town, drawn there to listen to Walter Burnett's first sermon in Tecumseh. It is no flattery to say that he made a most favorable impression upon the audience. He spoke without notes, but his sermon had been carefully prepared and digested beforehand, and it was eloquently delivered. At the close of the services he was warmly congratulated by many of his auditors. Mr. Burnett inherits his father's aptitude for preaching, and he will surely make his mark in the ministry.

Grand Celebration and Bicycle Races at Tecumseh, Thursday, July 25th. $750 in prizes.

Bicycle Day, July 25th.

M. P. Wemple, of Onsted, was in town yesterday.

The big day this year in Tecumseh will fall on the 25th.

Mrs. Dr. Jones is visiting friends at Brooklyn this week.

Orr & Temple opened their new drug store at Ridgeway yesterday.

"Happy Holloway" has been sorely afflicted by the fire fiend this week.

W. J. Arnold has connected his bakery building with the water works.

Read the prize list for the Bicycle races on the 25th and then sail in.

Sid Black, the champion trick cyclist of America, will be here on the 25th.

Bigger, better and cheaper than Barnum's—Tecumseh's first Derby Day.

A Bargain for somebody, in a Lady's High Grade Wheel. Ask F. Rosacrans.

Fires in the pastures about Holloway have been raging for two or three days.

Make your homes and places of business gay with flags and bunting next Thursday.

Everything free next Thursday, except admission to the track and that is only a silver quarter.

Leon McNeil, who has a position in Finch's printing office at Adrian, is home this week on a vacation.

A movement is on foot among the merchants to close their establishments during the track races in the afternoon.

Clinton, Tipton, Macon, Ridgeway, Adrian and Britton will all be here on the twenty-fifth. Don't neglect to come.

Sid Black, the champion trick Cyclist of America, will surely be here on the 25th and give an exhibition of his skill.

Miss Minnie Ross and friend, Miss Myrtle Reynolds, of Chicago, are the guests of the former's parents, Mr. and Mrs. Wm. Ross.

Barnum's show at Adrian last week drew a big crowd from all sections of the county. It is wonderful how many Tecumseh people had business in Adrian on that day.

In the absence of other services on Sunday evening the Baptist Young People's Union have prepared a musical and literary program to which all are invited to listen.

Communion services will be held at the Presbyterian church next Sunday morning. In place of the usual evening service the Pastor will speak of the C. E. convention at Boston to which he was a delegate.

Rev. W. F. Harding and wife, of Terre Haute, Ind., were here over Sunday, having been called here to attend the funeral of his mother. They left Monday for Hackley Park, where Mr. Harding has work connected with the Assembly.

The Maacabee Lodges of the County will hold their Annual Picnic at Pleasant Grove, Devils Lake, on Friday of next week, July 26th. A fine program has been arranged and preparations are being made to accommodate a large crowd.

Will Spalding is putting the roof on the new block at Clinton and also fitting all three stores with a metal ceiling. It is a big job altogether and will consume about three weeks' time. The contractors know where to look for first class work in that line.

The large Annual Farmer's Picnic will be held at Wells's Wampler Lake Summer Resort on Friday, Aug. 2nd. Rev. D. R. Shier will deliver an address. There will be races and other sports during the day and a dance in the evening. Music by Tipton band.

Give your son or daughter an equal chance with others. An education will give them a social position and influence and make them independent in earning a living. The Fayette Normal University with its moral influence and excellent instruction has prepared many a young man and woman for a higher life. Send to Pres. J. E. Dodds for catalogue.

If you wish to increase your salary as a teacher, to gain a good literary education, or to take a course in Business, Elocution, Music, Art, Penmanship, Shorthand, or Typewriting, the Fayette Normal University of Fayette, O., is a good school to select. If you wish to attend a vigorous, progressive, growing, popular institution, enter for the Fall Term beginning Aug. 27.

The number of the Victor bicycle, stolen Sunday evening from Major Howell, is thought to be 35,569, but as he made a change in wheels shortly after purchasing of the dealer, here, it is possible that the number may be 35,701. It is one of the two numbers, and if anyone should come across a model D Victor, bearing either of the above numbers, they will be rewarded by Sheriff Wilson for any information regarding it.—Evening Telegram.

The fine new pole erected and side walks laid about the school grounds in Macon village, displayed the true spirit of patriotism on the 4th of July, where was carried out a fine program prepared by the W. C. T. U., which was ably presided over by their worthy President, Mrs. Myra Camburn. The songs, recitations and remarks were all good. The grand oration delivered by the Rev. James Hageman was a credit to himself, and an honor to the W. C. T. U. It is estimated that there were some 700 people on and about the premises during the exercises.

Grand Celebration and Bicycle Races at Tecumseh, Thursday, July 25th. $750 in prizes.

Bicycle Day, July 25th.

All kinds of fun at Tecumseh next Thursday.

There will be a skating party at Wells's Wampler Lake Summer Resort to-morrow evening, June 20. Music by Clinton band.

Don't forget the ten mile crackajack road race next Thursday. The start and finish will be in plain view on Chicago Street.

The corner stone of the new Reformed church at Macon village will be laid with appropriate ceremony next Tuesday afternoon at two o'clock.

D. P. Anthony has traded his Raisin farm to Lucius Lilley for a farm near Grand Rapids. Mr. Anthony will take up his residence in this village.

Fires are of very frequent occurence along the Mackinaw road, even within the village limits, and people are frequently called from their work to fight fire.

The best Class A. riders in this State, N. Y., Ohio, Indiana and Canada will compete next Thursday for the splendid prizes hung up by the Tecumseh Bicycle Association.

Several of our wheelmen will ride to Battle Creek to take in the state bicycle meet the first of the week. They will start from the Lilley House at 3 a. m. Sunday morning.

Clayton Ellis has just purchased of C. A. Slayton one of the latest improved Advance Threshers with a wind stacker. With this device no men are required on the stack.

Don't fail to see the splendid premiums offered next Thursday's race winners. Diamonds, watches, bicycle, and bicycle sundries are now on exhibition in Spayde's big corner store.

The Woman's Christian Temperance Union will hold a Wheel social in the Baptist Church parlors Tuesday evening July 30th. Supper tickets 10c Ice Cream and Cake 10c. Everybody come and see the wheels go around.

A meeting was held at the Presbyterian church last Monday evening to devise some means to stop the selling of liquor in Tecumseh on Sunday. A committee was appointed to circulate a petition. This will be an innocent pastime for the committee. The best way to enforce the law, men and brethren, is to enforce it.

Wednesday the dough mixers attempted to grind up the dusty millers on the diamond, but since the raise in wheat the stone peckers have been mixing sweepings with the patent and the oven coolers found their cake all dough. Geo. Beneway is a regular cistern in the field and his efforts probably saved the day for his brethren.

Last Tuesday night fire broke out in Metcalf's dry goods store in Adrian and though the flames were kept under control, the $50,000 stock was nearly ruined. Mr. Metcalf was rusticating at Devil's Lake Hotel at the time, his vacation there being cut short by the news of his loss. The fire was probably caused by spontaneous combustion.

David S. Goodrich, of Clinton, died at the home of his parents, Wednesday evening after suffering from spinal trouble for over two years. Funeral will be conducted by Clinton Lodge F. & A. M. by request of Palestine Lodge No. 357 of Detroit Mich, he being a member of that body. Funeral will be held at Congregational church at 3:30 P. M. Sunday afternoon. Tecumseh and Manchester Brothers are requested to be present.

Mr. and Mrs. Will Muir, of Clinton, were in town Tuesday.

Remember to see the ladies race at the matinee tomorrow.

Mr. and Mrs. Geo. Heesen have returned from their visit in Illinois.

Miss Margaret Knapp, of Adrian, is spending a week with Miss Inez Thorpe.

Down go the prices on meat. If you doubt it, read Wolc Marsh's new card.

Miss Flora B. McKee is spending her summer vacation with her sister, Mrs. Geo. J. Benedict.

Wm. Hayden and S. P. Hosmer are enjoying a trip around the lakes as the guests of Capt. Chilson.

I. S. Osborn, of Eddy, N. M., arrived in town Wednesday and will spend two or three weeks in this vicinity.

Rev. S. V. McKee, of Remington, Ind., is spending a few days with his daughter, Mrs. Geo. J. Benedict, while on his way to Detroit.

The new awnings in front of the HERALD office were put up by J. M. Ingersoll, who is agent for an Adrian firm. It is an extra good job and will fill a long felt want.

Mrs. E. M. Crowell, of Cleveland, and her mother, Mrs. Wm. Bresle, are spending a couple of weeks with friends in Tecumseh. Mrs. Crowell's sons, Jack and Mort, accompany the party.

The merchants of Tecumseh are talking of closing their places of business on bicycle day from 1:30 to 6:00 P. M. during the track races. This is the proper thing to do under the circumstances.

Rev. Wm. F. Harding has entire charge of the "Round Table" work at Hackley Park Assembly this season. The Assembly will open tomorrow, July 20th, and close Sunday, Aug. 4th. Daily programs will be given and he is on the program nearly every day.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

SIX MEN PERISH IN FLAMES.

Sleeping Employes Burned to Death in a Livery Stable.

DETROIT, July 13.—Six employes perished in the flames which destroyed the livery stable of G. F. Case, No. 41 West Congress street, early Wednesday morning. The fire was discovered at 2 o'clock. All of the employes were lodged and fed in the building. On the fourth floor were sleeping accommodations for twenty-five men. How many occupied beds is not definitely known, but five horribly burned and charred bodies are now at the morgue awaiting burial, and one other person is missing. There were many narrow escapes and heroic rescues by the firemen and police. The following are the victims:

John Shaw, driver, 35 years old; came from Canada some time ago.

John Bowman, second cook, aged 20; formerly of Bay City.

Thomas Webb, painter, aged 35; came here from London, Ont., where he leaves a widow and a son in this city.

Edward Hughes, hostler, aged 13 years, of

James R. Shaw, harness, aged 27; has relatives at Caledonia, Ont.

Charles Davis, barnman; missing.

There were about eighty horses stabled in the basement, all of which were got out with the exception of O. A. Graves' Ethel G., valued at $1,000, and 'Little Mac, the pacer, valued at $3,500. Many vehicles of all descriptions, together with harnesses and other livery appointments, were destroyed.

James Cummings, aged 18, a stableman, reached a window on the top story, but was overcome by the smoke and flames and fell headlong through the window to the street. He was badly injured and may die.

The later estimates of the loss place it at $100,000, with insurance of about $4,500.

REMAINS IN A BOX.

Found Floating Near Algona and Believed to Indicate a Murder.

ALGONA, July 16.—A box containing part of a human body was found in Mitchell's bay Monday, and everything indicates that a murder was committed. The body had been hewed in two just below the ribs, and the chest, head and arms are missing. The remains were carefully packed and the box securely nailed. There is no way of identifying the body, and the case is a complete mystery.

BADLY DAMAGED.

Frosts and Drought Cost Michigan Fruit Growers $200,000.

GRAND HAVEN, Mich., July 17.—A fruit man estimates the damage to fruit and vegetables from the late spring frosts and the terrible drought that at present prevails at $200,000, within a radius of 5 miles from Grand Haven. The total rainfall for the past two months has been less than ½ inch.

A Steamer Sunk.

SAULT STE. MARIE, Mich., July 17.—The steamer Nyanza, upbound with coal, collided Tuesday morning with the Northern liner Northern King, downward bound with merchandise, in a fog at the foot of Sugar island, in St. Mary's river. The Nyanza was cut down and sank in shoal water. The Northern King was apparently uninjured. The Nyanza was valued at $110,000 and owned by the McBrier syndicate of Erie, Pa.

Thirteen Years in Prison.

DETROIT, July 15.—John Fasbender was sentenced to thirteen years in Jackson prison at hard labor in the recorder's court Saturday. His crime was manslaughter. He was the leader of a group of young men who, December 23 last, assaulted Emil Noseck and literally kicked him to death in a drunken fracas. Max Detlof is yet to be tried on the same charge.

Michigan Wheel Record Broken.

MENOMINEE, July 15.—J. A. Sandburg, of this city, rode 1 mile in 2:13 3-5, beating the track record by 2 2-5 seconds. This is the fastest mile ever pedaled north of Milwaukee. He also rode 5 miles, paced, on the Marinette track in 12:29, beating the state record by 33 seconds. Both exhibitions were on a sandy turn.

Will Remodel the Russell House.

DETROIT, July 16.—L. A. McCready who for twenty-five years has held positions from clerk to proprietor of the Russell house, at one time the leading hotel in this city, has disposed of his interest in the venture to W. H. Crittenden, his partner. The latter will remodel the hotel.

St. Joe Street Railway Sold.

ST. JOSEPH, July 13.—The St. Joseph & Lake Shore Street railway was sold at execution sale Friday to St. Joseph & Benton Harbor Electric Street Railway company for $306 above the many judgments. There is 3 miles of the road, and it will be equipped with electricity.

A Boy Drowned.

NILES, July 12.—Carl, the 7-year-old son of Lyman Topping, accidentally fell into the St. Joseph river and was drowned. A brother two years older made an effort to rescue his younger brother and but for assistance arriving in time would have lost his life in the attempt.

Michigan Peaches on the Market.

ST. JOSEPH, July 16.—The first peaches shipped from this port this year were sent to Chicago Monday afternoon by F. W. Borge. They were grown on high land and are very large and plump for early peaches. The later ones will not be so fine on account of the dry weather.

Fire in Jackson.

JACKSON, July 16.—Fire started in the storeroom for raw material in the Jackson Paper company's plant at 6 o'clock Monday night. It was four hours before the department extinguished the fire in the bales of old rags and papers. Loss, $12,000; fully insured.

Mother Dead, Babe Asleep.

TRAVERSE CITY, Mich., July 15.—Mrs. John Cooper, aged 35, was found dead in her rocking chair Saturday morning. She had a child in her arms, which was asleep.

THOUSANDS QUIT.

Big Strike for Higher Pay in Upper Peninsula Mines.

ISHPEMING, July 16.—All of the men employed at the mines of Negaunee, about 5,000 in number, went out on a strike Monday morning, their demand for an advance in pay having been refused by the companies, and a general walk-out at the mines in both cities is now certain. The men have been dissatisfied for some time past, and many of them are determined and may remain out some time. The Negaunee miners have asked for an advance of 10 cents a car on the contract price, while the trimmers and laborers want an advance of about 15 per cent.

ISHPEMING, Mich., July 17.—Every iron ore mine in Michigan and Negaunee was idle Tuesday morning, about 3,000 men being out. The Negaunee miners forced out the Ishpeming, Lake Superior, Salisbury and Lake Angeline miners Monday night. Tuesday morning the miners employed at Section No. 21 mine of the Lake Superior Iron company, located 2 miles south of Ishpeming, walked out. A mass meeting of Negaunee and Ishpeming miners was held Tuesday and by vote it was decided to remain out until the mining companies advanced the pay of the miners to two dollars per day and laborers to $1.75.

MARQUETTE, Mich., July 16.—The strike of iron miners is general, involving every mine on the Marquette range, and the movement of ore from the mines to Marquette and Escanaba has been stopped pending a settlement, for which at present there is slight prospect, as both sides appear determined to hold out. About 4,000 men are out. No disturbance is yet reported.

SENTENCED.

William Brusseau, Accomplice of a Murderess, Is Sent to Prison.

DETROIT, Mich., July 18.—The case of William Brusseau, the paramour of Mrs. Nellie Pope, who murdered the woman's husband, Dr. Horace Eliot Pope, last February at her instigation, was brought up in the recorder's court Tuesday morning. Brusseau pleaded guilty and was sentenced to twenty five years imprisonment in state prison at Jackson.

Big Shipments of Iron Ore.

ESCANABA, July 15.—The shipments of iron ore from the mines on the Menominee, Marquette and Gogebic ranges are now very much larger than at any time since 1892, when over 4,000,000 tons passed through this port. The weekly shipments now aggregate 125,000 tons, and it is claimed by those who are in a position to know that that pace will be kept up during the balance of the season.

Farmers to Try Irrigation.

BENTON HARBOR, July 13.—Farmers in the neighborhood of Fairplain, 3 miles east of this city, are forming a company for the purpose of irrigating their farms. It is proposed to use a thirty horse-power gasoline engine and force the water from the St. Joseph all through Fairplain. The unusually dry weather has convinced the farmers that irrigation is necessary to save crops.

College Lands to Be Sold.

LANSING, July 16.—Land Commissioner French has decided to place the agricultural college lands ordered sold by the legislature on the market at once. Those at Grand Traverse and Manistee counties, amounting to 1,500 acres and valued at from $5 to $12 per acre, will go first, the date set being August 15. The sale will be conducted at the office of the land commissioner.

Second Trial Successful.

OWOSSO, July 16.—Because Anna Smith's mother refused her consent to her wedding John Samuelson, the latter took a dose of morphine Saturday, but doctors saved his life. Monday morning he swallowed some rat poison and died.

Escaped Prisoner Recaptured.

JACKSON, July 16.—Charles H. Keehn, who escaped from Jackson prison October 29, 1891, has been captured at Lamar, Mo. Keehn was sentenced in 1889 from Muskegon for fifteen years for robbery.

SWEPT BY FLAMES.

Vast Area of Northern Michigan Suffers from Forest Fires.

The Town of Wallin Destroyed—Heroic Rescuers Save the Inhabitants from an Awful Death—Much Damage Is Done.

THOMPSONVILLE, July 12.—For some days past forest fires have been raging in the timber about Wallin and in this vicinity. There being no fire protection, the strong winds drove the flames into the lumber settlement, wiping out every building. Hardly any of the household effects were saved, many of the inhabitants barely escaping with their lives. Some of the men, exhausted from fighting fire, fell fainting while trying to save their property and had to be carried to places of safety. The principal business of the town was lumber, and that industry is at a standstill by the burning of the big mill.

Thomas McClusky, of the Traverse City division of the Chicago & West Michigan railroad, with a work train and fifteen men, was fighting fire at Interlochen. He at once started in to save a bridge at Wallin belonging to the road. Fire was raging on both sides of the road and leaping from treetop to treetop overhead. The men were obliged to lie down, flat and push the car in under the flames. They supposed if any were left in the village they must be dead, but to their surprise found all the twenty-two families in the midst of the flames. Four of them had buried themselves in the banks of the Betsy river. One woman, whose husband was away from home, had dug a hole in a potato patch near the house, buried her three children, one a babe 8 weeks old, and herself, covering all with wet blankets. When the trainmen reached them the topmost blanket was burning. One old lady refused to leave her belongings to burn, and had to be carried out by force. No lives were lost. Some of the rescued party were badly burned. But for the heroism of Superintendent McClusky and the men under his orders the loss of life would have been large.

THOMPSONVILLE, July 15.—In all of the churches in this part of the state rain was prayed for Sunday. Showers are needed badly to extinguish the forest fires and to revive the withering crops, but the sky gives no signs of immediate answer to the petitions.

PETOSKEY, Mich., July 16.—Rain fell Sunday night and forest fires have gone down some and telegraphic communications are being restored. All day Sunday the smoke was very dense over Petoskey and settled like a thick fog. Monday morning the skies were clear and the weather was very pleasant.

MIDLAND, Mich., July 16.—A soaking rain visited this section of the state Sunday night, checking the forest fires. The settlers at Hubbard are out of danger for the time being.

DETROIT, Mich., July 16.—Heavy rains have effectually extinguished all the forest fires in the state and farmers are jubilant over the benefit which the crops will receive, as this is the first general rain in six weeks. Settlers at Wallin and Clary have begun to return to their destroyed homes and will make another attempt to establish themselves.

THREE LIVES LOST.

A Yacht Capsizes Off South Haven, Mich.—No One Saved.

SOUTH HAVEN, Mich., July 15.—The yacht Arctic, built by Coates & Stillson for H. S. Titsworth, launched last Tuesday, started for Saugatuck Sunday with the owner and builders and capsized about 2 miles out, sinking at once. The life-saving crew found only a cap. The victims are Messrs. Coates and Stillson, builders of the yacht, and H. S. Titsworth, the owner of the ill-fated craft. All were married and leave families.

Dr. Seaman Found Guilty.

DETROIT, Mich., July 15.—The jury in the Dr. Seaman case, after being out all day, reached a verdict about 9 o'clock Saturday night. Judge Chapin was out of the city and it was impossible to learn the verdict until Judge Chambers came into court at 12:45 a. m. and received the verdict, which was guilty on the third count. Dr. Seaman was charged with causing the death of Emily Hall in a hospital in this city.

Railroad Sold.

GRAND RAPIDS, July 13.—The Escanaba, Frankfort & Northeastern railroad, which was sold a month ago to eastern parties for $100,000 under mortgage, has been sold to the reorganization committee of the Toledo, Ann Arbor & Northern railroad for $210,000, and will be operated as a part of the Ann Arbor system. The purchase price was paid in cash.

Adrian Visited by Fire.

ADRIAN, July 17.—Fire was discovered in the basement of Metcalf's large dry goods store at 10 o'clock Tuesday evening. The entire stock will be ruined by smoke and water. The stock is the largest carried in the city and the loss will be $30,000.

When a Woman Proposes to wash clothes without Pearline, her husband or her employer ought to interfere. She is not only wearing out her health and strength with useless rubbing and scrubbing, she is wearing out the clothes with it, too. This rub, rub, rub isn't needed. Put Pearline into the water, and you'll find half the work done the time you are ready to begin, It's Pearline that cleans the dirt and does the work—not you with your knuckboard. Just a little rinsing, and it's all over.

EPWORAH LEAGUE.

Lesson For the Week Beginning July 21. Comment by Rev. W. J. Yates, A. M. Topic, Stilling the Tempest.

SCRIPTURE READING.—Math. viii, 23-27; Mark iv, 37-41; Luke viii, 22-25.

In relating this incident in the life and ministry of Jesus the three evangelists vary as to the order of events. Matthew, after giving the Sermon on the Mount to show the teaching of the Lord, introduces ten wonderful works to show his power over disease, demons and powers of nature. Among these is the quieting the storm on the lake.

Opposition to Christ had begun to show itself among the Pharisees and scribes. To meet this he teaches in parables. After a day of much mental and spiritual tension in speaking to the great crowds which had gathered, the people possessed with demons were brought forth by friends into the streets of Capernaum and he healed them. Tired with incessant labor and pressed by growing enmity among the influential, he enters a boat with his disciples to cross the Lake Gennesaret. One of the sudden tempests to which that body of water is peculiarly liable strikes down the mountain gorges and lashes its surface into foam. The peril is as great as it is sudden. These hardy fishermen, acquainted with the lake from boyhood, knowing its moods and used to its navigation in storm and calm, find their craft unmanageable, rapidly filling and in danger of sinking. They lose control of themselves as well as of their craft. In the after part of the boat, with head pillowed on the steersman's leather cushion, lies the Master soundly sleeping amid all the turmoil. To him they turn in their fear. Undefined faith in his wondrous power struggles with scarcely concealed irritation at his calm indifference in sleeping in such a time.

Great as is their perplexity before, greater still is their astonishment when aroused by their cries he arouses, rises and speaks in tones of command to waves and winds. Suddenly as the tempest struck the water, more quickly does it subside and deep calm falls. In gentle rebuke he shows them their lack of faith.

This lesson, in connection with the nine other miracles described by Matthew, teaches most impressively that power in the natural world is under the direct control of the Lord, and that our lives are at all times precious in his sight. We should rest without undue anxiety but, trustingly, in his watchful care and protection. We are to commit all our cares and ways unto him, knowing that he careth for us.

The First Methodist Episcopal Bishop.

The first regularly ordained American bishop of any church was Thomas Coke, LL. D. He was born in Wales in 1747, educated at Jesus college, Oxford, England, and became a minister of the English church. In 1776 he joined Mr. Wesley and became prominent and influential among the Methodists. In 1784 he was ordained by John Wesley as superintendent of the Methodists in America, in the English form of consecrating bishops. Coming to America, he was elected as their bishop by the assembled Methodist preachers at Baltimore Dec.

DR. COKE.

24 of the same year. Francis Asbury was also elected to the same office and ordained by Bishop Coke. The needs of the work in England did not permit the latter to continue long in this country, nor did he exercise episcopal functions when absent from America. He was a tireless worker and deeply interested in missionary effort. He established the missions in the West Indies, which largely prepared the way for the after emancipation of the slaves there.

A man of considerable wealth, he devoted it all to advancing the cause of Christ. He assumed the expense of founding missions in India to the amount of $30,000 and died at sea on his way there, in company with six other preachers, in 1814.

Past but Not Perished.

The three great conventions of the Methodist League at Chattanooga, Baptist union at Baltimore and Christian Endeavor at Boston have met, done their work and adjourned, but the influence of these immense gatherings has but begun to be felt. After the season of vacation is past and the local societies get together for work once more the result of all the planning, speaking, praying, singing and shouting will begin to appear in better service and deeper consecration in a thousand lines of effort. Money and toil were not wasted.

The League in Camp.

Camp meetings have become greatly modified in character during the last few years. One of the new features is the League day and various forms of Bible conferences. Much good results from these gatherings. New ideas are gained, zeal is quickened and devotion deepened. Recreation of spirit, mind and body results from such gatherings.

A Sign of Peace

is the downcome of war time prices.

The during-the-war price of baking powder was 45 to 50 cents a pound. Cream of tartar was then 49 cents a pound, soda, 6 cents. Cream of tarter is now 18 cents, soda, less than 2½ cents.

Still the would-be monopolists want the same "war" prices (45 to 50c. a pound) for their products.

CALUMET Baking Powder

is sold at a "peace price"—brings peace to homes where the high priced baking powders have been breeding dyspepsia and disagreement.

$1,000 to you if you find Calumet isn't perfectly pure. A pinch of it has power enough to do a pound of leavening.

Church Resolutions vs. The Saloon Resolution.

BY JOHN G. WOOLEY.

Extracts from a speech delivered in Boston before the Convention of the United Societies of Christian Endeavor, July 11, 1895.

The bewildering paradox of the Christian reformer, in these days, is that he must speak of politics without mentioning politics, unless, indeed, he feel constrained to say something contemptuous of the only political party that stands for the only political thing that the Church politically, stands for. You smile, but that is the indispensable condition of commanding the cordial attention of that touchy fugitive from divine justice that goes by the alias of "Christian Public Sentiment." I refuse to try to do it. I should despise myself for such capacity of shrinkage in my manhood as would fit me to scull an argument along the devious larvae-breeding lagoons that go by the name of "policy."

Away back at the sky line of history, limned in heroic outline on the flushing East of legendary time, whoever looks may see a glorious crank or, in theological language, a minor prophet. And like a bugle blast of some blenched and horror stricken but unflinching Titan, sounding a challenge to perdition's envoy extraordinary and minister plenipotentiary, his voice splits the great deep of twenty-five centuries of cruelty as rapiers of lightning flash through summer clouds, and scandalizes the 'good form' of decorous and perfunctory Hebraism, hallowing, "Woe unto them that supply drink to other men!"

Voices of his critics do not survive, but doubtless, prude "per diem" orthodoxy shrunk aghast into its gabardine and said, "this Prohibitionist is a nuisance and seditionary. You cannot make men sober by law, statutes should never be in advance of public sentiment. That was the blunder of the Golden Rule, the weakness of the decalogue, the farce of Sinai. I am as good a Prohibitionist as he is but not third party. He is throwing his influence away. He is setting the cause back twenty years. He wants an office. He is a sore head. He is in it for money. He is paid by Babylonish gold. The best we can do now is to work vice on shares and confine it to the tenement districts. Why does he not content himself with scotching sin in general, or tweaking the nose of heterodoxy as the major prophets did. Noah made wine and so did David. Solomon said 'Wine is a mocker, a thing for medicine and pudding. Let this upstart fanatic stick to that, or hold his peace!"

But he said, "There is no muzzle in Palestine that will stop my mouth. I will wear no armour that does not fit me, I will worship no book nor retrogress to any other man's ideal: I refuse to be careful for anything, but in everything, by prayer and thanksgiving, let my wants be made known unto God; I will stand upon my watch tower and see what He will say unto me."

So I, least of the prophets of the great reform, a fugitive from the black galleys of the pirate ship of drink's despair, with the purple welts of a thousand whippings on my heart and whom it is as lawful for any drink-seller to entrap and damn, as it is to kill a rat, have come again, dead spent with tolling up and down the land, to tell you, in the name of the transcendant citizen who threw his vote away on Calvary, what God has been saying to me in the swish of cat-o'-nine-tails of the two hundred and fifty thousand licensed bastinadoes in this Christian land. Expect no soft sheeny sentences from me to-night. Let no sleek politic doctrinaire admonish me to be careful. The white faces of my dead father and mother came to me this morning before the dawn and said, "Get up and curse the saloon!" O friends, O father, O mother, O graves of my dead, O my country, O Heaven, O God, hear me! If I held here in a crucible, while hot, the most scalding, corroding and consummate curse of God I would pour it out upon the liquor traffic with a steady hand!

But stop! Who knows how far that curse would burn its way? Who is it, in the great white dominion and in these states, that keeps the drink on sale?

I have no word to utter here against the distiller, the brewer or drink-seller. The public virtue was for sale, they bought it at its own price, and paid for it in hard cash, bloody dimes wrung from the hands of folly, poverty and toil, and while they own it they have a right to enjoy and profit by the usufruct. My voice is to the voting church. "Awake, thou that sleepest, arise from the dead, and Christ shall give thee light. Awake, awake, put on thy strength, O arm of the Lord. Put on thy beautiful garments, O Jerusalem. Shake thyself from the dust. Arise, loose thyself, O captive daughter of Zion, for ye have sold yourselves for naught, and ye shall be redeemed without money!"

COUNCIL PROCEEDINGS.

Village of Tecumseh, Mich.
Council Chamber, June 7th, 1895.

Special session called to receive report of special bridge committee and to examine plans and specifications for bridge and masonry over Raisin River in Brownville.

Special bridge committee reported that nine bridge companies had presented plans and proposals for steel bridge, two with stone work and one bid on stone work alone. The following were the proposals of the different companies: Mensing & Co., Toledo, Ohio, bridge and stone work, $3,300.00; King Bridge Co., Cleveland, Ohio, bridge, $1,570.00, stone work, $1,510.00; Iron Substructure Co., Columbus, Ohio, bridge, $1,505.00; Wrought Iron Bridge Co., Canton, Ohio, bridge, $1,440.00; Toledo Bridge Co., Toledo, Ohio, bridge, $1,403.35; LaFayette Bridge Co., LaFayette, Ind., bridge, $1,398.00; Massillon Bridge Co., Massillon, Ohio, bridge, $1,360.00; Columbus Bridge Co., Columbus Bridge Co., Columbus, Ohio, bridge, $1,360.00; Detroit Bridge Iron Works, Detroit, Mich., truss, $1,350.00, plate girder, $1,490.00; Lowry & Mitchell, Tecumseh, Mich., stone work, $1,800.00.

Committee reported that they had heard a representative from each of the above companies, had examined and compared plans and specifications and had selected two styles of bridges to submit to the council for their adoption. Said plans and proposals consisted of those of the Columbus Bridge Co., of Columbus, Ohio, being an all steel low truss bridge, price $1,360.00; the other that of the Detroit Bridge and Iron Works, of Detroit, Mich., being a steel plate girder, price $1,490.00.

Mr. Hilton, representing the Detroit Bridge and Iron Works, of Detroit, Mich., and Mr. Jennison, representing the Columbus Bridge Co., of Columbus, Ohio, addressed the council as to the merits of their respective bridges.

A vote being taken as to whether a plate girder or truss bridge should be adopted, resulted in five ballots for the truss bridge.

Moved by Trustee Boyd that a contract be entered into with the Columbus Bridge company for a low truss steel bridge, according to the plans and specifications presented, for the sum of $1,360.00 and that the president and clerk enter into such contract in behalf of the village. Supported by Trustee Hall. Yeas: Trustees Boyd, Heesen, Hall, Smith and Wright. Yeas five, nays none.

Moved and supported that proposal of Lowry and Mitchell for building stone abutments, for the sum of $1,800.00 be accepted and that president and clerk enter into contract for building the same. Contractors to furnish bonds in the sum of $2,000.00 with three sureties. Yeas: Trustees Boyd, Heesen, Hall, Smith and Wright. Nays, none.

Moved and supported that clerk be instructed to draw his orders in such sums and at such times as special bridge committee shall direct, for advance money on contract for stone work. Carried.

Council then adjourned.

W. J. INGERSOLL,
Village Clerk.

Village of Tecumseh, Mich.
Council Chamber, July 1st, 1895.

Regular session. Entire council present except Trustee Hall. Minutes of last regular meeting read and approved. Minutes of special session of June 20th, 1895, read and approved.

REPORTS OF COMMITTEES.

Chairman of special bridge committee reported that contracts had been made with the Columbus Bridge Co., for bridge and with Lowry & Mitchell for the stone work. Bond of same, in the sum of $2,000.00, with C. A. Slayton, W. J. Arnold, James Elliott and Alex. Richards, as sureties, presented and approved. Report accepted and adopted.

Chairman of committee on electric lighting reported that committee had located nine additional arc lamps at the intersections of the following streets:—Maumee and Cummins, Cummins and Union, Kilbuck and Adrian, Adrian and Chicago, Division and Logan, Bidwell and Pearl, Maumee and James, Maumee and Brown, one on Brown street east of L. S. & M. S. railroad track, also that arc lamp on Mill street, opposite residence of David VanTyne had been removed south opposite Spalding's green house: Moved that report of committee be approved and that location of lamps be adopted, supported, carried.

REPORTS OF OFFICERS.

Sexton's report for June, presented, showing one adult interment and $10.00 collected as interment fee. Accepted and ordered placed on file.

Street commissioner's report for June presented, showing fire team labor 22 days, hand labor 44 days and 8½ hours, hired team labor 7 days. Accepted and ordered filed.

NEW BUSINESS.

The following bills were reported by the clerk and referred to the finance committee: S. C. Stacy, printing, $7.16; C. F. Field, printing, $4.38; W. J. Ingersoll, clerk, $50.86; Tecumseh Electric company, lights for June, $156.40. Labor: Chas. Dixon, $13.13; Wm. Brown, $1.00; A. Hyde, $23.50. Water works: Garlinghouse Bros., $4.00; C. J. & M. Ry. Co., freight, $40.75; A. Park, labor, $4.50. Finance committee reporting favorably on all of above bills, clerk was instructed to draw his orders for the same.

Moved and supported that street committee build a fence along north side of roadway on Water street. Carried.

The following resolution was introduced:

Be it resolved: That the clerk collect a yearly license of $10.00 from the manager of the Tecumseh opera house, which license shall date from last payment of license fee; or in default the marshal is hereby instructed not to permit any show of entertainment to begin until the license of $3.00 per day, as fixed by ordinance, shall be paid.

Moved that above resolution be adopted, supported, carried.

Moved that street committee secure the services of a surveyor and establish a line and grade for all sidewalks within the fire limits. Supported, carried.

Mr. Satterthwaite, of the board of water commissioners, reported that water supply at the water works well was so low that immediate action should be taken to procure larger supply; that water-board would recommend that two, eight inch, tubular wells be sunk.

Moved that water board be authorized to secure additional water supply, and that they have full power to contract for same. Supported, carried.

Water board also reported that they would recommend that $5.00 be added to salary of C. A. Hooten, for making taps in water mains. Moved that above recommendation be adopted, supported, carried.

Moved that the following words be stricken from Sec. 19 from the Rules and Regulations of the Water Works, viz: "except upon payment of fountain rates, as per schedule." supported, carried.

Council then adjourned.

W. J. INGERSOLL, Clerk.

Regular session of July 15th, 1895.

All present but Trustee Hall. Minutes of last meeting read and approved.

PETITIONS AND APPLICATIONS.

A petition signed by representatives from the Epworth League of the M. E. church, the C. E. society of the Presbyterian church, the C. E. society of the Friends' church, the B. Y. P. U. of the Baptist church, was presented, asking council to enforce or cause to be enforced the laws relative to the closing of saloons on Sundays and legal holidays and the removing of screens and the enforcing generally of the liquor laws.

Moved and supported that the village marshal be and hereby is instructed and ordered to enforce the laws relative to the closing of saloons on Sundays and legal holidays and the removal of screens therein. Carried.

NEW BUSINESS.

The following bills were reported by the clerk and referred to the finance committee: For building cement sidewalks:—Miss J. A. Hough, $9.80; H. S. Lee, $14.00; Thomas Mark, $12.35. Labor: A. Ames, $1.25; A. Hyde, $21.00. Water works: S. P. Hosmer, $6.90; E. N. Satterthwaite, $1.00; Thos. Maynard, $13.00; Alex Park, $9.52. H. W. Finch & Co., coal, $21.20; H. D. Edwards & Co., $5.50. Committee reporting favorably on all of above clerk was instructed to draw his orders for the same.

Moved and supported that chairman of the street committee cause to be constructed on Chicago street, a sample cement cross walk from the Mills block to Williamson's block. Carried.

Whereas: A disturbance was caused upon the public streets of this village, on Sunday, July 14th, which is considered by this council as a disgrace to this village and the officers in charge thereof. That the action of Constable Wm. Bennett was entirely unwarranted.

Therefore, be it resolved: That Constable Bennett be and hereby is deprived of any and all rights, use and access to the council building or lock-up of this village and that any and all keys to said building now in his possession be delivered to the marshal on demand.

Be it further resolved: That the action of Deputy Marshal Levi B. Thompson, in assisting Constable Bennett on said Sunday, be referred to the street committee, under whose control said Thompson is acting, for investigation and proper action thereon.

Moved and supported that above resolution be adopted. Carried.

Council then adjourned.

A TOO MODEST WOMAN!

Is such a thing possible?

It is.

Many a woman suffers month after month, whole years, because she shrinks from talking about her complaints.

Foolish do you say?

No, it is simply due to a natural, commendable modesty. Still she owes it to herself either to consult a good Physician or else to get the Zoa-Phora Medical Book on Diseases of Women and Children, and, after satisfying herself that Zoa-Phora is what she needs, obtain a bottle or a box of it and use it faithfully. Both the book and medicine may be obtained either direct from the Zoa-Phora Medicine Co., at Kalamazoo, Mich. or through your druggist. All correspondence is kept strictly confidential.

Zoa-Phora sold and books given away by C. A. WRIGHT and BAKER & HALL, Druggists.

INFLAMMATORY RHEUMATISM AND ACUTE DYSPEPSIA

Two Cases Cited in Which the Patients Themselves Give the Facts to Two Well-Known Journals.

THE SUCCESS OF A THEORY DEPENDS ON ITS SUCCESS IN PRACTICE. THE PRACTICAL RESULTS ONLY ARE GIVEN HERE

Thinking People Want Proofs of any Theory Before Believing it and Proofs Which they can Verify if Necessary.

From the Battle Creek, Mich., Moon.

This is indeed an inventive age. Science and art have vied with each other in an endeavor to see which could outstretch the other. Every day the world is astonished by the announcement of some wonderful discovery or invention. Medical science has made as great, if not greater, advancements in the past century than any other science or art. Cures have been performed the past quarter of a century that in the days of our fathers were deemed impossible. Miracles have been performed the past few years that are almost incredible, and which seem almost as marvelous as those performed in the olden time.

A *Moon* reporter, hearing an almost incredible story of the restoration to health of Mary C. Gould, wife of John Gould, who has been unable to sit up for over two years, drove out to her home to hear the story from her own lips.

The reporter made his business known and asked the lady if the story of her restoration to health was true. "Yes," she said, "all you have heard is true, and more, too. Two years ago last September I was taken with what the doctor called inflammatory rheumatism. At first I only had slight pains in my left limb, but the pains gradually grew worse, and in a short time I was compelled to take to my bed. It was impossible for me to move my leg at all. It seemed to shrink and shrivel up; and when the cold weather set in it was almost impossible for me to keep this limb warm, it was so susceptible to the cold. I doctored and doctored; and although I employed the best medical skill that I could get in Battle Creek, there seemed to be no help for me. After over a year of suffering that no human being can describe, the doctor gave me up. I was discouraged, and it did seem to me that if I had to die I might as well die one time as another, for my pain was beginning to be almost unbearable. A neighbor told my husband that he had heard that Dr. Williams' Pink Pills for Pale People was a remedy highly recommended for such cases, and he advised me to try them. The next time he went to Battle Creek he called on Messrs. Amberg & Murphy, the druggists, and bought six boxes of the pills and brought them home with him. I commenced to take them and soon began to feel a little better. I kept right on with the medicine, and on the 12th day of September I was able to leave my bed, and to-day I am doing all my work alone. I did not get better all at once, but gradually gained strength. My limbs slowly but surely became strong, and my whole system felt strong and healthy, which it had not for many years. After suffering so long and enduring so much pain, it is little wonder that I feel grateful to this remedy for my restoration to health."

The *Moon* reporter then called on Messrs. Amberg & Murphy to hear their statement of the case. "Yes," they said, "Dr. Williams' Pink Pills for Pale People have done wonders for Mrs. Gould. She was given up by the doctors, and her lot seemed to be to spend the rest of her days in bed. There probably is no remedy on the market that has done so much good for suffering humanity as Dr. Williams' pills. We know they will do just what they are recommended to accomplish, and that we will never have to take back a statement we make about them."

ACUTE DYSPEPSIA.

Sympathetic Heart Disease Often Attends It.

From the Republican, Cedar Rapids, Iowa.

Mrs. V. Curley, who has resided in Clarence, Iowa, for the past twenty-one years, tells an interesting story of what she considers rescue from premature death. Her narrative is as follows:

"For ten years prior to 1894 I was a constant sufferer from acute stomach trouble. I had all the manifold symptoms of acute dyspepsia, and at times other troubles were present in complication—I did not know what it was to enjoy a meal. No matter how careful I might be as to the quality, quantity and preparation of my food, distress always followed eating. I was despondent and ill almost to the point of insanity at times, and would have been glad to die. Often and often I could not sleep. Sympathetic heart trouble set in, and time and again I was obliged to call a doctor in the night to relieve sudden attacks of suffocation which would come on without a moment's warning.

"My troubles increased as time went on, and I spent large sums in doctor bills, being compelled to have medical attendance almost constantly. During 1892 and 1893 I was impossible for me to retain food, and water brashes plagued me. I was reduced to a skeleton. A consultation of physicians was unable to determine just what did ail me. The doctors gave us as their opinion that the probable trouble was ulceration of the coats of the stomach, and held out little hope of recovery. One doctor said, 'All we can do to relieve your suffering is by the use of opium.'

"About this time a friend of mine, Mrs. Symantha Smith, of Glidden, Iowa, told me about the case of Mrs. Thurston, of Crawford Junction, Iowa. This lady said she had been afflicted much the same as I had. She had consulted local physicians without relief, and had gone to Davenport for treatment. Giving up all hope of recovery, she was persuaded by a friend to take Dr. Williams' Pink Pills. The result was almost magical.

"I was led to try them from her enthusiastic and before many months I felt better than I had for a dozen years. I am now perfectly free from trouble, and if through some piece of diet I feel badly, this splendid remedy sets me right again. I have regained my strength and am once more in my usual flesh. I sleep well and can eat without distress. I have no doubt that I owe my recovery to Dr. Williams' Pink Pills. I only wish that I had heard of them years ago and thereby saving myself ten years of suffering and much money."

A BEAUTIFUL CEREMONY.

Laying the Corner Stone of the New Reformed Church at Macon Village.

Last Tuesday afternoon was the day fixed for the formal ceremony of putting the corner stone in place of the new Reformed church edifice now in course of construction at Macon. This church should not be confounded with the one located near the Grange Hall, which is called the South Macon Church. Both churches belong to the same charge and Rev. J. I. Gulick is the pastor. His faithful labors for the past three years have culminated in a new building at Macon village, which will, when completed, be a monument to his industry, a credit to the society and an ornament to the town.

The edifice will occupy the old site, on the east side of the road to Tecumseh and in the edge of Pennington's grove. An addition has been made to the lot on the east side and the old building has been moved to the eastern boundary and will be utilized for social and general purposes. It is planned like the Friends' church in Tecumseh, only there will be a tower at the northwest corner and the pulpit will be located in the southeast corner. The room on the north side is separated from the main auditorium by folding doors and the two can be thrown together when necessary. The church will be heated by a furnace in the basement. When finished the building is expected to cost about $2300, but the expense is likely to reach a total of $2500 before all the necessary work is done. The contractor is Frank Drake. George Kempf furnished the plans and Fred Pocklington will do all the mason work, both foundation walls and plastering. The regular executive committee of the church consists of three members. To these were added four more names to make the building committee, thus forming a strong committee of seven, as follows: Dr. W. S. Morden, chairman; C. L. Morgan, treasurer; Mrs. Hattie Sage, secretary; G. D. Kuder, Dr. Geo. Howell, Thomas Boyce and Wm. Osgood.

It was a beautiful day Tuesday for an out door gathering. The heavy rain of last Saturday had cooled the atmosphere and laid the dust, and at the appointed hour, 2 o'clock, the village was alive with teams and visitors. A platform and seats had been arranged in front of the foundation walls and there, amid the piles of sand and big boulders, with the corner stone in view and apparently overseeing the ceremony, the exercises were held.

The program opened with an anthem by the choir. Then followed an invocation and salutation by the pastor, Rev. J. I. Gulick.

Next came singing by the congregation, scripture reading and prayer by Rev. Ramsdell, of Clinton.

The choir rendered the anthem, "Christ the Foundation Stone," after which the congregation repeated in unison the Apostles Creed and the corner block was formally placed in position. Another anthem by the choir followed.

Rev. C. M. Brown, of Tecumseh, was then introduced and gave a fine address, about thirty minutes long, which held the closest attention of the audience throughout.

We append a brief synopsis thereof: The true church is one of spiritual power. Not in fame, nor in worldly power, nor in wealth to make a strong church. A church may have all these and still be a pigmy in real strength. No matter how much money the pew may represent, nor how influential the members are, never will that church be noted for great and abiding strength until it is possessed by the spirit of God. We can not make gold out of clay, nor precious stones out of fire brick. No amount of cutting and polishing will make a flint rock glow and sparkle with the luster of a diamond. Equally is it impossible to make an ideal church out of worldly material. A church can be ideal. It is in the power of all churches. The great head of the church has promised it. If it is not attained it is the fault of the members. The power of a few ideal members is wonderful. What would the church be were it not for the few ideal workers, the few pillars?

Then followed a historical sketch by Dr. Geo. Howell, giving some of the early religious history of Macon township, which is given herewith:

Today we lay the corner stone of a new house of worship.

To the members of this church, and of the several churches, perhaps, a short historical sketch of the early religious interests of our village may be of interest.

Sixty-five years ago this past June the first settler came to reside in Macon. The new settlement grew rapidly and in 1833, sixty-two years ago, the residents of Macon built a little log school house on the hill between Jesse Coller's and the creek beyond. For $25 Peter Sones, Sr., built the house and fitted it ready for use. Previous to this, religious meetings were held in the log houses of the various settlers. The first public religious service in the settlement was held at the house of Peter Sones, in 1832, by the Rev. Joseph Bangs, a local Methodist minister residing near Tecumseh, and later in the same year Rev. A. S. Wells, a Presbyterian minister from Tecumseh, also preached at the same place.

To the little log school house in the forest, built by the pioneers in the interests of education and religion, Mr. Bangs came in 1833 and preached the gospel of Christ and Methodism. Mr. A. S. Wells came and preached the same gospel and the Presbyterian faith, and the Rev. Mr. Limbarker came with the same gospel and taught the doctrines of the Free Will Baptist church. From their teachings three churches had their beginning. The characteristics of those three pioneer ministers differed greatly. Mr. Bangs was quite clear and logical; kind hearted, but uncompromising. Mr. Limbarker was rhetorical, eloquent, impetuous, and at times sarcastic. Mr. Wells was calm, persuasive, gentle and winning.

I speak of these men from early impressions, for from the time I was an infant in my mother's arms until eleven years of age they all were very frequently entertained at my father's. Each of them cradled me in his hands, each carried me in his arms. I sat on the knees of each and, as I grew older, listened to their conversation, and the impressions of my childhood have never been effaced.

The Methodist church was organized in the log school house in 1832-3, with James Dennis as class leader. The Free Will Baptist church was organized Aug. 8, 1835, by Rev. C. P. Goodrich, with five members: Joseph Litchard and wife, Hiram Cole and wife and David Green. The baptismal service took place just east of the bridge, near T. E. Hendershot's. Mr. Wells won several to the Presbyterian faith and baptised a number of little children. Mr. Wells' work was a labor of love. He closed his ministry at Tecumseh in 1835 without organizing a Presbyterian church. After this he occasionally visited the neighborhood and was gladly received by the settlers. Soon after the close of Mr. Wells' ministry the Rev. John DeWitt was sent by the board of Domestic Missions to Ridgeway.

The Presbyterian and Reformed churches are so nearly alike that Mr. DeWitt followed the ministry of Mr. Wells, and by Mr. DeWitt was preached in this neighborhood the first sermon by a Reformed minister.

In the missionary work Rev. John Minor succeeded Mr. DeWitt. There was as yet (1847) no church organization, nor was it decided whether there should be a Presbyterian or a Reformed church organized. In the ministry of Mr. Minor in 1847 those friendly to the Presbyterian and Reformed churches circulated a subscription for the purpose of building a house of worship. No denomination was named, for it was to be left to a vote of the subscribers to determine whether it should be a Presbyterian or a Reformed church. The committee having the matter in charge was Peter Sones, Sr., Robert Harriott and Dr. Joseph Howell. The site was leased of John Pennington, Jr., to be deeded by him to whichever church the subscribers should by vote decide. The lease is dated July 1, 1847. The subscribers were:

Peter Sones,	$100	Job Burleson,	$ 5
Joseph Howell,	100	Jo Pennington,	5
Robt Harriott,	40	Gab Mills,	15
John Harriott,	5	James Jacobus,	5
W. Harriott,	5	Garrett Aten,	10
Charles King,	10	Ab Wheeler,	5
John Niblack, Sr,	15	R. Richart,	4
John Morgan,	2	D. Haggert,	3
Charles Morgan,	5	O. Miller,	8
A. VanAntwerp,	10	R. Liddle,	15
Matthew Aten,	5	D. Hatch,	5
Sam Morgan,	5	M. Hendershot,	10
Jose Pennington,	10	D. O'Riley,	3
Joshua Kuder,	5	Sam Lindsley,	5
H. C. Smith,	5	J. N Niblack,	6

These amounts were to be paid in full by October 1, 1847. Today only two of the subscribers are living The others have gone to the land on whose "shore the waves of eternity break."

The committee contracted with Abram V. Hunt to build the house, 40x28, for $480, he to have it ready for use the first of November, 1847. The house was occupied during the winter of '47, but not completed until the summer of 1848.

It was in this house, in the winter of 1847, that Rev. J. Minor tried to teach us juveniles the catechism while sitting on the rough side of a whitewood board.

Rev. Rob't. Taylor, pastor of the Reformed church at Ridgeway, began his ministry here on April 30, 1849.

Forty-eight years have passed since the old building was erected. It has been a house of worship. Here the Methodists have gathered and partaken of their Communion. Here the Baptists have held revival meetings and administered the Lord's Supper. Here the Friends, moved by the inner light and Spirit, have taught the gospel of Christ. Here our church has met since 1849—45 years.

Rev. Mr. Gulick then read a sketch of the Reformed church organization. This sketch we are obliged to omit for lack of room. The exercises closed with singing "All Hail the Power of Jesus' Name."

The audience then adjourned to the old church. The body pews had been taken out and tables substituted in their place, and for two hours the crowd passed in and out to partake of refreshments. The ice cream and cake held out, however, and all were amply provided for, the receipts adding a nice sum to the building fund. Thus ended a ceremony that will long be remembered by the residents of Macon.

Here is a Bargain.

During the month of August 1895, we will take short term subscriptions for the Michigan Farmer and the HERALD at the rate of twenty-five cents for three months. Both papers three months for only a quarter. This offer will be withdrawn on the first of next September. Pass in your subscriptions.

A POPULAR SUMMER RESORT.

A Few Items About Devil's Lake and Some of Its Numerous Attractions.

Among the many popular inland lakes of old Lenawee perhaps that which local parlance has consigned to the possessions of his Satanic majesty stands at the head as to size, variety of scenery and the advantages and attractions which private enterprise have placed on its shores to beguile the sojourner seeking recreation and comfort. The lake is the largest body of water in the county and situated in the northwest corner in the townships of Woodstock and Rollin. On the north end is Devil's Lake station, on the main line of the C., J. & M. railway, while the southwest corner touches Manitou on the Cincinnati branch of the same road. This gives this resort excellent railroad facilities. It is also within easy driving distance from Adrian, Hudson and Tecumseh, the journey making a pleasant drive, which is daily indulged in by residents of those towns. The natural scenery of the lake and surrounding country, which is the highest land in southern Michigan, is unsurpassed in all the lake country of this section. The lake has bold shores, sloping shores, wooded shores, and now and then a tilled field stretches to the water's edge with its golden grain or waiving corn. The beaches are as varied as the shores, with gravel or sandy bottoms for bathing, and shorter slopes where the looser soil, lilly pads and pickerel grass afford cover and sustenance for an abundance of the finny tribe. The long stretch of the lake affords excellent opportunities for yachting and boating. The lake is ever decked with neat rigged sails and fishing boats, while the smoke and whistle of the active excursion steamer betokens its presence. The railroad facilities and hotel accommodations have attracted to this resort a very large patronage of summer boarders from the larger cities. The picnics, reunions and encampments which here enjoy their annual outing are many in number and numerous in size. Altogether, Devil's Lake may be said to combine all of the drawing points possessed by the smaller and larger lakes, with the disadvantages of neither.

DEVIL'S LAKE HOTEL.

At the head of the lake on the north end is situated the hotel known by the above name. This place is situated on the main line of the Mackinaw road, the trains stopping directly in front of the house, making it the most easily accessible by rail of any place on the lake. J. B. Allen built this house before space was quite as valuable as at present, and it is safe to say that it has the largest, airiest and most commodious rooms to be found at this resort. Mr. Geo. Armstead is now proprietor, with the genial J. R. McEldowney, of Adrian, as clerk. Mrs. Armstead superintends the culinary and domestic branches of the concern in person and the result is a thoroughness which is seldom found where these important duties are delegated to others. Her meals cannot be described. They are just like your mother's. At present, as always, the fishing is excellent at this end of the lake. Good boats, tackle and all kinds of bait are furnished here for the wiley angler and the fish will do the rest. Capt. Dimick has his steam and sailing yachts always ship-shape for the accommodation of visitors, making this hotel his headquarters. The Trilby is the only steamer on the lake which can pass through the channel at present. The Devil's Lake Hotel is open the year round for patronage. Its aim is to give first-class, home-like accommodations to its guests both as to board and lodging. To this is added the personal attention and courtesy of those in charge which combine to make the north end a most satisfactory place to spend a day or a month in the pursuit of rest, recreation and pleasure.

GREEN & PATTISON.

The Pleasant Grove House, situated on the south side, is rightly named, for if there is a pleasant spot in Michigan it can be found here. The house is situated on the southeast shore and is easily accessible from Adrian and Hudson by road and to the station at Manitou Beach. This is Allen's old stand. The management was last year assumed by W. J. Green and N. M. Pattison. Mr. Green has charge of the hotel in person. Last year was his first year in the business, but the new proprietor came with distinct and well formed ideas of his own as to how a summer resort should be conducted. The success of his plans is best demonstrated by the patronage which the house received last year and from the fact that this season has brought back the old guests with many new ones. At present the house is nearly full, accommodating from 75 to 100 guests from Dayton, Cincinnati, Kansas City, Toledo and other cities. Mr. Pattison has charge of the boats and picnic grounds. This gentleman is identified with the history of the lake, has a large acquaintance with resorters and knows just what they want. He will have his hands full at the big Maccabee picnic, July 26, and will give satisfaction to all. This place is an ideal resort, combining as it does all the advantages for summer boarders, picnic parties, campers and transients, and the courteous attention of the proprietors will always please and hold their ever increasing patronage.

CAPT. GEORGE DIMICK.

If any one thing more than another adds to the comfort and enjoyment of a sojourn at the lake it is the sense of security and pleasure which one experiences when riding in a staunch seaworthy boat which is managed and run by a man who understands the business. Capt. Geo. Dimick is the man and he has the craft. The steam launch Trilby is a new, swift, neat boat of about five tons burden. She is light draft, has a new engine of latest design, and is the only steamer which can pass the channel this summer. The sailing yacht, Norma, is also new, made at Detroit under special order from the Captain. She is a beauty throughout and probably the finest boat ever launched on the lake, carrying ten to fifteen persons and sailing like a greyhound. The Captain is a thorough sailor and is ever ready to place himself and the Norma at the disposal of pleasure parties. He makes the north side his headquarters, making trains and all points of interest about the lake.

THE SECOND MATINEE.

A Large Gathering and a Fine Lot of Races Last Saturday.

The second matinee of the season came off at Bills' driving park last Saturday afternoon, and was more successful, if anything, than the first one. There was a large crowd in attendance and the entries were numerous, but as the weather was cool and cloudy the first race was called promptly on time and they were rushed through with a swim. The last race was completed just as the big shower began and the grounds were vacated in short order. Below is the score.

Clinton Column.

CLINTON, MICH., JULY 26, 1895.

Mrs. Dr. Fowler is a Detroit guest this week.

Mrs. James Hoaley is visiting friends in Toledo this week.

Mrs. Fred Davis spent Sunday with her sister at Jackson.

Miss Eva Shimmen called on Tecumseh friends Monday.

Mrs. Ham Niblack is visiting her people in Ypsilanti this week.

Perrine & Downer's circus gave an exhibition in town yesterday.

Mrs. G. R. Wolf went to Detroit last Thursday for a few days stay.

Miss Petunia VanDeMark has been visiting in Detroit this week.

The Baptist Sunday school held a picnic at Wampler's lake Tuesday.

Will McGuire, of Toledo, was a Clinton visitor Tuesday and Wednesday.

Miss Hannah Murphy visited her sister, Mrs. Wilder in Adrian, over Sunday.

Miss Anna Klein, of Chelsea, is making a visit at the home of Martin Keusch's.

Mr. and Mrs. G. Prentis, returned Saturday from a two week's visit in Charlotte.

Hon. Chas. H. Fisk came over from Detroit last Sunday to attend the Goodrich funeral.

The Misses Lizzie and Tessie Sullivan and Minnie Humphrey were Adrian visitors Monday.

Miss Bessie Corwin, who has been in Grass Lake for the past few weeks, returned last Friday.

Miss Nellie Cavenaugh came from Chicago Monday for a few week's visit at Patrick Murphy's.

Early peaches are very plentiful on the market and are selling at a correspondingly low price.

Miss Gertrude Cross, of AnnArbor came to Clinton last Friday for a week's visit at Mr. Kingsessher's.

The K. O. T. M. band of this village furnished music for the visitors at the bicycle meet at Tecumseh yesterday.

C. R. Miller and L. H. Salsbury, of Adrian, and A. F. Freeman of Manchester, were in town on legal business Saturday.

Casius C. Fisk is expected here from Detroit Saturday and will return Monday with his wife, who has been visiting here for the past two weeks.

Henry Lancaster, B. G. Woodward, G. D. Ellis and Wm. Teisen drove to Ypsilanti Tuesday and went from there to Detroit to witness the races at the blue ribbon meeting.

S. W. Demuth and Eugene Fowler were dining at Evan's Lake, Monday. It is almost useless to add that these anglers caught fish, as they never fish without so doing—that is, hardly ever.

A pretty heavy game of ball was played at Manchester Monday between the Clinton and Manchester teams. The score stood 27 to 17 in favor of the home team, which shows heavy batting and running if nothing else.

The convivial young ladies of Co. V, with a few friends, have rented quarters at Wampler's Lake and will go into camp next Monday. The company will be champeroned by Mesdames Merritt, Martin and Wm. Waterhouse.

The woolen mill was closed down for repairs on the boilers last Monday. Many of the employees took advantage of the rest to pass a day at the lakes or elsewhere, while some even dared to go to Manchester and play ball.

The large Annual Farmer's Picnic will be held at Wells's Wampler Lake Summer Resort on Friday, Aug. 2nd. Rev. D. R. Shier will deliver an address. There will be races and other sports during the day and a dance in the evening. Music by Tipton band.

The funeral of David Goodrich, who died Thursday of last week, was one of largest ever held in Clinton. It was held in the Congregational church Sunday morning at the usual hour for services, the other churches suspending that service that their pastors and members might be present. The sermon was preached by Rev. Warner, the choir choir assisting at the church, while the masonic fraternity took charge of the ceremonies at the grave. The master and brethren of Palestine lodge, F. & A. M. acted as pall bearers. Members of Covenant lodge I. O. O. F. also performed rites of their order and the floral offerings of these two bodies, of which the deceased was an active member were rich and beautiful. Altogether the obsequies were very impressive, the large attendance testifying to the popular favor of the young man while living. S. B. Goodrich, of Detroit, D. F. Goodrich and wife, of Cortland, and Mrs. C. M. Moore of Rochester, N. Y., were mourners from abroad.

TIPTON TOPICS.

This dry weather has effected the business of the cheese factory somewhat as it reduces their daily supply of milk. They are taking about 3,400 pounds of milk daily even now and if the pastures revive, this amount will soon be increased.

Harry Pattison of Tecumseh is taking out door views for Teeple and got a fine negative last Monday, of W. J. Hampton's store.

The Tipton band go to Devils Lake to-day to make music for the Maccabee picnic, which is being held at Pleasant Grove.

Rev. Shier and family are enjoying a vacation of about a month at Bay View, near Petoskey.

Fred Cooley leaves this week for Dakota for an indefinite stay.

Elmer Lifce and wife of Napoleon visited at C. W. Luce's over Sunday.

Important Facts.

If you have dull and heavy pains across forehead and about the eyes; if the nostrils are frequently stopped up and followed by a disagreeable discharge; if soreness in the nose and bleeding from the nostrils is often experienced; if you are very sensitive to cold in the head accompanied by headache, then you may be sure you have catarrh; and should (immediately) resort to Ely's Cream Balm for a cure. The remedy will give instant relief.

FRANKLIN FACTS.

Luman Deming gets no better.

Wm. Bradley was no better at last accounts.

John Bradley, now of Hillsdale, called on E. C. Wisner last week.

Mr. and Mrs. Louis Wisner, of Bridgewater, were guests of Franklin relatives Saturday and Sunday.

Mrs. Ada Bradley's remains were brought to Franklin and are at rest in the Iron Creek cemetery, where those of the family who have gone before are interred.

The well business is booming on the south pike. Horace Wilcox has put down one for Mrs. Hanford and Mr. Derby, getting plenty of water. He is at work now at Phil Pentecost's.

If you like a rich, finely flavored cheese, insist on having the Tipton, or call at the factory and get it. We are sampling a freshly cut one and find it excellent.

Rev. Bert Alverson, wife and daughter, Dena, of Rives Junction, visited Franklin relatives last week. They were en route to their daughter Bernice's and expect to return this week when they will visit in Tecumseh.

Wm. Spalding met with a serious accident last Sunday morning. A neighbor's horses had been getting into his father's fields and Will went to look after them, finding them beside the fence with several rails down. He approached to drive them away and remembers nothing further til he found himself sitting up against a tree an hour or two later. Near him were two pools of blood, his head and face were cut and his face covered with blood. The clothes on one shoulder were cut entirely through as though a horse might have stepped on him. It is supposed, of course, that one of the horses must have kicked him.

ONSTED ODDS.

The needed rain has come at last.

The farmers have commenced cutting their oats.

Regular grange meeting last Saturday evening.

Skinner & Hines are painting the exterior of their store.

The mill proprietors are having an increase of feed to grind.

Baker & Mosbier are doing some good jobs in carriage painting.

Frank Aldrich visited near Norvel last Saturday and Sunday.

Fred Clark, of Jackson Co., was a caller in town a few days ago.

Rye in this locality is yielding very good but wheat very poorly.

The threshing machines of this vicinity have commenced operations.

Smyth & Schuyler are kept quite busy setting tires on all kinds of vehicles.

A very nice rain came last Saturday afternoon which refreshed everything.

M. Aldrich now drives a young team which he bought of D. Turner of Woodstock.

A goodly number from this vicinity took in Barnum and Bailey's show at Adrian.

The next Masonic meeting occurs July 31st, and the first degree will be conferred.

On account of the scarcity of water a number of wells are being dug in and around town.

The store occupied by W. F. Muck has been very nicely painted both in the interior and exterior.

L. D. Palmer is closing up his business preparatory to join his cousin in the clothing business in some town in Penn.

Joe Sayles took his departure from this vicinity very suddenly and now is sojourning in the salubrious climate of Canada, but if he had left that horse and buggy behind Chas. Horton would have felt better.

Mrs. Mary Townsend, living southwest of town, died very suddenly a few days ago with heart trouble, being attacked about one-half hour before her death. The funeral services took place at the North Rome F. B. church and the remains were laid beside that of her husband in the cemetery.

Did You Ever Think

That you cannot be well unless you have pure, rich blood. If you are weak tired, languid and all run down, it is because your blood is impoverished and lacks vitality. COIN'S FINANCIAL SCHOOL.

This little book is one of the most extensive treatises on the money question that has ever been written. It shows up the evil effects of our present monetary system in a most emphatic manner. Every voter in Lenawee county, regardless of party affiliations, should read it. The Chicago Times says: "A book that will create a profound impression throughout the United States." The New York Recorder says: "It mercilessly scourges the money changers in the Temple of the Republic." The Chicago Inter-Ocean says: "This book tells its readers more about gold, silver and currency, generally, than any other publication we know of, and in a way that every man can fully comprehend." A supply is kept on hand at the HERALD office. Single copies 25 cents. Every new advance paying subscriber to the HERALD will receive a copy free. Now is your time to get good reading cheap. Pass in your orders.

What seems to be a case of simple diarrhœa frequently develops into the most dangerous of bowel troubles. If neglected. Dr. Fowler's Ext. of Wild Strawberry is a never failing specific in all such cases. 1w

Have You Had Your Vacation?

If you have not, you should read what Governor McKinley, Chief Dunn, Joe Jefferson, Rev. Thomas Dixon, Dr. Cyrus W. Edson, and Camille d'Arville say about the best way to enjoy an outing, in "The Question of Vacations from Different Standpoints," published in Demorest's Family Magazine for August, and profit by their experience; and if you have already had your summer rest, you will still enjoy reading their views and comparing them with your own. Apropos to the same topic, a charmingly illustrated paper in the same number, "A Queen of the Coast," gives a most vivid description of that popular resort Atlantic City, and to those who can't get away the illustrations and descriptive letterpress will be almost equal to a trip there. The "silent steed," the favorite one this year, is treated both humorously and pratically in two profusely illustrated articles. "My First Experience With a Bicycle," which will appeal to every woman cycler, and "Woman's Dress for Cycling," which gives excellent advice on the all-absorbing matter of dress on the wheel; and if you havn't a wheel, and can't have a vacation, you may solace yourself with the breezy stories, of which there are a number. In fact, every one will be sure to find something of interest in this bright midsummer number, which is full to overflowing with interesting and timely matter. Published for $2 a year by the Demorest Publishing Co., 110 Fifth Avenue, New York.

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follows its use; that he would not be without it, if procurable. G. A. Dykeman, Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Orr & Temple's Drug store. Regular size 50c., and $1.00. 3

Bay View Announcements Out.

The Bay View summer announcements are out and are of public interest. They fill sixty pages of magazine size and are beautiful with a hundred half-tone views of scenery and life at this great Northern Michigan resort and summer educational center. The Assembly four weeks' program is strikingly attractive and the Summer University with its forty-five instructors from leading institutions, offers unsurpassed advantages. It embraces eight throughly equipped schools: College and school of methods, Bible school, conservatory, schools of art, oratory, physical culture, and for writers. The enrollment a year ago was very nearly 800. It is given out at headquarters that this is going to be the largest and finest of all the Bay View Years. The University opens on July 10th, the Assembly July 17th, both closing August 14th. All Michigan railroads will sell half-fare tickets there, daily, from July 8th to 17th inclusive, return limit August 15th. Round trip tickets from Tecumseh will be $9.14. The public will be supplied with the summer announcement, giving also full information about expenses, etc., by addressing a card to J. M. Hall, Flint, Mich. Call for the June Bay View Magazine.

High Prices Must Go.

The idea of paying $25 to $75 per acre for land that is improved and with only a prospect of making a living is preposterous.

The chances for selling such farms at an advance are limited.

The C. S. Graves Land Company, 56, 5th Ave. Chicago, is offering fine farming land, unimproved, in Central Wisconsin (see advertisement in this paper) at such low rates and on such favorable terms that prices will increase from year to year. This land is located within easy reach of good markets with plenty of fuel, good water and excellent schools, and is selling at from $5 to $10 an acre. 1w

C. J. & M. Notice.

Effective Sunday 30 inst., fast freight-train service will be inaugurated between Cincinnati and all stations on the line of C. J. & M. Do you want to know how to make the trip, and what you'll see when you reach the jouney's end? Write to W. C. Rinearson, G. P. A. of the Queen & Crescent Route, Cicinnati. Illustrated and descriptive matter upon appication. The Queen & Crescent Route to Chatanooga is the shortest line, and has an incomparable service of handsome trains of standard day coaches. Thro' sleepers, parlor, cafe and observation cars from Cincinnati. Quick schedules and magnificent scenery en route help to make the Queen & Crescent the Southern route par excellence.

TOO MUCH WORK

For a Healthy Existence.—That's Why the Kidneys so often Fail.

Nature has provided a certain amount of work for every organ of the human body; overtax them and disease eventually follows. There is not one portion of our organism that is so overworked as the kidneys; on them is placed the important function of filtering the blood of the impurities which naturally form in the regular action of life and digestion. The kidneys are consequently termed the sewerage of the system; clog up this sewer, and the blood becomes tainted with poisonous uric acid, which brings on disease in many forms. The ack is the first to show this stoppage. From there comes the warning note; it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following:

Mr. Wm. Nelson is a well-known business man of Kalamazoo, he resides at 822 Portage Street, and his business is that of a grain buyer. He says:

"For five years I have suffered from an inability to urinate, which resulted from what was said to be a stoppage of the bladder. During these years I have taken mineral and electric baths and used other means in expectancy of getting better, but they all proved unavailing. Some months ago I began using Doan's Kidney Pills, which I had heard highly recommended, and I can now say that the flattering reports were not greater than they deserved. I got better right along, and I am free from any trouble now. I feel better than I have done for three years past. If Doan's Kidney Pills were well known all over they would do an immense amount of good."

Sold by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

Equal and Exact Justice Obtained.

Have you a claim against the General Government, either for a pension, for land under the various acts of congress, for damage done by Federal troops during the late civil war, or do you want a patent upon a practical invention which, though simple, may be the means of making a fortune for you, and perhaps revolutionizing some important branch of industry. If so, write at once to the Press Claims Company, lock box No. 588, or 618 F Street N. W., Washington, D. C., and they will tell you all about it, besides sending you without cost, if you are a reader of this paper and mention this fact, a very interesting litte booklet containing the history of some important inventions, and how to proceed to obtain a patent. FITS AND NERVOUS DISEASES.

When Henry M. Hall, M. D., late surgeon U. S. A., Department of Tennessee, returned from the war he found a child afflicted with epilepsy. Leading physicians were consulted, without apparent benefit. Noted specialists could give but little if any relief. To rescue his child from a fate worse than death became the object of his life. For several years experiment followed experiment, until at last success crowned his efforts. In 1889 old age and infirmities induced him to impart the knowledge of how to manufacture it, under the agreement that a bottle should be sent free of all charges to any one applying for it, who was afflicted with epilepsy. Since then over 20,000 free bottles have been sent to the afflicted. Experience has proved that it cures Insomnia, St. Vitus' Dance, and all forms of Nervous Affliction. If you want to try this wonderfill remedy free of all charge, write, stating your disease as plainly as possible; give your age and post office. Address The Hall Chemical Co., West Philadelphia, Pa.

and all other men who have to look neat while at work, should know about "CELLULOID" COLLARS AND CUFFS. They look exactly like linen, wear well and being *waterproof* do not wilt down with heat and moisture. They do not soil easily and can be cleaned in a moment by simply wiping off with a wet sponge or cloth. Do not confuse these in your mind with composition goods. Every piece of the genuine is stamped like this:

TRADE CELLULOID MARK.

Ask for these and refuse anything else if you wish satisfaction. Remember that goods so marked are the *only* waterproof goods made by coating a linen collar with waterproof "Celluloid," thus giving strength and durability. Magnetic Ointment.

The worst Sores, Bruises, Cuts, Burns, Sprains, Skin Disorders, Sore Throat, Croup, Rheumatism, Lameness, Piles, and all external and internal affections characterized by INFLAMMATION, yield to its influence as if by magic. It is a purely vegetable preparation by a regular physician of eminence, and its success has been marvellous in the most obstinate cases. Sold by Druggists and Dealers at 25 and 40 cents.

The Great Healer of all Inflamed Injuries and Disorders.

It never fails to restore the natural function to the skin and equalize the circulation of the blood. By this means a controlling power is given to the most malignant forms of disease. It penetrates to every portion of the human frame, every bone, muscle, vein, nerve and ligament is searched out and made sensible to its wonderful and healing influence. Hence it copes successfully with internal as well as external diseases.

Over 40 Years

This Ointment has been used by the people throughout the United States, and our confidence in its qualities is such that as we have not room here to insert any of the numerous certificates of cures which we have from all parts of the country, we simply ask those readers of this paper who have ever used this Ointment, to honestly state their experience with it to inquiring friends. If but one in a hundred would do this we would be perfectly satisfied with the result. Full directions for use will be found on pamphlet around each bottle.

OBITUARY.

On Friday of last week the Angel of death called to her reward one of the much loved members of our church, Mrs. Joseph Billmyer of Raisin. For several years she has been in very poor health being near death's door at times, but never for a moment during this long time was she known to complain over her affliction, but bore her suffering bravely trusting in her Savior that all would be well at last. Whenever friends and neighbors visited her at her bedside, she spoke words of hope, pointing them to her Jesus, who doeth all things well. To know her was to love her. She was a devoted wife and mother to her family which is shown by the well order of her household. A vacant chair is left in the home that can never be filled again; a loving wife's counsel and a Christain Mother's smile will ever be sacred in the memory of the bereaved husband and children. The funeral services were held at the house on Monday afternoon, where a large gathering of neighbors and friends met to pay their last respects to a true friend and loving neighbor. Rev. H. Cansfield spoke words of comfort and encouragement to the afflicted family. The remains were laid to rest in the family lot in Evergreen cemetery. The afflicted family have the heartfelt sympathy of their many friends.

MACON MUSIC.

Chas. Allen went to Douglas last week.

Milan Sage is supplying the planking for the new bridges.

Mrs. Jennie Brown, of Clinton, is visiting at the home of her brother, Thos. Liddle.

The iron work for the three bridges over the Macon has arrived and they will be completed this week.

The ladies aid society of M. E. church met at Mrs. Angie Mills' this week; an attendance of fifty and a very enjoyable time are reported.

The corner stone of the Reformed church was laid Tuesday with appropriate exercises. The ladies of the church served refreshments and cleared nearly twenty-five dollars for the benefit of the church.

The entertainment at Grange hall Wednesday night was excellent. Much credit is due to Mrs. Dewitt Martin and Miss Lulu Weeks; for their untiring zeal in its arrangement. The program was about equally divided between Macon, Ridgeway and Britton talent and was creditable to all. The Macon quartette failed to appear owing to the absence of Mr. Allen.

There seems to be a tendency toward increasing the length of all entertainments here. The exercises on the 4th were too long and those at the hall Wednesday were open to the same criticism. A recitation, a song, or even a sermon, is never appreciated by a tired, half suffocated audience, and we believe there would be no loss in attendance, but a real gain from refreshments, etc., sold, if our programs were not prolonged till people were anxious to go home. It is all right to give people their money's worth, but this giving a fifty cent entertainment for ten cents is being more than generous.

"M. Quad." the Famous Humorist, Takes his Old Place on The Free Press.

We find great pleasure in announceing to our readers that Chas. B. Lewis, the famous "M. Quad." has resumed his former place upon The Detroit Free Press. Since his retirement from The Free Press four years ago Mr. Lewis has been writing for one of the leading syndicates. His preference for direct newspaper work, however, led him to abandon that connection, and hereafter his popular writings will appear only in The Free Press. Mr. and Mrs. Bowser, Brother Gardner, Arizona Kicker, Zeb White, Abe Crofoot, Mrs. Gallup, and many new characters will appear regularly.

The publishers are making a special four months' trial offer of the Semi-Weekly Free Press for 25 cents to introduce their paper to new readers, and we would advise those looking for a great bargain to send in their subscription at once. The offer is good only until August 1.

Three Crops a Year

Can be grown on the same land in eastern Mississippi and southern Alabama along the line of the Mobile & Ohio railroad. The summers are cooler, the winters are milder, the death rate is lower than in the north. Improved farms $10 to $15 per acre, unimproved land $3 to $5 an acre near railway stations. It is the best portion for raising fruits and early vegetables, stock raising and general farm crops. Lands are advancing, now is the time to buy. Very low rate excursions monthly. The Mobile & Ohio has put on two through fast trains each way daily between St. Louis and Mobile. It is the shortest and quickest route to the south. An illustrated pamphlet telling all about our country will be sent free to all who wish it. Apply to F. W. Greene, General Agent, No. 198 North Broadway, St. Louis, Mo., or to E. E. Posey, General Passenger Agent, Mobile & Ohio railroad, Mobile, Ala. tf

Boston Excursion, Aug. 20. 1895.

Special train of Wagner Sleeping cars will be run on the L. S. & M. S Railway to Boston, on the above date. The route will be via Niagara Falls, thence to Clayton N. Y. connecting with a special steamer for a day-light ride down the beautiful St. Lawrence River, through the famous Rapids, to Montreal; taking the Special train at this point, the journey through the White mountains will be made by day-light with three or four hours stop at Mt. Washington; thence through the famous Crawford Notch and via Portland to old Orchard Beach, stopping two or three hours for dinnner, and thence along the Atlantic Shore to Boston, arriving in time for supper.

The train will be known as the "Brownie Special" and will be in charge of Sir Knight, W. S. Brown, Travelling Passenger Agent for L. S. & M. S. Ry., who will accompany the party through to Boston, giving his personal attention to the comfort and pleasure of patrons.

Very low rates will prevail. Space in sleeping cars should be arranged for at once. Itineraries giving the time of train, desciption of route, etc., will be out soon and will be sent on application to W. S. Brown, Hillsdale, Mich. 4w

From LaGrippe.

How Dr. Miles' Nervine Restored One of Kentucky's Business Men to Health.

NO DISEASE has ever presented so many peculiarities as LaGrippe. No disease leaves its victims so debilitated, useless, sleepless, nerveless, as LaGrippe.

Mr. D. W. Hilton, state agent of the Mutual Life Insurance Co., of Kentucky, says: "In 1889 and '90 I had two severe attacks of LaGrippe, the last one attacking my nervous system with such severity that my life was despaired of. I had not slept for more than two months except by the use of narcotics that stupefied me, but gave me no rest. I was only conscious of intense mental weakness, agonizing bodily pain and the fact that I was hourly growing weaker.

When in this condition, I commenced using Dr. Miles' Restorative Nervine. In two days I began to improve and in one month's time I was cured, much to the surprise of all who knew of my condition. I have been in excellent health since and have recommended your remedies to many of my friends."

SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body indulged by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life: The farm, the office, the workshop, the pulpit, the trades and the professions.

SYPHILIS EMISSIONS STRICTURE CURED

Wm. A. Walker of 16th Street says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Kergan. Their New Method Treatment cured me in a few weeks. Their treatment is wonderful. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

BIG PROFITS ON Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful Speculation in Grain, Provisions and Stock.

$10.00 FOR EACH DOLLAR INVESTED can be made by our Systematic Plan of Speculation.

originated by us. All successful speculators operate on a regular system.

It is a well known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to $50,000 to $100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success.

TECUMSEH, MICH., JULY 26, 1895.

A GREAT BICYCLE DAY.

The Ten Mile Road Race Won by Harry Caldwell, of Detroit.

MANY EXPERT WHEELMEN PRESENT FROM ABROAD.

The Events at Bills' Park in the Afternoon Witnessed by an Immense Crowd—A Fine Balloon Ascension.

Bicycle Day has come and gone and to say that the celebration was a grand success would be putting it very mildly. Tecumseh did not celebrate the Fourth, but Tecumseh's first "Derby Day" will rank among the grandest gala days the town ever witnessed. The old-time greased pole and greased pig were no where to be seen, the ten cent dance was non est, but modern inventions and methods ruled the hour and Young America, adorned as an athlete, controlled the celebration. The clerk of the weather was in his happiest mood, for it was a model July day from sunrise till sunset. The committees in charge had perfected all the necessary arrangements down to the last detail, so that nothing was left undone to insure the success of the affair.

Many wheelmen arrived in town the evening before, having come from Battle Creek, where they participated in the State meet on Monday and Tuesday, and yesterday morning brought them in by the dozen from all quarters. Chicago street had been scraped and put in fine condition for the fancy trick exhibition where the champion, Sid Black, was to show his skill. The grand stand had been enlarged and a wire netting placed in front of the track to prevent the crowd encroaching thereon. Extra policemen were sworn in to be used in case of emergency. Two bands of music had been engaged to provide the necessary musical parts of the program. In short, all the preliminaries had been properly attended to and all that was necessary was a crowd. And the crowd came in due season.

The merchants, also, had caught the spirit of the occasion and had decorated their stores with flags and bunting, which made Chicago street present a veritable holiday appearance, while many residences along the ten mile course displayed the national emblems.

As early as eight o'clock teams began to pour in from the surrounding towns and at ten o'clock the village harbored an immense crowd of visitors. Shortly after ten the road race was called and after that came an exhibition by the famous Sid Black. The seven track events in Bills' park were witnessed by another large crowd and consumed the entire afternoon. Just before nightfall the balloon ascension took place from Monument Park and thus fitly terminated a most successful celebration.

Below is the official roster of the day:

Referee—Albert Allan.

Judges—W. W. Whiting, W. H. Hayden, E. N. Satterthwaite.

Time-keepers—P. W. A. Fitzsimmons, Fred Rosacrans, J. J. Freeman.

Starter—Ben. J. Garlinghouse.

Clerks of Course—Bert A. Garlinghouse, T. R. Kyle.

Announcer—Geo. Burt.

Scorers—G. S. Field, W. B. Odion.

Umpires—E. F. Kirchgessner, Bert Lawrence, C. H. Millis.

The referee was a citizen of Detroit and the announcer hailed from Bay City. The other officials were Tecumseh men. The Clinton and Tipton bands both furnished music at intervals during the day and both did valiant service. The Lilley House was the headquarters of the officers and wheelmen, and Landlord Patterson had his hands full to entertain them all. He succeeded admirably, however, and the Lilley House added another chapter to its good record for taking care of a crowd. To the officers of the Tecumseh Bicycle Association and the committees in charge too much credit cannot be awarded for their untiring efforts. We do not believe in flattery, but it is only simple justice to say that Percy Fitzsimmons especially performed his arduous duties most admirably, and demonstrated executive abilities of a high order. Not an accident occurred during the entire day to mar the pleasure of the visitors. The crowd, though large, was an orderly one, and no drunkenness or rowdyism was to be seen. The day's program was given without the slightest hitch or [illegible] from start to finish. We append a brief description of each event as fully as time will permit:

THE ROAD RACE.

It hardly seems possible that a ten mile road race, where only the start and finish can be witnessed by the spectators, would develop enough interest to hold a large crowd. But interest is no name for it. The ten mile handicap of yesterday worked up the wildest enthusiasm in a crowd of over two thousand people. The course consisted of two five mile laps, starting from the four corners, two miles south to White's corners, thence one-half mile west to the Strong school house, thence two miles north to Stacy's corners and east on Chicago street to place of starting. Everything was excitement from the start to finish and yet the officials took every care of every detail with promptness and without confusion or error. The limit men, the five and four minute men and so down to the scratch, shot out on the course, and it seemed as if the Marshalls had hardly time to dress back the crowd before Ott dashed around the corner, the first around the course. The others soon passed and now the crowd was wild with the expectancy of the finish. Now the scorers, timekeepers and judges rubbed their eyes, took positions of advantage and sharpened up their choicest nerve for the occasion. Ott soon showed up still in the lead, setting the pace for Holmes of Kalamazoo, close behind. The leader seemed to have a sure thing till within ten rods of the tape when Holmes, by a clever spurt, took first from out of his teeth by less than a length in 27:24. Harry Caldwell, of Detroit, a 30 second man, won the time prize, a gold crank Falcon bicycle in 25:53.

The first prize was a diamond ring, $75. The second, diamond stud $30. The Third, diamond cuff buttons $20, C. F. Wolcott, Gibsonburg, O. Fourth, pair M. & W. tires, W. A. Tinker, Jackson. Fifth place, Elmer M. Stoffiet, Ann Arbor, all 4 minute men. The other prizes-winners, in order named were: Harvey Stoffiet, AnnArbor, Richard Schaddelee, Grand Rapids, C. D. Wilson, W. Bay City, C. H. Diehl, Jackson, C. M. Bayfield, AnnArbor.

THE CHAMPION'S TRICK RIDING.

Following the road race was an exhibition of fancy and trick bicycle riding by Sid Black, the phenom. for certainly his performances are phenominal. For nearly an hour he held the closest attention of the crowd. It would be simply impossible to describe or enumerate his positions, or the subtlety of his manipulations. Even the grandest diction of our verbose hyperbolist, the Secretary of the association, would fall far short of this task. Suffice it to say that he was a favorite with the spectators, and Barnum's show would have played to empty benches during his performance. In the evening he repeated a portion of his show and rode down a 30-foot ladder on a buggy wheel for a little diversion.

THE TRACK EVENTS.

The afternoon races were a grand success, being witnessed by about 3000 people, beside a good sized audience of public spirited sneaks who looked on from their showy carriages through the gaps in the fence. Considerable gun powder was exploded near them, but even their horses were armed with the 6-inch triple cheek of their owners, and didn't even wink. A fine photograph was taken of their faces. The proofs will be submitted to the war department to be tested by the fire of heavy ordinance, and those worthy citizens may soon find lucrative employment for their unmitigated, brazen-faced gaul.

The riders were obliged to contend with a stiff west wind, but the track was good, and very fast time was made. We give below a synopsis of the events. Owing to lack of time and space the official score card is omitted and will appear in full next week.

One mile novice—1st prize, $30 gold watch, Philip Keusch, Clinton; 2nd, Alfred packer, Morenci. Time, 2:43 1-5.

Half mile open—1st prize, $50 diamond stud, H. A. Caldwell, Detroit, 2nd Fred Loughead, Sarnia, Ont. Time, 1:07 2-5, breaking track record made here by Barnhart last year by 4 4-5 seconds.

Berna Oldfield, of Toledo, won first, a gold watch, in the boy's race—1:12 4-5.

An exhibition half mile, done on unicycles, was given by Sid Black, the fancy rider, and Roy Keator, of Chicago.

Two mile handicap—1st prize, $50 diamond ring, C. D. Wilson, W. Bay City; 2nd, John Schaffer, Detroit. Time, 4:40.

An exhibition half was done by Percy Patterson, of Bay City, in 1:02 2-5, breaking the state record by 1 3-5 seconds. H. R. Morris, of Vassar, made an exhibition quarter in 31 1-5 seconds lowering the track record.

Gay Davidson again carried off the county championship, a $40 solid gold medal in 1:12 4-5. Ott came in second.

One mile open—1st prize, $50 diamond stud, Fred Toughead; 2nd, Caldwell. Time 2:38. Three mile lap race—1st prize, $50 diamond ring, Caldwell; 2nd, Toughead. Time 8:05.

THE BALLOON ASCENSION.

The balloon ascension and parachute drop was a very pretty and creditable aeronautic effort, taking place at monument square just before evening. Mrs. Ollie Phillips, whose stage name is Susie Belmont, sailed majestically up on the trapeeze to a point in the zenith above the C. J. & M. depot and dropped lightly down underneath her parachute to the track below and the program for the day was ended.

A very interesting part of the exhibit to be made by the Department of Household Economies of the Woman's Board, at the Cotton States and International Exposition, will be cooking by electricity. Electric stoves will be shown in operation, and the process fully explained. Aladin's Oven, an invention of Mr. Edward Atkinson, the famous statistician, will also be shown. By means of this oven, the heat from an ordinary oil lamp will cook a dinner.

Last Wednesday the remains of Mrs. Lillie Morrison Mundy were brought from Toledo and buried in the family lot in Tecumseh cemetery. In the absence of our Baptist pastor the Rev. Whitney, of Adrian Baptist church, officiated, the deceased lady having been a member of that denomination. The burial was strictly private only the near relatives being present. General sympathy is felt for the stricken family and particularly for the little motherless girl. She will be adopted by her mother's family and take their name.

Have You Had Your Vacation?

If you have not, you should read what Governor McKinley, Chief Dunn, Joe Jefferson, Rev. Thomas Dixon, Dr. Cyrus W. Edson, and Camille d'Arville say about the best way to enjoy an outing, in "The Question of Vacations from Different Standpoints," published in Demorest's Family Magazine for August, and profit by their experience; and if you have already had your summer rest, you will still enjoy reading their views and comparing them with your own. Apropos to the same topic, a charmingly illustrated paper in the same number, "A Queen of the Coast," gives a most vivid description of that popular resort Atlantic City, and to those who can't get away the illustrations and descriptive letterpress will be almost equal to a trip there. The "silent steed," the favorite one this year, is treated both humorously and pratically in two profusely illustrated articles. "My First Experience With a Bicycle," which will appeal to every woman cycler, and "Woman's Dress for Cycling," which gives excellent advice on the all-absorbing matter of dress on the wheel; and if you havn't a wheel, and can't have a vacation, you may solace yourself with the breezy stories, of which there are a number. In fact, every one will be sure to find something of interest in this bright midsummer number, which is full to overflowing with interesting and timely matter. Published for $2 a year by the Demorest Publishing Co., 110 Fifth Avenue, New York.

PAIN'S LALLA ROOKH.

For the big carnival performance of "Lalla Rookh" with which The Detroit Railway is to celebrate its birth and inaugurate the new and beautiful Boulevard Park at 14th Avenue and the Boulevard, Detroit, every last detail of arrangement has now been made. Messrs. Everett & Pack, the progressive gentlemen whose enterprise and push has made the road possible, have decided to make a series of nights, each devoted to some especial occasion. They recognize the fact that Detroit, while a city of itself, is yet but a part of the great State of Michigan and is largely dependent upon its suburban neighbors for its prosperity, and desire to make Boulevard Park a state pleasure ground. For this reason one of the great nights of the entertainment will be called "Michigan Night." In characters of glowing, living fire will the great seal of the State be pricked out against the night with various colored lights. Then, also, a massive pyrotechnic picture of the executive of the State, Governor John T. Rich will be shown. The other nights which have been selected are The Detroit Railway night, when pictures of the two new promoters of the new railway will be seen, the City of Detroit night, when the rugged features of Mayor Pingree will be thrown up against the darkness, Canadian night, when a tribute to the sister cities and towns across the border will be paid by an illuminated likeness of Queen Victoria. During the races a horse and sulky will be the feature of Race Course night, and on Wheelmen's Day, Aug. 3, an enormous bicycle in motion will be the Central feature of the fireworks display. It is also proposed to make a gala occasion for the Knights Templar, on which occasion it is probable that the two commanderies in Detroit will give their Templar evolutions at the park and the symbols of their order be made the set piece of the fireworks.

To give some idea of the scale of thoroughness with which the whole is environed it should be stated that Mons Arnold Kiralfy, whose name has been for years associated with dramatic and lyric specialties, was engaged to superintend the training of the ballet and he arrived in Detroit Monday night for that purpose. The Detroit Railway cars are now running direct to the main entrance to the park. Performances will will be given July 23, 25, 27, 30, August 1, 3, 6, 7, 8 and 10. The opening performance was given Tuesday evening to an immense crowd.

"Well, I should say there is a difference between a railroad time table of the present and one before the war," said an old time railroader the other day. "An instance which will give you a faint idea of what an early time table was comes to my mind just now. It was when Fred Avery was a young man running an engine on the Lake Shore. He got ahead of his time on a trip, running from Toledo to Adrian in six hours, and was suspended two months for the rash act. Just think of it. Why 15's time from Toledo to Adrian is now three minutes less than an hour."—Evening Telegram.

A gentleman left a dollar at his favorite grocery store when the circus was here, to get the grocers to buy him a couple of show tickets in the evening. They did, but for a joke they bought children's tickets, and the circus visitor didn't discover the difference until he presented himself at the door. As he was afraid of pickpockets he had left his pocketpook at home, and the show was half out by the time he found some one he knew to borrow a dollar from.—Evening Telegram.

The B. Y. P. U. gave a very interesting program at the Baptist church last Sunday evening, to an audience that completely filled the church. It consisted of music, readings, recitations and essays. The choruses were all well sung, and the solo by Mrs. L. M. Kellogg was excellent. The essays by Misses Fisher and Millis were worthy of especial mention. Master Eddie Cookingham has wonderful talent as an elocutionist. Notwithstanding the torrid weather, the audience was held to the close, and it was a lengthy program.

We stopped at Raisin Center an hour or two last week, between two trains, and as the depot accommodations there are not first-class we called at Stephen Galloway's. It was fearfully hot that morning, but we found it quite comfortable in a big rocking chair near an open door on the shady side of the house. Mr. Galloway came to Michigan in 1839 and the family settled on this same farm, where he has lived most of the time since. He has been postmaster 27 years, having been appointed under President Johnson, and he remains undisturbed through all the mutations of parties and politics.

Mrs. Josphine Mead, relict of the late LeRoy Mead, died at her home in this village on the 19th. She had been an invalid for several months, caused by a severe hemorrhage of the lungs, from which she never fully recovered. Her last illness, however, was of short duration, being an attack of catarrhal pneumonia. The deceased was a daughter of Uncle Daniel Clarkson, one of the pioneers of Macon, and was a woman of rare intellectual worth and domestic virtues. The funeral was held Monday afternoon from the house on Union street, and was largely attended by friends of the deceased, both from Tecumseh and Macon, Rev. J. I. Gulick, officiating.

Charles Williamson passed away this forenoon at 9:30 o'clock. The deceased was in his 72nd year. The funeral will be held Sunday at the house at 4 o'clock.

Evangelist Jay Lord, from Ypsilanti, will preach in the Friends church next Sabbath morning and evening. J. C. Hageman will be out of town and will preach elsewhere.

A small roll of currency was lost yesterday, about $20. If the conscience of the finder is troubling him the loser will soothe it and incidentally will present him with half the bill if it is returned to this office.

There will be a meeting of the South Macon Cemetery Association at Grange hall Thursday, August 1st, 1895, at 2 p. m. for the purpose of electing officers and transacting such other business as may come before the meeting. By order of president. D. BAILEY, Sec'y.

Harry Smith, the tinsmith of Ridgeway objects to being left out of the Ridgeway write-up. It was an inexcusable oversight, that is true, and we make haste to correct the omission. He is known over all this section of the county as a first-class workman and people wanting anything done in the tinner's line will not miss it by giving him a call. "Tink" will treat you well and do your work in the same manner.

An interesting series of social and economic papers by representative women opens in the July Arena. The initial papers discuss the question,—"Is the Single Tax Enough?" and are from the pens of Sarah Mifflin Gay, and Frances E. Russell. It is stated that leading English and American thinkers among progressive women will contribute to this unique symposium. Verily the women are coming to the front.

KNOWLEDGE
Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.
Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.
Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

FATAL WINDSTORM.
Destruction Wrought at St. Clair, Mich., by a Cyclone.
ST. CLAIR, Mich., July 22.—A fatal wind storm, accompanied by a heavy rainfall, burst upon this city soon after 1 o'clock Friday afternoon. For several weeks prayers had been offered in this vicinity for rain. The storm was cyclonic in fury, and before it had spent itself a child had been killed, two men injured and much property destroyed. The city hall was partly demolished, hundreds of trees were blown down, roofs were taken off buildings by the dozen, two large craft were blown aground in the river and general confusion reigned.
The 11-months-old child of Elmer E. Black was killed instantly by the overturning by the wind of the Black home. There were four other children in the house at the time but they escaped without a scratch. The children were alone in the house.
The horse of Joseph Dam was blown into the river and in attempting to rescue it Mr. Dam sustained injuries that are serious. A horse of Julius Belknap was also blown into the river, together with a shed which the wind took a fancy to set down in Pine river. Joseph Goulait, a workman at Belknap's brickyard was injured by a flying brick. A large chimney at Sheldon's brick yard was blown to the ground. The tower and chimneys of the city hall were blown down and part of the roof was blown into the next yard. The roof was torn off the Hotel Cadillac. A liberty pole now stands upside down through the roof of one of the largest store buildings in the city.

HEAVY SHIPMENT OF PEACHES,
Twenty-Three Thousand Baskets Leave a Single Michigan Port.
SAUGATUCK, July 23.—The shipment of peaches from this place Monday night is a record breaker, the total amount going by boat to the Chicago and Milwaukee markets being 23,000 baskets. This is more phenomenal when it is taken into consideration that the first shipment of peaches for the season occurred July 14. Never before in the history of the peach business here have the shipments of July aggregated as much as one-half of Monday night's shipment. The cause for this is that the excessive hot and dry weather has caused the early peaches to ripen in a bunch. The fruit is small, but in other respects excellent. It is feared the shipments for the balance of the week will exceed the capacity of the boats.

FOUND GUILTY.
Woodruff Parmelee Given a Life Sentence at Traverse City.
TRAVERSE CITY, July 19.—The jury in the case of Woodruff Parmelee, who was charged with the murder of Juliar Curtis, after being out twenty hours brought in a verdict of murder in the first degree at 11:15 Wednesday morning. Parmelee received the verdict calamity, but shows the great strain and mental suffering. Imprisonment for life at hard labor and solitary confinement was the punishment imposed. The result of the trial gives great satisfaction to the public generally.

After Michigan Timber.
TOLEDO, O., July 22.—A large party of lumber dealers from central and southern Ohio points left this city for the Michigan pineries for the purpose of inspecting the stock. A syndicate representing $1,000,000 has been formed for the purpose of buying all the available timber and shipping it to southern points.

Forest Fires Approach East Tawas.
EAST TAWAS, July 24.—The forest fires which are raging in this vicinity are within half a mile of this city, but there is no danger to this place as yet unless a high wind comes. A light wind is blowing and the fire running slowly toward town. A large amount of marsh hay has been destroyed.

Jackson Baptists Won.
JACKSON, July 21.—The Junior Baptist Church Young People's union of this city won and has been awarded the prize banner at the Baltimore convention. The banner was given for excellence in the Bible reading course, junior unions of the United States, Canada and Mexico competing.

Paid Their Taxes.
LANSING, July 22.—Cash is again rolling into the state treasury. The following railroads have paid specific taxes: Detroit, Lansing & Northern, $24,130.88; Chicago & West Michigan, $29,520.30; Saginaw Valley & St. Louis, $1,718.82; Toledo, Ann Arbor & North Michigan, $20,905.73.

Victim of Heart Disease.
LANSING, Mich., July 22.—G. A. Hurd, an agent of the Merchants' Mercantile agency of Chicago, was found dead in his room at the Hudson house Friday afternoon. He retired Thursday night evidently in good health. Heart disease was the cause of death.

Robert J. in 2:03.
SAGINAW, July 19.—The feature of the races on Thursday was Robert J.'s mile in 2:03, the fastest one so far this year. It was merely an exhibition, but might have been a new record for the state had it been so announced.

Had Passed the Century Mark.
CONCORD, July 22.—Timothy Dewey, who was 100 years old on May 30 last, died here and was buried from the M. E. church, of which he had been a member for sixty-five years. He was born in Rutland, Vt., and came here in 1836.

Accidentally Killed.
SHELBY, July 19.—Reuben Morningstar, of Shelby, gave his 5-year-old boy a revolver to play with. It happened to be loaded and was discharged in the boy's hands, the ball passing through the little fellow's head, causing his immediate death.

Brothers Drowned.
MUSKEGON, July 19.—Albert and Walter Galgerson, aged respectively 7 and 11 years, were drowned in Muskegon lake while bathing. Their bodies were recovered.

MICHIGAN WHEELMEN.
Ten Thousand Persons Attend the Meet at Battle Creek.
BATTLE CREEK, July 23.—The Michigan wheelmen's state meet Monday was attended by 10,000 persons. The track is extremely dangerous, it being narrow and slippery as glass. The turns are not banked and as a result accidents were numerous, the worst one happening to Allie Burkhart, of Toledo, whose collar bone was broken. The first day's summaries are as follows:
Half mile open, class B—Cooper, of Detroit, won; Bell, of Chicago, second; best time, 1:08 4-5.
One mile handicap, class A—Hensel, of Lansing, won; Strienburger, of Cleveland, second. Both were disqualified for foul riding and Weller, of Coldwater, got first prize, and S. C. Cox, of Chicago, second; best time, 2:21.
Two mile championship—Hicks, of Bay City, won; time, 5:01.
Two-mile handicap, Class B—Hiles, of Chicago (150 yards), won; time, 4:53 1-5.

CAVE-IN REVEALS RICH ORE.
Large Quantity Easy of Access Is Exposed at Ironwood.
IRONWOOD, July 24.—A cave-in at the Ashland mine occurred last week by which a great thing will be realized. An enormous body of ore has been exposed and is easy of access. Work will be commenced at once to get the ore on the surface. More men will be hired and the present wages raised. No one was hurt by the cave-in and little damage was done.
BESSEMER, July 24.—Corrigan, McKinney & Co., of Cleveland, O., have secured control of the big Colby mine. It is known that the Colby has several thousand tons of ore in sight and Manager Cole says that another large body of ore will be found under the dike. The property will be explored.

A TOWN'S HEAVY LOSS.
Fire Destroys the Best Part of Holton Muskegon County.
MUSKEGON, July 21.—News was received here Sunday that Holton, Muskegon county, with a population of 250, was destroyed by fire. The losses were: J. P. Utter, D. P. James, barn and hotel; Kingstaad's saloon, Thompson's blacksmith shop and house, Dr. Block's office, L. P. Murphy's store. The loss is about $7,000, with an insurance of $2,000. The grist mill, two drug stores and a meat market are all the business buildings left. A cigar stub in a barn was the origin of the fire.

REMARKABLE ESCAPE.
Miners Buried By a Cave-In Are Rescued Alive.
IRON MOUNTAIN, July 20.—A cave-in on the first level of the Pewable iron mine late Wednesday afternoon buried nine men in the debris. Rescuers went to work at once to try and reach the unfortunates, and at midnight Thursday they were released, none of them being injured. The escape is considered the most remarkable one in the history of mining. The men suffered no great inconvenience. All heard the crash of timbers and made their escape to the dry drift on the first level.

HEAVY FAILURE IN DETROIT.
Mabley, Harvey & Co. File Mortgages Aggregating $105,000.
DETROIT, July 23.—Mabley, Harvey & Co., retail clothing and furnishings, filed three chattel mortgages Monday aggregating $105,000, for the benefit of their creditors, most of whom are eastern parties. The assets are not stated, but as the firm was but recently established it is believed that they will be sufficient to meet all claims.

Blown from the Trees.
DETROIT, July 18.—St. Joseph, Benton Harbor and other points in the fruit belt of western Michigan report a terrific gale, reaching a velocity of 70 miles an hour. Many small buildings and forest and fruit trees were blown down and thousands of bushels of apples, pears and peaches blown from the trees.

Big Lumber Plant Burned.
BIG RAPIDS, July 19.—The Phelps Lumber company's mill, near Keno, was completely wiped off the face of the earth by forest fires, which was fanned by high winds. With the mill about 2,000,000 feet of lumber was destroyed. The loss is partially covered by insurance.

A STRANGE OFFER.
Michigan Mine Owners Present a Proposition.
MARQUETTE, Mich., July 24.—The demonstration of striking iron miners Monday was greater than ever. A written proposition was submitted to the strikers by the owners of the Winthrop mine offering to surrender lease of mine and pay an additional $4,000 as bonus if the strikers will take the mine and work it themselves. This strange proposal was intended to convince the strikers that even at the present low wages the mine is losing money and owners would be glad to get it off their hands. But the miners doubt the sincerity of the management. They denounce the proposal as a pure bluff and have referred it back to the management of the mine.

EPWORTH LEAGUE.

Lesson For the Week Beginning July 28. Comment by Rev. W. J. Yates, A. M. Topic, Feeding the Five Thousand.

SCRIPTURE READING.—Math. xiv. 15-21; Mark vi. 35-44; Luke ix. 10-17; John vi. 1-14.

The disciples have returned from their preaching tour. To escape from the throng of people Jesus and the twelve leave the villages and cities on the west ern shores and by boat go to the northeastern corner of the Lake of Galilee. The green slopes and secluded nooks of this region were favorite resorts with the Master, where he often retired to pray and meditate and recruit his spiritual strength by communion with the Father after wearying encounters with men.

The multitude miss them, and as the distance is but about six miles from Capernaum, many ran and reached the place before the boat had reached a landing. After a long day spent in teaching, the disciples urged that the congregation be dismissed that they might get something to eat. What was their astonishment when Jesus told his followers to provide food for the multitude! It was utterly beyond their power to do so.

But when all had sat down in orderly manner on the greensward the five barley loaves and two small fishes, blessed by the Master and distributed by the apostles, satisfied the hunger of the 5,000 men, besides women and children. The fragments gathered up were more in amount than the original quantity of provision.

This wondrous work was designed by Christ to impress on the minds of his hearers his power to supply all their needs. As Moses had given manna in the wilderness and had received God's law for the spiritual guidance of the people, so would this Son of Man show his power to reveal the full will of God and feed them spiritually. In token of his mission and message he gave them bread in a way such as none but the Son of God could do.

But the multitude cared little for religious truth and lusted for material glory and physical comfort.

Sabbath Reverence.

Pharisaical strictness in observance of the Lord's day is not to be commended. But becoming reverence for holy things is inseparable from true piety. In these days of loose ideas and lax action the course pursued by the emperor of Germany is specially gratifying to all earnest Christians.

When in Venice some time since, the city excelled itself to honor him. These efforts culminated in a grand theatrical performance to be given Sunday evening. As both King Humbert and the Emperor William were expected to be present, the theater was densely packed. But the royal box was empty. When the emperor was informed of the meeting and asked to be present, he replied, "Since I have become emperor I have made it a principle of my life never to attend any place of amusement on the Lord's day." King Humbert followed his example. It would be well if all Christians would do likewise.

Commendation Not Flattery.

The effect of such kindness upon a man who feels the seriousness of work and of responsibility is not to make the head dizzy, but the heart warm. Instead of tending to pride, it tends to humility. Instead of fostering self sufficiency, it gives a deep sense of inadequacy. This is no affectation; it is in the nature of the habit of thought which the Christian faith produces. The most thoroughly humbled throng that will ever meet will be they, and at that instant, when Christ shall say to them, "Well done, faithful servants!" they cannot bear to wear their crowns, but will cast them down at his feet.—Gray.

Good Advice.

The Cosmopolitan gives some good rules all young men should remember:

First.—He should be absolutely honest; there is no success without this.

Second.—Be alert, alive to every opportunity.

Third.—Willing to learn.

Fourth.—Avoid entirely the use of intoxicating liquors.

Fifth.—Be always respectable and respectful.

We would add be a true Christian, faithful to Christ and faithful to his church.

Junior Leagues.

Childhood impressions are the most permanent. Habits of thought and action formed before one is 10 years of age it is almost impossible to change in after years. The church must see to it that the boys and girls of our homes are trained in their earliest years in Bible truth, in religious practices of devotion and works of charity. Junior leagues can best do this work. What to believe, how to act, and, above all, earnest love of God and sincerity in his service are lessons needing to be taught them.

Get It.

Development, physical and mental, is receiving much attention in these days and none too much. Still there is a greater need. Without conscience they will but energize crime. The greatest need of the time is educated and quickened moral sense—more conscience in all departments of life and among all classes in society. Are you getting it?

The Muster Roll.

The membership of the Methodist Episcopal church numbers: Lay members and probationers, 2,681,639; local preachers, 14,811; itinerant ministers, 16,652. We have 29,559 Sunday schools, with 339,024 teachers and 2,501,917 scholars. Our church buildings are valued at $109,284,066. Our parsonages are worth $16,848,495.

The Movement Grows.

The church which does not have a young people's society of some sort is behind the times. The Luther league is one of the new organizations. Illinois has a state association and Chicago has 20 chapters.

What Shall I Do?

Is the earnest, almost agonizing cry of weak, tired, nervous women, and crowded, overworked, struggling men. Slight difficulties, ordinary cares, household work or daily labor, magnify themselves into seemingly impassable mountains.

This is simply because the nerves are weak, the bodily organs debilitated, and they do not

proper nourishment. Feed the nerves, organs and tissues on rich red blood, and how soon the glow of health comes to the pale cheeks, firmness to the unsteady hand, and strength to the faltering limb.
